## Bertoia

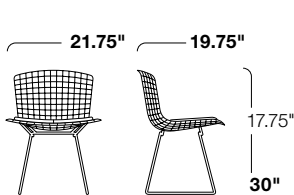

### Side Chair & Barstool

Harry Bertoia was an Italian-born American sculptor who experimented with metal to manipulate form, space, light, texture, and sound. His work with Knoll led to a seating collection that has become an icon of mid-century design. Made of welded wire and steel, chairs in the Bertoia collection, which include stools, lounge chairs and benches, transcend from everyday objects to pieces of art. Continuing to play with materiality, molded shell and leather wrapped options express the organic lines of their wire-framed counterparts. Beautifully proportioned and assembled by true craftsmen, his pieces will continue to charm any space they occupy.

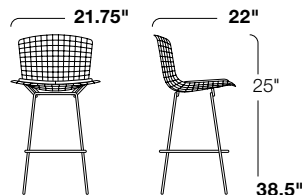

The Bertoia wire side chairs, bar- and counter- stools in are all individually hand welded ensuring durability and quality. Their linear composition creates both a visually light object with a graphically bold presence. A selection of various seat and back pads along with a full cover option not only adds comfort, but also provides an opportunity to choose from a selection of KnollTextiles and Spinneybeck leathers.

#### STATEMENT OF LINE

**Side Chair**  
Also available with full cover and seat pad

**Stool**  
Counter-height  
Also available with full cover and seat pad

**Stool**  
Bar-height  
Also available with full cover and seat pad
