An Overview

In the first part of the Price List you’ll find Lighting and Power Series.

The second part features a full range of desktop accessories including Smokador and Orchestra, perfect for panel-mounted or freestanding application.

Part three offers a broad range of systems support products, including technology management and communication boards.

Can’t find it? Consult the Table of Contents on page 1 or the Alpha-numeric Index on page 188.

Product Information on Each Page

The KnollExtra Price List was designed to provide you with everything you need to know in order to understand, specify, and care for KnollExtra products. On each page, the following features will assist you:

Description/Construction explains salient features, capabilities, materials, and country of origin.

Dimensions provide the overall space the product will require. Statistics are based on the maximum width, depth and height of the product.

Weight is based on the product itself. It does not include packaging or complementary items such as pens, memo paper or calendars.

Order Code/Ordering Information outlines exactly how to specify KnollExtra product and the full scope of finish options. The Order Code provides an example of how one pattern number is specified.

Custom Options reviews availability of special sizes, finishes etc.

For More Information

For more information, contact your Knoll sales representative, telephone Customer Service at 1-800-343-5665, or visit one of the Knoll showrooms listed on the last page of this book.

A Word About Finishes

KnollExtra finishes are designed to complement a broad range of interiors and office products.

Key KnollExtra finishes coordinate with specific Knoll systems finishes:

Placing Your Order

Use the Following Addresses

If you would like to send a standard lead time order to our order entry department, please use the following address:

For North American orders:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attn: Order Entry
Fax: 215 679-1788
Tel: 800 343-KNOLL

All accepted orders will be confirmed in writing on the Knoll standard order confirmation form.

Ship-Complete Orders

Orders that must ship complete are to be so stated on the purchase order. Products with different lead times, combined on one order, can be acknowledged for shipment based on the longest of those lead times. Orders not marked “ship complete” will be released according to the confirmation, and invoiced in increments.

For More Information

For complete Knoll Selling Policy and warranty information, please refer to page 191 of this price list.

For additional information on KnollExtra, contact your Knoll representative, a Knoll dealer, or telephone Customer Services at 800 343-KNOLL.

Maintaining Your Purchase

While KnollExtra relies on highly durable materials in each product line, regular basic maintenance will ensure the longevity of your product. Most stains, marks, and discolorations can be removed by following the simple instructions outlined on this page.

Plastic
Windex and a dry cloth.

Stainless Steel:
Windex and a dry cloth.

Antique Brass, Brushed Zinc and Black Oxide:
A damp cloth with no cleaning agents.

Satin Brass:
Pledge.

Linoleum:
Windex and a dry cloth.

Contemporary and Traditional Standard Leathers:
Mild soap and water on a soft cloth.

Spinneybeck Leathers:
As a result of the high quality aniline dye process, most scratches or minor stains can be removed simply by gently rubbing them with your fingers. The body’s natural oils revitalize the leather. For stubborn stains, use mild soap and water. Take care to wash the surface evenly since soaps may slightly alter the leather’s tonality.

Surf Collection:
Wipe nylon skin using warm water and mild detergent. Do not use abrasives.

Office Automation Accessories/Storage Drawers:
Clean with a soft cloth and Windex, Fantastik, En dulst or other non-abrasive household cleaners. Remove stubborn stains with SofScrub.
For Surf Board and VDT Sleeve soft touch paints, never use abrasives. Clean with lukewarm water and a soft cloth.

Marker Boards:
For day-to-day use, surface requires only a dry cleaning with a standard felt eraser or dry cloth. For best results, keep marker board and marker pens at room temperature. KnollExtra suggests Bic Great Erase BOLD marker pens which are designed for use on marker boards. All marker pens should be tightly capped and stored horizontally when not in use.

Follow the instructions below as a periodic maintenance program, or to remove stubborn stains:
1. Clean with EV-1 or any liquid ammonia-added cleaner and rinse with clean water, then dry. For best results, wash board like a window with sponge and squeegee.
2. Interim cleaning may be done by sprinkling a dry powdered cleanser on an eraser and applying to the board in a circular motion. Rinse with clean water, then dry.
3. To remove crayon, scotch tape, or other stubborn materials, apply a mild solvent or paste made with scouring powder and water.

Fabric Boards:
Despite the durability of most panel textiles, fabric boards are subject to long-term soiling and wear. A regular maintenance program will significantly lessen soil and dirt build up or staining on your fabric boards. Cleaning is particularly important in areas adjacent to air conditioning or ventilation systems. Remember to consult the care instructions provided by the fabric manufacturer. The general recommendations below should apply to most fabric boards.
1. Avoid excessive heat or moisture which can affect finishes and adhesives. Never allow fabric panels to become wet inside the core. Room temperature should be maintained between 50 and 85 degrees; humidity should be maintained between 20 and 50%.
2. Avoid contact with sharp edges which could puncture the surface.
3. Do not handle fabric boards more than necessary. Avoid bending or flexing the panels; this could break the bond between the surface and core materials.
4. Grease or oil should be wiped off immediately upon contact. Remove excess grease or oil by blotting. Use hot water and mild soap to remove any remaining residue.
5. Whenever possible, clean only with warm water and mild soap. Use caution when applying cleaning agents, particularly those that contain alcohol, strong alkalis, or solvents. These ingredients may react to the vinyl backing or adhesives used in the fabric boards. Always test cleaning agents on fabric from the rear of the panel before using on the front.
6. Care should be taken in using strong room cleaners or pesticides. Their fumes may contain agents which lead to the loosening of the fabric board glue bond.

Pop Up Screens:
Clean with soap and water. For greasy stains, use a cleaning agent, first testing in a less visible area.

Light Finish Options:
- Black (111)
- White (118)

### Additional Information

- Sparrow is available in a black or white light finish with stainless steel or black frame.
- Occupancy sensor (LED PIR) can be added to any LED light and must be ordered separately.
- UL Certified.

### Light Source Information

- 9 watts single multichip LED.
- 50,000 hours lifespan.

### Height Range

- Articulates 18° to 90°
- Table clamp: 2.5" to 21.4" (6.4 cm to 54.3 cm)
- Antenna beam side: 3.5" to 22.3" (8.9 cm to 56.6 cm)
- Freestanding: 4.3" to 23.2" (10.9 cm to 59.0 cm)

### Construction

- Lamp: LED, cast aluminum housing, stainless steel frame and plastic reflector and lens.
- Table clamp mount: steel.
- Antenna beam side mount: die cast aluminum.
- Freestanding base: plastic and cast iron.

### Design Awards

- Best of NeoCon 2013 Silver Award
- Sparrow is TAA compliant.

### Ordering Information

**Specify:**
- Pattern number
- Finish note: Power Cube finish is white markerboard paint.

Optional Magnetic Accessory Cup must be specified in one of the following finishes:

- Code: Description
  - 115: Jet Black
  - 115: Medium Grey
  - 118: Bright White
  - 130: Dark Red
  - 131: Slate Blue

For each electrical module, choose from the following options:

- Either 4 outlets or 3 outlets and 2 USB ports, depending on specification.

**Construction:**
- **Power Cube:** Powder coated steel, and nylon levelers
- **Magnetic Accessory Cup:** See page 44.

**Note:** Each Power Cube comes with a whiteboard finish and ships with 4 dry erase markers (blue, green, red and black) and a microfiber cloth eraser.

To prevent dry erase markers from drying out, store them with the cap down in the optional cup.

Order Code: POP-U-PL-242329-RDCT
Specify:
1. Pattern number

Ordering Information:
All Easy Screen configurations can be attached to worksurfaces via VELCRO® which comes pre-attached to the bottom of screens.

Additional Information:
Scenes are sold in sets. U-Surrounds come with all components for 8 screens. Side screens come with all components for 10 screens. Pricing is for a set of screens - not individual screens.

Ordering Note:
U-Surround Screens are compatible with worksurfaces ranging 30" - 96" wide for 23.25" deep tops and 46 - 84" wide for 29.5" deep tops depending on orientation of corners.

Orchestra® Universal System Accessories
by Bruce Hannah & Ayse Birsel
load bar/info rail

- Fits virtually every office system.
- Mounts on panel, stanchion, wall or freestanding desk.
- Info Rail underside holds memos and notes for easy access.
- Black plastic end caps.
- Wall, stanchion or panel-mounted brackets included in list price (see mounting options page).

Dividends and Caliber Stanchion
for Reff Panel-mounted bracket

Mounting Options
- Please note flat panel monitor arms cannot be mounted on Orchestra® load bars. Flat panel monitors can be mounted on Orchestra® slat only when mounted on an architectural rail. Please see p. 134 for flat panel monitor support mount options.

Construction
- Load Bar/Info Rail: Corrosion-resistant T-6063 painted or anodized aluminum. End caps are textured polystyrene plastic. Load Bar is filled with plastic pellets to support papers on info rail.

Ordering Information: Specify:  
1. Pattern number

**Mounting Options**  
Panel, stanchion and wall-mounted brackets are included in the list price and are specified when ordering pattern number.

**Workface-mounted bracket:**  
Metal posts attach to underside of worksurface with C-clamp, raising Load Bar 10" above surface. Usable on worksurfaces 7 1/2" thick. There should be at least 1 1/2" of space between the back of the desk and the surface behind it. Set of 2 brackets. For Load Bars under than 66", order additional brackets. For use with load bars and 6 1/2" slat boards only.

Please note flat panel monitor arms cannot be mounted on Orchestra® load bars. Flat panel monitors can be mounted on Orchestra® slat wall only when mounted on an architectural wall. Please review before mounting. Please see p. 134 for flat panel monitor support mount options.

**Custom Options**  
Brackets are currently available for virtually every major office system. Custom mounting brackets for other systems can be developed. Minimum of 100 sets per bracket. Tooling and set-up charges may be required. Contact your Knoll sales representative or Customer Service for complete pricing information.

**Construction**  

**Design Awards**

**Mounting and Application Information**

To mount monitors on Horsepower, counter weights are necessary to keep the unit stable. A down-mounted cabinet or metal shelf along with a ballast kit are required, available in the Antenna price list. Please reference the Horsepower Technology Cart planning guide.

**Kit includes everything needed to mount one monitor to a Horsepower Horsepower Mount for 20 lb. Monitor (top): Sleeve arm, movement joint, 24" mast, adjustment knob, cable management clips and Horsepower mount.**

**Horsepower Mount for a 30 lb. 100x100 VESA**

Sapper fixed sleeve arm mount for a single monitor 21-30 lbs., 100x100 VESA, 24" mast kit

**Horsepower Mount for a 30 lb. 200x200 VESA**

Sapper fixed sleeve arm mount for a single monitor 21-30 lbs., 200x200 VESA, 24" mast kit

**Horsepower Mount for a 30 lb. 400x400 VESA**

Sapper fixed sleeve arm mount for a single monitor 21-30 lbs., 400x400 VESA, 24" mast kit

**Horsepower Mount finish options:**

- Jet Black (111)
- Brown (112)
- Buckeye (114)
- Medium Grey (115)
- Strawberry (116)
- Soft Grey (117)
- Bright White (118)
- Dark Red (130)
- Slate Blue (131)
- Bronze Metallic (611)
- Medium Metallic Grey (612)
- Silver Metallic (613)

All Sapper mount kits for Horsepower include sleeve arms in black finish only. The mounts which attach to the Horsepower are available in all Antenna colors.

**Mounting and Application Information**

Sapper Monitor Arm kits can be mounted to 30", 36" and 48" wide Independent Horsepower and support screen widths up to 32", 36" and 50" wide overall on corresponding units. Horsepower, down-mounted cabinets or shell and ballast kit must be purchased separately, available in the Antenna price list.

**Mounting and Application Information**

To mount monitors on Horsepower, counter weights are necessary to keep the unit stable. A down-mounted cabinet or metal shell along with a ballast kit are required, available in the Antenna price list. Please reference the Horsepower Tech Cart planning guide.

Sapper Monitor arm kits can be mounted to 30", 36" and 48" Independent Horsepower and support screen widths up to 32", 38" and 50" overall on corresponding units.

To mount a monitor up to 20lbs., order a Sapper 24" mast, a Sleeve Arm, movement joint and one Horsepower Mount.

To mount a monitor up to 30 lbs., order two Sapper 24" masts, two Sleeve Arms (no movement joint needed), two Horsepower Mounts and a corresponding VESA plate.

Horsepower, down-mounted cabinets and ballast kits must be purchased separately, available in the Antenna price list.

---

KnollExtra Technology Management
Sapper™ Monitor Arm Collection
Mounting, Construction and Application Information

Mounting and Application Information:

All Sapper standard monitor arms:
- Maximum weight of 20 lbs per arm.
- Weight limits vary by mounting option.
- Ship standard with fixed release mount.
- Office 165 degrees of monitor tilt up and down, 100 degrees of rotation for portrait and landscape.
- Can be used for three monitors.
- Fold into themselves to be highly compact (3 monitors x 18 lbs each equals 54 lbs).
- May accommodate three monitors weighing 18 lbs each.
- Are durable and lightweight (standard arm weighs only 2.6 pounds).

All Sapper monitor arms:
- Maximum weight of 50 lbs per arm and single 30 lbs for double, weight limits vary by mounting option.
- Ship standard with fixed release mount.
- Office 165 degrees of monitor tilt up and down, 100 degrees of rotation for portrait and landscape.
- Can be used for three monitors.
- Fold into themselves to be highly compact only 6.7” when fully compressed.

Sapper Monitor Arms are intended to be connected directly to monitors or VESA plate adaptors. Monitor arms are not intended to support any additional devices that are connected or installed to a monitor. Leading monitors with additional devices, even within the weight support limits, will affect the functionality of the Sapper Monitor Arms and will void their warranty.

*Please note a larger size (e.g., 24” wide screen) does not necessarily equate to a higher weight limit. It is key to understand the application to the individual user and how they will utilize the workspace and, as such, it is important to note weight limitations vary by application. See details below.

Limitations:
- Weight limitations for individual mounting options are outlined in the tables or taken together (both mounting the option weight limit and the individual arm limit) you can determine the best mounting approach for your client given the number of monitors they desire to mount and the weight of those monitors. The tables below are outlined by mounting option on the next few pages.
- For example, if you want to mount two monitors on a work surface with a grommet mount and each of those monitors weighs 10 lbs (20 lbs total), 2 lbs each (3 x 18 lbs equals 54 lbs), we can accommodate those with the weight limit for the 24” mast on a grommet and the 20 lb limitation for each arm. However, we cannot accommodate three monitors with the same weight each because the maximum weight limitation on a single mast is 45 lbs for the mast.

Sapper Monitor Arms
There is no specific maximum size for a single arm (outside of the limitations in the workspace in which you are trying to put it). When mounting two monitors, the maximum outer horizontal width with per arm is 31.3” for a 24” mast, 33.9” for a 30” mast, 34.7” for a 36” mast, or 35.3” for a flat positioning flush next to each other in a row. Clients can accommodate larger screen monitors in triplicates by mounting screens to a portrait position. Sapper multiple monitor Standard Arm Configurations:

**KEY NOTE:** Flat panel monitor manufacturers refer to their products by diagonal screen measurements. A 27” screen, the length of the diagonal from the left side to the right side of the screen, is 19.4” for a cockpit monitor, 20.5” for a flat positioning flush next to each other in a row. Clients can accommodate larger screen monitors in triplicates by mounting screens to a portrait position.

**Breviary:** For as many as three monitors, the solution length of the desktop or Anteco center beam must be at least the width between the three monitors. The Anteco center beam, this distance is 19.9” for the small beam and 44.0” for the medium beam. For the Anteco center beam side, the height is 14.3” for the small beam and 27.2” for the medium beam. The length of the workspace in both scenarios must be at least the length of the solution length of the desktop or the Anteco center beam side, beyond the end of the beam, additional workspace is required. For additional size guidelines and limitations, please see the Easy Order Beam Kit Guide.

**Monitor Specifications:**
- When specifying a monitor arm solution, it is critical to understand the attributes of the selected monitor. Monitors vary in shape, size, and construction which can lead to uneven weight distribution. Monitors that are asymmetrical or uneven in weight distribution may experience shifting in rotation or tilt over extended periods of time, which can lead to unsatisfactory performance. To ensure proper compatibility of a monitor with the selected monitor arm, Knoll recommends installing and double checking the monitor to ensure its weight distribution. A monitor in an asymmetrical or unreadable shifts or movement that may occur over time as a result from monitor irregularities.
- By virtue of this statement, Knoll is not responsible for client dissatisfaction or any unforeseen problems. Additionally, Knoll cannot be held responsible for improper monitor arm support from a curved or unbalanced monitor.

**Clamp Mounting:**
- This mount is intended to provide maximum weight support up to 10 lbs per arm in a horizontal or vertical position. To install or retrofit and works on most worksurfaces, a hole is drilled through the grommet mount, the monitor and peripheral plugs through grommet and the 20 lbs mast on a grommet mount, (May 21.3” / 8” hole pattern, 200mm x 200mm / M6 screws), 200mm x 200mm (M5 screws), or 200mm x 200mm (M4 screws). Note that when used for individuals, you will need to stagger users across the table. This mount is designed for use with Divide/Divide Flat mount panel trim, and is not compatible with other panel systems.

**Dividers Horizon Bench Mounting:**
- This mount is intended to provide maximum weight support up to 10 lbs per arm in a horizontal or vertical position. To install or retrofit and works on most worksurfaces, a hole is drilled through the grommet mount, the monitor and peripheral plugs through grommet and the 20 lbs mast on a grommet mount, (May 21.3” / 8” hole pattern, 200mm x 200mm / M6 screws), 200mm x 200mm (M5 screws), or 200mm x 200mm (M4 screws). Note that when used for individuals, you will need to stagger users across the table. This mount is designed for use with Divide/Divide Flat mount panel trim, and is not compatible with other panel systems.

**Antena Table Center Beam Center Mounting:**
- This mount allows you to clear the flip door while still allowing for maximum workspace to work with and individual height adjustment without the need to staggers users. Please note a screen arm can be mounted in the center beam with a monitor arm in front of it. The fit will be snug and flush with the screen.

**Slat Wall Mounting:**
- For single monitor mounting, you can use either the direct wall mount or direct wall mast. For double or triple monitor mounting, you must use the wall mast mount. The slat wall direct mount cannot be used for multiple monitors.

**Direct Wall Mounting:**
- For single monitor mounting, you can use either the direct wall mount or direct wall mast. For double or triple monitor mounting, you must use the wall mast mount. The slat wall direct mount cannot be used for multiple monitors.

Sapper™ Monitor Arm Collection
Mounting, Construction and Application Information

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. See above for weight limits if mounting flat wall to an architectural wall.

Sapper 50 Direct Wall Mounting (for Sapper 50 monitor arm):
For single monitor mounting, you can use either the direct wall mast mount or direct wall mount. Please note that the Sapper 50 Direct Wall Mount is specific to the Sapper 50 arm. You cannot use the standard mount with the Sapper 50 arm or a standard arm with the Sapper 50 mount.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight.

Interpole Mounting
Sapper arm can be mounted on either the slot or channel sides of Interpole with the proper mount. Mounts can be moved after installation but the pole may have residual markings.

If screens are mounted on the slot side, use the channel mount. If overheads are mounted on the slot side, then a Sapper/XYZ with extended channel mount will be necessary for full adjustability.

Cable Management:
Monitor Arms
External cable management allows for easy installation and removal of monitors. There are gates under the arm that will contain wires from the monitor to plastic cable management clips that go on the mast to keep wires tidy in the electrical socket.

Beams
For the beam solutions, there are beam cord management clips on the back of the beam (6 on the small, 8 on the medium) that can hold wires from the monitor to the mast cable management. The beam mast cable management is wider than the standard mast cable management to accommodate multiple monitor wires.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight.

Mast: anodized aluminum extrusion
Beam: anodized extruded aluminum
Adjustment knob: nylon undermold with a TPU overmold
Movement joint (includes fast release monitor plate): plastic bushings, zinc and plastic molded plastic tilt friction components and glass filled nylon VESA plate
Movement joint slide: aluminum, powder coated silver
VESA plate adaptors: steel
Table clamp, grommet mount, fixed table mount, Antenna center beam center mount: steel
Slot wall and wall mount (both mast mount and direct, both standard and compact arms): die cast aluminum with steel back plates
Double arm bracket: die cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings
Triple support arm bracket: die cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings
Must-to-beam bracket: aluminum, powder coated silver
Cable management: transparent poly-carbonate clips on the mast and beams, plastic gates under standard arms
Antenna and Quadruple support arm bracket: die cast aluminum
Two-Piece Table Clamp, Deep Table Clamp, Heavy-Duty Table, Clamp, Grommet, Fixed Table and Antenna Center Beam Table Mounting: steel
Antenna Table Center Beam Side Mounting: die cast Aluminum
Slot Wall and Wall Mount (both Direct Mast Mounting, Direct Mounting and Sapper 50 Direct Mounting (for both standard and compact arms): Die cast Aluminum with steel back plates
Quadruple arm bracket: Die cast Aluminum
Horsepower mount: die cast aluminum, powder coated. Steel VESA mounts.

For the beam solutions, there are beam cord management clips on the back of the beam (6 on the small, 8 on the medium) that can hold wires from the monitor to the mast cable management. The beam mast cable management is wider than the standard mast cable management to accommodate multiple monitor wires.

Height Adjustment

Rotation, Swivel, Tilt and Depth Adjustment

Adjustment:
The Sapper monitor arm collection offers intuitive adjustment. To adjust the height, you simply manually lift the arm and twist the adjustment knob like a screw up or down the mast to a comfortable setting. The easiest way to lift the monitor is to fold it in before making the adjustment. To adjust the depth, you can move the arm in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing and adjust the swivel back and forth 180 degrees and 360 degrees for landscape or portrait viewing.

Fast Release:

Monitors are:
Allows for swift installation and removal of flat panel monitors by merely popping the quick release pin up to remove monitor with movement joint/back plate attached.

Fast Release:

Set Screw to Prevent Arm Removal

Compatibility:
The Sapper Monitor Arm Collection is not compatible with the Wishbone Flat Panel Monitor Support System (i.e., Wishbone, Zones or Rotation arms, posts, tool bars, brackets, mounting, etc.). They have been designed independently and as such parts from one system cannot be used with the other.

Monitors cannot be mounted on KnollExtra/Orchestra™ lead bars.

Installation Instructions:
Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

Mounting, Construction and Application Information

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight.

Sapper 50 Direct Wall Mounting (for Sapper 50 monitor arm):
For single monitor mounting, you can use either the direct wall mast mount or direct wall mount. Please note that the Sapper 50 Direct Wall Mount is specific to the Sapper 50 arm. You cannot use the standard mount with the Sapper 50 arm or a standard arm with the Sapper 50 mount.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight.

Interpole Mounting
Sapper arm can be mounted on either the slot or channel sides of Interpole with the proper mount. Mounts can be moved after installation but the pole may have residual markings.

Monitors are:
Allows for swift installation and removal of flat panel monitors by merely popping the quick release pin up to remove monitor with movement joint/back plate attached.

Fast Release:

Set Screw to Prevent Arm Removal

Compatibility:
The Sapper Monitor Arm Collection is not compatible with the Wishbone Flat Panel Monitor Support System (i.e., Wishbone, Zones or Rotation arms, posts, tool bars, brackets, mounting, etc.). They have been designed independently and as such parts from one system cannot be used with the other.

Monitors cannot be mounted on KnollExtra/Orchestra™ lead bars.

Installation Instructions:
Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.
Sapper™ Monitor Arm Collection
Mounting, Construction and Application Information

Sapper Monitor Arm Collection Mounting Options by Product Line

**Weight limit per arm is 50 lbs. for Sapper 50 arm and sleeve unless weight limit for mounting option specified is less.**

**Note:** Weight limit per arm is 20 lbs. for standard, compact and sleeve monitor arms unless weight limit for mounting option specified is less.

**Slat Wall Mounting Weight Limits**

*Not an option for Sapper 50 monitor arm. *See Slat Wall and Direct Wall Weight Limits and Notes in the following chart.

**Antenna Center Beam Center**

Mounting and Application Information

See page 166 for comprehensive mounting, application, and construction information.
Sapper XYZ® Monitor Arm Series
Mounting, Construction and Application Information

Double Cockpit

For Sapper XYZ Crossbar, the maximum inner horizontal width per monitor arm is 26.625 inches for a cockpit position flush next to each other.

Sapper XYZ Crossbar:

- Fold into itself to be highly compressed when fully extended; weighs only 4 pounds.
- Support any additional devices that are on the monitor arm or VESA plate adapters.
- Fold into itself to be 7.38 inches thick when fully compressed.
- Minimum weight of 6 lbs. and maximum weight of 20 lbs. per arm.
- For Dual Sapper XYZ, the maximum inner horizontal width per monitor arm is 26.625 inches for a cockpit position flush next to each other.

Sapper XYZ Monitor Arms:

- Minimum weight of 6 lbs. per arm and maximum weight of 20 lbs. per arm.
- Fold into itself to be highly compact at less than 2 inches thick when fully compressed.
- Are durable and lightweight enough with 4 lbs. of weight.

Sapper XYZ Monitor Arms are intended to be connected directly to monitors or VESA plate adapters. Monitor Arms are not intended to support any additional devices that are not connected or mounted to the monitor. Using additional devices, even when the weight support limits, will affect the functionality of Sapper XYZ Monitor Arms and will void their warranty.

Size Limits:

- Monitor arms.
- Table clamps.
- Fast release monitor clamps.

Double Flat

Key Note: Flat panel monitor manufacturers refer to their products by diagonal screen size, regardless of the actual screen measured diagonally, but it is not necessarily ‘19’ horizontal width (refer to manufacturer’s specifications for specific overall height and width).

Monitor Mounting:

- All Sapper XYZ monitor arms are compatible with the international Video Electronics Standards Association (VESA) industry interface standard (75 mm x 75 mm and 100 mm x 100 mm hole patterns or 2.95 x 2.95 and 3.94 x 3.94).

Double Cockpit

Fixed Table Mounting:

- Installations will need to drill a level permanent hole into the workface so the post will be fixed to a dedicated location on the workface. Please note with this mounting, the mount will not be able to move without leaving a permanent hole. The workface must be of adequate structure; Knoll cannot be held responsible for the structural integrity of non-Knoll workfaces.

Antenna Table Center Beam Side Mounting:

- This mount allows you to clear the flip door while allowing for maximum workface usage and individual height adjustment without the need to nag users. Please note a client design fixture or damage to a monitor arm in front of it. The fit will be exact and flush with the screen.

Clamp Mounting:

- The Sapper XYZ and Sapper XYZ Crossbar monitor arm is preset for a 10 lb monitor on a single arm and 16.5 lbs on a Sapper XYZ Crossbar. Other monitor weights up to 20 lbs can be accommodated by adjusting the weight adjustment nut to the appropriate level. The arm should be held in a downward position if increasing the weight and in an upward position if decreasing the weight. When proper weight is set, the arm should stay exactly where you place it.

- Temperature Note: Sapper XYZ Crossbar’s gas strut weight tolerance performance may be reduced by 1.5 lbs when used in temperatures above 100°F or below minimum outdoor temperatures. Use Sapper XYZ Crossbar for project installations and remove monitor and monitor mounts when not in use.

- Theft Detection: All movement joints come with a set screw within the fast release pin, to prevent fast release if so desired.

Compatibility:

- The Sapper XYZ monitor arm is not compatible with the Sapper XYZ Monitor Arm Collection. It has been designed independently, and as such parts from one system cannot be used with the other, with this exception of the movement joint. Finish colors are consistent across the Sapper XYZ and Sapper XYZ Monitor Arm collections.

Installation Instructions:

- Comprehensive installation instructions will be shipped with each arm and are also available on Knoll Exchange for easy reference.

Construction:

- Arm: die cast aluminum with steel channels and plastic molded shroud.
- Movement joint (includes fast release monitor plate): plastic bushings, zinc and plastic molded plastic tilt friction components and glass-filled nylon VESA plate.
- VESA plate adapter: steel.
- Cable clamp, arm mount, fixed table mount: steel.
- Cable management: Sapper XYZ single arm and Sapper XYZ 30° transparent polyethylene clip on post, soft plastic channel and fabric loaded load bars.
- Sapper XYZ Crossbar: transparent polyethylene clip on post, hook and loop fasteners strips on crossbar.
- Knoll Table clamp, arm mount, fixed table mount: steel.
- Cable management: Sapper XYZ single arm and Sapper XYZ 30° transparent polyethylene clip on post, soft plastic channel and fabric loaded load bars.
- Sapper XYZ Crossbar: transparent polyethylene clip on post, hook and loop fasteners strips on crossbar.
- Antenna Table Center Beam Side Mounting: die cast aluminum.

Arm Adjustment:

- The Sapper XYZ monitor arm collection offers infinite arm movement and touch adjustment. To adjust the height, you simply pull or push the monitor arm up or down. You can also rotate the monitor 360 degrees for landscape or portrait viewing, adjust the swivel back and forth 180 degrees and tilt up and down 153 degrees. The single arm folds in and out from 2” fully compressed to approximately 23” when fully extended. Sapper XYZ Crossbar folds in and out from 2” fully compressed to 10.5” when fully extended.

Due to the extreme adjustability of Sapper XYZ monitor arms, a mock-up is recommended to ensure it is suited for the specific workface, particularly if placed in front of a wall or panel.

Weight Adjustment:

- The Sapper XYZ and Sapper XYZ Crossbar monitor arm is preset for a 10 lb monitor on a single arm and 16.5 lbs on a Sapper XYZ Crossbar. Other monitor weights up to 20 lbs can be accommodated by adjusting the weight adjustment nut to the appropriate level. The arm should be held in a downward position if increasing the weight and in an upward position if decreasing the weight. When proper weight is set, the arm should stay exactly where you place it.

- Temperature Note: Sapper XYZ Crossbar’s gas strut weight tolerance performance may be reduced by 1.5 lbs when used in temperatures above 100°F or below minimum outdoor temperatures. Use Sapper XYZ Crossbar for project installations and remove monitor and monitor mounts when not in use.

- Theft Detection: All movement joints come with a set screw within the fast release pin, to prevent fast release if so desired.

Compatibility:

- The Sapper XYZ monitor arm is not compatible with the Sapper XYZ Monitor Arm Collection. It has been designed independently, and as such parts from one system cannot be used with the other, with this exception of the movement joint. Finish colors are consistent across the Sapper XYZ and Sapper XYZ Monitor Arm collections.

### Ordering Information

- Specify Pattern number.
- Track length options: 120, 140, 180, 220, 260 inches. Minimum clearance required is the length of the track plus 1".

### Application Notes

Keyboard support provides users with a more ergonomic working environment by allowing for height and tilt adjustment of the keyboard. When not in use, the keyboard support stores completely under the worksurface for free vital worksurface space. Keyboard support must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

For taller individuals, we recommend using a dual pivot solution with the track mounted on the diagonal to maximize knee space.

### Construction

- Platforms: All platforms are HDPE. Wristrests are polyurethane mold with polypropylene insert.
- Advanced Easy Lift arm:
  - Spring assist adjustment
  - Knobless height adjustment
  - Pivot 360° on the track
  - Black textured metal finish
- Short easy lift arm:
  - Variable height adjustment of 3.5" (up 2.0", down 1.5")
  - Soft touch knob adjusts tilt from 10° to (-)20°
- Sit/Stand arm:
  - Variable height adjustment of 5.3" below the worksurface
  - Soft touch knob adjusts tilt from 10° to (-)20°
  - Wristrests are polyurethane mold with polypropylene insert

### Mechanism Attributes

- Varying height adjustment of 3.5" (up 2.0", down 1.5")
- Soft touch knob adjusts tilt from 10° to (-)20°
- Wristrests are polyurethane mold with polypropylene insert

### Mechanism Attributes

- Advanced Easy Lift arm:
  - Spring assist adjustment
  - Knobless height adjustment
  - Pivot 360° on the track
  - Black textured metal finish

### Mechanism Attributes

- Short easy lift arm:
  - Variable height adjustment of 3.5" (up 2.0", down 1.5")
  - Soft touch knob adjusts tilt from 10° to (-)20°

### KnollExtra

- Keyboard support must be specified with a sliding track that is less than the depth of the top and anything below the top such as a power harness or cable basket.

- For taller individuals, we recommend using a dual pivot solution with the track mounted on the diagonal to maximize knee space.

### Appendix

- In order to mount on an Antenna Workstation, an adapter is included, available through the Antenna price list. Pattern code YAK.
- In order to mount on a T-leg and 24" deep C-Leg tables, an adapter is included. Available through the Antenna price list. Pattern code YAK.
- For 36" deep C-Leg tables, specify the 16" track only.
Freestanding Ergonomic Accessories

VDT Sleeve

- Racetrack-shaped sleeve slides over worksurface to create VDT corner.
- Creates 17 5/8" wide VDT corner, 9" from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Heavy-gauge steel with felt backing to prevent scuffing.
- Available in two metallic and two soft-touch finishes.

**Metallic finish**
- 26 3/4" x 16 1/2" x 1" - 2 lbs.
- OA-SLV(A,B,C)-(E, J)
- $272.

**Soft touch finish**
- 26 3/4" x 16 1/2" x 1" - 2 lbs.
- OA-SLV(A,B,C)-(GS, BS)
- $353.

**Order Code**

Example: OA-SLV-A-E

OA-SLV VDT sleeve
A 1 1/4" sleeve
E Soft grey finish

**Ordering Information**

1. Pattern number
2. Thickness (VDT sleeve only)
3. Finish

**Custom Options**

Custom colors available upon sample chip approval. Contact your Knoll sales representative or Customer Service for complete pricing information.

**Construction**

VDT sleeve: Heavy-gauge steel in painted finish. Felt backing protects worksurface.

Manufactured in the United States.

**Design Awards**

Surf Board VDT Corner

- Fits any worksurface thickness or edge profile.
- Creates generous 24" wide VDT corner, 14" from worksurface corner.
- Can be adjusted to any angle, or removed when not needed.
- Integral non-handed mouse pad.
- Felt back and rubber bumpers protect worksurface.
- Designed by Ross Lovegrove and Stephen Peart.

**Metallic finish**
- 41 1/2" x 16 1/2" x 1" - 14 lbs.
- SF-SB-(E, J)
- $302.

**Soft touch finish**
- 41 1/2" x 16 1/2" x 1" - 14 lbs.
- SF-SB-(GS, BS)
- $403.

**Order Code**

Example: OA-SLV-A-E

OA-SLV VDT sleeve
A 1 1/4" sleeve
E Soft grey finish

**Ordering Information**

1. Pattern number
2. Thickness (VDT sleeve only)
3. Finish

**Custom Options**

Custom colors available upon sample chip approval. Contact your Knoll sales representative or Customer Service for complete pricing information.

**Construction**

Surf Board: Rigid steel plate with 1" thick rolled front detail. Black rubber bumpers and non-scuffing felt back.

</tr>
</tbody>
</table>

Order Code

- Example: OA-CPU2-SLNG
- OA Office Automation
- CPU CPU
- SLING Sling

Ordering Information

1. Pattern number

Additional Information

- Adjustable Vertical CPU Holder: Accommodates equipment 3.5”-9.3” wide by 13.5”-22.3” high. The lockable Adjustable Vertical CPU Holder accommodates a CPU depth range of 14.8”-22.3”.
- Slides on track under work surface and swivels 360° for easy CPU access.
- Weight capacity of 75 lbs.

Construction

- Slides on track under the worksurface and swivels 360° for easy CPU access.
- Weight capacity of 85 lbs.

Mounting Note

- CPU holders come standard with a 17” long track. They mount on work surfaces 18” or deeper.
- The lockable Adjustable Vertical CPU Holder offers theft deterrence with a heavy-duty, tamper-proof locking nut with pentagonal key.

Antenna, Tone and Telescope Mounting

- Antenna:
  - In order to mount on Antenna Workspaces, an adapter is needed, available through the Antenna price list. Pattern code YACPU.
  - Due to legroom clearance, CPUs cannot mount on Antenna tables less than 72” wide. For mounting on tables 72” or wider, only one power supply tray can be installed opposite from the CPU holder, and the YACPU adapter from the Antenna price list is needed.

- Tone:
  - In order to mount on Tone T-Leg and 24” deep C-Leg, an adapter is needed available through the Antenna price list. Pattern code YACPU. 30” deep C-Leg provides enough track clearance.

- Telescope:
  - Due to legroom clearance, CPUs cannot mount on Telescope tables less than 72” wide. For mounting on tables 72” or wider, only one power supply tray can be installed opposite from the CPU holder, and the YACPU adapter from the Antenna price list is needed.

- Brown (112)
- Dark Grey (113)
- Folkstone Grey (114)
- Medium Grey (115)
- Sandstone (116)
- Salt Grey (117)
- Beige, Matte Metallic (611)
- Medium Metallic Grey (6412)
- Silver (651)
- Bright White (111)

**Additional Information**

- **Single CPU Holder:** Accommodates equipment 4.1" - 9.2" wide.
- **Height Limitation for Equipment:** dependent on lowest setting of table height.

**Construction**

CPU holders are made of painted steel with adhesive-backed rubber liners and a nylon adjustment knob.

**Mounting Note**

Height adjustable table leg CPU holders are designed to attach around the leg of Knoll height adjustable tables, resting on the foot of the leg.

**Table Compatibility**

Height adjustable table leg CPU holders will work with Tonic, Bofi, and k. stand height adjustable tables.

The attachment for the table leg is not compatible with k. bench, Antenna Workspace, or Telescope.

Order Code: TM-CM-BSKT-CL

Ordering Information:
Example: TM-CM-BSKT-CL

1. Pattern number
2. Finish
Finish options for Basket:
- Clear (CL)
- Charcoal (CH)

Additional Information:
Cable Management Clips:
Each clip is 5.625 x 1.5".
Available in black finish only.

Cable Management Basket:
Basket is available in two finishes:
- Clear (CL) is a clear powder coat finish on top of raw steel wire.
- Charcoal (CH) is a recycled black powder coat.

Both finishes may vary in color slightly due to nature of the material.

Construction:
Cable Management Clips: Glass reinforced molded nylon.
Cable Management Basket: Powder coated steel wire.

Mounting Options:
Cable Management Clips have two mounting options. Hardware is included for both options.

- Swivel mounting: Install using the primary center screw only.
- Fixed mounting: Install using the three screws provided (primary center screw and two side screws). A double-sided stick pad is included for ease of installation when fixed mounting.

Mounting Note:
On average, use two clips per workstation.

Cable Management Baskets are designed to be mounted to the underside of height-adjustable or fixed height work surfaces through a series of screw holes in the attachment plates.

Ordering Information:
Specify:
1. Pattern number
2. Finish

Finish options for Basket:
- Clear (CL)
- Charcoal (CH)

Universal Marker Boards
by Bruce Hannah & Ayse Birsel

Marker Board
- 3/4 wide anodized aluminum frame with white surface.
- Marker Tray option specified separately.
- Mountable on load bar, panel, wall or top cap.
- Load bar-mounted brackets included in list price, but specified separately (see Mounting Options below).

Marker Tray
- Anodized aluminum snap-fit tray for Marker Board markers and erasers.

Mounting Options
- Panel-Mounted Brackets (Generic deep)
- Panel-Mounted Brackets (Generic shallow)
- Panel-Mounted Brackets for Dividends
- Panel-Mounted Brackets for Reff
- Top Cap-Mounted Brackets (Dividends only)
- Top Cap-Mounted Brackets (Reff only)

| | 24"  | 1/2" | 74" | 107 |
| | 24"  | 1/2" | 76" | 107 |

Under overhead specification note:
For application under a system overhead, provide clearance distance between the worksurface and the bottom of the overhead or task light.  

Solve by fabric board specification note:
Please note if a panel-mounted fabric board will be used contiguous to another fabric board, drawings are required and will have an edge-block.  

60" wide boards in fabric grades 30, 35 and 60. Due to grades 30, 35 and 60 fabric widths being less than the width of a 60" board, contact your KnollExtra vendor for pricing and fabric ordering information.

Construction

3/16" thick mineral board for durable, highly tactile surface.  

Manufactured in the United States.
### Universal Fabric Boards

</tbody>
</table>

**Mounting Options**

- Standard fabric board has squared corner and rectilinear edge details. See above for edge upcharge.
- Thickness option: Standard fabric board has 1/2" thick mineral board.

**Panel-mounted brackets**

- Panel-mounted brackets are included in the list price but must be specified separately. To specify appropriate panel-mounted bracket, consult the Knoll sales bracket chart on page 12.
- Panel mounted bracket size must match height of fabric board.

**Wall-mounted options**

- Wall-mounted applications must be specified as flush (F-WM-F) or reveals (F-WM-R). Both options are appropriate for any smooth, clean surface.

**Flush wall-mount option utilizes velcro squares.**

**Ordering Information**

1. Pattern number
2. Corner/edge detail
3. Column: Open same as all column
4. Fabric grade
5. Mullion option pattern number
6. System suffix (panel-mounted option only)

**Custom Options**

- For special sizes: For specials contact Customer Service. Maximum fabric board size is 120" W x 24" H. Fabric must be railroaded on any panel wider than 60".
- For panel-mounted applications, all COMs and textiles that are not pre-approved must be UL-tested.

**Corner/Edge Detail**

- S1: Squared corner/rectilinear edge
- S2: Squared corner/radiused edge
- R2: Rounded corner/radiused edge

<td>118</td>
<td>Bright White</td>
</tr>
<tr>
<td>130</td>
<td>Dark Red</td>
</tr>
<tr>
<td>131</td>
<td>Slate Blue</td>
</tr>
</tbody>
</table>

Note: Frame finishes apply to cross members and legs, as well as any marker trays and cups. Paint is textured powder coat.

### Application Notes

Marker storage options:
- Marker storage options (trays and cups) must be ordered with markerboard and are not retrofittable in the field.
- Replace -X in pattern with:

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>S</td>
<td>One tray</td>
</tr>
<tr>
<td>D</td>
<td>Two trays</td>
</tr>
<tr>

<td>Two cups</td>
</tr>
<tr>
<td>A</td>
<td>One cap and one tray</td>
</tr>
<tr>
<td>B</td>
<td>One cap and two trays</td>
</tr>
<tr>
<td>E</td>
<td>Two caps and one tray</td>
</tr>
<tr>
<td>G</td>
<td>Two caps and two trays</td>
</tr>
</tbody>
</table>

### Construction

- Whiteboard: Honeycomb core with medium-density fiberboard skin, high pressure laminate finish and ABS edge.
- Crossmember: Aluminum
- Legs: Steel
- Cup: Die cast aluminum with wool felt insert and steel fasteners.

Note: Each markerboard ships with four dry erase markers (blue, green, red and black) and a microfiber cleaning cloth.

Overall height from floor is 72" high with written surface starting 25" from floor.

The optional marker tray runs the length of the crossmember. The optional marker cup mounts to the side.

To prevent dry erase markers from drying out, store them with the cap down in the optional cup.

Selling Policy

Terms & Conditions of Sales

This Selling Policy supersedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Ordering Information

Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to:

Order Confirmation

A purchase order is not binding on Seller until Purchaser has received Seller's order confirmation or acknowledgment.

Pricing Policies

List prices are subject to change without notice.

Taxes

List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipping is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller's list prices.

Terms of Payment

Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days from the date of invoice, which is generally issued upon shipment.

Changes and Cancellation

Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may affect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser shall be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including "COM" (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.

Freight Prepaid

Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.

Delivery/Freight Charges

For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination.

Claims

Claims for the Products will be accepted only if made in writing within thirty (30) days of the date of invoice. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days from the date of invoice.

Seller's Security Interest

Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

Returns

Returns of Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) restocking charge. Products not currently offered for sale by Seller (including "COM") shall not be authorized for return. All returned products must be unused, in original condition and the original Seller packing cartons. No refund or credit shall be given for damaged Products.

Held Orders/Storage

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.
Customer’s Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller’s line of Products (“COM”) must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM on the Product in question. For a description of the procedures for submitting samples and testing, contact customer resource or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.

Warranty

Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below. Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair).

Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

Product and Period of Warranty

Lifetime: Antenna Workspaces, AutoStrada, Cabibre, Crinison Open Table, Currents, Dividends Horizon, Morrison, Reff Profiles laminate, Rockwell Unscripted, Series 2 Storage, Template, Quoiz and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, Lighting, Series 2 Veneer Front Storage, digital locks, upholstery, textiles and leathers, special or custom products, see below), Islands Collection table structure, legs, and laminate worksurfaces.

12 Years: Chadwick, Generation by Knoll, k. task, Life, Moment, MultiGeneration by Knoll, Ollo, Regeneration by Knoll, Remix, and Toboggen seating (except seating upholstery, textiles, leathers and finishes, see below).

10 Years: Anchor Storage except digital locks, Antenna Workspaces, AutoStrada, Crinison Open Table, Dividends Horizon, Dividends Horizon Satellite Surfaces, Reff Profiles, Rockwell Unscripted, Quoiz wood components, Template wood components, Series 2 Veneer Front Storage, cascade edge worksurfaces, Wood Casegoods (The Graham Collection) (except wood casegoods upholstered surfaces, see below), Reuter overheads, Reuter vertical storage, KnollExtra Sapper Monitor Arm Collection, Sapper XYZ Monitor Arm Series, Adjustable keyboard mechanisms and platforms, Communication Boards (except fabric board textiles, cork and FilzFelt, see below), Smokador collection (except leathers, see below), Orchestra Universal Systems Accessories, k. lounge structural components, KnollStudio Pixel and Propeller, tone bases and k.screens.

5 Years: Operational parts, controls, electrical, Lighting (except light ballasts, bulbs and power supply, see below), special or custom product, wood veneer products and plywood, Currents handcrank, KnollStudio, Pixel Lounge, Rockwell Unscripted wire bases, Spark Series seating structural elements, structural elements of all KnollStudio outdoor products, including all Richard Schultz designed products, KnollExtra CPU holders and all universal storage drawers and Power Collection, k. bench (except changes in finish, see below) and k. stand bases (except changes in finish, see below), Islands Collection veneer worksurfaces, operational parts, wide grommet lid, castors, glides and electrical.

3 Years: Rockwell Unscripted upholstery (except textiles and leather), Office Seating upholstery, textiles, leathers and finishes. Fabric boards textiles and Smokador Collection leathers, KnollExtra Pop Up Screens, k.screen (except cork and PET).

2 Years: Anchor Storage digital locks, Quoiz digital locks, all other KnollExtra product.

1 Year: Light ballasts, bulbs and power supply, seating upholstered armrests and soft armrests, wood casegoods, upholstered surfaces, KnollStudio, textiles, leathers and outdoor product finishes, Pixel Lounge fabric, k. lounge upholstery and k. lounge fabric, Rockwell Unscripted fabric and accessories, k.screen cork and PET.

This warranty does not apply to:

• Damage caused by a carrier other than the Seller.
• Normal wear and tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).
• COM or other third party materials applied to Products.
• Products not installed by or under the auspices of a Knoll Dealer.
• Dramatic temperature variations or exposure to unusual conditions.
• Changes in surface finishes, including colorfastness due to aging or exposure to light.
• Except as specifically noted above, textiles and upholstery supplied by Knoll Textiles and Spinneybeck FilzFelt (consult current price lists for applicable warranties).

Natural variations occurring in wood, mable, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.

The EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

The remedies provided above are the Purchaser’s sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of war or terrorism, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

Compliance with Law

PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.

Patents

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediates and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:

• Products not supplied according to a design other than that of Seller, and which is required by the Purchaser.
• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
• Any settlements of a suit or proceeding made without Seller’s written consent.

LIMITATION OF LIABILITY

SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.
Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.
The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are list.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement
Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on “About Knoll” and then “Environmental Focus.”
