MultiGeneration by Knoll

Light Task Chair

MultiGeneration by Knoll Light Task is a simple, small-scale task chair with a responsive, open design that allows you to fidget to focus. It encourages natural movement, allowing us to focus, interact and collaborate more effectively.

- A** The full, curved back allows for upper body movement and supports the lower back, while a gently contoured seat and a cantilevered arm design lets you shift positions easily; the arms feature contoured arm pads to lean against when side sitting
- B** The perforated back makes the chair more breathable than typical shell chairs and the rolled top edge serves as an armrest for side sitting—and a handle for easy transport
- C** The flexing shell provides comfort and promotes natural movement without the need for a mechanism

Warranty

Structural components: 12 Years

Upholstery, textiles, leathers, finishes: 3 Years

STATEMENT OF LINE

With Fixed Arms

W: 25.6"
D: 21.9"
H: 31–37.5"
