Antenna Workspaces

Add Up Screens

Antenna Add Up Screens mount to the top of Antenna fabric screens to add enclosure and separation across the Antenna Workspaces collection of products. Offered in a range of materials and sizes to support varying levels of acoustic and visual privacy, Antenna Add Up Screens balance the need for separation, visibility and sound absorption.

- + Multiple heights allow for either seated- or standing-height privacy
- + Available in PET, Acrylic and Corrugated Plastic to support a range of aesthetic and performance needs
- + Add Up Screens in PET acoustic material create quieter areas with visual privacy to support focus work; Acrylic and Corrugated Plastic offer enclosure without sacrificing visibility and access to natural light
- + Add Up Screens simply mount to the top of Antenna fabric screens and are easily removable as needs change
- + Can be specified in combination with Antenna fabric screens on new projects or can be added to existing Antenna fabric screen installations

Warranty

PET: 1 Year

Acrylic and Corrugated Plastic: 3 Years
