Stool

Product Detail ●

Knoll

MultiGeneration by Knoll

Stool

MultiGeneration by Knoll stools encourage collaboration, with a responsive, open design that supports multiple postures and a diversity of people in shared, team and large group environments. The stools have a flexible shell and a sled-based design with a footrest to allow for shifting positions.

- A** MultiGeneration allows for 270° sitting, perfect for collaborative, group environments
- B** The flexing shell of the seat encourages natural movement, helping with energy and focus
- C** The full, curved back allows for upper body movement and supports the lower back for upright, interactive postures; perforation makes the chair more breathable than typical shell chairs and the rolled top edge serves as an armrest for side sitting—and a handle for easy transport

Warranty

Structural components: 12 Years

Upholstery, textiles, leathers, finishes: 3 Years

STATEMENT OF LINE

Bar-height Stool
