Inlet Screens by Knoll

The lightweight, felt-wrapped Inlet Screen defines workspace as it offers visual privacy and dampens sound. Designed by Dan Grabowski, known for using clean lines and thoughtful details to solve problems in smart ways, the movable screen with optional markerboard has a welcoming aesthetic that sits nicely in a shared space or individual workspace.

- A** The optional porthole offers an ideal balance of separation and connection, allowing people to focus on work and ascertain teammates' availability at a glance.
- B** Inlet is designed with mobility in mind. Weighing less than 40 pounds, with glides on the feet and optional handholds, Inlet can be reconfigured in the moment. Add a whiteboard and it doubles as a brainstorming tool.
- C** With rounded corners that soften its profile and grey, coral, green, and blue as options for the porthole, Inlet infuses joy and friendliness into the work environment.

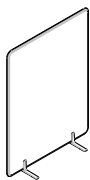

Warranty
3 Years
