

Knoll Inc. Template®

Category

Systems

Subcategory

Desking

A true hybrid product, Template brings Knoll systems expertise to the storage category, combining multiple storage and surface options to offer a unique kit of parts for designing open plan and private office environments. Essentially a 15" thick panel, Template divides space and provides comprehensive storage solutions, including hanging files, simultaneously. Template integrates seamlessly with Antenna® Workspaces and Dividends Horizon®. The compact, 15" deep footprint and dual-sided access give Template the versatility to be used in any workspace design: freestanding, as a spine in core planning, or as a workwall or architectural element in perimeter, team and private office designs.
