Locker
Anchor laminates are classified in two price tiers, L1 and L2. See Finishes for details.

Anchor storage components may be specified with mixed finishes. An L2 "adder" will be added to the L1 base price for each surface for which an L2 finish is selected.

L1 base price applies when all surfaces are specified with L1 finishes
Two L1 finishes may be mixed on a single unit without added upcharge

Apply applicable "L2 adder" to L1 base price for each surface specified with an L2 finish

Raised Storage Specifications

Anchor Raised Storage
Anchor Raised Storage is a collection of storage elements designed to be specified with a raised foot option.

Feet are nominally 3'' high with black leveling glide. Foot kits are specified separately as kits and installed on-site.

Feet are not retrofittable onto existing Anchor units. Feet are available only for products as stated in the application notes on the pricing pages and within this section.

Application
Anchor Raised Storage units may be used freestanding or ganged to panels or adjacent storage units as noted within applicable pricing sections.

When used freestanding, counterweights may be required. Refer to applicable counterweight specification information for details.

Anchor Raised Storage components of uniformed depth may be ganged to one another via T-Feet. Components of differing depths may not utilize shared T-Feet for ganging.

When ganging two units together, (4) Corner Feet will be replaced by (2) T-Feet spanning the seam between the units.

Credenzas
To specify Anchor Raised Credenzas, utilize standard credenza pattern numbers (WC22 . .). Credenzas include pre-installed leveling glides to be removed on-site when utilizing foot kits.

Feet are additive to the height of a standard credenza. Overall height of a credenza raised on Anchor Feet is 25'' high.

Individual units 18”-42” wide require (4) Corner Feet per unit. Credenzas 48”-84” wide require (4) Corner Feet and (2) T-Feet for additional support.

Workstation Lockers
Workstation Lockers for use with Feet (WLWF . .) do not include pre-installed leveling glides. Applicable foot kits must be specified for use.

Foot kits may not be used with (WLW . .) or (WL . . ) pattern numbers.

Noted elevation heights of Workstation Lockers for Use with Feet include height of 3” feet. Case height of Workstation Lockers for Use with Feet is 3” less than Workstation Lockers with standard leveling glides to accommodate height of foot.

Towers
Noted elevation heights of Towers for Use with Feet include height of 3” feet. Case height and upper drawer height are modified to maintain overall alignment with Dividends Horizons panel and worksurface heights to accommodate height of foot.

Pedestals
Pedestals for Use with Feet (WPF . .) do not include pre-installed leveling glides. Applicable foot kits must be specified for use.

Foot Kits may not be used with (WP . . ) pattern numbers.

Noted elevation height of Pedestals include height of 3” feet. Case height of Pedestals for use with Feet is 3” less than Pedestals with standard leveling glides to accommodate height of foot.

Anchor Electrical
Anchor 4-circuit electrical components may run only beneath storage units raised on Anchor Foot Kits.

Refer to Electrical System Specifications for details.

Corner Feet are available in a 4-piece kit or as 40-piece bulk kits. T-Feet are available in a 2-piece kit or as 20-piece bulk kits. Hardware is included to attach to storage unit.

**Order Information**

1. **Base Pattern Number**  
   - Order Code: Foot Kit, Corner, Kit of 4  
     - Example: WAFC04P
2. **Finish**  
   - See Finish Options page

**Order Code**

- **W** Anchor Storage
- **AF** Accessory, Foot
- **C** Corner
- **04** Kit of 4
- **P** Painted

**Specification Information**

Foot kits are specified separately as kits and installed on site. Kits include hardware for attaching feet to the storage unit.

Individual units require 4 corner feet. Individual units 48” and wider additionally require 2 T-feet for support.

When ganging two units side-by-side, units must be of uniformed depth. Two ganged units require a total of 4 corner feet plus 2 T-feet at the seam. Two additional T-feet are required for support on any unit 48” and wider.

**Application Notes**

Feet are nominally 3” high and include a black leveling glide. Feet are additive to the height of the standard credenza bringing the overall finished height of the credenza on feet to 25” high (nominal). Pedestals and workstation lockers for use with Feet feature a shorter case to compensate for height of feet maintaining overall elevation height as noted.

Foot kids are not retrofittable onto existing Anchor units.

**Foot kits are only compatible with Anchor Credenzas, Workstation Lockers for use with feet and Pedestals for Use with Feet.**
Anchor Credenzas
Credenzas are 22” high wood construction cabinets sized to fit below and support one end of a desk top or be used as freestanding units. Credenzas feature one or two midpanels providing a unique combination of closed and open storage. Credenzas are available in 9 widths with a variety of configurations.

Available Sizes (nominal)
- Height: 22”
- Widths: 18”, 24”, 30”, 36”, 42”, 48”, 60”, 72”, 84”
- Depths: 16”, 20”

Credenzas ship assembled including the top.

Credenzas may be used as freestanding units or provide support for a perpendicular worksurface when specified with a spacer bracket or support adapter.

Counterweight must be specified for certain credenzas when used in freestanding applications. Refer to Credenza Counterweight Kits specification matrix for details.

Credenza Specifications

**Construction**
- Credenzas are constructed of wood core, laminate and ABS edge banding; cam and dowel construction.
- Material thickness: 1 3/8” (nominal) on credenza bottom and midpanels, 3/4” on credenza back, sides, interior shelves and drawer fronts.
- Material thickness: 1 3/8” (nominal) on credenza tops
- Box and File drawer suspension: Full extension, ball bearing slides
- Units include interlock to prevent more than one drawer (aligned vertically) opening at a time.
- Leveling glides: 3/8” diameter steel stem with 1/16” of height adjustment. Units up to 42” wide include 4 glides; units 48” and wider include 6 glides.
- Longer glides are included to provide an additional 1/8” of height adjustment; 2 per credenza.

**Internal Drawer Dimensions**

**Box drawer**
- Internal height: 3 3/4” (5 3/8” clearance)
- Internal depth: 16 1/4” (20D), 12 1/4” (16D)

**File drawer**
- Internal height: 9 7/8” (11 7/8” clearance)
- Internal depth: 16 1/4” (20D), 12 1/4” (16D)

**Internal Clearances – Open sections**
- Internal height A: 6 1/2”
- Internal height B: 11 3/4”
- Internal width by nominal configuration size:
  - 18” w configuration = 16 1/2” w
  - 24” w configuration = 22 3/4” w
  - 30” w configuration = 28 3/4” w
  - 36” w configuration = 34 3/4” w
  - 42” w configuration = 40 3/4” w
- Internal depth: 18 1/4” (20D), 13 3/4” (16D)

*Actual dimensions to the nearest 1/8th of an inch.

**Filing**
Credenza file drawers within 20” deep units provide standard side-to-side letter or legal filing and front-to-back letter filing. Credenza file drawers within 16” deep units accommodate side-to-side letter filing only, front-to-back file bars may be specified separately.

**Locks**
Anchor Credenzas may be ordered with or without locks. No lock hole is drilled on units specified as non-locking.

Standard lock placement is the upper right hand corner of the bottom file drawer. Center of lock is 1 3/4” from top edge, 1 1/2” from side. Dual-tab lock design allows one shared lock core per box/file configuration.

- Single drawer, single-tab lock core
- Two drawers share dual-tab lock core

Locks are randomly keyed unless otherwise specified. Other keying options include keyed alike or keyed with lock cores K001-K250. To specify units as such, reference KnollKey Lock Program.

Keyless lock options with manual bolt are available for select sizes and configurations. Refer to Digital Keypad and RFID Lock Specifications for details.

**Pulls**
Finger Pull, 10” long; centered horizontally on drawers.
Top drawer: mounted 3/8” from bottom of drawer
Bottom drawer: mounted 3/4” from top of drawer
## Counterweight Applications

Open units with shelf do not require counterweight. In freestanding application, select units with Open/File or Box/File components require counterweight as noted in the chart below. If units are connected to a panel, supporting a worksurface or ganged back-to-back with another unit, no counterweight is required. When required, counterweights are specified separately and field-installed.

Anchor Mobile Credenzas

Mobile credenzas are 25" high overall including 22" high wood construction case with 3" high casters. Credenzas feature one or two midpanels providing a unique combination of open and enclosed storage.

Mobile credenzas are available in 8 widths and 2 depths with a variety of configurations.

Available Sizes
Height: 25"
Widths: 18", 24", 30", 36", 42", 48", 60", 72"
Depths: 16", 20"

In addition, mobile credenzas with drawers require one additional 2" caster assembly beneath each file drawer to prevent tipping when drawer is extended.

Appropriate caster kits are included with mobile credenzas (WC25.) pattern numbers. Casters are not intended for use with (WC22.) pattern numbers.

Credenza Specifications

Mobile credenzas are 25" high overall including 22" high wood construction case with 3" high casters. Credenzas feature one or two midpanels providing a unique combination of open and enclosed storage.

Mobile credenzas are available in 8 widths and 2 depths with a variety of configurations.

Available Sizes
Height: 25"
Widths: 18", 24", 30", 36", 42", 48", 60", 72"
Depths: 16", 20"

Mobile credenzas 48" wide and smaller require four 2-1/2" corner casters with decorative caster plate. Mobile credenzas 60" wide and larger require four 2-1/2" corner casters and one 2-1/2" center caster with decorative caster plate. The front two corner casters are locking.

In addition, mobile credenzas with drawers require one additional 2" caster assembly beneath each file drawer to prevent tipping when drawer is extended.

Appropriate caster kits are included with mobile credenzas (WC25.) pattern numbers. Casters are not intended for use with (WC22.) pattern numbers.

Mobile credenza cases ship assembled including top and decorative caster plates. All casters and counterweight kits are field installed.

Construcion
- Credenzas are constructed of wood core, laminate and ABS edge banding; cam and dowel construction.
- Material thickness: 1-3/16" (nominal) on credenza bottom and midpanels, 3/4" on credenza back, sides, interior shelves and drawer fronts.
- Material thickness: 1-3/16" (nominal) on credenza tops
- Box and File drawer suspension: Full extension, ball bearing slides
- Units include interlock to prevent more than one drawer (aligned vertically) opening at a time.
- Decorative Caster Plate: Painted cast aluminum, black
- Casters: Single wheel, hard rubber caster, black
- Internal Drawer Dimensions*
  - Box Drawer
    - Internal Height: 3-3/4" (5-1/8" clearance)
    - Internal Depth: 16-1/4" (20D), 12-3/4"(16D)
  - File Drawer
    - Internal Height: 9-3/4" (11-3/4" clearance)
    - Internal Depth: 16-1/4" (20D), 12-3/4"(16D)

Internal Clearances- Open sections*
- Internal Height A: 6-1/2"
- Internal Height B: 11-15/16"
- Internal Width by nominal configuration size:
  - 18"w configuration = 16-1/2"w
  - 24"w configuration = 22-1/2"w
  - 30"w configuration = 28-1/2"w
  - 36"w configuration = 34-1/2"w
  - 42"w configuration = 40-1/2"w
- Internal Depth: 18-1/4" (20D), 13-7/8" (16D)

*Actual dimensions to the nearest 1/16th of an inch.

Filing
Credenza file drawers within 20" deep units provide standard side-to-side letter or legal filing and front-to-back letter filing. Credenza file drawers within 16" deep units accommodate side-to-side letter filing only, front-to-back file bars may be specified separately.

Locks
Anchor credenzas may be ordered with or without locks. No lock hole is drilled on units specified as non-locking.

Standard lock placement is the upper right hand corner of the bottom file drawer. Center of lock is 1-9/16" from top edge, 1-1/2" from side. Dual-tab lock design allows one shared lock core per box/file configuration.

Locks are randomly keyed unless otherwise specified. Other keying options include keyed alike or keyed with lock cores K001-K250. To specify units as such, reference Knoll Key Lock Program.

Keyless lock options with manual bolt are available for select sizes and configurations. Refer to Digital Keypad and RFID Lock Specifications for details.

Pulls
Finger Pull, 10" long; centered horizontally on drawers.

Top drawer: mounted 3/4" from bottom of drawer
Bottom drawer: mounted 3/4" from top of drawer
Credenza Specifications

Credenza Planning & Stability Guidelines

A variety of planning scenarios with the required connection or support brackets are shown below. Single freestanding credenzas may require counterweight kits; refer to pricing pages for specific requirements. Below applications may not be used with credenzas raised on feet.

Credenza supporting a Dividends Horizon desk. Specify a WACS22P Credenza Spacer to support one end of the work surface.
No counterweight kit required.
*In this application, a credenza with a centered midpanel will require the spacer to be mounted off-center.

Credenzas supporting worksurfaces in a Dividends Horizon panel surround. Specify a WACS22P Credenza Spacer per credenza.
No counterweight kit required.

Credenzas mounted to Dividends Horizon panels. For each credenza, specify both the left and right hand Dividends Horizon Panel brackets BC1EPOPB to secure the unit to the panel.
No counterweight kit required.

Credenzas supporting work surfaces in a Dividends Horizon panel surround. Specify a WACS22P Credenza Spacer for each credenza.
No counterweight kit required.
When used as freestanding units (not supporting the work surfaces), units may be ganged back-to-back for stability.

Credenzas supporting Antenna Big Table. Specify Template/Antenna YBATBT22 Floorstanding Cabinet Desk Support Adapters for Big Table in place of an end leg. Two YBATBT22 adapters would be required for the configuration shown. Units may be ganged back-to-back and/or side-by-side for additional stability. No counterweight kit required.

Credenzas supporting an Antenna desk. Specify Template/Antenna YBATE22 (pair) Floorstanding Cabinet Desk Support Adapters to support one end of the work surface.
No counterweight kit required.

### Order Information

1. **Base Pattern Number**
2. **Case Finish**
   - See Finish Options page
3. **Top Finish**
   - See Finish Options page

### Order Code

- Credenza, 48" wide, Open 18" - Open 30"

Example: WC2248018030L

- W: Anchor Storage
- C: Credenza
- 22: 22" High
- 48: 48" Wide
- O18: Left: Open 18"
- O30: Right: Open 30"
- L: Laminate case and front

### Specification Information

- Credenzas with file drawers may require counterweights when used in freestanding applications. Refer to Credenza Counterweight Specification page 11 for detailed requirements.
- Add $40 to the list price per standard key lock. Add $512 to the list price per lock for manual digital keypad lock. Add $605 to the list price per lock for manual RFID lock. Digital keypad and RFID locks require program and manager key(s), specified separately.
- Add $15 to the list price per pull for Anodized Nickel (AN) or Aluminum (AA) finish.
- Anchor products are available with mixed finishes and laminate grades. See Mixed Laminate Finishes for further details.
- Dimensions listed under w h d are actual to the nearest 1/16".

### Application Notes

- Credenzas 20" deep (nominal) have a 19 1/16" deep case. Credenzas with drawer fronts are 20" deep overall.
- Credenzas 16 deep (nominal) have a 15" deep case. Credenzas with drawer fronts are 16" deep overall.
- Credenzas are preassembled including top.
- Credenzas 16" deep with file drawer include rails for side-to-side Letter filing. Front-to-back bars may be specified separately to accommodate Letter or Legal filing, see Credenza Accessories for details.

**Order Information**

1. **Base Pattern Number**
2. **Case Finish**
   - See Finish Options page
3. **Top Finish**
   - See Finish Options page

**Order Code**

- Credenza, 48" wide, Open 18" - Open 30"
- Example: WC2248O18O30L
  - W: Anchor Storage
  - C: Credenza
  - 22: 22" High
  - 48: 48" Wide
  - O18: Left: Open 18"
  - O30: Right: Open 30"
  - L: Laminate case and front
  - (118): Case Finish, Bright White
  - (118): Top Finish, Bright White

**Specification Information**

Credenzas with file drawers may require counterweights when used in freestanding applications. Refer to Credenza Counterweight Specification page 11 for detailed requirements.

- Add $40 to the list price per standard key lock. Add $512 to the list price per lock for digital keypad lock. Add $605 to the list price per lock for manual RFID lock. Digital keypad and RFID locks require program and manager key(s), specified separately.

- Add $15 to the list price per pull for Anodized Nickel (AN) or Aluminum (AA) finish.

Anchor products are available with mixed finishes and laminate grades. See Mixed Laminate Finishes for further details.

Dimensions listed under w h d are actual to the nearest 1/16".

**Application Notes**

- Credenzas 20" deep (nominal) have a 19 1/16" deep case. Credenzas with drawer fronts are 20" deep overall.
- Credenzas 16 deep (nominal) have a 15" deep case. Credenzas with drawer fronts are 16" deep overall.
- Credenzas are preassembled including top.
- Credenzas 20" deep with file drawer include rails for side to side and front-to-back Letter or Legal filing. Credenzas are specified separately to accommodate Letter or Legal filing, see Credenza Accessories for details.

- (118): Top Finish, Bright White

**Specification Information**
Credenzas with file drawers may require counterweights when used in freestanding applications. Refer to Credenza Counterweight Specification page 11 for detailed requirements.
- Add $40 to the list price per standard key lock. Add $512 to the list price per lock for manual digital keypad lock. Add $605 to the list price per lock for manual RFID lock. Digital keypad and RFID locks require program and manager key(s), specified separately.
- Add $15 to the list price per pull for Anodized Nickel (AN) or Aluminum (AA) finish.
- Anchor products are available with mixed finishes and laminate grades. See Mixed Laminate Finishes for further details.
- Dimensions listed under w h d are actual to the nearest 1/16".

**Application Notes**
- Credenzas 20" deep (nominal) have a 19 1/8" deep case. Credenzas with drawer fronts are 20" deep overall.
- Credenzas 16 deep (nominal) have a 15" deep case. Credenzas with drawer fronts are 16" deep overall.
- Credenzas are preassembled including top.
- Credenzas 20" deep with file drawer include rails for side-to-side and front-to-back Letter or Legal filing. Front-to-back bars may be specified separately to accommodate Letter or Legal filing, see Credenza Accessories for details.

**Order Information**

1. **Base Pattern Number**

   - Example: WAGE20
   - W Anchor Storage
   - A Accessories
   - GE Extended Glide
   - 20 Bulk Pack of 20

**Specification Information**

Credenzas with file drawers may require counterweights when used in freestanding applications. Refer to Credenza Counterweight Specification page 11 for detailed requirements.

Counterweight kits include hardware to mount the counterweight plates.

Counterweight plates are to be mounted to the back panel behind the file drawer(s) inside the credenza.

**Application Notes**

Extended leveling glides are specified separately when additional leveling capabilities are required or for units overlaying table foot.

Extended leveling glides provide a clearance range of 1 1/4" - 2".

Specify version 2 (W A2 FB) for:
- 30" wide credenza drawers
  - shipped April 30, 2021 or later
- 36" wide credenza drawers
  - shipped May 14, 2021 or later
- 42" wide credenza drawers
  - shipped May 28, 2021 or later
- 18" and 24" wide credenza drawers
  - shipped June 11, 2021 or later

Specify version 1 (W AFB) for credenza drawers shipped prior to above listed dates.

**Order Information**

1. **Base Pattern Number**
2. **Fabric**
   - See Finish Options page

**Order Code**

Example: WCCT3018 ( )
- W: Anchor
- CCT: Credenza Cushion Top
- 30: 30” Wide
- 18: 18” Deep
- (): Fabric

**Application Notes**

Cushions are designed for use atop Anchor credenzas or doublewide pedestals, worksurface top must also be specified. Cushion does not replace worksurface top.

14” deep cushions for use with 16” deep storage
18” deep cushions for use with 20” deep storage
22” deep cushions for use with 24” deep storage

Cushions are designed to be centered front-to-back on storage with slight reveal on each front and back.

For Customers Own Material (COM) applications, specify the following yardage per cushion:
- 14” deep, 18” or 24” wide: 1.0 yards
- 14” deep, 30” or 36” wide: 1.25 yards
- 14” deep, 42” wide: 1.5 yards
- 18” deep, 18” - 36” wide: 1.25 yards
- 18” deep, 42” wide: 1.5 yards
- 22” deep, 18” - 42” wide: 1.5 yards.

For CAL133 backing on the cushion, add $79 to the list price.
**Pedestal Specifications**

**Anchor Mobile Pedestals**

Anchor Mobile Pedestals provide flexible storage solutions with a range of configurations offering varying levels of security and compartmentalization for user organization. Anchor mobile pedestals are freestanding wood construction cabinets with casters.

Anchor mobile pedestals ship assembled including a finished top. Casters are field installed.

**Available Sizes (nominal)**

- **Height, Tray Top or Finished Laminate Top:** 23-5/8”
- **Height, with optional Cushion Top installed:** 24-1/2”
- **Widths:** 12”, 16”
- **Depth:** 20-7/8”

**Available Configurations**

- **Open**
- **Hinged Door (right or left)**
- **Open/File**
- **Concealed Shelf/File**
- **Box/File**
- **Recessed Box/File**
- **Slide Out**
- **File Drawer/Trap Top**
- **Hinged Door/Tray Top (right or left)**

**Construction**

- Mobile Pedestals are constructed of wood core, laminate and ABS edge banding; cam and dowel construction
- Material thickness: 1-3/8” (nominal) on pedestal bottom and top, 3/4” on pedestal back, sides, interior shelves and drawer fronts
- 16” wide pedestal drawer bodies are metal (excluding slide out pedestal); 12” wide pedestal drawer bodies are wood construction
- Full suspension, ball bearing drawer slides standard for all drawer types including Box, File and Slide Out drawers.
- All mobile pedestals include (4) non-locking hard-wheeled casters. Mobile pedestals with File drawer or Slide Out include additional 5th wheel to be mounted beneath the drawer to provide stability as lower drawer is extended, preventing tip hazard
- Casters provide 2-3/4” clearance beneath mobile pedestal case

**Internal Drawer Dimensions, 12” wide**

- **Box Drawer, 12” wide**
  - Internal Height: 3-1/8”
  - Internal Width: 8-3/4”
  - Internal Depth: 15-3/8”

- **File Drawer, 12” wide**
  - Internal Height: 9-3/8”
  - Internal Width: 8-3/4”
  - Internal Depth: 15-3/8”

- **Slide Out Drawer, 12” wide**

  **Drawer Body:**
  - Internal Height: 3-1/8” (18-3/8” clearance)
  - Internal Width: 8”
  - Internal Depth: 15-3/8”

  **Slatwall Area:**
  - Width: 16-1/2”
  - Height: 15-1/2”

**Internal Clearance**

- **Open and Hinged Door, 12” wide**
  - Internal Height, excluding shelf: 19-5/16”
  - Internal Width: 10-1/2”
  - Internal Depth: 19-1/16”

- **Internal Drawer Dimensions, 16” wide**

  - **Box Drawer, 16” wide**
    - Internal Height: 4-7/16” (4-15/16” clearance)
    - Internal Width: 12-1/2”
    - Internal Depth: 18-1/4”

  - **File Drawer, 16” wide**
    - Internal Height: 9-1/4” (11-15/16” clearance)
    - Internal Width: 12-1/2”
    - Internal Depth: 13-5/8”

  - **Slide Out Pedestal, 16” wide**

    **Drawer Body:**
    - Internal Height: 3-1/8” (18-3/8” clearance)
    - Internal Width: 11-1/2”
    - Internal Depth: 15-3/8”

    **Slatwall Area:**
    - Width: 16-1/4”
    - Internal Depth: 15-1/2”

**Internal Clearance**

- **Open and Hinged Door, 16” wide**
  - Internal Height, excluding shelf: 19-5/16”
  - *Reduced by 2-5/8” within Tray Top version*
  - Internal Width: 14”
  - Internal Depth: 19-1/8”

**Filing and Accessories**

Box drawers of 16” wide mobile pedestals may accept Knoll Universal plastic pencil tray (DS2PPT). 16” wide pedestal file drawer allows for front-to-back letter filing. File Support Channel (DS1PFS) required to accommodate side-to-side legal filing (specified separately). 12” wide pedestal file drawer allows for side-to-side letter or legal filing.

Slide Out pedestal configuration includes slatwall mounted within interior to support select slatwall accessories including hook and basket, specified separately.

Tray top mobile pedestals include recessed tray finished with selected case laminate. Optional lay-in liner accessories are available, specified separately. Liners are available in laminated cork or in 5 standard colors of recycled PET. Note: Cork liner is not FSC certified.

**Mobile Pedestal Cushion**

Mobile pedestals include finished laminate top or may be specified with drilled top to accept pedestal cushion. Cushions are available in a range of KnollTextiles, Spinneybeck leather or upholstered in customer’s own material. When specified, cushion adds 1” to overall finished height of the pedestal. Cushions are field installed. Cushions are not intended for use with tray top mobile pedestals.

**Locks**

All mobile pedestals with door or drawer(s) are available non-locking or locking with cylinder lock and key. When specified as non-locking, lock drilling is omitted. Dual-tab lock design allows one shared lock core on units with 2 drawers.

Locks are available in black or chrome finishes.

Locks are randomly keyed unless otherwise specified. Keyed options include keyed alike or keyed with lock cores K001-K250. To specify units as such, reference KnollKey Lock Program.

Select configurations including Hinged Door, Slide Out, Concealed Shelf/File and Hinged Door/Tray Top are available with Digital Keypad or RFID keyless lock options with automatic bolt. Digital Keypad and RFID locks are standard with brushed nickel face plate finish and black buttons and RFID reader. Refer to Digital Keypad and RFID Lock Specifications for details.

**Pulls**

Mobile pedestals include standard Anchor Finger Pull, centered horizontally on all drawers, positioned vertically on all doors. Drawers of 16” wide mobile pedestals include 10” pulls. Drawers of 12” wide mobile pedestals and all mobile pedestals with hinged door include 5” pulls.

Top Drawer: 3/4” from bottom of drawer front
Bottom Drawer: 3/4” from top of drawer front
Full Height Single Drawer Front: 13/4” from bottom of drawer front
Doors: 1-1/8” below top edge of door
Anchor Floorstanding Pedestals
Anchor Floorstanding Pedestals are desk height wood construction cabinets designed to support worksurfaces in both panel wrapped and freestanding applications. No cantilevers or other supports are required at the end of the worksurface. Freestanding applications. No cantilevers or other supports are required at the end of the work surface supported by a pedestal. Opposite end of the extended worksurface must be supported by support leg or a panel.

Floorstanding pedestals are not intended for freestanding use. Floorstanding pedestals 12" and 16" wide are available in 9 configurations. Select configurations are available for use with Anchor floor kits. When applicable, foot kits are specified separately. Reference pricing pages for full product scope.

Floorstanding Pedestals ship assembled, excluding a finished top.

Available Sizes (nominal)
Height: 28" overall height including work surface (specified separately)
Widths: 12", 16", 24", 30"
Depth: 24"

Available Configurations
Floorstanding pedestals, 12" and 16" wide
• Open
• Full Door (right or left)
• Open/File
• Open/Box File
• Box (File Front) File
• Shelf/Box/File (Single Front)
• Box/Box (File Front) File
• File/File
• Slide Our with Slatwall

Floorstanding Pedestals for Use with Feet, 12" and 16" wide
• Open
• Full Door (right or left)
• Box/File
• Open/File
• Shelf/File (Single Front)
• Shelf/Box/File (Single Front)

Construction
• Floorstanding Pedestals are constructed of wood core, laminate and ABS edge banding; cam and dowel construction.
• Material thickness: 1 1/8" (nominal) on pedestal bottom and midpanels (where applicable), 1/4" on pedestal back, sides, interior shelves and drawer fronts.
• 16" wide pedestal drawer bodies are metal; 12" wide pedestal drawer bodies are wood construction
• Box and File drawer suspension: Full extension, ball bearing slides
• Leveling glides: 3/8" diameter steel stem with 1/16" of height adjustment, 4 per pedestal.
• Longer glides are included to provide an additional 1 1/16" of height adjustment; 2 per pedestal.

Internal Drawer Dimensions 16" wide
Box drawer
• Internal height: 4 3/4" (4 1/4" clearance)
• Internal width: 12 7/8"
• Internal depth: 18 1/4"

File drawer
• Internal height: 9 1/4" (11 7/8" clearance)
• Internal width: 12 7/8"
• Internal depth: 18 1/4"

Internal Clearances *
Pedestal with standard glides
• Internal height A: 4 1/4"
• Internal height B: 6 1/2"
• Internal height C: 11 3/4"*
• Internal height D: 12 7/8"

Pedestal for Use with Feet
• Internal height A: 3 3/4"*
• Internal height B: 4 3/4"*
• Internal height C: 11 3/4"*
• Internal height D: 9 7/8"*

Filing
16" wide pedestal file drawer allows for front-to-back letter filing. File Support Channel for legal filing must be specified separately.

12" wide pedestal file drawer allows for side-to-side letter or legal filing.

Locks
Anchor Floorstanding Pedestals may be ordered with or without locks. No lock hole is drilled on units specified as non-locking.

Dual-tab lock design allows one shared lock core on units with 2 drawers in vertical alignment.

Locks are randomly keyed unless otherwise specified. Other keying options include keyed alike or keyed with lock cores K001-K250. To specify units as such, reference KnollKey Lock Program.

Keyless lock options with automatic bolt are available on select 12" wide and 16" wide floorstanding pedestals including, FD, F1, F2, CS, SO and RB configurations.

Pulls
Finger Pull, centered horizontally on drawers, positioned vertically on doors.
Top drawer: 3/8" from bottom of drawer
Bottom drawer: 3/4" from top of drawer
Doors: 1 1/8" below top edge of door

*Actual dimensions to the nearest 1/16th of an inch.
Anchor Doublewide Pedestals

Anchor Doublewide Pedestals are 28” high wood construction cabinets sized to align with desk height (when specified with top) and are designed to be used in a variety of applications. Doublewide pedestals are available in 5 widths and 5 interior configurations. Select configurations are available for use with Anchor foot kits. When applicable, foot kits are specified separately. Reference pricing pages for full product scope.

Available Sizes (nominal)
Height: 28” (including top)
Widths: 18”, 24”, 30”, 36”, 42”
Depth: 16”, 20”, 24”

Doublewide Pedestals ship assembled excluding foot kits. When applicable, foot kits are specified separately.

Doublewide pedestal tops must be specified separately.

Doublewide pedestals may be specified with a full-width individual top, common top spanning two side-by-side units (facing the same or opposite direction) or with an extended top. Opposite end of the extended work surface must be supported by a perpendicular work surface, support leg or a panel. Counterweight kit must be specified for certain doublewide pedestals in applications that are not connected to a desk or another unit. Further information is detailed on pricing pages.

Individual top

Common top, units facing same direction

Extended top connected to a perpendicular surface.

Common top, units facing opposite direction

Construction
- Doublewide Pedestals are constructed of wood core, laminate and ABS edge banding; cam and dowel construction.
- Material thickness: 1 1/4” (nominal) on pedestal bottom, 3/4” on pedestal back, sides, interior shelves and drawer fronts.
- Material thickness: 1 1/4” (nominal) on pedestal tops (specified separately).
- Box and File drawer suspension: Full extension, ball bearing slides
- Units include interlock to prevent more than one drawer opening at a time.
- Leveling glides: 5/8” diameter steel stem with 1/8” of height adjustment, 4 per doublewide pedestal.
- Longer glides are included to provide an additional 1/8” of height adjustment; 2 per doublewide pedestal.

Internal Drawer Dimensions *

Box drawer
- Internal height: 3 3/4” (5 1/2” clearance)
- Internal width: 14 3/4”, 20 1/2”, 26 1/2”, 32 1/4”, 38 3/4”
- Internal depth: 12 3/4”, 16 1/4”

File drawer
- Internal height: 9 1/2” (11 3/4” clearance)
- Internal widths: 14 3/4”, 20 1/2”, 26 1/2”, 32 3/4”, 38 3/4”
- Internal depths: 12 3/4”, 16 1/4”

Internal Clearances *
- Internal wide: 28 1/2”, 34 1/2”, 40 1/2”
- Internal depth: 18 3/4”

Pedestals for Use with Feet
- Internal height A: 3 3/4”
- Internal height B: 4 7/8”
- Internal height C: 11 1/2”
- Internal height D: 9 9/16”

Pedestals with standard glides
- Internal height A: 4 5/8”
- Internal height B: 6 3/8”
- Internal height C: 11 3/4”
- Internal height D: 12 3/8”

Filing

File drawers of 30” wide and larger, 20” and 24” deep doublewide provide side-to-side and front-to-back letter and legal filing. File drawers of all 18” wide, 24” wide, and 16” deep doublewides accommodate side-to-side letter filing only. Front-to-back file bars for 16” deep units may be specified separately.

Locks

Anchor Doublewide Pedestals may be ordered with or without locks. No lock hole is drilled on units specified as non-locking.

Standard lock placement is the upper right hand corner of the bottom file drawer. Center of lock is 1 1/8” from top edge, 1 1/2” from side. Dual-tab lock design allows one shared lock core per box/file and file/file configuration.

Locks are randomly keyed unless otherwise specified. Other keying options include keyed alike or keyed with lock cores K001-K250. To specify units as such, reference KnollKey Lock Program.

Keyless lock options are available for drawers 30” wide or larger. Refer to Digital Keypad and RFID Lock Specifications for details.

Pulls

Finger Pull, 10” long, centered horizontally on drawer.
Top drawer: 1/2” from bottom of drawer.
Bottom drawer: 3/8” from top of drawer.

* Actual dimensions to the nearest 1/64th of an inch.
Doublewide pedestal with extended top. Specify **Dividends Horizon DB1F24SP flat bracket** for connection to perpendicular work surface. No counterweight kit required.

Doublewide pedestal with individual top. Specify both the left and right hand **Dividends Horizon Panel brackets BC1EPDPB** to secure the unit to the panel. No counterweight kit required.

Doublewide pedestals with extended tops. Specify a **Dividends Horizon DB1F24SP flat bracket** where each extended top connects to a perpendicular work surface. No counterweight kits required.

Common top spanning two doublewide pedestals facing opposite directions. No counterweight kits required.

Doublewide pedestals each with extended top. Specify a **Dividends Horizon DB1F24SP flat bracket** to a perpendicular work surface. No Counterweight kits required.

Doublewide Pedestals facing opposite directions with common top. No counterweight kits required.

**Specification Information**

For use with Anchor Mobile Tray Top Pedestals.  
Tray Top Liners are undersized from nominal to appropriately fit within pedestal tray top.

**Application Notes**

Liner accessories are designed to lay loose in recessed tray of Anchor tray top mobile pedestal for ease of removal or replacement.

PET liners are composed of recycled material, 3mm thick.

Cork liners are composed of thin profile, laminated cork with stabilizing backer. Cork liners are not FSC certified.

Order Code

Pedestal, 16” Wide, Open/File

Example: WP2816OFL(L)

WP = Anchor Pedestal
28 = 22½” High
16 = 16” Wide
OF = Open/File
(L) = Lock option, Locking
(118) = Case Finish
(118) = Front Finish
(T) = Pull Style
(118) = Pull Finish
(C) = Lock finish, Chrome

Specification Information

Add $40 to the list price per standard key lock.
Digital Keypad and RFID lock available on FD, F1, F2, CS and SO pedestal configurations. Add $622 to the list price for digital keypad lock, add $672 for RFID. Digital keypad and RFID locks require program and manager key(s), specified separately.

Add $40 to the list price per lock. Reference Pedestal Specifications for lock configuration.

Add $15 to the list price per pull for Anodized Nickel (AN) or Aluminum (AA) finish.

Pedestals specified with mixed laminate finishes are L2 pricing. Refer to Mixed Laminate Finishes for further details.

Dimensions listed under w h d are actual to the nearest ½”.

Application Notes

Floorstanding Pedestals do not include a finished top; they are designed to support one end of a work surface (specified separately) and are not intended for freestanding use.

Floorstanding pedestals 24” deep (nominal) have a 23½” deep case to align with a 23½” deep work surface (specified separately). Pedestals with drawer fronts or doors are 24½” deep overall.

Pedestals complete with top (specified separately) align with desk height.

Slide out Pedestal features bottom bin with slat wall above.

Compatible slat wall accessories are listed in Pedestal Accessories, specified separately.

### Application Notes
Pedestal top must be specified separately, see “Pedestal Tops” section.

Doublewide pedestals are 16" deep (nominal) have a 15" deep case. Pedestals with drawer fronts are 16" deep overall.

Doublewide pedestals are 20" deep (nominal) have a 19 3/8" deep case. Pedestals with drawer fronts are 20" deep overall.

Doublewide pedestals are 24" deep (nominal) have a 23 3/8" deep case. Pedestals with drawer fronts are 24 3/8" deep overall.

Pedestals complete with top (specified separately) align with desk height.

Doublewide pedestals with file drawers provide side-to-side and front-to-back Letter and Legal filing unless indicated with (*). *

* Indicates side-to-side Letter filing only.

Front-to-back file bar accessory kit may be specified to accommodate Letter or Legal filing within 16" deep doublewide pedestals, see Pedestal Accessories for details.

**Doublewide Pedestals, 30" wide, Open / File**

- **Example:** WP2830OFL(L)

**Application Notes**

- Pedestal top must be specified separately, see “Pedestal Tops” section.
- Doublewide pedestals 16" deep (nominal) have a 15" deep case. Pedestals with drawer fronts are 16" deep overall.
- Doublewide pedestals 20" deep (nominal) have a 19 3/8" deep case. Pedestals with drawer fronts are 20" deep overall.
- Doublewide pedestals 24" deep (nominal) have a 23 5/8" deep case. Pedestals with drawer fronts are 24 3/4" deep overall.
- Pedestals complete with top (specified separately) align with desk height.
- Doublewide pedestals with file drawers provide side-to-side and front-to-back Letter and Legal filing unless indicated with (*). *
- Indicates side-to-side Letter filing only.
- Front-to-back file bar accessory kit may be specified to accommodate Letter or Legal filing within 16" deep doublewide pedestals, see Pedestal Accessories for details.

### Specification Information

- Doublewide Pedestals with file drawers may require counterweights when used in freestanding applications as indicated above.
- Counterweight is not required when used to support one end of a work surface or when ganged to another unit.
- Add $40 to the list price per standard key lock. For units 30" wide and larger, add $512 to the list price per lock for manual digital keypad lock. Add $605 to the list price per lock for manual RFID lock. Digital keypad and RFID locks require program and manager key(s), specified separately.
- Keyless locking is not available for 18" or 24" widths.
- Add $15 to the list price per pull for Anodized Nickel (AN) or Aluminum (AA) finish.
- Pedestals specified with mixed laminate finishes are L2 pricing.
- Refer to Mixed Laminate Finishes for further details.
- Dimensions listed under w h d are actual to the nearest 1/16".

### Specification Information

Doublewide Pedestals with file drawers may require counterweights when used in freestanding applications as indicated above. Counterweight is not required when used to support one end of a worksurface or when ganged to another unit.

Add $40 to the list price per standard key lock. For units 30" wide and larger, add $512 to the list price per lock for manual digital keypad lock. Add $640 to the list price per lock for manual RFID lock. Digital keypad and RFID locks require program and manager key(s), specified separately.

Keyless locking is not available for 18" or 24" widths.

Add $15 to the list price per pull for Anodized Nickel (AN) or Aluminum (AA) finish.

Pedestals specified with mixed laminate finishes are L2 pricing. Refer to Mixed Laminate Finishes for further details.

Dimensions listed under w,h,d are actual to the nearest ¼".

### Application Notes

- Pedestal top must be specified separately, see “Pedestal Tops” section.
- Doublewide pedestals 16" deep (nominal) have a 15" deep case. Pedestals with drawer fronts are 16" deep overall.
- Doublewide pedestals 20" deep (nominal) have a 19¾" deep case. Pedestals with drawer fronts are 20" deep overall.
- Doublewide pedestals 24" deep (nominal) have a 23½" deep case. Pedestals with drawer fronts are 24½" deep overall.
- Pedestals complete with top (specified separately) align with desk height.
- Doublewide pedestals with file drawers provide side-to-side and front-to-back Letter and Legal filing unless indicated with (*). * Indicates side-to-side Letter filing only.
- Front-to-back file bar accessory kit may be specified to accommodate Letter or Legal filing within 16" deep doublewide pedestals, see Pedestal Accessories for details.

2. **Finish**

Example: WPSF1201L

| WP | Anchor Pedestal |
| SF | Shelf, full-depth |
| 12 | for 12" wide pedal |
| 01 | single shelf |
| L  | Laminate |
| (118) | Finish, Bright White |

**Specification Information**

Each shelf includes 4 mounding pins.

Edgebanding preselected to match or coordinate with laminate; see “Finish Options” for further details.

Basket and Hook are compatible with 12" and 16" wide slide out pedestal.

**Application Notes**

12" wide pedestal shelves are for use in 12" wide floorstanding pedestals.

16" wide pedestal shelves are for use in 16" wide floorstanding pedestals and within the “pedestal” portion of combination pedestals; not for use within the “pedestal locker” portion of combination pedestals.

Order Information

1. **Base Pattern Number**
2. **Finish**
   - See Finish Options page

**Order Code**

- Full-depth pedestal shelf
- Example: WPSF1201L
- WP Anchor Pedestal
- SF Shelf, full-depth
- 12 for 12” wide pedestal
- 01 single shelf
- L Laminate
- (118) Finish, Bright White

**Specification Information**

- Each shelf includes 4 mounding pins.
- Edgebanding preselected to match or coordinate with laminate; see “Finish Options” for further details.
- Basket and Hook are compatible with 12” and 16” wide slide out pedestal.
- PET liner accessory is designed to lay loose in recessed tray of Anchor tray top mobile pedestal.

**Application Notes**

- 12” wide pedestal shelves are for use in 12” wide floorstanding pedestals.
- 16” wide pedestal shelves are for use in 16” wide floorstanding pedestals and within the “pedestal” portion of combination pedestals; not for use within the “pedestal locker” portion of combination pedestals.

16" deep credenzas require separately specified bars for front-to-back Letter or Legal filing.

**Specify version 2 (WA2FB) for:**
- 30" wide doublewide shipped April 30, 2021 or later
- 36" wide doublewide shipped May 14, 2021 or later
- 42" wide doublewide shipped May 28, 2021 or later
- 18" and 24" wide doublewide shipped June 11, 2021 or later

**Specify version 1 (WAFB) for** doublewide shipped prior to above listed dates.
Anchor Stackers
Anchor offers Worksurface and Credenza Stackers, wood construction cabinets designed to provide privacy and offer open storage above low storage or desk height. Stackers are designed to be installed directly onto a work surface or credenza top and do not include a base.

Stackers ship preassembled including a finished top. Two-sided mounting tape is included.

Elevation Heights
Elevation heights correspond with Dividends Horizon panel heights when installed.

Worksurface Stackers are designed to mount atop standard Dividends Horizon worksurfaces. Anchor Worksurface Stackers may be used atop Anchor Doublewide Pedestals or Anchor Raised Doublewide Pedestals with finished top.

Credenza Stackers are designed to mount atop standard 22" high Anchor Credenzas. Credenza stackers may be mounted atop Anchor Raised Credenzas installed with feet, however, elevation height of stackers will not align with standard Dividends Horizon panel heights in such condition.

Construction
• Worksurface Stackers are constructed of wood core, laminate and ABS edgebanding; cam and dowel construction
• Material thickness: 1-\(\frac{3}{16}\)" (nominal) on stacker top, \(\frac{3}{4}\)" on back, sides and interior shelves

Sizes and Applications
Parallel Credenza Stacker
Elevation Heights: 42", 50", 57", 64" (when installed on standard 22" high credenza)
Widths: 30", 36", 42"
Depth: 12"

Side Access Worksurface Stacker
Elevation Heights: 42", 50", 57", 64" (when installed on standard height worksurface)
Widths: 12", 16"
Depths (for use with Dividends Horizon worksurfaces): 20", 24", 30"
Depths (for use with Antenna Workspaces worksurfaces): 24", 27", 30"

Worksurface Stackers
Elevation Heights: 42", 50", 57", 64" (when installed on standard height worksurface)
Widths: 30", 36", 42" Depth: 12"

Shelf Positions and Clearances
Credenza Stackers
Internal Height:
A: 5 \(\frac{5}{16}\)"
B: 11 \(\frac{1}{16}\)"
C: 12"
D: 6 \(\frac{5}{16}\)"
E: 13 \(\frac{5}{16}\)"
F: 11 \(\frac{3}{4}\)"
G: 9 \(\frac{3}{4}\)"
Uppermost shelf with 64" elevation height stacker is fixed (non-removeable). All other shelves are removeable.

Worksurface Stackers
Internal Heights:
A: 11 \(\frac{15}{16}\)"
B: 6 \(\frac{5}{16}\)"
C: 13 \(\frac{5}{16}\)"
D: 8 \(\frac{1}{16}\)"
Uppermost shelf within 64" elevation height stacker is fixed (non-removeable). All other shelves are removeable.

Inset Back (Tackboard back applications)
Worksurface and credenza stackers may be specified with an inset back for use with tackboard insert (specified separately.) When specified, the back panel of the stacker is inset \(\frac{1}{2}\)" into the unit to accommodate mounting a tackboard on the outside of the stacker.
Tackboards are not intended for use inside stackers with shelves.

Markerboard Back
Worksurface and credenza stackers are available with markerboard back panel. When specified, back panel is finished with two sided white markerboard laminate for use with dry erase markers.

Planning with Height Adjustable Tables
Stackers should not be used on height adjustable tables unless both of the following conditions are met:
• Load is offset. No individual leg may be loaded more than the other(s).
• Total weight (including stacker and contents) does not exceed lifting capacity of the table.

**Order Information**

- **Order Code**
- **Specification Information**
  - Parallel credenza stackers are designed to mount parallel onto a credenza.
  - Parallel stackers are available with an inset back for use with a tackboard insert (specified separately). To specify a stacker with inset back, replace “FO” with “FOB”.
  - Tackboards are not intended for use with markerboard back.
  - Credenza stacker shelf count: 42” high, 1 shelf, 50” and 57” high include 2 shelves, 64” high includes 3 shelves.
  - Stackers specified with mixed laminate finishes are L2 pricing. Refer to Mixed Laminate Finishes for further details.

**Application Notes**

- Credenza stackers mount directly to a credenza; mounting kit included.
- Elevation height represents the overall nominal height of a stacker when mounted to an Anchor credenza.
**Credenza Stackers**

**Application Notes**

- Parallel credenza stackers are designed to mount parallel onto a credenza.
- Parallel stackers are available with an inset back for use with a tackboard insert (specified separately). To specify a stacker with inset back, replace “FO” with “FOB”.
- Tackboards are not intended for use with markerboard back.
- Credenza stacker shelf count: 42" high, 1 shelf, 50" and 57" high include 2 shelves, 64" high includes 3 shelves.
- Stackers specified with mixed laminate finishes are L2 pricing. Refer to Mixed Laminate Finishes for further details.

---

**Order Information**

1. **Base Pattern Number**
2. **Fabric Finish**

---

**Specification Information**

Tackboards are designed to fit within the inset back of a parallel credenza stacker specified with inset back option.

Elevation height represents the overall nominal height of a stacker when mounted to an Anchor credenza.

---

**Application Notes**

Tackboards are not compatible for use on stackers with standard back.

Order Code
- Work Surface Stacker 42H elevation, 12W x 23.5D, Full Door, Left Hand
- Example: WSW4212FDLHL

Specification Information
- Side Access stackers are available with an inset back for use with a tackboard insert (specified separately). To specify a stacker with inset back, replace “SAY” with “SAYB”.
- Tackboards are not intended for use with markerboard back.
- Work surface stacker shelf count: 42" high, no shelf, 50" and 57" high include 1 shelf, 64" high include 2 shelves.
- Work surface stackers specified with mixed laminate finishes are L2 pricing. Refer to Mixed Laminate Finishes for further details.

Application Notes
- Antenna work surface stackers 24", 27" and 30" deep mount directly to an Antenna work surface of matching depth. Not for use with Antenna hinge door tops. Mounting tape included.
- Elevation height represents the overall nominal height of a stacker when mounted to a standard height work surface.

### Specification Information

- **Work surface stacker shelf count:** 42'' high, no shelf, 50'' and 57'' high include 1 shelf, 64'' high includes 2 shelves.
- **Price Additions:**
  - Add $40 to the list price per standard key lock.
  - Add $15 to the list price per pull for Anodized Nickel (AN) or Anodized Aluminum (AA) finish.
- **Mixed Laminate Finishes:** Work surface stackers specified with mixed laminate finishes are L2 pricing. Refer to Mixed Laminate Finishes for further details.

### Application Notes

- Work surface stackers 24" deep (nominal) have a 23 1/2" deep case; 24 7/8" overall depth including door.
- Work surface stackers mount directly to a 23 1/2" deep work surface; mounting tape included.
- Elevation height represents the overall nominal height of a stacker when mounted to a standard height work surface.

**Order Information**

1. *Base Pattern Number*
2. *Fabric Finish*

**Order Code**

**Specification Information**

Tackboards are designed to fit within the inset back of a parallel work surface stacker specified with inset back option. Tackboards are not compatible for use on stackers with standard back.

**Application Notes**

Elevation height represents the overall nominal height of a stacker when mounted on a standard height work surface.
Overhead Storage Specification

Technical Specifications

Anchor Overhead Storage
Anchor Overhead Storage units are wood construction cabinets designed to be wall mounted for above desk storage.

Overhead Storage units have a preassembled case. Sliding doors are to be field-installed.

Available Sizes (nominal)
Height: 16''
Widths: 24'', 30'', 36'', 42'', 48'', 60'', 72'', 84''
Depth: 15''

Configurations include:
Open
Sliding Door (Left Hand)
Sliding Door (Right Hand)

Construction
- Overhead Storage units are constructed of wood core, laminate and ABS edge banding; cam and dowel construction.
- Material thickness: 1 1/16'' (nominal) on overhead top and bottom; 3/4'' on back, sides, interior shelves and door fronts.

Internal Clearances*
- Internal height 13 3/8''
- Internal width by nominal configuration size:
  24'' w overall = 22 1/2'' w
  30'' w overall = 28 1/2'' w
  36'' w overall = 34 5/8'' w
  42'' w overall = 40 1/8'' w
  48'' w overall = (2) 22 1/6'' w sections
  60'' w overall = (2) 28 1/6'' w sections
  72'' w overall = (2) 34 1/6'' w sections
- Internal depth clearance:
  Open units: 13 3/8''
  Sliding Door units: 12 1/4''

*Actual dimensions to the nearest 1/16th of an inch

Locks
Anchor Overhead Storage units with sliding door may be ordered with or without locks. No lock hole is drilled on units specified as nonlocking.

Locks are randomly keyed unless otherwise specified. Other keying options include keyed alike or keyed with lock cores K001-K250. To specify units as such, reference KnollKey Lock Program.

Pulls
Finger Pull, 10'' long, positioned vertically on doors.

Overhead pulls are field installed.

Order Code

Overhead Storage Unit, 48" wide with LH Sliding Door, locking

Example: **WOWOP48L**

- W = Woodcore Storage
- SD = Sliding Door
- 48 = 48" Wide
- LH = Left Hand
- (L) = Lock option, Locking
- (118) = Case Finish
- (118) = Front Finish
- (118) = Top Finish
- (T) = Pull Style
- (118) = Pull Finish
- (C) = Lock finish, Chrome

Specification Information

- Add $40 to the list price per standard key lock.
- Add $15 to the list price per pull for Anodized Nickel (AN) or Aluminum (AA) finish.
- Overhead specified with mixed laminate finishes are L2 pricing. Refer to Mixed Laminate Finishes for further details.
- Dimensions listed under w h d are actual to the nearest \(\frac{1}{16}\)".
- Overhead units 48" and wider feature a centered midpanel.
- Overhead units do not include shelves. Shelves must be specified separately.

Application Notes

- Overheads have a preassembled case, Sliding door and door pull to be field installed.
- Overheads have a 14\(\frac{3}{8}\)" deep case. Overheads with a door are 15\(\frac{1}{16}\)" deep overall.
- Wall-mount Overheads ship with 2-piece wall mounting cleat set.
- Knock does not assume any responsibility for the installation, attachment or the securing of wall hung units to the wall. A certified building contractor should be consulted.

Wall storage is not included.

Overheads are not designed to be installed at desk-height or below.

### Order Information

1. Base Pattern Number
2. Finish

Example: WOWSF4801L

- W: Woodcore Storage
- OW: Overhead, Wall Mount
- SF: Shelf
- 48: for half of 48" w unit
- 01: Single Shelf
- L: Laminate
- (118): Finish

### Specification Information

Overhead units 48" and wider feature a centered midpanel. Shelves specified for units with a midpanel are sized to fit in one half of the unit. If a shelf is desired in both halves of the unit, two shelves must be specified.

Dimension listed under w h d are actual to the nearest \( \frac{1}{16} \)".

---

95
Anchor Slide Out Towers
Anchor Towers are 15" and 18" wide wood construction cabinets offered in 2 heights designed to correspond with Dividends Horizon panel heights. Slide Out Towers are available left or right handed and feature a side access interior offered in two customizable configurations, detailed below.

Available Sizes (nominal)
Height: 42", 50"
Widths: 15", 18"
Depth: 24", 30"

Slide Out Tower Interior Details
All Slide Out Towers include a 7" fixed upper shelf and shallow bin at the bottom. 30" deep towers include a 5/4" coat cubby at the back with a dual-prong coat hook. 24" deep towers do not include a coat cubby or coat hook.

1) Adjustable Shelves Interior additionally includes 2 adjustable shelves; not compatible with slatwall tools. White interior finish.

2) Slatwall Interior additionally includes slatwall below the fixed shelf, for use with slatwall tools, specified separately. Adjustable shelves may be specified separately. White interior finish with gray slatwall.

Construction
- Towers are constructed of wood core, laminate and ABS edge banding; cam and dowel construction.
- Material thickness: 1/16" (nominal) on tower top, bottom, and vertical and horizontal midpanels, 3/4" on tower back, sides, all other interior shelves, doors and drawer fronts
- Leveling glides: 7/16" diameter steel stem with 1/4" of height adjustment, 4 per tower.

Locks
Anchor Towers may be ordered with or without locks. No lock hole is drilled on units specified as non-locking.

Locks are randomly keyed unless otherwise specified. Other keying options include keyed alike or keyed with lock cores K001-K250. To specify units as such, reference KnollKey Lock Program.

Pulls
Finger Pull, 10" long, horizontal position.

**Specification Information**

Common tops are designed to be used for two same-sized Anchor Slide Out Towers specified without an individual finished top.

**Application Notes**

Common tops are field installed.
Anchor Towers
Anchor Towers are 24" and 30" wide wood construction cabinets offered in 4 heights designed to correspond with Dividends Horizon panel heights. Towers ship assembled including a finished top.

Available Sizes (nominal)
Height: 42", 50", 57", 64"
Widths: 24", 30"
Depth: 24" 

Towers are categorized by the upper configuration (A) and include 2 pedestal options (B) and 1 locker option (C). Towers are available in left or right hand, defined by the location of the locker. (Right hand tower shown below.)

Configuration Options:
A: Upper Configuration
Side Access (open)
Front Access Open
Front Access with Door
B: Pedestal Configuration
Box/Box(file front)/File
File/File
C: Locker Configuration
Full Door

Side Access tower, Front Access Open tower

Front Panel for Side Access Tower

A laminate, markerboard or tackboard front panel may be specified (separately) for Side Access towers. To accept front panel mounting, Side Access tower must be specified with a drilled front.

Construction
- Towers are constructed of wood core, laminate and ABS edge banding; cam and dowel construction.
- Material thickness: 1 1/16" (nominal) on tower top, bottom, and vertical and horizontal midpanels, 3/4" on tower back, sides, all other interior shelves, doors and drawer fronts
- Leveling glides: 5/8" diameter steel stem with 1/16" of height adjustment, 4 per locker.
- Longer glides are included to provide an additional 1/16" of height adjustment; 2 per pedestal.

Locks
Anchor Towers may be ordered with or without locks. No lock hole is drilled on units specified as non-locking.

Locks are randomly keyed unless otherwise specified. Other keying options include keyed alike or keyed with lock cores K001-K250. To specify units as such, reference KnollKey Lock Program.

Pulls
Finger Pull, 10" long, vertical pulls on 42" towers are 8" long.

Pull Position:
Doors: vertical, 1 1/8" below top edge of door.
Drawers: centered horizontally
Top drawer: 3/4" from bottom of drawer
Bottom drawer: 1/4" from top of drawer

Tower doors open from midpanel; hinges are located on the end panels.

```

**Specification Information**

Refer to Tower Shelf count for number of included shelves with each interior configuration.

Add $40 to the list price per standard key lock.

Add $15 to the list price per pull for Anodized Nickel (AN) or Aluminum (AA) finish.

Towers specified with mixed laminate finishes are L2 pricing. Refer to Mixed Laminate Finishes for further details.

Dimensions listed under w h d are actual to the nearest 1/16".

**Application Notes**

Towers 24" deep (nominal) have a 23 3/8" deep case; 24 3/8" overall depth including door.

Towers with full door include a coat hook to be field installed.

Pedestal File drawer allows for front-to-back letter filing. For legal filing, specify a Series 2 DS1PFS File Support Channel separately.

#### Specification Information

Front panels include mounting bracket to install on side access tower. *Side access towers must be specified with a drilled front to accept front panel mounting hardware.*
Anchor Workstation Lockers
Anchor Workstation Lockers are 12” wide wood construction cabinets offered in 3 depths and 4 heights designed to correspond with Dividends Horizon panel heights.
Workstation Locker configurations include all open with shelves or enclosed with a door.

Available Sizes (nominal)
Height: 42”, 50”, 57”, 64”
Widths: 12”
Depth: 20”, 24”, 30”

Workstation Lockers ship assembled including a finished top.
Workstation Lockers may be used in freestanding applications or used to support one end of a worksurface with WLLB L-bracket accessory.

Anchor Raised Storage
Workstation Lockers for use with Feet must be specified with applicable Anchor Foot Kit. Foot Kit is not included with cost of locker unit. Feet are nominally 3” high and include a leveling glide. Height of 3” foot is included in overall noted height of Workstation Lockers for use with Feet.

Construction
- Lockers are constructed of wood core, laminate and ABS edge banding; cam and dowel construction.
- Material thickness: 13/16” (nominal) on locker bottom, 3/4” on locker back, sides, subtop, interior shelves and doors.
- Material thickness: 5/8” (nominal) on locker tops (specified separately)
- Leveling glides: 7/16” diameter metal stem with 11/16” of height adjustment, 4 per locker.

Locks
Anchor Lockers may be ordered with or without locks. No lock hole is drilled on units specified as non-locking.
Locks are randomly keyed unless otherwise specified. Other keying options include keyed alike or keyed with lock cores K001-K250. To specify units as such, reference KnollKey Lock Program.

Pulls
Finger Pull, 10” long; vertically positioned 1 1/8” below top edge of door; exceptions shown below.

- WLW Anchor Workstation Locker

42 42" High
12 12" Wide
OS Open with Shelves
L Laminate
(118) Case Finish, Bright White

Specification Information

Workstation Locker Includes a finished top.

Open Workstation lockers include full depth adjustable shelves. Shelf quantity varies by height as follows:
- 42" h: 2 adjustable shelves
- 50" h: 3 adjustable shelves
- 57" h: 3 adjustable shelves
- 64" h: 4 adjustable shelves

Add $40 to the list price per standard key lock. Add $605 to the list price per digital keypad lock and $672 for RFID lock. Lockers with double doors require two locks; lockers with triple doors require three locks.

Digital keypad and RFID locks require program and manager key(s), specified separately. See specification page for details.

Add $15 to the list price per pull for Anodized Nickel (AN) or Anodized Aluminum (AA) finish.

Lockers specified with mixed laminate finishes are L2 pricing. Refer to Mixed Laminate Finishes for further details.

Dimensions listed under w h d are actual to the nearest ¼".

Application Notes

Lockers 20" deep (nominal) have a 19¾" deep case; 20" overall depth including door. Lockers 24" deep (nominal) have a 23½" deep case; 24¾" overall depth including door.

Lockers 30" deep (nominal) have a 29½" deep case; 29¾" overall depth including door.

Worksurface Lockers with full door include a dual-prong coat hook, factory-mounted to the underside of the top.

Workstation Lockers 64" high x 20" deep require WLCWKIT09 when used in freestanding applications.

### Order Information

1. **Base Pattern Number**
2. **Finish**

   See Finish Options page

### Order Code

- **Workstation Locker Shelf, 12W**
- **Example**: WLWSF122001L
- **WLWS**: Anchor Workstation Locker Shelf
- **F**: Full Depth
- **12**: 12" Wide locker
- **20**: 20" Deep locker
- **01**: Single Shelf
- **L**: Laminate
- **(118)**: Finish, Bright White

### Specification Information

- For use with Anchor Workstation Lockers only. May not be used on standard WL Anchor lockers.
- Edgebanding preselected to match or coordinate with laminate. See "Finish Options" page for further details.

### Application Notes

- WLWSF Partial Depth shelves may be used in any Workstation Locker 20", 24" or 30" deep.
- WLWSF1220, 20" full depth shelf may also be used in 30" deep Workstation Lockers to serve as partial depth shelf.
Anchor Lockers
Anchor Lockers are 12" wide wood construction cabinets offered in 2 depths and 5 heights.

Locker configurations include all open with shelves or enclosed with a door. Multiple door option is available in limited heights. Reference the Statement of Line for full product scope.

Available Sizes (nominal)
Height: 42", 50", 57", 64", 71"
Widths: 12", 24"-
Depth: 20", 24"

Lockers ship assembled excluding the top. Locker tops must be specified separately.

Lockers may be specified with a full-width individual top or specified in banks with a common top spanning up to eight units. They may be installed facing the same or opposite direction. Lockers may also be used to support one end of a work surface utilizing the accessory L-bracket.

Stability Requirements
Lockers 42", 50" and 57" high and 64" high x 24" deep lockers may be planned in freestanding applications without counterweight.

64" high x 20" deep require a field installed counterweight kit (WLCWKIT09) if planned in individual, freestanding applications. Lockers planned in banks of 2 or more do not require counterweight.

71" high lockers may not be planned as individual, freestanding units. 71" high lockers must always be planned in banks of 2 more lockers, or if planned individually, must be ganged to a wall or another storage unit for stability.

Lockers with common top (specified separately) spanning up to eight lockers

Locker supporting one end of a work surface utilizing L-bracket accessory

Construction
- Lockers are constructed of wood core, laminate and ABS edge banding; cam and dowel construction.
- Material thickness: 11/16" (nominal) on locker bottom, 9/16" on locker back, sides, subtop, interior shelves and doors.
- Material thickness: 1 5/16" (nominal) on locker tops (specified separately)
- Leveling glides: 1/8" diameter steel stem with 1/16" of height adjustment, 4 per locker.

Internal Clearances*
All Open with Shelves
Internal height:
• 42" high: A: 11 1/8", B: 12 3/8"
• 50" high: A: 11 1/8", C: 19 5/8"
• 57" high: A: 11 1/8", D: 13 3/8"
• 64" high: A: 11 1/8", E: 16 3/8"
• 71" high: A: 11 1/8", F: 20 1/8"

Internal width: 10 5/8"
Internal depth: 18 3/8", 22 3/4"*

*Actual dimensions to the nearest 1/16 of an inch

Locks
Anchor Lockers may be ordered with or without locks. No lock hole is drilled on units specified as non-locking.

Locks are randomly keyed unless otherwise specified. Other keying options include keyed alike or keyed with lock cores K001-K250. To specify units as such, reference KnollKey Lock Program.

Keyless lock options with automatic bolt are available. Refer to Digital Keypad and RFID Lock Specifications for detail.

Pulls
Finger Pull, 10" long; vertically positioned 1 7/8" below top edge of door; exceptions shown below.

* Middle shelf position can only accept a partial-depth shelf
** One shelf position per interior section
*** Two shelf positions per interior section
**Locker Coat Hook and Coat Rod specifications**

**Locker with coat hook factory-installed**
Sample pattern number: WL5724FHRHL(N)
*Locker, Full Door, including coat hook*

Includes:
- One full-depth shelf
- Coat hook, factory-installed, see hook location details below

Also shown:
- Two partial-depth shelves *(must be specified separately)*
- Locker top *(must be specified separately)*

This configuration allows for storage shelves at the back of the locker and coat storage at the front of the locker to maximize internal space.

![ Locker cross-section ]

**To specify a locker with custom coat hook location:**
- Locker (not including a hook) - sample pattern number WL5724FDRHL(N)
- Coat hook (pattern number WACH); field-installed
- Locker top specified separately

**To specify a locker with a coat rod:**
- Locker (not including a hook) - sample pattern number WL5724FDRHL(N)
- Coat rod (pattern number WLCR); field-installed
- Locker top specified separately

---

**Coat hook standard location:**

Coat hook is located on the same side panel as the door hinges.

- 3 1/2" (on center) from front edge of 20" deep locker case
- 5 7/8" (on center) from front edge of 24" deep locker case
- 1/2" below inner top (42", 50", 57", 64" high lockers)
- 1/2" below top shelf location (71" high locker)

### Order Information

1. **Base Pattern Number**
2. **Laminate Finish**
   - See Finish Options page
3. **Edge Finish**
   - See Finish Options page

**Order Code**

- **WLT** Anchor Locker Top
- **12** 12” Wide
- **20** 20” Deep
- **L** Laminate Finish
- **118** Laminate Finish, Bright White
- **118** Edge Finish, Bright White

**Specification Information**

- For use with Anchor Lockers only.
- Back-to-back tops are designed to be used over lockers of the same depth, positioned back-to-back flush with no gap.

**Application Notes**

- Locker tops are 19” and 23” deep nominal.
- Locker tops include hardware kit to secure to locker.
- Common locker tops include hardware to gang lockers together. Individual tops do not include ganging hardware.
- Common locker top design features a slight overhang on all four sides.
- Ganging multiple locker banks together is not allowed. A run of ganged lockers should correspond to common top length with a maximum run of 8 ganged units.

Specification Information

Application Notes

WLLB L-bracket allows for a work surface to be mounted to the side of a locker (of matching depth).
Digital Keypad and RFID Lock Specifications
for Lockers, Floorstanding and Mobile Pedestals

Application
Anchor lockers, floorstanding pedestals and mobile pedestals with Digital Keypad or RFID lock options support applications where units are shared by multiple users providing a secure storage alternative to a standard key lock. This eliminates the use of a standard key which can easily be misplaced or taken offline.

The Digital Keypad lock option requires input of a user-selected 4-digit code while the RFID lock operates when the user presents a compatible RFID card to the lock. To operate, the user must press the C or Key button depending on lock type, enter code or present RFID card, then press the Key button again to lock or unlock the unit.

If an RFID credential is lost or a code is forgotten, a Manager Key (specified separately) can be used to bypass the lost or forgotten credential and unlock the unit. In situations where a user is unable to operate the keypad or RFID reader, a User Key (specified separately) can be utilized to override code input or RFID requirement, allowing the lock to comply with ADA requirements.

Each installation site with Digital Keypad or RFID lock requires one Programming Key and at least one Manager Key, specified separately.

All Digital Keypad and RFID locks are shipped in default Shared Use mode. To operate in Shared Use mode, the user will select an unused unit, place their items within and follow the locking procedure. Once their items are retrieved, the lock will remain unlocked until it is locked by the next user. Locks may be converted to Assigned Use mode in which the lock remains locked until accessed by assigned user(s).

To convert a Digital Keypad lock to Assigned Use mode, follow the sequence listed within the appropriate User Guide.

Specifications and Features
- Brushed Nickel finish
- Vertical body orientation
- Recessed-mount, factory installed
- All metal lock housing
- Automatic (motorized) ½” dead bolt
- Powered by 4 premium AA batteries (included)
- Duracell CopperTop or Energizer brand batteries required. Rechargeable batteries are not recommended.
- Shared Use Mode is default, locks may be converted to Assigned Use Mode
- Tamper guard
- Audible and visible usage indicators
- Lock can be bypassed with a Manager Key if code is forgotten, RFID credential is lost or in case of battery failure.
- LED usage indicator prompts the lock’s LED to flash when the unit is locked, indicating the lock is in use. The default setting for this feature is ON, however the LED usage indicator can be turned off for Digital Keypad locks at any time by following the procedure listed in the user guide.
- Typical battery life is 3-5 years (based on length of usage). Turning the LED usage indicator feature off extends battery life.

Digital Keypad Lock
- Operated with a user-selected 4-digit code

To specify a locker or pedestal with a Digital Keypad lock, select “D” in the pattern number for the lock option. Example: WL5724FDRHL(D) - Locker with full height door 57H x 24D, laminate, Digital Keypad lock. When specified, Digital Keypad lock is factory installed. Instructions for programming are included.

RFID Lock
- Operated with a compatible RFID Card or employee badge.
- Knoll RFID locks operate on 13.56 MHz frequency with both iClass (ISO 15693) and Mifare (ISO 14443). Anchor RFID locks are not compatible with HID systems.

To specify a locker or pedestal with a RFID lock, select “R” in the pattern number for the lock option. Example WL5724FDRHL(R) - Locker with full height door 57H x 24D, laminated, RFID lock. When specified, RFID lock is factory installed. Instructions for programming are included.

Manager Key
- Manager Key is used to bypass a locked unit.
- Manager Keys are registered to locks using the Programming Key.
- Up to (6) Manager Keys may be registered to each lock. This allows the client to design a lock system that suits their management access requirements.
- Additional Manager Key(s) may be registered to a lock without erasing previously registered Manager Keys.
- Provides external power in case of battery failure.

Programming Key
- The Programming Key is a communication device used to initialize locks out of factory default mode and to register Manager Keys to the locks. It is used to transfer, but not store information.
- Only one Programming Key should be specified per installation site. Multiple Programming Keys cannot be used in conjunction with each other.
- Add-on or phased orders for Digital Keypad or RFID locks should be initialized and programmed using the original Programming Key.
- Used to turn on/off Digital Keypad lock features such as LED usage indicator and auto unlock.
- Provides external power in case of battery failure.
- If a programming key is lost, a Replacement Programming Key may be ordered but the original Programming Key will become obsolete.

Manager Key
- Provides external power in case of battery failure.
- Used to turn on/off Digital Keypad lock features such as LED usage indicator and auto unlock.
- Provides external power in case of battery failure.
- If a programming key is lost, a Replacement Programming Key may be ordered but the original Programming Key will become obsolete.

Digital Keypad lock, for lockers and select pedestals
RFID lock, for lockers and select pedestals

To convert an RFID lock to Assigned Use mode, an Assigned Use Reset Key must be used. Reset Key expires 6 weeks from date of order.
Digital Keypad and RFID Lock Specifications

For Credenza and Doublewide Pedestals

Application
Anchor credenzas and doublewide pedestals with drawers 30” wide and larger are available with Digital Keypad or RFID lock options to support applications where workstations are shared by multiple users providing a secure storage alternative to a standard key lock. This eliminates the use of a standard key which can easily be misplaced or taken off site.

The Digital Keypad lock option requires input of a user-selected 4-digit code while the RFID lock operates when the user presents a compatible RFID card to the lock. To operate, the user must press the C or Key button depending on lock type, enter code or present RFID card, press the Key button again then rotate the knob to lock or unlock the unit.

If an RFID credential is lost or a code is forgotten, a Manager Key (specified separately) can be used to bypass the lost or forgotten credential and unlock the unit. In situations where a user is unable to operate the keypad or RFID reader, a User Key (specified separately) where a user is unable to operate the keypad or credential and unlock the unit. In situations where a user is unable to operate the keypad or RFID reader, a User Key (specified separately) can be used to bypass the lost or forgotten credential and unlock the unit. In situations where a user is unable to operate the keypad or RFID reader, a User Key (specified separately) can be used to bypass the lost or forgotten credential and unlock the unit.

Each installation site with Digital Keypad or RFID lock requires one Programming Key and at least one Manager Key, specified separately.

All Digital Keypad and RFID locks are shipped in default Shared Use mode. To operate in Shared Use mode, the user will select an unused unit, place their items within and follow the locking procedure. Once their items are retrieved, the lock will remain unlocked until it is locked by the next user. Locks may be converted to Assigned Use mode in which the lock remains locked until accessed by assigned user(s).

To convert an RFID lock to Assigned Use mode, an Assigned Use Reset Key must be used. Reset Key expires 6 weeks from date of order.

RFID Lock
• Operated with a compatible RFID Card or employee badge.
• Knoll RFID locks operate on 13.56 MHz frequency with both iClass (ISO 15693) and Mifare (ISO 14443). Anchor RFID locks are not compatible with HID systems.

To specify a credenza or doublewide pedestal with a RFID lock, select “R” in the pattern number for the lock option. Example WC2236BL(R) - Credenza, box/file, 22H x 36W, laminate, RFID lock. When specified, RFID lock is factory installed. Instructions for programming are included.

Manager Key
• Manager Key is used to bypass a locked unit.
• Manager Keys are registered to locks using the Programming Key.
• Up to (6) Manager Keys may be registered to each lock. This allows the client to design a lock system that suits their management access requirements.
• Additional Manager Key(s) may be registered to a lock without erasing previously registered manager keys.
• Provides external power in case of battery failure.

Programming Key
• The Programming Key is a communication device used to initialize locks out of factory default mode and to register Manager Keys to the locks. It is used to transfer, but not store information.
• Only one Programming Key should be specified per installation site. Multiple programming keys cannot be used in conjunction with each other.
• Add-on or phased orders for Digital Keypad or RFID locks should be initialized and programmed using the original Programming Key.
• Provides external power in case of battery failure.
• If a programming key is lost, a Replacement Programming Key may be ordered but the original programming key will become obsolete.

Digital Keypad Lock
• Operated with a user-selected 4-digit code

To specify a credenza or doublewide pedestal with a Digital Keypad lock, select “D” in the pattern number for the lock option. Example: WC2236BL(D) - Credenza, box/file, 22H x 36W, laminate, Digital Keypad lock. When specified, Digital Keypad lock is factory installed. Instructions for programming are included.

Digital Keypad Lock
• Operated with a compatible RFID Card or employee badge.
• Knoll RFID locks operate on 13.56 MHz frequency with both iClass (ISO 15693) and Mifare (ISO 14443). Anchor RFID locks are not compatible with HID systems.

To specify a credenza or doublewide pedestal with a RFID lock, select “R” in the pattern number for the lock option. Example WC2236BL(R) - Credenza, box/file, 22H x 36W, laminate, RFID lock. When specified, RFID lock is factory installed. Instructions for programming are included.

User Key
• User Keys allow ADA access to Digital Keypad or RFID locks for users unable to operate the keypad or RFID reader.
• User Keys are used by touching key to prongs of the lock to lock and unlock the unit.
Digital Keypad and RFID Lock Specifications

Manager key Counts

Calculating the total number of manager keys
The Digital Keypad and RFID lock systems are flexible, allowing the client to choose the number of manager keys required. Solutions may range from simple to complex, depending on client needs. It may be helpful to create a chart to organize and calculate the number of manager keys required, similar to the examples shown below.

Considerations:
• If units will be located on different floors, consider ordering keys that can be registered to bypass all locks as a floor-specific “master key”.
• If units will be located within different zones or areas, consider ordering keys that can be registered to locks within specific zones on each floor.
• If the client would like to create a “master key”, one or more manager keys can be registered to all locks to act as a “master key”.

Manager key count examples
Sample project is a three story space, each floor is divided into three zones containing a varied number of lockers. Example 1 is a simple lock system showing two manager keys registered to all locks, regardless of floor or zone. Example 2 is a more complex solution showing manager keys registered to locks in a layered approach. At the lowest management level, keys are registered specific to zone, followed by keys that are floor-specific and at the top level, keys are registered to all locks to be used as overall master keys.

The manager key counts shown in the examples are sample numbers; the ratio of manager keys to the number of locks is decided by the client.

Example 1:
Two (2) manager keys registered to all locks throughout the space. No manager keys registered specific to floor or zone.

Example 2:
• Manager keys registered to all locks within each specific zone on each floor. Number of manager keys is decided by client. Once registered, these manager keys may be used to bypass any lock within that zone on that floor, but will not be able to bypass any of the other units.
• One (1) manager key for each floor registered to all locks in all zones on that floor, used as first, second and third floor “master keys”.
• Two (2) manager keys registered to all locks, in all zones on all floors used as “overall master keys”.

*MK = Manager Key(s)

---

## Electrical System Specifications

**Anchor Raised Storage**

### Anchor Raised Storage, Electrical System

Anchor Raised Storage components can be powered by a modular distribution system. From a single point of connection to the building power supply, the Anchor Electrical system can distribute four 20-amp circuits. Two 8-wire systems are available:

- **3 + 1**
- **2 + 2**

System components include:

- Distribution Harness
- Power Infeed
- Jumper Cable
- Duplex Receptacle
- Distribution Cover
- Desktop Power Module

All components with the exception of the desktop power modules must be specified for appropriate 3+1 or 2+2 system. Components with varying circuitry may not be combined with one another.

All electrical components are field installed.

### 3 + 1 and 2 + 2 Electrical Systems

Each electrical system is designed for different usage.

The 2+2 electrical system is for areas requiring 2 circuits for standard power usage and 2 circuits for isolated power usage.

The 3+1 electrical system is for areas requiring significant power usage and an isolated circuit.

### Distribution Harness

The central component of the system is the distribution harness, which mounts beneath Anchor Raised storage components. The distribution harness accepts snap-in duplex outlets on each face which are concealed by steel distribution covers, specified separately. Each end of the harness has ports for two jumper cables, or a power infeed and a jumper cable. The power infeed connects power from a building junction box, and jumpers connect power from one harness to another, in either direction.

Distribution harnesses are 12” wide, 3” high and 2.5” deep with two duplex outlet location on each face providing access for up to four total duplex outlets per harness. Duplex outlets must be specified separately to access one of the four circuits.

### Power Infeed

The infeed includes a modular connector with a 36” or 72” pigtail to connect from a junction box in the floor and distribute power to the first distribution harness within a run. The power infeed may plug into any of the four port positions of the distribution harness.

Each run of electrical components must have only one power infeed.

**CAUTION: DO NOT CONNECT POWER UNTIL INSTALLATION IS COMPLETE. CONNECTION TO THE BUILDING POWER SOURCE MUST BE PERFORMED BY A LICENSED ELECTRICIAN.**

Refer to local codes for any specific requirements or restrictions.

### Jumper Cable

Jumper cables link power between distribution harnesses beneath adjacent Anchor Raised Storage components. Jumper cables are available in various lengths 15” to 96” in length.

Jumper cables feature a black metallic liquid-tight coating which runs the full length of the conduit. Flexible conduit allows jumper cables to bend around corners. Minimum bend radius is 3.5”.

Jumper cables include conduit mounting clips for attachment beneath Anchor storage units.

### Duplex Receptacles

Duplex outlets are field-installed into distribution harnesses providing access to power. Install up to two duplex receptacles per face for access from either or both sides of the harness.

Duplex receptacles for all circuits can be specified in black with white letters identifying circuits. Outlets for isolated circuits are also available in orange with black letters or black with orange triangle and letters to designate protected circuits.

### Distribution Cover

Distribution covers snap onto distribution harness face to provide a clean appearance. One distribution cover per harness is recommended to conceal harness face. If desired, an additional distribution cover may be specified to conceal the rear facing side of the harness. Each distribution cover includes two cutouts to maintain access to duplex outlets. If needed, specify Dividends Horizon DE2KC10 Knockout Replacement Cover to fill any unused outlet opening.

Knockout covers are designed to closely mimic the appearance of adjacent power outlets. Knockout covers are black injection molded plastic, available in packages of 10.

### Power Capacity

Depending on national and local electrical codes, and the anticipated load of a particular application, typically each circuit can power 8-10 convenience duplex receptacles with normal loads. In heavier load situations, each circuit will power 3-5 duplex receptacles. If each workstation has two convenience duplex receptacles and one protected duplex receptacle, the 8-wire (4-circuit) system can supply a cluster of 6-10 workstations from each infeed. A single infeed may not exceed 52 total duplex receptacles.
2+2 Electrical System
Designed for areas where power usage is significant with sensitive electronic equipment requiring two isolated circuits.

The wiring configuration of the 2+2 electrical system is (see chart):

- Hot “1” (black)
- Hot “2” (red)
- Shared neutral “N1” (white/black) for circuits 1 and 2
- Shared ground “G1” (green) for circuits 1 and 2
- Hot “4” (tan)
- Hot “5” (pink)
- Isolated shared neutral “N2” (white/red) for circuits 4 and 5
- Isolated shared ground “G2” (green/yellow) for circuits 4 and 5

2+2 Duplex Receptacles
- Convenience duplex circuit number 1 (pattern number WE8R1)
- Convenience duplex circuit number 2 (pattern number WE8R2)
- Isolated duplex circuit number 4 (pattern number WE8R4)
- Isolated duplex circuit number 5 (pattern number WE8R5)

3+1 Electrical System
Designed for areas where power usage is significant with sensitive electronic equipment requiring a single isolated circuit.

The wiring configuration of the 3+1 electrical system is (see chart):

- Hot “1” (black)
- Hot “2” (red)
- Hot “3” (blue)
- Shared neutral “N1” (white/black) for circuits 1, 2 and 3
- Shared ground “G1” (green) for circuits 1, 2 and 3
- Hot “4” (pink)
- Isolated shared neutral “N2” (white/red) for circuit 4
- Isolated shared ground “G2” (green/yellow) for circuit 4

3+1 Duplex Receptacles
- Convenience duplex circuit number 1 (pattern number WE8R1)
- Convenience duplex circuit number 2 (pattern number WE8R2)
- Convenience duplex circuit number 3 (pattern number WE8R3)
- Isolated duplex circuit number 4 (pattern number WE8R4)

An optional orange-colored isolated duplex is also available:

- Isolated orange-colored duplex circuit number 4 (pattern number WE8R04)
**Anchor-Dividends Horizon Adapter Jumper**

The adapter jumper provides distribution of power from Anchor Raised storage (UL 183) to Dividends Horizon system (UL 1286) from a single Anchor base infeed. The adapter jumper is specifically designed to interface with Dividends Horizon and may not be utilized to transfer power from Anchor to other Knoll systems.

In certain situations, power may be transferred to the Anchor electrical system (UL 183) from a single infeed to the Dividends Horizon system (UL 1286). Such application is only permissible with Dividends Horizon product produced in 2018 or later. Dividends Horizon components produced prior to 2018 may not be retrofitted to power Anchor electrical components. Refer to local authorities to determine compliance with local codes and requirements of this application.

Transferring power from Anchor (UL 183) to Dividends Horizon (UL 1286) then back to Anchor (UL 183) is not permitted under any circumstance. Conversely, transferring power from Dividends Horizon (UL 1286) to Anchor (UL 183) and back to Dividends Horizon (UL 1286) is not permitted.

**IMPORTANT: Prior to installing adapter cables, disconnect system power supply from infeed source to prevent potential risk of injury.**

While Dividends Horizon duplex receptacles and other electrical components may appear similar to Anchor electrical components, components are not interchangeable between systems.

**Application**

Wiring configuration of the Anchor electrical system and the Dividends Horizon electrical components must correlate when utilizing the Anchor adapter jumper. For example, a 3+1 system may not be connected to a 2+2 system and vice versa.

The Anchor-Dividends Horizon adapter jumper is not compatible with Dividends Horizon 250v electrical system.

The adapter jumper connects an Anchor Distribution Harness to a Dividends Horizon power module by inserting into terminal block and attaching with two screws. Power may then be distributed throughout the Dividends Horizon system through standard Dividends Horizon power jumpers.
Electrical System Specifications

Anchor Raised Storage
Desktop Power Module

**Desktop Power Module**
The Anchor desktop power module provides easily accessible outlets and USB charging ports atop Anchor storage units.

Power modules are available with 3-prong plug or hardwire infeed. When specifying power module with 3-prong plug, standard cord or braided fabric covered cord options are available to achieve desired aesthetic. Hardwire power modules are single circuit with 6-foot pigtail for connection directly to building power source.

**Hardwire power modules must be installed by a licensed electrician.**

Power module includes flush-mount bracket which is installed on-site via two screws. Power modules may be located horizontally in any position along the back edge of any Anchor storage unit. Power modules with standard or braided cord set sit atop surface. Hardwire power modules include 1 1/2" standoff from surface.

**Hardwire Power Module:**
5 7/8" wide x 4 1/4" deep x 3 1/4" deep x 3 1/4" high (overall)

**Standard and Braided Cordset, 3-prong plug:**
5 7/8" wide x 3 3/8" deep x 1 1/2" high (overall)

Power module body, bracket and cord set are white. Power modules with standard or braided corded are available with 36" or 72" cord lengths, plastic cable clips are included for basic cable management. Hardwire power module body and bracket are white with black metallic liquid-tight conduit.

**Application**
Power modules include two simplex outlets and two USB. Power modules may be used in conjunction with Anchor power distribution components or independently.

When used with Anchor power distribution components, the cord drops behind the Anchor storage unit and plugs into rear-facing duplex receptacle installed into distribution harness.

When distribution harness is centered beneath the Anchor Raised Credenza and aligned with the power module location, a 36" cord is adequate. In other situations, including use with Anchor Raised Pedestals and Doublewide pedestals, a 72" cord is recommended. In any application where distribution harness is mounted justified to the front edge of the storage unit, 72" cord must be specified.

**Power modules are not intended for use on mobile components including credenzas or pedestals.**
**Anchor Raised Storage, Electrical**

Electrical components are intended for use only with Anchor Raised Storage components. For safety reasons, electrical components may not be mounted beneath mobile credenzas. For system details, refer to *Electrical System Specifications*.

**Distribution Harness Mounting Locations**

Distribution harness mounting location is determined on-site. Two typical mounting locations are common. A centered beneath the storage unit or B justified to the front of the unit for easily accessible convenience outlets. When mounting justified to the front, maintaining a 4" setback will allow adequate clearance to conceal plug head beneath the storage case.

**Power Distribution via Distribution Harness**

Power supply provided by power infeed or jumper cable may connect to any of the four distribution harness ports. Additional jumper cable(s) connect to any of the 1-3 remaining plug ports to further distribute power to subsequent distribution harnesses.

**Planning Inline Jumper Cables**

To calculate the jumper length required to join harnesses centered beneath Anchor storage units, subtract 12" from the on-center distance between the two harnesses.

\[
\text{length} = x - 12
\]

To calculate the jumper length required to join harnesses justified to the front of Anchor storage units, subtract 6" from the on-center distance between the two harnesses.

\[
\text{length} = x - 6
\]

Distribution harnesses planned immediately next to one another can be connected with the 15" jumper. This enables storage units 42" wide and larger to be served by more than four duplex outlets.

**Panel Pass-Through**

Jumper cables may pass through Dividends Horizon panels through the data knockout location centered horizontally on base raceway covers.

- 18W
- 24W
- 30W
- 36W
- 42W
- 48W
- 60W

Alternately, panel glides may be extended to allow jumper cables to pass under panel.

**Minimum Bend Radius**

Jumper cables and infeed conduit require a minimum bend radius of 3.5". 90-degree bends require 4 square inches. Attempting to bend conduit tighter may result in permanent damage to conduit.
Electrical Planning Guidelines

Anchor Raised Storage

Planning Jumper Cables Through Panels

Exact jumper cable length will vary based on specific application.

Example:

- **A** Center justified (1) 60" wide panel, 36" jumper cable

- **B** Front justified (1) 60" wide panel, 66" jumper cable

- **C** Center justified (2) 30" wide panels, 36" jumper cable

- **D** Front justified (2) 30" wide panels, 66" jumper cable

### Order Information

1. **Base Pattern Number**

   **Order Code**
   - Power Infeed, (2+2) Systems, 36" L
     - Example: WE8P836
     - W: Anchor
     - E: Electrical
     - 8: 8 Wire
     - PI: Power Infeed
     - 36: Length

   **Specification Information**
   - **Power Infeed**
     - Modular end with 8-wire whip
     - Liquid-tight conduit
   - **Distribution Harness**
     - Four modular ports, 2 per end
     - Provides power for 1-4 duplex receptacles
   - **Distribution Cover**
     - Black painted steel with two duplex access cutouts

   **Included with:**
   - Power Infeed
     - Conduit clips and hardware
   - Distribution Harness
     - Attachment hardware

### Specification Information

- Desktop power modules are single circuit and include 2 simplex outlets and 2 USB charging ports.
- Module body, mounting bracket and standard cordset are white.
- Braided cordset includes mesh fabric covering the cordset. Braided mesh fabric is available in white or grey.
- Hardwire power module body and bracket are white with black liquid-tight conduit.

### Included with:

- Mounting Bracket
- Mounting Hardwire
- Cable Clips
Wall Mounting Suggestions
The following information is provided only as a guide, and represents minimum recommendations only. Knoll does not accept responsibility for the attachment of any Knoll product to a Customer's site wall. Wall specification/construction is the responsibility of the Customer and its structural engineer/architect. Failure to properly attach Knoll products to adequate wall structures can lead to property damage and/or personal injury.

You should consult your own structural engineers and/or architects and must not rely on the information provided herein.

It is the responsibility of the Customer and its structural engineers/architects to verify that the permanent structural walls (studs, blocks, solid masonry, etc.) on which the Knoll products are intended to be mounted are designed appropriately to support the product weight, PLUS 3 lbs. per linear inch for each useable shelf length.

NOTE: A cabinet’s top is considered a “useable shelf” and MUST be included in the calculation of the total load for an overhead cabinet.

It is the responsibility of the Customer and its structural engineer/architects to specify the fasteners and method for attaching the Knoll supplied wall mounting cleat, bracket, frame, etc. to the supporting wall and to confirm that the installers have adhered to these specifications. For all local building standards and codes, and additional requirements (including, but not limited to, seismic conditions) the Customer should always consult local code agencies.
Wall Mounting of Knoll Products

</tbody>
</table>

**Mounting the Knoll Supplied Cleat, Bracket, Frame, etc**

- Insert a 2” X 6” wood block, #2 grade or better, [or a Danback™ flexible wood backing system] horizontally between each of the studs to accommodate the full width of the cabinet, and beyond to the next stud.
- Fasten the wood block to each stud using three screws at the ends of each block.
  - Fasten the Danback™ as directed by the manufacturer
  - Fasten the Knoll supplied wall mounting cleat, bracket, frame, etc directly to each wood block every 6”
  - For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood blocking every 6”, and fasten the lower horizontal element to each wall stud, using one fastener per stud.
- Fasten the wood block to each stud using three screws at the ends of each block.
  - Replace the drywall and repair as desired.
- Fasten the Knoll supplied wall mounting cleat, bracket, frame, etc directly to the wood block every 6”
  - For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood blocking every 6”, and fasten the lower horizontal element to each wall stud, using one fastener per stud.

**Fasten the Knoll supplied wall cleat with...**

- #10 x 2 1/2” Grabber Woodys Screws or equiv. @ 6” c/c, screwed directly into the wood blocking
- #10 x 2 1/2” Grabber Woodys Screws or equiv. @ 6” c/c, screwed directly into the wood blocking
- #10 x 2 1/2” Grabber Woodys Screws or equiv. @ 6” c/c, screwed directly into the wood blocking
- #10 x 2 1/2” Grabber Woodys Screws or equiv. @ 6” c/c, screwed directly into the wood blocking
- #10 x 2 1/2” Grabber Woodys Screws or equiv. @ 6” c/c, screwed directly into the wood blocking
- #10 x 2 1/2” Grabber Woodys Screws or equiv. @ 6” c/c, screwed directly into the wood blocking

---

**EXISTING CONSTRUCTION**

- Insert a 2” X 6” wood block, #2 grade or better, [or a Danback™ flexible wood backing system] horizontally between each of the studs to accommodate the full width of the cabinet, and beyond to the next stud.
- Fasten the wood block to each stud using three screws at the ends of each block.
  - Fasten the Danback™ as directed by the manufacturer
  - Fasten the Knoll supplied wall mounting cleat, bracket, frame, etc directly to each wood block every 6”
  - For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood blocking every 6”, and fasten the lower horizontal element to each wall stud, using one fastener per stud.
- Fasten the wood block to each stud using three screws at the ends of each block.
  - Replace the drywall and repair as desired.
- Fasten the Knoll supplied wall mounting cleat, bracket, frame, etc directly to the wood block every 6”
  - For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood blocking every 6”, and fasten the lower horizontal element to each wall stud, using one fastener per stud.

**Fasten the Knoll supplied wall cleat with...**

- #10 x 2 1/2” Grabber Woodys Screws or equiv. @ 6” c/c, screwed directly into the wood blocking
- #10 x 2 1/2” Grabber Woodys Screws or equiv. @ 6” c/c, screwed directly into the wood blocking
- #10 x 2 1/2” Grabber Woodys Screws or equiv. @ 6” c/c, screwed directly into the wood blocking
- #10 x 2 1/2” Grabber Woodys Screws or equiv. @ 6” c/c, screwed directly into the wood blocking
- #10 x 2 1/2” Grabber Woodys Screws or equiv. @ 6” c/c, screwed directly into the wood blocking
- #10 x 2 1/2” Grabber Woodys Screws or equiv. @ 6” c/c, screwed directly into the wood blocking

This Selling Policy supersedes all previous selling policies and is inclusive of Knoll, KnollStudio and Muuto. Prices, discounts and product offerings are subject to change without notice.

Sales by Knoll, Inc. or Knoll North America Corp. (“Seller”) of Knoll Product Lines (hereinafter “Products”) within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser’s assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supersede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.

Ordering Information
All orders must be in writing. The product pattern number(s) contained on Seller’s order acknowledgement shall be the final expression of the order.

Order Confirmation
A purchase order is not binding on Seller until Purchaser has received Seller’s order confirmation or acknowledgment.

Pricing Policies
List prices are subject to change without notice. List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller’s list prices.

Taxes
All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.

Terms of Payment
Payment for one hundred percent (100%) of the net order amount (including any applicable shipping and handling fee) is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice. KnollStudio orders less than $2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than $2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment. If, in the judgment of Seller, Purchaser’s financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance. Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney’s fees and costs.

Changes and Cancellation
Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including “COM” (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.

Freight Prepaid
QuickShip orders may not be changed or canceled without Knoll’s authorization. In the event of Mutoo order changes, 25% payment of original net order amount is required for changes incurring the week the order is scheduled to ship. If Mutoo is ordered on QuickShip, the QuickShip policy supersedes. For standard orders, freight is prepaid included in the price of allKnoll Office and KnollStudio Products, except KnollTextiles and Muuto, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.

Delivery/Freight Charges
Freight for all Muuto orders must be specified at time of order placement and added to the PO. For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination. Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing. Nonstandard methods of shipment and/or additional services are available upon request. Orders for QuickShip product shipping direct parcel or White Glove are subject to additional shipping and handling charges and must be paid by Purchaser. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser’s request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.

Claims
Partial shipments may be made and invoiced by Seller.

All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for any other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability to Purchaser for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.
Selling Policy

**Seller's Security Interest**

Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

**Returns**

The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.

**Held Orders/Storage**

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.

**Customer's Own Material**

A Purchaser who requests a fabric or other surface material not standard to Seller’s line of Products (“COM”) must submit samples of the requested material to Seller prior to entry of a purchase order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.

**Delay/Force Majeure**

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of war or terrorism, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

**Compliance with Law**

Purchaser is solely responsible for compliance with all applicable federal, state and local laws, ordinances, regulations, rules and standards relating to the installation, maintenance, use and operation of the products.

**Patents**

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:

- Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
- Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
- Any settlements of a suit or proceeding made without Seller’s written consent.

**Limitations of Liability**

Seller, its contractors, authorized dealers and subcontractors or suppliers of any tier shall not be liable to Purchaser for any special, indirect, incidental or consequential damages arising from a breach of this Agreement.

Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.

**Warranty**

Please visit warranty website link [https://www.knoll.com/help/warranty](https://www.knoll.com/help/warranty) for up-to-date information.

KnollKey Lock Program

General Information

Following is the KnollKey lock policy, applicable to all products.

Knoll furniture can be ordered keyed-alike or random keyed. Key-alike and random keying instructions cannot be mixed on any single order. Only one of the two instructions can be used on an individual order. When an order is submitted with mixed (key-alike and random) instructions, Knoll will release the order as key-alike only and lock cores will have to be specified separately.

Key-alike

For the convenience of the user, furniture may be keyed alike at no charge. Write “Key-alike” in the description of your purchase order for any pedestal, overhead, file or other item you wish to have keyed alike.

Using the key-alike instructions, order cores and keys as line items on your purchase order. Do NOT submit a key-alike form. The Knoll East Greenville Lock Center will select key numbers from the standard range of K 001 - K 250. Key numbers will not be repeated unless over 250 sets are ordered. Lock cores keyed-alike will ship separately from the product, ready for field installation.

There is no charge for key-alike orders if placed with the furniture order. IF THE KEY-ALIKE ORDER IS NOT PLACED AT LEAST TWO WEEKS PRIOR TO THE FURNITURE SHIP DATE, A $50 HANDLING CHARGE AND AIR FREIGHT CHARGES WILL APPLY.

If product is ordered and shipped random-keyed, additional lock cores for key-alike are billable.

Random-Keying

To specify product keyed-random, write “key-random” in the product description. Random-keyed product is shipped with the lock core factory installed. A shrouded key is included. Random means no effort has been made to match key numbers, or to make them different.

Keys

A Knoll shrouded key is shipped with every lock core. 250 Key numbers are available. For numbers above 250, contact Custom Product Development. Additional keys and key blanks are available. See service parts for more information.

Master Keying

Knoll locks can be controlled by means of a master key. There is no additional per-lock charge for master keying. A letter of approval from the client must accompany orders for master keys.

Installing Lock Cores

Lock cores can be installed or removed in the field by using a change key. Cores must be in the unlocked position to be removed. See service parts for change key pattern number and pricing.

Lock Distribution

All orders for key-alike lock cores/keys are packaged and shipped from the East Greenville Lock Center, regardless of where the pedestals, overhead, or other units are produced. Random keyed product will have cores factory-installed.

How to Specify

Key-Alike

Following is an example of how to specify key-alike for a cluster of 10 workstations.

Step 1 - Using the project floorplan, count the number of locks in each workstation.

Step 2 - Count the number of workstations with the same quantity of locks. Group together the workstations with a like number of locks.

Step 3 - For the first group (5 sets of 2 locks), enter the number of workstations in the quantity column.

Step 4 - Then enter the pattern number “KSPEC_ _” and add a suffix for the number of locks for that group (i.e., for 2 locks per station, add the suffix “2”). Up to 30 lock cores are available in a set (i.e., KSPEC 30).

Step 5 - Repeat for other groups.

General Ordering Information

The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are list.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
P.O. Box 157
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on “About Knoll” and then “Environmental Focus.”
