A Price List Overview
Where do I send my order? How should I maintain my marble table? Using the KnollStudio Price List available on page 613 of the Knoll Essentials program, with limited exceptions. For additional information, please contact your customer service representative or visit Knoll Exchange.

For More Information
For more information, contact your KnollStudio representative, a Knoll Space retailer or e-tailer, or telephone Customer Services at 800 343-KNOLL. To find the retailer or showroom nearest you, visit www.knoll.com.

Product Information On Each Page
On each page, the following features will assist you:

Description provides both the pattern number and a basic description of the product.

Dimensions provide the overall space the product will require. Statistics are based on the maximum width, depth, and height of the product.

Weight is based on the product itself. It does not include packaging. Weights are rounded to the nearest pound.

Weights of upholstered items do not include weight of textile/leather. To calculate total weight, multiply covering requirements by textile/leather weight, and add to product weight.

Pattern Number provides both the product identification number and all additional selections required for ordering. Finish options are enclosed in parentheses. Finish suffix descriptions are found under Finishes on the bottom portion of the page.

Order Code/Ordering Information outlines exactly how to specify KnollStudio product and the full scope of finishes and other options. The Order Code provides an example of how one pattern number on the page is specified.

Construction provides specific materials and finishes employed, as well as specific construction details.

Textiles and Leather Grades list by price group all KnollTextiles and Spinneybeck Leathers approved for each seating piece. This list is derived through careful examination of the textile or leather's distinctive upholstery characteristics and the form and structure of each piece of furniture. KnollTextiles or Spinneybeck leathers that are not listed have been rejected because Knoll cannot ensure their performance on that product. To view the full range of colorways available for each fabric or leather, consult any Knoll or Spinneybeck representative.

Cal 133 Technical Bulletin
Many KnollStudio products meet California Technical Bulletin 133. Information for specifying these products is on page 22. Applicable upcharge will be listed on the respective price list page.

Intertek Clean Air Certification
Intertek's Clean Air Certification validates the level of volatile organic compound (VOC) emissions from products. VOCs are gases emitted from products and include a variety of chemicals that may affect consumers' health in the short- and long-term. Both Intertek Clean Air GOLD and SILVER certifications ensure the user-health, safety and sustainability of KnollStudio products. A selection of Knoll Office and KnollStudio products are Intertek certified Clean Air, most of which are certified GOLD, which imposes more rigorous standards than certified SILVER.

CPSIA Testing
Many knoll kids products meet the consumer Product Safety Improvement Act of 2008 for Children's Products, 16 C.F.R. 1303 CPSIA Title 1 Section 101 for Total Lead in Substrates and Surface Coatings. For a complete listing of approved products, please refer to individual price list pages.

Note to Knoll Dealer Sellers:
The products contained in this price list are also available through the Knoll Essentials program, with limited exceptions. For additional information, please contact your customer service representative or visit Knoll Exchange.

For More Information
For more information, contact your KnollStudio representative, a Knoll Space retailer or e-tailer, or telephone Customer Services at 800 343-KNOLL. To find the retailer or showroom nearest you, visit www.knoll.com.

Leathers, Textiles, and Finishes
Pages 20-21 explains the broad selection of Spinneybeck leathers available for KnollStudio furniture.

Additional upholstery notes and Customer's Own Material (COM) information are available on page 21.

For detailed explanations of the many materials used in constructing KnollStudio furniture, consult page 27. A cross-reference of KnollStudio veneer or lumber finishes with standard Knoll Office veneers is provided on page 26. Easy-care maintenance information is also provided on pages 28-29.

Placing Your KnollStudio Order
For information about where to send your order and key terms and conditions, see page 30.

The complete Knoll Selling Policy is available on pages 611-612.

General Ordering Information and Knoll's Sustainability Statement is available on page 613.

A Price List Overview
Where do I send my order? How should I maintain my marble table? From textile options to wood polishes, the KnollStudio price list is designed to provide you with everything you need to know in order to understand, specify, and care for furniture in the KnollStudio Collection.

This book is divided into three easy-to-use sections:

• Side Chairs and Lounge Seating
• Tables and Executive Office
• Propeller Table Series

For a quick overview of the collection’s scope, review the Visual Index on pages 6. If you’re looking for pieces by a specific designer, try the Designer Index on page 5.

Leathers, Textiles, and Finishes
Pages 20-21 explains the broad selection of Spinneybeck leathers available for KnollStudio furniture.

Additional upholstery notes and Customer’s Own Material (COM) information are available on page 21.

For detailed explanations of the many materials used in constructing KnollStudio furniture, consult page 27. A cross-reference of KnollStudio veneer or lumber finishes with standard Knoll Office veneers is provided on page 26. Easy-care maintenance information is also provided on pages 28-29.

For the ultimate in comfort, durability, and prestige, many KnollStudio products can be upholstered in Spinneybeck leathers.

Spinneybeck leathers are made from the top 2% of the world’s finest hides, inspected numerous times during production to ensure evenness of grain, surface, color and the absence of scars.

After tanning, all Spinneybeck leathers are drum-dyed, a time-consuming procedure which ensures color penetration throughout the hide. Each hide is then finished in the manner which will best bring out its individual character.

Spinneybeck leathers are all full-grain aniline drum-dyed products imported from Italy.

The following Spinneybeck leathers are approved for application on KnollStudio products. Leathers are grouped into five price categories referred to as “grades.” The selection of approved leathers varies by product. Please refer to the pricing page of each product line for more information.

Square footage requirements for Customer’s Own Leather (COL) are listed on the left side of the pricing page. Please refer to Upholstery Notes on page 21 and The Knoll Selling Policy on pages 611-612 for further information regarding COL.

For further information call Spinneybeck at 1-800-482-7777.

Textile and Leather Notes

All seating in this price list includes the cost of applied fabric or leather. To simplify ordering, the seating is arranged into specific upholstery grades and priced accordingly. Samples and prices of cut textiles are available on request. For a full list of the Spinneybeck leathers available, see page 21.

Leather

*The Natural Qualities of Leather*

Natural leather is unique. Because every animal is different, each hide has its own individual color, texture, and life-marks. In fact, our leathers are painstakingly treated to retain their natural appearance and hand. Range marks are not camouflaged. Colors and texture vary, and will do so more with age as the leather mellows and takes on a rich patina.

**Spinneybeck Leathers**

Spinneybeck offers full-grain Italian leathers.

Spinneybeck features three different tanning processes which preserve the leather. The first is mineral tannage, in which chromium salts are used; the second is vegetable tannage, in which bark tanning is used; and the third is a combination of the first two processes. Each leather is tanned in the manner which will best accentuate its unique characteristics.

Spinneybeck leathers are drum-dyed which tumbles the leather over and over for smooth, even coloring absorbed directly into the leather. This aniline-dyeing process enhances the natural qualities of leather grain. Many competitors use vat-dyeing. This does not dye the leather in an even manner.

If you have further questions on Spinneybeck leathers, contact your Knoll representative or telephone Spinneybeck Customer Service at 1-800 482-7777.

Below are additional details on the three major types of Spinneybeck leathers.

**Naked Leather** (Capri, Copenhagen, Distressed, Maremma, Saddle)

Naked leather contains no foreign substances which would affect the superbly soft, mellow hand of this most luxurious of upholstery leathers. Natural markings are accented. Since there are no barriers against spillage or staining, naked leathers should be carefully specified. However, scratches and marks will dissipate in time as the leather develops a beautiful patina.

**Leathers with Protective Finishes**

(Acuva, Alaska, Amazon, Andes, Antique, Derby, Ducale, Esparta, Forte, Hand Tipped, Liscene, Montalcino, Portofino, Riva, Sabrina, Velluto Pelle, Volo)

For high traffic areas, protective finishes allow leather to be not only practical, but easy to maintain.

**Grain Suede Leathers** (Ducale Velour, Marrissa)

Full grain leathers that have been lightly buffed to raise the nap of the surface are referred to as “grain suede” leathers. This produces the soft hand of suede leathers. For maximum soil resistance and durability, these leathers have received an impregnated soil resistance treatment during the drum-dye process which permeates the leather, making it repellent to liquid and dirt.

Textile

**Classic Boucle**

Classic Boucle is with spun Boucle yarn that is a blend of wool and nylon that is piece dyed. Color can vary from lot-to-lot and it is important to use the same lot for multiple piece orders. Please note sales order when items must match. Classic Boucle, Pearl contains natural, un-dyed wool and will have darker hairs woven within the textile.

**Knoll Upholstery Restrictions**

Every Knoll leather and fabric is exhaustively tested on each Knoll upholstered item. This is done in addition to the most extensive program of independent fabric testing in the industry. On furniture, testing ensures precise fit and appearance, without stretch, puddling, telegraphing or other common problems frequently experienced when careful factory pre-qualification is eliminated.

When Knoll suggests that a particular leather or fabric not be used on an object, this does not mean the material is defective in any way; it only implies less than perfect performance with the form and structure of a specific item on furniture.

Instructions for Ordering Nano-Tex

The minimum for Nano-Tex on KnollStudio orders is 1-lot of $215 net for up to 65 yards. Nano-Tex orders of 65 yards or more is $3.00 net/yard.

Dealer instructions for ordering Nano-Tex:
1) Visit knolltextiles.com/technical documents and open the Nano-Tex specifications to see if the fabric is approved with the finish.
2) If approved, check the seating matrix at knolltextiles.com to see if the fabric alone is approved on the chair. (If yes, proceed to #3).
3) Contact your account manager with the fabric name, treatment required, and name and pattern number of desired chair. They will see if Knoll has tested this fabric with finish/treatment on said chair.
4) If approved, book order with a suffix of N (for Nano-Tex) after the fabric pattern number.
5) The fabric grade will remain the same. Add line item for finish/treatment required and multiply the finish cost by the number of yards required.

**Customer’s Own Material (COM)**

**Customer’s Own Leather (COL)**

While Knoll is pleased to cooperate with COM/COL selections, an extra charge is required to help offset receiving and handling costs. Such charges are included under the COM/COL title of the price columns in this price list. Prior to order placement, a sample cutting of actual COM/COL must be submitted to Knoll in East Greenville or through your regional Knoll office for preliminary approval of intended item (8" x 8" minimum memo sample if solid; if COM has a repeat, the sample must be large enough to show the repeat).

Even after such preliminary approval, Knoll reserves the right to reject COM/COL, including, if necessary, the item intended for use with COM/COL, if Knoll considers the customer-supplied material inadequate for any reason. When COM/COL is accepted, KnollStudio assumes no responsibility for its appearance, durability, color fastness or any other quality after upholstered on a Knoll product.

Published yardage requirements are based upon Knoll 52” width material unless specified otherwise. Leather requirements are based on whole hides with a minimum of 50 square feet per hide. However, in some cases, the nature or pattern of COM/COL will require additional yardage/square feet and/or additional labor charges. When this is necessary, the customer will be notified at the same time that the preliminary sample is approved.

If your COM/COL is approved, you may send the required amount for the product to:

Knoll, Inc.
1235 Water St
East Greenville, PA 18041
Attn: Customer Resources

COM/COL must be marked with designated approval number and customer’s name.

For additional information, see Customer’s Own Material (COM) under Selling Policy on pages 611-612.
Test Objective
California Technical Bulletin 133 (Cal 133) is a full-scale seating test, not a component test. Testing must be performed on the designated seating unit and textile together. Component data alone cannot be used to certify compliance with the regulation. Under Cal 133 you cannot assume that seating or textiles that have passed individually will pass together.

Test Procedure
The seating unit is exposed to a square open flame gas burner for 80 seconds, positioned at the center of the seating unit, two inches from the back and one inch from the seat.

Scope
Cal 133 only applies to seating units. The bulletin is designed for high risk public areas:
- Nursing homes
- Health care facilities
- Public auditoriums
- Hotels (more than 10 seating units in one room)
- Motels (more than 10 seating units in one room)
- Jails and prisons

Tables and desks are not covered by the bulletin. Variations may occur in individual states with regards to specific application. In California only, compliance is at the discretion of the fire marshall in any building which is fully sprinklered.

KnollStudio Approvals
Tested seating units have been tested in a worst case scenario thus covering other fabrics of lighter weight and same construction. When specifying Cal 133, the seating unit may be constructed with a fire resistant foam and a fire blocker will be laminated to the textile.

How To Specify
It is easy to specify Cal 133 on KnollStudio seating. Simply add the suffix “C” to the end of the pattern number prior to the textile selection. Approved textile selections must have the suffix 133 added to the end of the pattern number.

Example: Bertoia side chair, chrome, seat pad in Common Ground/Basalt 420C-K-C-K448/12-133

Intertek Clean Air Certification

Intertek’s Clean Air Certification validates the level of volatile organic compound (VOC) emissions from products. VOCs are gases emitted from products and include a variety of chemicals that may affect consumers’ health in the short- and long-term. Both Intertek Clean Air GOLD and SILVER certifications ensure the user-health, safety and sustainability of Knoll products. A selection of Knoll Office and Studio products are Intertek certified Clean Air, most of which are certified GOLD, which imposes more rigorous standards than certified SILVER.

Certified Clean Air GOLD

- USGBC LEED credits
- California 01350 Special Environmental Requirements (CDPH).
- California Department of General Service (DGS) Indoor Air Quality Specifications for Open Panel Office Furniture
- Compliant to BIFMA e3 standard credit 7.6.2 and 7.6.3.
Wood Compatibility Matrix

To match KnollStudio wood side chairs with Knoll Office or KnollStudio veneer finishes, please specify the appropriate Special code. Finishes are matched on either maple or beech basewood depending on depth of color.

Please note: this match is complimentary in color only. Perception can be affected by the variation in the grain of the basewood.

Specify:
1. Pattern Number
2. Finish selection
3. Textile selection

Example: 37A-BQV411-K784/74
37A, Ricchio Side Chair
BQV411, V2 Natural Veneer - Light Walnut
K784/74, Knoll Velvet/Moss

To match Propeller, Pixel, and LSM with Knoll Office or KnollStudio finishes, please submit a request through CPD. Any of the finishes listed below may be used at no additional upcharge.

FC = Flat Cut Veneer, exhibits cathedral pattern
RC = Rift Cut Veneer, Straight Grain
QC = Quarter Cut Veneer, Straight Grain
● = Not possible
KnollStudio Natural Materials
Wood, marble, granite, and slate are natural materials that vary. Use material samples and printed sample materials as reference only. KnollStudio printed and finish samples offer an example of what an “average” natural material may look like, within a range of acceptance carefully delineated by Knoll. Because of the breadth of variations possible with any natural material, Knoll specialists select these materials with stringent criteria, accepting only the top 3 - 5% of what is available.

Wood
Knoll Natural Veneers
All natural finishes are selected from the finest hardwoods available around the world. Veneers are flat cut and carefully matched so that cathedral or heart patterns are perfectly balanced. Natural veneers also are cut to allow a generous margin of quarter-grain figuring ensuring invisible splicing.

Marble, Granite and Slate
Knoll selects the highest quality, structurally sound marble, granite and slate available, through a host of quarries in the United States, Turkey, Spain, Slovenia and Italy. Because each mountain range and quarry has its own signature, every marble piece - even within a single quarry - is unique. Hues, veins, crystals, fossils, clouds, and distinctive marks will vary from piece to piece. This is the extraordinary character of stone as a material. Its high quality and its unique nature give Knoll tables a feel of incredible sculptural beauty. The following list are the marbles, granities, travertines, and slates that KnollStudio offers:

Coated Marbles
Coated Marbles
Coated marbles have transparent, high-polish, polyester coating to prevent use-associated stains. Even with this protection, coated marbles should not be used outdoors. Stains should be wiped immediately. Coating will yellow over time.

Satin Coated Marble
Satin coated marbles have transparent satin polyester coating to prevent use-associated stains. This satin finish gives the stone a natural, honed appearance while providing the same protective qualities as the Coated Marbles. Even with this protection, satin coated marbles should not be used outdoors. Stains should be wiped immediately. Coating will yellow over time.

Arabescato
Ivory white with dark grey veining. May contain random green veins.

Calacatta
Ivory white. Gold and beige random veins with additional veins varying from cream to green and grey.

Carrara
White background with grey veining.

Espresso Marble
Light and dark brown with white and beige veining.

Grey Marble
Grey with black and white veins. Hues vary in tone and intensity.

Grigio Marquina
Dark warm grey with thin black veining and characterized by white linear veins.

Portoro Marble
Deep black background with large striking white and silver veining. Some gold veining may be present.

Rosso Rubino
Rich red with hues that can vary from violet to green with white and green veins. Hues vary in tone and in intensity.

Verde Alpi
Green, Black and white veins. Hues vary in tone and intensity.

Natural Marbles
Natural marbles have a protective sealer to protect the stone from aging and staining. Sealer has to be renewed periodically (see product maintenance on page 28). Natural marbles are not suitable for outdoor use.

Carrara
White background with grey veining.

Calacatta
Ivory white. Gold and beige random veins with additional veins varying from cream to green and grey.

Natural Granites
Natural granites have a sealer to protect the stone from aging and staining. Sealer has to be renewed periodically (see product maintenance on page 29). Because of its non-porous density, granite does not require protective polyester coatings.

Black Andes Granite
Black with reflective mica crystallines.

Slate
Natural cleft slate is available on Vignelli PaperClip Tables, SM Tables, and Saarinen Tables.

In combination with a weather-resistant base, PaperClip tables with slate tops are suitable for outdoor use. Please refer to respective product pages for recommended outdoor finish combinations.

Cane
Cane is a natural material that might present slight variations in color and texture. For more detail, visit the Cesca price list pages.

Man-Made Materials & Finishes
Stainless Steel
Completely rust-proof, highly durable, and resistant to bending stress.

Polished Chrome
Several-step plating process that includes a heavy layer of nickel for added rust protection and a bright mirror finish.

Satin Chrome
Chrome plating applied for a soft satinized chrome finish with a higher nickel content.

Nickel Finish
A warm, lustrous finish of nickel electroplate. Yellowish in color. Coated with clear lacquer to prevent oxidation.

Polished Aluminum
A shiny, polished finish.

Clear Anodized Aluminum
A light grey satin finish.

18K Gold
Gold frame is plated with 18K gold, and covered with clear lacquer for protection.

Fused Nylon Rilsan
A very durable and adhesively fused nylon-dipped finish. Scratch, chip, and chemical resistant. Appropriate for outdoor use.

Laminate/Color Core Laminate
An exceptionally durable plastic surface. Highly resistant to most chemicals and extensive wear.

Sunbrella™ Webbing
100% cotton unfinished webbing.

Cotton/Nylon Webbing
60% nylon, 40% cotton mixed yarns with silicone water-based protective coating.

Sunbrella™ Webbing
Sunbrella™ Webbing uses reinforced yarns that are UV fade resistant, water repellent, bleach-cleansable, stain resistant and are designed to flex. 67% Sunbrella Acrylic, 13% Sunbrella Polyester.

Porcelain
An oven-baked finish on steel support with high durability.

Outdoor Powder Coat:
Durable outdoor powder finish that will provide excellent color and gloss retention with limited exposure to outdoor elements.

Painted, acid etched glass:
Clear glass with an acid etched top and painted underside. Polished and beveled edges surround.

Vetro Bianco:
Vetro Bianco is an engineered resin free quartz surface. The brilliant white surface is nonporous, stain proof, and extremely durable making it suitable for indoor and outdoor use.
With proper care, your KnollStudio furniture should last for years to come. To help ensure the longevity of your purchase, below are helpful hints on routine cleaning for your KnollStudio piece. Most basic maintenance can be performed with common household cleaning products.

Textiles
See KnollTextiles website for detailed cleaning and care instructions. Wipe all spills immediately. Brush and vacuum every three to four months. Use a foam upholstery cleaner as directed semi-annually, or more frequently if necessary. Try a hidden area to test for color fastness.

Spinneybeck Leathers
Leather is hardy and will adjust to its environment. It mellows with age. Leather is expected to change; even the oils from our hands help to develop the patina.

Full grain, aniline leather is undemanding. It breathes, has a life of its own, and requires little care. It should not be abused by harsh cleansers, or substances such as wax or mink oils which will clog the pores. A periodic wipe with a damp cloth is a sufficient means of cleaning under normal conditions.

Spinneybeck now offers a leather maintenance kit specifically designed for the 28 quantities offered. The kit includes a cleaner, conditioner and ink-remover and can be ordered by calling 1 800 482-7777. There are three types of kits:
- finished products
- full aniline products
- brush-sueded products

The following guidelines will help you to maintain the beauty of the leather without destroying any of its natural characteristics.

Naked Leather
(Capri, Cervo, Copenhagen, Cordovan, Distressed, Prima, Saddle)
Naked leathers contain no foreign substances that act as a barrier against spillage or staining. They should be selected with this in mind.

The only recommended cleaning method for naked leather is to wipe the entire surface with a soft wooden cloth and water. Do not spot rub for it will darken only that area. The idea is to even out any abrasions or stains.

With use, naked leather develops a beautiful patina that removes many small scratches and abrasions as body oils moisturize and reactivate the leather. Substantial body oil marks will also dissipate over time, particularly if rubbed down with cool water.

Protective Finished Leathers
(Acqua, Alaska, Amazon, Andes, Antique, Arizona, Derby, Ducale, España, Forte, Hand Tipped, Portafino, Riva, Sabrina, Salon, Torello, Velutto Pelle, Vicenza, Volo)
For high traffic use, breathable protective finish allows leather not only to be practical but also easy to maintain. It can be cleaned by wiping the entire surface with a soft cloth and a very mild solution of Ivory Flakes and cold water, followed by wiping the entire surface with water alone.

Grain Sueded Leather
(Ducale Velour, Marlisa)
For maximum soil resistance and durability these leathers have received an impregnated soil resistant treatment in the drum which permeates the leather making it repellent to liquid and dirt.

Grain sanded leather can be maintained with moderate care because spillage will be absorbed and roll off. However, spillage should not be allowed to puddle, and should be blotted dry immediately. For normal care, leather should be brushed occasionally, with a sanded cleaning block to help remove general soilage.

If you have further questions about the care and maintenance of Spinneybeck leather, call Spinneybeck Customer Service at 800 482-7777.

Cowhide Slings, Belting Leather
For normal cleaning, use a soft cloth dampened with a solution of mild soap or detergent (Ivory Flakes) well dissolved in water. Rub very lightly, never pressing hard. Do not use solvents because dye may run. For scratches, use liquid shoe polish and buff when dry. Any liquids spilled on leather should be mopped up as soon as possible in order to avoid being absorbed by the leather.

Cane
Use water and glycerin every three months to keep cane from drying out.

Vinyl
Clean frequently with a mild detergent and water. Use leather or plastic cleaners for unusually heavy use. Do not use solvents such as gasoline because plastic surface will gum and deteriorate.

Wood
Clean with a commercial brand of liquid furniture polish twice a month. For stubborn dirt or light scratches, rub lightly with very fine steel wool before using furniture polish. To rejuvenate luster, apply a furniture cream as a last step. Do not use water or household solvents: they will destroy the protective finish.

Lacquer Finishes on Wood
(Florence Knoll credenza)
Frequent cleaning recommended: once per week with light use or once per month with light use. Clean with ordinary household soaps or detergents, well dissolved in water. Polish with lemon oil using a very soft cloth. For stubborn dirt or light scratches, uniformly apply Cleanbright Liquid Ebony or Guardsman liquid furniture polish with cheesecloth. Allow ten minutes to dry and wipe with a clean, dry cloth. For nicks, chips, and deep scratches, contact a professional refinisher. Never use abrasives.

Teak
Do not apply teak oil if you are using your furniture outdoors. For teak furniture used outdoors, clean with soap and water and allow to dry. Note that teak exposed to the sun will patina to a silvery grey color. For teak furniture used indoors, wipe surface with soft cloth to remove dust. Apply a thin layer of teak oil using a paint brush and wipe excess using a soft cloth. Oil can be applied every 3 months to maintain rich color.

Wood Frame Chairs
Clean with dry and soft cloth. Rub smoothly with damp, lukewarm cloth. Treat stubborn stains with household detergent solution or a solution with dishwashing liquid. Wipe off with clean, dry cloth. Do not use acid or abrasive detergents.

Marble with Polyester Coating
Wash with lukewarm water. Wash more thoroughly with Windex, Fantastik, Ivory Flakes in warm water, or other non-abrasive solutions. Rinse with warm water and dry with a soft cloth.

Natural Marbles/Marbles without Polyester Coating
Cleaning: Wipe off stains and liquid spills immediately with water and soft cloth. Never use steel wool or other abrasives on marble.

Maintenance: The mineral surface of marble is very porous and easily absorbs moisture and fluids causing staining and discolored. If applied on a yearly basis, impregnators or penetrating sealers protect the interior of the stone, inhibit discoloration and allow the stone to breathe and release water vapor.

To restore a uniform luster, clean surface from any grit or debris, then remove all topical coatings with Stoneguard Stripper. Use Marbalex to rinse surface, then let top dry for twelve hours before applying stone impregnator. Apply SCI Impregnator using a clean and dry applicator brush. After five minutes, wipe off the excess with soft, white terry cloth. If impregnator is absorbed within five minutes apply second coat at least twelve hours later.

Never use steel wool or other abrasives on marble.
Slate
Apply a generous amount of soap solution (1:5) to the table top with a hard brush. Wipe off the top with a clean, damp cloth. Repeat as often as required. Apply mineral oil or lemon oil as needed to protect surface and maintain color.

Granite
Clean with Windex, Fantastik, or other non-abrasive solutions on a regular basis. Apply a marble wax to improve luster and protect finish. Routine maintenance will prevent the stone from darkening with use from body oils, and will help maintain an evenness of color.

Vetro Bianco
Wash surface with lukewarm water. Clean more thoroughly with a non-abrasive solution such as Windex or Fantastik. Rinse with warm water and dry with a soft cloth. Wipe off stains immediately with water and a soft cloth. Never use steel wool or other abrasives on surface.

Glass/Acrylic Polycarbonate
Clean with Windex, Fantastik or other non-abrasive cleaning solutions. Wipe dry with a clean cloth.

Laminate/Melamine
Scrub with Windex, Fantastik, Mr. Clean, or other household soaps or detergents well dissolved in water, or with a very soft cloth dampened with alcohol or a synthetic thinner. For a dull finish, rub with jeweler’s rouge as a polishing agent and finish with paste wax. Never use abrasives. Remove stubborn stains with Soft Scrub.

Stainless Steel
Use Windex, Fantastik, or other non-abrasive household cleaners. For small scratches, rub with Comet, Ajax, or other mild abrasives in the direction of the grain. Apply a coat of auto wax to maintain beauty.

Chrome/Satin Chrome
Clean with Windex or an automotive chrome cleaner such as Semi-Chrome twice a month. Apply a coat of hard paste wax to protect against moisture.

Nickel
Clean with Windex, Fantastik, or other non-abrasive cleaning solutions. If discoloration occurs, rub lightly with a fine steel wool to restore luster. Steel wool Grade #0000 is recommended. Touch-up with a clear lacquer to prevent oxidation.

Copper (uncoated)
Polish using a soft cloth and metal polish cream such as BlueMagic®. Do not use harsh abrasive or steel wool.

Polished Aluminum
Clean with Windex, Fantastik, or other non-abrasive cleaning solutions. Coat with a hard paste wax semi-annually to maintain luster and prevent discoloration.

Anodized Aluminum
Clean with mild soaps, detergents, or other non-abrasive cleaning agents. Apply paste wax or DuPont non-abrasive car polish #7 twice a year to prevent oxidation.

For stubborn stains or discolorations, apply navel jelly aluminum cleaner.

Urethane Edge
Clean with household soaps and detergents well dissolved in water. Do not use abrasive cleaning solutions.

Epoxy
Clean with Windex, Fantastik, or other ordinary non-abrasive household soaps, detergents, or ammonia at least once a month to prevent yellowing. For scratches and chips, rub with Comet, Ajax, or other mild abrasives. For deeper scratches, contact Knoll Customer Service for touch-up paint. Shine with a high grade auto polish. Never use harsh abrasives or steel wool.

Rilsan®
Clean with Windex, Fantastik, or other ordinary non-abrasive household soaps or detergents. For ink stains on white surfaces, use Soft Scrub. For scratches and chips, rub with Comet, Ajax, or other mild abrasives. For deeper scratches, use a good grade automotive acrylic-lacquer touch-up paint. Shine with a high grade auto polish. Never use harsh abrasives or steel wool.

Porcelain
Clean with damp cloth using water or Windex. Do not use any abrasive detergent.

Powder Coat Paint
Clean with Windex or Endust using a soft cloth. Remove stubborn stains with Soft Scrub.

Polyester Shell
Clean with Windex or soap and water. Do not use any abrasive detergent.

Moving Parts
Lubricate moving parts every six months.

Swivel Mechanism
Apply a paste-type grease to swivel mechanism once a year.

Plastic/Polyethelene
Clean using a soft rag, either dry or wet. When needed, use mild pH-balanced soap diluted in water. Do not use abrasives sponges, acidic products or solvents containing ammonia.

To remove scuff marks, lightly rub scuff mark with a dry, non-scratch scour pad, like Scotch-Brite.
Placing Your KnollStudio Order

Use the Following Address:
If you would like to send an order directly to our order entry departments, please use the following address:
Knoll, Inc.
P.O. Box 157
East Greenville, PA 18041
Attn: Order Entry
Fax: 215 679-1570
Tel: 800 343-KNOLL

When Placing Your Order, Include:
• All information requested on the order form.
• Local taxes for the "delivered to" address.
• For orders $2,000 or under (including applicable taxes and delivery/installation fees, if any), full payment must be made when order is placed.
• For orders over $2,000, a deposit equal to one-half of the complete order value is required at order placement. Balance must be settled before shipment.

Key Points to Remember:
All accepted orders will be confirmed in writing on the Knoll standard acknowledgement form. A copy of the acknowledgement will be mailed to the customer prior to production.

Freight within the 48 contiguous United States and Canada, excluding the Yukon, Northwest Territories and Newfoundland, is prepaid and included in the price of all orders.

For residential orders, Knoll strongly recommends White Glove delivery service to most locations in the Continental United States and Canada. White Glove service includes inside delivery, unpacking, furniture installation and removing cartons and crates. The fee for this service will be quoted at the point of purchase.

KnollStudio's limited warranty covers all furniture against manufacturing defects in this price list for a period of five years after delivery to the customer.

All pricing is in U.S. dollars.

For More Information:
For complete Knoll Selling Policy and warranty information, please refer to pages 611-612 in the back of this price list.

For additional information on KnollStudio, contact your KnollStudio representative, a Knoll Space retailer or e-tailer, or telephone Customer Services at 800 343-KNOLL. To find the retailer or showroom nearest you, visit www.knoll.com.

**Construction**  
**Skin Chair:**  
Injection molded, glass reinforced nylon cantilevered chair. The chair’s shell and legs are cast in three parts and are connected using mortise and tenon joinery and stainless steel fasteners. The unique leg design is reinforced internally with a cast aluminum brace. Features four integral glides that elevate and protect the leg profile.

**Skeleton Chair:**  
Constructed from die-cast aluminum, the chair’s shell and legs are cast in three parts and connected using mortise and tenon joinery and stainless steel fasteners. Available in ultra-durable powder coat paint, a nickel plated finish, a natural copper plated finish that will patina with age and a copper plated finish with ceramic coating that will maintain the original copper finish and prevent patina. Features four nylon glides.

**Note:**  
Copper plated chairs without the ceramic coating will patina with age.

### Order Code

**Example:** 420N-WH-C

- **420N** Molded Shell (stacks)
- **WH** White (suffix WH)
- **C** Polished chrome base

**Specify:**
1. Pattern number
2. Molded Shell finish
3. Base finish

### Construction

**Base:**
- Welded steel rods in polished chrome or highly durable bonded powder coat (white and black).
- Stainless steel connections and plastic glides.

**Stacking Side Chairs:**
- Diameter of legs are 16mm featuring four rubber bumpers to assure proper stacking.

**Bar and Counter Height Stools:**
- Diameter of legs are 14mm featuring stainless steel connections and 1 1/4” wide round articulated glides with metal cover.

**Basket:**
- Glass fiber reinforced nylon shell.

**Ganging mechanism:**
- The easy-to-detach ganging mechanism links two adjoining frames at the front legs or rear legs. Towards the back, the frame can be stacked.

**Stacking:**
- Bertoia Molded Shell Side Chair with stacking base can stack up to 5 high on floor.

**Stacking bumper:**
- Clear thermoplastic elastomer bumper secured between base and shell.

**Ganging mechanism:**
- The easy-to-detach ganging mechanism links two adjoining frames at the front legs or rear legs. Towards the back, the frame can be stacked.

**Transportation Dolly:**
- Black painted steel frame with plastic wheels and locking casters. 12 Bertoia Molded Stacking chairs can be stacked on the dolly. Dolly with 12 chairs will measure 56.25” h, 24.75” w, 45.5” d.
## Bertoia Leather-Covered Side Chair and Barstool

Ordering Information

Frame finishes:
- Black (suffix 1)
- Polished Chrome (suffix C)
- White (suffix 2)

Upholstery/COM information:
Prices shown include fabric or leather upholstery. Contact your Knoll representative for colors. Only approved KnollTextiles and Spinneybeck leathers may be ordered.

Customer's Own Material is available pending approval. For approval requirements, processing instructions and ordering information please see page 22.

Frame: Welded steel with rods in polished chrome or bonded Rilsan/H23041 finish, a very durable and adhesive fused nylon-dipped finish. Scratch, chip, and chemical resistant. Stainless steel connections. Four plastic glides. Frame wire diameter measures 4.5mm. Interlacement wire diameter measures 4mm.

Upholstery:
High back chairs only available with full cover. Full covers are stretched over wire frame and attach to seat basket with hooks. Full cover replacement for High Back Chairs fit all Bertoia High Back Chairs manufactured since 1952 within a limited range of tolerance.

Construction

Cal 311 Fire Code:
The Bird chair and ottoman complies with the California Technical Bulletin 133 standard if upholstered in Cal 133 approved KnollTextiles. Specify suffix -C at end of pattern number.

Maintenance:
See pages 29-30.

Note:
The Knoll tags are stamped into the base of the chair and bench.

The Bertoia Bird Lounge Seating is certified Clean Air GOLD.

Ordering Information

Construction

Pencils: Constructed in two layers of pleated frames, back and seat, giving the pieces their architectural form. Frames are reinforced with highly resilient urethane foam wrapping.

Upholstery: Interior loose cushions are available in either residential or contract versions. Contract finishes can be tailored for high-use areas, while residential cushions combine a relaxed aesthetic. For units with combinations upholstery, add list price for the one price in appropriate grade with the list price at cushion to obtain total list price for item.

Cushion fill:
- Machine steel legs feature height adjustable feet for leveling.

Interior loose cushions are available in tailored look for high use areas, while contract cushions provide a cushioned look for residential or contract frames, back and seat, giving the pieces a sleek, tailored look.

Frame:
- Constructed in two formed plywood frames, back and seat, giving the pieces a sleek, tailored look.
- Machined steel legs feature height adjustable feet for leveling.

Construction
- Frame:
  - Constructed in two formed plywood frames, back and seat, giving the pieces a sleek, tailored look.
  - Machined steel legs feature height adjustable feet for leveling.

Upholstery:
- Interior loose cushions are available in either residential or contract versions. Contract cushions provide a tailored look for high use areas, while residential cushions are a related aesthetic. For units with combination upholstery, add list price of surround in appropriate grade with the list price of cushions to obtain total list price for item.

Note: Cesca chairs are part of a collection. Please refer to the Woodstock lounge chair and Laccio tables on pages 104 and 334.

Specify:
1. Pattern number
2. G113 option (add G)
3. Split upholstery option (add S)
4. Textile, leather, or wood frame selection, seat
5. Textile, leather, or wood frame selection, back

Ordering Information

Wood frame finishes:
- Chair (stuff): Clear (suffix B)
- Stool (stuff): Clear (suffix B)

Split upholstery options:
- The seat and back of the Cesca chairs can be specified in split upholstery. Indicate “S” before selected seat upholstery or wood frame finish, followed by selected back upholstery or wood frame finish. If selecting cane back and upholstered seat, always use the same pattern number. The price equals the sum of the price of the highest upholstery grades:

   Please note it is not possible to have the same seat and an upholstered back; or to combine two different wood frame finishes.

   Upholstery/OHM information:

   Pattern codes include fabric or leather upholstery. Contact your Knoll representative for details. Only approved KnollTextiles and Spinneybeck leathers may be selected.

   Customer’s Own Material is available provided approval is obtained. For approval requirements, processing instructions and ordering information see page 22.

   OHM split fabric requirements:
- Back upholstery: 0.4 yard
- Seat upholstery: 0.4 yard

   OHM split fabric requirements:
- Back upholstery: 6 square feet
- Seat upholstery: 6 square feet

   Call 1-800-Fire Code #

   The Cesca chair complies with California Technical Bulletin 133 with selected KnollTextiles. Upholstery applies, see page 18.

   Note:

   The KnollStudio logo and signature of Marcel Breuer are stamped into the base of the chair.

   The Cesca Chair is certified Clean Air GOLD. Maintenance:

   See page 25-30.

Construction

Fully upholstered chairs:

4SDSEAT Seat pad implementation for 4-C-SD-S

4GAS Spark ganging mechanism for side chair

**Ordering Information**

### Maintenance

See pages 29-30.

Upholstery/Trim Information

- Prices include fabric upholstery. Contact your Knoll representative for colors. Only approved KnollTextiles may be ordered.
- Customer’s Own Material is available pending approval. For approval requirements, processing instructions and ordering information please see page 22.
- Recycled Content: The Recycled Black color of both the non-upholstered side chair and the non-upholstered lounge chair contains 40% post-industrial recycled content. Recycled content percentage for the Recycled Black chair with seat pads will vary depending on the fabric used. All other finishes do not contain recycled content.

### Construction

- The Spark Series is certified Clean Air Gold.
- The Spark Series is semi-translucent TPE. The Spark side and lounge chairs stack up to 10 units high on the floor and 10 units deep on the floor. Spark side and lounge chairs stack up to 20 units deep on the floor and 5 units high. The dolly stacks with 10 side chairs or 20 lounge chairs. The dolly stacked with 10 side chairs measures 35" high and with 10 lounge chairs measures 32" high.
- Not approved for outdoor storage.

### Spark ganging device

Semi-translucent TPE. The Spark ganging device attaches the Spark side chair’s back legs. Positioning the ganging device on the seated surface in the middle of the device faces toward the front of the chair. The angle of the device should mirror the angle of the chair’s back legs.

---

**Outdoor use:**

With greater care and preventative maintenance, the Spark Series is appropriate for outdoor environments.

- The Spark Series is certified Clean Air Gold.

Upholstery/Finish information

Prices shown include fabric upholstery. Only approved KnollTextiles may be used for indoor use only.

- Seat Pad:
  - Molded highly resilient polyurethane foam with textile cover and steel fasteners, approved for indoor use only.

Smoothing:

Spark side and lounge chairs stack up to six units high on the floor and ten units high on the Spark dolly, which can accommodate the side or lounge chair. This dolly includes 10 side chairs measures 35" high. The dolly stacked with 10 side chairs measures 55" high.

*Note: Spark side and lounge chairs pass the 500 lb. Heavy Weight Drop test, which exceeds the BIFMA parameters for contact durability."

**Outdoor Casters**

- Each caster includes a flexible black rubber bumper that acts as bumpers to cushion the chairs, and leaves no marks on the floor.

**Outdoor Casters (cont.)**

- The Spark stacking side and lounge chair's back legs.

**Ganging Device:**

- Semi-transparent TPE. The Spark ganging device adjoins the Spark side chair's back legs. Position the ganging device on the seat surface in the middle of the device faces toward the front of the chair. The angle of the device should mirror the angle of the chair's back legs.

**Order Code**

Example: 2165-RC-AP-K1320/4

- **2165**: Joseph Paul D'Urso Swivel lounge chair
- **RC**: Return to center mechanism
- **AP**: Polished Aluminum
- **K1320/4**: Cornaro, Tabasco

**Ordering Information**

- **Frame Finish**
  - Polished Aluminum (suffix AP)
  - Textured Black (suffix TB)
  - Warm White (suffix WW)

- **Upholstery/COM Information**
  - Prices shown include fabric upholstery. Contact your Knoll representative for colors. Only approved KnollTextiles may be ordered.
  - Customer’s Own Material in textile applications is limited.
  - For approval requirements, processing instructions and ordering information please see page 22.

**Construction**

- **Frame**: Inner frame of solid wood and bent laminate plywood.
- **Base**: Die cast aluminum base available in polished aluminum or powder coat paint finishes.
- **Upholstery**: Textile application must be ordinated. Urethane foam with polyester top layer wraps interior frame and a fully upholstered panel surrounds chair.

**Control**

- 360° Swivel mechanism with pneumatic seat height adjustment, cable operated with a low profile lever, flush mounted on the underside of the chair.
- Optional return to center mechanism allows for 360° swivel movement and returns to a center position when not engaged. Available as fixed height only with a 19” seat height and a 27” overall height.

### Side and Dining Chairs

#### Textile Selection
- Choose from a variety of high-quality textiles designed to complement the Gehry chairs.

#### Finish Selection
- Available in a range of finishes to enhance the aesthetic appeal of the chairs.

#### Pattern Number
- Specific pattern numbers for each chair type are listed to ensure a cohesive design.

#### Note:
- The Gehry chairs are part of a collection, and pattern numbers may be ordered.

#### Example:
- Cornaro, Tabasco K1320/4
  - High sticking seat cushion
  - 92K
  - 92K-K1320/4

#### Example:
- Sabrina, Carmen K
  - Seat cushion
  - Clear Maple GC
  - 91A
  - 91A-GC-K-SA783

#### Ordering Information
- Reference the Gehry tables on page 196 for detailed ordering instructions.

#### Fabric Grades
- A selection of fabric grades is provided to ensure durability and comfort.

#### Construction
- Gehry chairs are constructed with high-quality materials and attention to detail.

#### Approved Knoll Textiles Grades/Fabrics
- A comprehensive list of approved textiles is available for ordering.

#### Spiniweb Leather
- Available options for upholstery and seating materials.

- Note: The backrest mounts will always be in the silver grey powder paint, even on a chair with chrome frame.  
- Seat pad: CHIP chair with seat pad does not stack.  
- Seat pad is a dacron covered piece of plywood attached to the chair seat. Seat pad is permanently attached to seat by discrete covers not visible from top of chair. Upholstery available in Gabriel fabrics: Event, Fame, and Gaja. Please contact your KnollStudio sales representative for samples.  

#### Barstool:
- Constructed of melamine covered molded birch on a chrome plated base.  
- Foot rest is 11 1/2" from the floor.  
- Transportation Dolly: Zinc coated dolly allows CHIP arm and armless chairs to stack 20 high. Height of dolly with 20 CHIP chairs, fully loaded is 65 1/2”. Empty dollies can be stacked 5 high.  
- Ganging Mechanism: The easy to attach and detach mechanism links the back of the chair frames. The mechanism is composed of translucent polypropylene. Can be used for both arm and armless chairs.  

### Approved Textiles

#### Event (E):
- 100% polyester crepe fabric. It is a synthetic fabric suitable for environments with special requirements regarding cleaning.  

#### Fame (F):
- A unique woolen upholstery fabric with a wearability of 200,000 Martindale. Extra soft and stretchy with an elegant and vibrant color scale.  

#### Gaja (G):
- Non directional crepe weave made from 100% pure New Wool from New Zealand with anti-stip properties. Please contact your KnollStudio representative for colorways, color codes and samples.

Walnut:
American Walnut (suffix AW)

Optional Woven Seat:
An optional woven paper rush seat is
available at an upcharge, from grade A
pricing, of $307 for side chairs and $344
for lounge chairs. Place suffix CN
between parent pattern number and wood
finish suffix.
Example:MK02A-CN-A101
Upholstery/COM information:
List prices shown include fabric or
leather upholstery. Contact your Knoll
representative for colors. Only approved
KnollTextiles and Spinneybeck leathers
may be ordered.
Customer’s Own Material is available
pending approval. For approval
requirements, processing instructions
and ordering information please see page
22.
KnollStudio natural wood finishes:
The Krusin Collection of guest seating
features a low sheen, urethane finish.
This finish, available on Ash, Oak, and
Walnut delivers the tactility of natural
wood while providing a durable matte
finish.
Ash and Oak feature a unique staining
process that replicate traditional
cereused finishes.

MK02RCN

352.

Construction

Approved KnollTextiles Grades/Fabrics

KnollStudio Beech wood finishes:
KnollStudio Beech finishes complement
a large variety of KnollStudio veneer and
Knoll Office veneer finishes. To select
correct complementary finish, please
refer to KnollStudio Wood Finish Matrix
on page 27. If no complementary finish
is available, please refer to custom finish
policy below.

Frame:
Select American and European hard
wood frames. Dowel and mortise and
tenon construction, steam bent top rail.

Custom finishes:
Complementary finishes to any
KnollStudio or Knoll Office wood finish
are available at no upcharge. To
complement non-Knoll wood veneer or
lumber finishes, a one-time,
non-negotiable net upcharge of $688
applies. Re-orders are at no upcharge.
Please contact your KnollStudio
representative, dealer or Customer
Service associate for complete custom
finish information and Order Code.
Minimum order quantity for any custom
finish order: 4 chairs.

Woven Rush Seats:
A woven natural paper rush seat is
available on side and lounge chairs. Not
available on chairs with inset back
upholstery. Paper rush is a natural,
uncoated material.

Certified Wood:
Chairs manufactured using FSC certified
hardwoods are available through Custom
Product Development. Extended
leadtime and upcharge apply.
Maintenance:
See pages 29-30
Note:
The Krusin Collection chairs are
certified Clean Air GOLD in all wood
finishes.
Cal 133 Fire Code:
The Krusin Lounge Chairs comply with
the California Technical Bulletin 133
standard if upholstered in Cal 133
approved upholstery. Specify suffix -C at
end of pattern number and suffix -133 at
end of textile selection. Upcharge
applies, see page 18.

152

Upholstered Seat:
High density, polyurethane foam used in
all upholstered areas. Elastic seat belt
suspension.

KnollStudio will not warrant soiled
or stained woven seats. A one year
warranty will cover woven seats for
manufacturer’s defects.

Seat basket replacements:
Upholstered and woven seats sit on chair
frame. Screws lock basket in place for
easy installation or removal.
Finish:
Beech, Catalyzed lacquer protective
coating. Hand applied final wax
coating. Ash, Oak, and Walnut, urethane
protective coating. Hand applied final
wax coating.
Glides:
Chairs feature nylon glides.

** KN01** Swivel Lounge Chair

**Ordering Information**

**Base finish:**
- Polished Aluminum (suffix AP)
- Charcoal (suffix CH)

**Upholstery/COM information:**
Prices shown include fabric or leather upholstery. Contact your Knoll representative for colors. Only approved KnollTextiles and Spinneybeck leathers may be ordered.

**Customer’s Own Material is available pending approval.** For approval requirements, processing instructions and ordering information please see page 22.

**Maintenance:**
See pages 29-30.

**Construction**

**Frame:**
Swivel base in polished or coated cast aluminum. Shell is molded reinforced polyurethane foam. All pieces in the collection feature a return to center mechanism, which allows for 360° swivel movement and returns to a center position when not engaged. The base in KN01 and KN02 is equipped with comfort suspension, a feature that enhances comfort and makes getting in and out easy by lowering slightly when sitting down. KN02 also comes with a headrest and integrates a practical manual mechanism built into the armrest that enables the chair to recline and to lock the back in any position. An embroidered circle underneath the right arm allows the user to operate the reclining mechanism.

**Upholstery:**
Available in a selection of fabrics and leathers. The KN02 model includes a seat cushion padded with down, and an attached lumbar pillow for lower back support.

Ordering Information

Construction

Frames:
Notes are suspended on a central beam structure made in heavy gauge tubular steel. These beams are interconnected to define several configurations and are attached to the legs. Each seat is attached to the metal structure through an individual frame.

Upholstery:
Seat and back cushions with variable density foam covered with polyester fiberfills to enhance comfort. Slip covers are completely removable.

### Ordering Information

** Upholstery note:** Prices shown include leather upholstery and strap selection. No Customer’s Own Material (COM) can be used.

** Construction:**

** BARCELONA RELATED CHAIR AND STOOL: Stainless Steel Frame:** Premium quality 304 bar stock stainless steel. Single-piece construction ensures long-term durability. Frame is shaped, welded and hand-buffed to mirror finish. Upholstery straps attached with solid stainless steel screws.

** Clever Frame:** Hand-formed and hand-buffed to a mirror finish. Upholstery attaches with aluminum straps.

** Upholstery:** Cushions: 60 individual panels, the steel base 16. Individual panels are cut, hand-stitched and hand-tied with leather and buttons produced from a single cowhide. Cushions are a soft reddish-brown color. Frame is finished with a protective clear lacquer finish. 11 thick cowhide leather straps over rubber webbing.

** Legs:** Tubular steel in polished stainless steel finish.

** Bolster:** Bolster in matching leather is secured to cushion platform with straps complete with lock snaps.

** Construction:**

** BARCELONA RELATED COUCH and STOOL:**

** Platform:** Hardwood frame in Sapeli Mahogany from Africa. Wood has oak-like strength and is characterized by a reddish-brown color. Frame is finished with a protective clear lacquer finish. 11 thick cowhide leather straps over rubber webbing.

** Legs:** Tubular steel in polished stainless steel finish.

** Upholstery:** Cushions: 72 individual panels are cut, hand-stitched and hand-tied with leather and buttons produced from a single cowhide. Cushions are a soft density, fire retardant urethane foam blanketed with a non-woven fabric topper and an additional Thurston layer for a soft feel. The relaxed cushions offer a more supple and relaxed exterior appearance.

** Upholstery straps:** Cushions: cutting strap with front, back, and side edges all stained to match specified upholstery color. For black straps, specify option (B001). For matching straps on all other colors, specify leather upholstery selection and straps will be produced to match. Cushion contains 11 belting support straps over rubber webbing.

**Designer(s):**
George Nakashima, 1946

**Order Code**
N19-AW

**Ordering Information**

**Finishes:**
American Walnut (suffix AW)

**Maintenance:**
See pages 29-30.

**Note:**
The Straight Chair is certified Clean Air GOLD.

**Construction**
Frame:
Constructed from solid American Walnut, turned American Walnut legs and stretchers, and contrasting Hickory spindles, clear low-sheen finish and nylon glides.

Note:
American Walnut exhibits a high degree of natural color characteristics, ranging from chocolate, grey and purplish-browns to deep honey. Color variation will soften and become more uniform over time.

**Supplement:**
Note:
The Straight Chair is part of a collection. Please refer to the Splay-Leg table on page 398.

**Specify:**
1. Pattern number
2. Finish

**Pattern No:**

- **Example:** OAC1-WHT
- **OAC1** Oliveares chair
- **WHT** White paint finish

**Ordering Information**

- Specify:
  1. Pattern number
  2. Paint finish selection

**Construction**

- **Shell**: Constructed from die-cast aluminum with integrated leg tenons. A long, low-profile rubber stacking bumper distributes the chair's weight over a wide area providing a more stable stacking condition. The designer's signature and KnollStudio logo are located under the seat.
- **Legs**: Aluminum extruded legs are secured to die-cast aluminum with epoxy and stainless steel fasteners.
- **Paint**: Ultra-durable polyester powder coat paint.
- **Glides**: 1/4" flat nylon glides.
- **Stacking**: Chairs stack six on the floor.

**Outdoor use:** With proper preventative maintenance, the Olivares chair is appropriate for outdoor environments.

#### Designers:
Jens Risom, 1943

#### Construction

**Frame**: Mortise and tenon construction. Teak frame is solid teak lumber with an oiled finish. Stainless steel staples.

**Footcap**: Die cast aluminum cap with outdoor grade coating.

**Upholstery**: Sunbrella/H23041 strap is made with reinforced Sunbrella yarns that are designed to stretch, UV/fade resistant, water repellent, bleach cleanable and stain resistant. Straps are attached to the frame using stainless steel staples.

**Finish**: Lacquer finish on walnut and maple frames. Oiled finish on teak frame.

**Note**: Teak will patina over time if left outdoors and will turn a silvery grey color.

#### Reupholstery Kit

Re-upholstery kit for stool with webbed seat and back. Must be reupholstered by a professional upholsterer.

**Note**: The Risom Lounge chairs are certified Clean Air GOLD.

#### Maintenance

See pages 29-30.

**Frame finishes**
- Teak (suffix K)
- Polished Aluminum (suffix AP)
- Black Paint (P)

**Foot Cap Finishes**
- Polished Aluminum (suffix AP)
- Black Paint (P)
- Sunbrella/H23041

**Upholstery colors**
- Antique Beige (suffix AB)
- Carbon (suffix CB)
- Charcoal (suffix CH)
- Fern (suffix FR)
- Navy (suffix NV)
- Ochre (suffix OC)

**Maintenance**

- See pages 29-30.

**Upholstery/COM Information**

- Prices shown include fabric upholstery only. Contact your Knoll representative for colors.

**Customer’s Own Material** is available pending approval. For approved requirements, processing instructions and ordering information, please see page 22.

**Construction**

- Frame: Frame is aluminum castings and extrusions welded and glued together using a two-part epoxy. Finished in highly durable weather resistant polyester powder coat paint.
- Seat: Woven vinyl coated polyester mesh is sewn to pure vinyl straps using Teflon thread to form the seat and back. Stainless steel supports provide shape and is attached to the frame with stainless steel connectors.
- Glides: Char-battary plastic.

- Midnight shell MD

Handkerchief:
- Example: Handkerchief Arm Chair, Vignelli Associates

Stacking dolly:
- 26 x 26 x 26 x 26 lbs.

Dimensions:
- Total height of 24 chairs stacked on the dolly is 85 1/2".
- 1021. 1040. 1057. 1078. 1093. 1106. 1125. 1162. 1190. $753.

Features:
- Stacking features:
  - 4902K-N do not stack.
- Shell:
  - Black flexible urethane stacking pad bonded to a semi-rigid thermoformed urethane paint finish.
- Compression-molded. Highly durable.
- Nylon.
  - (Add -G to end of pattern number)

Construction:
- 26 x 26 x 26 x 26 lbs.

Order Code:
- Example: 4902-MD-C

Contact:
- Knoll Space Canada

Note:
- The Vignelli Handkerchief side chairs are part of a collection. Please refer to Vignelli PaperClip Tables on page 454.

Materials:
- Wood: Oak.
- Metal: Steel.

Price:
- Prices printed reflect Knoll MSRP pricing.

Note:
- Fire Retardants: Chemicals. Check with your Knoll representative for changes or additions.

WC2T: Aluminum coffee table, black painted

Ordering Information
Example: WC2T

Glaze finish:
Starphire Clear glass

Maintenance:
See pages 29-30.

Construction
Glass glaze top:
Top is 5/8" thick optically Starphire clear glass with a jewel-polished, chamfered edge.

Bronze base:
Constructed from four sand-cast bronze panels, connected by machined bronze plates and brass hardware. The interior of the panels are CNC-machined and hand-polished to a mirror finish, contrasting the rough-hewn exterior.

Aluminum base:
Constructed from four die-cast aluminum panels, connected by aluminum connector plates and stainless steel hardware. The interior and exterior of the panels are finished in a smooth gloss black or white powder coat finish. Tables specified in black will have black painted metal connectors. Tables specified in white will have non-painted stainless steel metal connectors.

Note:
To mark our 75th anniversary, the Washington Corona coffee table in bronze is limited to an edition of 75. Each piece is numbered and comes with a bronze miniature that serves as a commemorative signature plate. The Washington Corona coffee table is certified Clean Air GOLD.

Note:
The Gehry tables are part of a collection. Please refer to Gehry side chairs and lounge seating starting on page 120.

Specify:
1. Pattern number
2. Top finish selection
3. Base finish selection

Ordering Information

Glass top finish:
- Clear Glass (suffix G2)
- Laminated top finish: White (suffix W)
- Maple Base finish: Clear (suffix GC)

Shipping note:
Tops ship separately.

Signature:
The underside of each piece in the Gehry Collection is embossed with Frank Gehry's signature and the Knoll logo.

Maintenance:
See pages 29-30.

Construction

Face Off Cafe Table tops:
- 3/8" thick tempered clear glass with polished edge, 5/8" thick textured laminate top with clear solid edgeband. Four bolts attach table top to base.

Face Off Cafe Table base:
- Constructed of hard white maple veneers in 2" wide, 1/34" thick strips. Laminated to 7-ply thickness with high-bonding urea glue. All wood grains run in the same direction for resilience. State-of-the-art thermoset assembly glue provides structural rigidity without the need for metal connectors. Solid maple center column prevents cracking. Arched base design allows ample leg room.

Glides:
- Clear plastic with a matte finish.

2523T 55” x 35” Rectangular Dining Table
C Polished Chrome  MGS Grigio Marquina, Satin

Specify:
1. Pattern number
2. Base finish option
3. Top finish selection

Ordering Information
Base finishes:
- Polished Chrome (suffix C)
- Clear Glass (suffix G2)
- Polished Coated marble top finishes:
  - Arabescato: white-grey (suffix MA)
  - Calacatta: white-grey/beige (suffix MC)
  - Carrara: white-grey (suffix GC)
  - Grigio Marquina: warm grey (suffix MG)

Glass top finishes:
- Square Table: 55 1/8"H11033
- 2521T: 48 26"H11033
- 2523T: 78 35"H11033

Construction
Tip: Thick polished plate glass or coated marble with transparent polyester coating to polished or satin finish to help eliminate use-associated stains. Marble top comes in 3/8" thick black high density particle board spacer glued underneath the perimeter and rests on the table frame with double sided adhesive.

Note:
- Marble with a coating will yellow over time giving the marble a warmer tone.
- Legs are made of solid steel bars and connected to horizontal steel tube rails using double connecters.

Substructure:
Larger tables, 2523T and 2524T, include an added cross bar between the rails and feature a tension rod substructure to help support the weight of the marble top. Four steel rods connected to the top corners of the table base converge into a chrome box attached to the cross bar. This hidden structure prevents any deflection of the marble.

Order Code
- 75 Hairpin stacking table
- F1 Black laminate
- W White base

Specify:
1. Pattern number
2. Top selection
3. Base selection

Ordering Information
- Colored Laminate Finishes:
  - Black (suffix F1)
  - White (suffix F2)
- Woodgrain Laminate Finishes:
  - Grey Ash (suffix 142)
  - Light Ash (suffix 139)
  - Zebra (suffix 145)
- Base Finishes:
  - Chrome (suffix C)
  - Black (suffix BL)
  - White (suffix W)
  - Blue (suffix BU)
  - Orange Red (suffix RD)
  - Yellow (suffix YL)
  - Green (suffix GE)

Construction
- Base: Base is constructed of bent cold rolled steel rods and powder coated paint finish or chrome plated. Stainless steel screws attach base to the table top.
- Laminate Top: MDF top is sandwiched between laminate layer with ABS edge. Woodgrain laminate tops will feature a matching woodgrain ABS edge. Three nylon bumpers underneath the top prevent scratches when tables are stacked.
- Note: Tables stack up to 5 high.

The Florence Knoll Hairpin Stacking Table is certified Clean Air GOLD.

**Prior to Ordering:**

**Installation Requirements Package:**
Please contact your KnollStudio sales representative to obtain a complete installation requirement package before submitting an order.

**Spatial Considerations:**
Please consider these spatial dimensions before ordering the 04 Counter:
- Individual beam dimensions: 94.5 inches length, 15.75 inches square width/height
- Height of the overall counter: 47 inches
- Clear circular footprint required: 13.6 feet diameter
- Total assembled weight: 925 lbs

Note: Once installed, the 04 Counter is a permanent structure in any space, akin to building a wall. It cannot be easily removed to install flooring, lay a rug, etc. Please think through the alignment and underlayment prior to installation.

**Site Flooring Requirements:**
These site flooring requirements are solely the customer’s responsibility and must be completed prior to installation:
- A minimum of 4" solid concrete floor foundations must be present at the installation site.
- The floor under the mounting plate should be level to within .05 inches.
- The floor under the first box should be level to within .25 inches.
- No electrical, plumbing, HVAC or reinforcements can be imbedded in the flooring.
- Raised floors are not acceptable.
- If there is floor covering, there can be no gap between the floor covering and the concrete.

**Order Code**

Example: LLS8-C-MA-MN

**LLS8** Low Round Table, Double

**C** Chrome base

**MA** Arabesque

**MN** Nero Marquina

Specify:
1. Pattern number
2. Base finish option
3. Large top A finish selection (if applicable)
4. Medium top B finish selection (if applicable)
5. Small top C finish selection (if applicable)

**Ordering Information**

- Base finishes:
  - Chrome (suffix C)
  - Painted Black (suffix BM)

- Laminate and glass top finishes:
  - White Laminate (suffix F2)
  - Black Glass (suffix C1)
  - Polished Coated marble top finishes:
    - Arabesque: white-grey (suffix MA)
    - Calacatta: white-grey/beige (suffix MCS)
    - Carrara: white-grey (suffix GC)
    - Nero Marquina: black (suffix MN)
    - Rosso Rubino: rich red (suffix MR)
    - Verde Alpi: green (suffix MV)

- Note: LLS8 and LLS7 include multiple tabletops that can be specified in different finishes. The final list price for LLS8 should include the price for Top A in specified finish plus Top B in specified finish. The final list price for LLS7 should include the price for Top A in specified finish, plus Top B in specified finish, plus Top C in specified finish.

- Maintenance:
  - See pages 29-30.

**Construction**

- Base:
  - Polished chrome-plated or powder coated high performance alloy steel.

- Tips:
  - Recessed edge satin smooth laminate or marble. Recessed edge back with screen painted fronted tempered extra clear glass.

- Note:
  - The tables are fixed when they are in a set of two. The 23 3/4” table can be moved 90° if it is part of a set of three. The individual tables in LLS8 and LLS7 configurations are not freestanding.

**Overall Widths:**

- **LLS8:** 59.8” W
- **LLS7:** 75.5” W

**Note:**

- The KnollStudio logo and signature of Ludwig Mies van der Rohe is stamped into the base of the MR and Barcelona tables.
- The Barcelona Table and MR Table are certified Clean Air GOLD.

**Construction**

**BARCELONA TABLE**

- Clear Glass Top: 3/4" thick top with a 5/8" wide beveled edge. Top and edges have a slight green tint.
- Starphire™ Glass Top: Starphire glass is more clear and luminous than regular glass. The low iron content gives glass a crystal quality. 5/8" bevel edge has an exceptionally clear character.

**Stainless Steel Base:**

**Polished Chrome Base:**

- Hand-ground and hand-buffed to a mirror finish. Single piece construction.

**Bumpers:**

- Polished Chrome table has black bumpers. Stainless steel table has white bumpers.

**MR TABLE**

- Clear Glass Top: 5/8" thick clear polished plate glass. Top and edges have a slight green tint.
- Starphire glass in more clear and luminous than regular glass. The low iron content gives glass a crystal quality. 5/8" bevel edge has an exceptionally clear character.

**Stainless Steel Base:**

**Polished Chrome Base:**

- Hand-ground and hand-buffed to a mirror finish. Single piece construction.

**Bumpers:**

- Polished Chrome table has black bumpers. Stainless steel table has white bumpers.

  - Natural marble finishes:
  - Carrara: white-grey (suffix NGC)

**Construction**
- Standard sizes: For additional standard-size tables please consult your KnollStudio representative, dealer or Customer Service associate.
- Special width tables: For standard depth tables (42", 48.5", and 60") you may determine list pricing on any special width between standard sizes simply by identifying the next highest standard width tables, and add 5% in the standard list price. For example, if requesting an 80" width table, you would identify the next standard width table (80" x 82") and add 5% to the list price of that standard size. Generally a KnollStudio representative for special order Code.
- Special sizes and finishes: For all other sizes and for special finishes, consult your KnollStudio representative, dealer or Customer Services for information.

Order Code

Specify:
- N10-HK-AW
  - Splay-Leg Table
  - Hickory (suffix HK)
  - American Walnut (suffix AW)
- N20-DF-BS
  - Tray
  - Douglas Fir (suffix DF)
  - Brazilian Santos (suffix BS)

Construction

**TABLE:**
- Tops: Tops are veneered with reverse edge-matched cathedral pattern, matching solid wood edge in clear low-sheen finish.
- Legs, apron, and edge detail: Solid American Walnut. Mortise and tenon joints with solid brass hardware. Nylon glides. Edge detail finish is available in American Walnut only.

**TRAY:**
- Tops: Tops are constructed of solid Douglas Fir lumber that is quarter-cut and finished in a clear low-sheen finish.
- Edge detail: Available in two finishes, solid Brazilian Santos, solid Wenge. Edge details are joined to top with mortise and tenon joints.

Ordering Information

**Finishes, table only:**
- American Walnut (suffix AW)
- Hickory (suffix HK)

**Finishes, tray only:**
- Douglas Fir (suffix DF)
- Brazilian Santos (suffix BS)
- Wenge (suffix WG)

Maintenance:
See pages 29-29.

Note:
Each table and tray features George Nakashima's signature under the table top.
The Splay-Leg Table is certified Clean Air GOLD.

**Construction**

*Base:*

The base and mounting plates are solid steel. Laser cut and laser finished in a silver grey powder coat finish. The column is bolted to both the base plate and mounting plates. The 24" round tables comprise a 25.5" round base plate. All other size tables, round and square, comprise a 21.75" round base plate. Column is 2.36" in diameter.

*Top:*

The top is laminate with a natural birch edge. Top is 3/8" thick. Top is connected to base via mounting plates.

*Note:*

The Arena Cafe Table is certified Clean Air GOLD.

**Grain:**

- Light Oak: 1/4 thick
- Light Walnut: 3/4 thick
- Roll Dark Cherry: 3/4 thick

**Substrate:**

- Medium density fiberboard with a cathedral grain pattern in various toned or stained finishes for light oak, light walnut, and dark cherry. Edged tops are weighted with plates to ensure stability.

**Marbles with a coating will yellow over time.**

**The Platner Tables are certified Clean Air Gold!**

#### Construction

**Base:**

- Clear plastic extension ring for smooth bottom surface.

**Glass top:**

- 3/8” thick tempered glass for coffee and dining tables.

**Mobile edge detail:**

- Mobile Edge: All marble tops feature a beveled edge. 3/4” thick coated marble tops have transparent polyester coating to help eliminate use-associated stains. 3/4” thick natural marble tops and granite tops have protective sealing. Largest tops have slats that fit into base opening to ensure stability.

**Wood Top:**

- Wood tops are weighted with plates to ensure stability.

**End Cap:**

- End caps are constructed of cored medium-density fiberglass with a cattail lace pattern in various toned or stained finishes for light oak, light walnut, and dark cherry. Edged tops are 1/4” thick. Edges are 3/8” solid wood to match face veneer. Wood tops are weighted with plates to ensure stability.

**Marble Top:**

- Marble tops are constructed of a 3/4” thick natural marble or granite substrate. Edged tops are 1/4” thick. Edges are 3/8” solid wood to match face veneer. Wood tops are weighted with plates to ensure stability.

**Maintenance:**

- See pages 29-30.

**Note:**

- All marble tops feature a beveled edge. 3/4” thick coated marble tops have transparent polyester coating to help eliminate use-associated stains. 3/4” thick natural marble tops and granite tops have protective sealing. Largest tops have slats that fit into base opening to ensure stability.

</table>

### Shipping Information

Child’s Amoeba table is shipped knocked down with top and legs in one box. Simple field assembly required.

### Maintenance

See pages 29-30.

### Note

The Child’s Risom Amoeba table is compliant to the Consumer Product Safety Improvement Act of 2008 for Children’s Products, 16 C.F.R. 1303, CPSC Title 15, Section 1211 for Total Lead in Substrates and Surface Coatings.

### Construction

Legs and apron:
Select European Beech hardwood with a toned natural finish. Mortise and tenon construction.

Top:
3/4” thick wood grain laminate top is 3-ply construction with medium density fiberboard core and plastic laminate backer. Honey laminate features a Beech grain pattern.

Finish:
Tung catalyzed lacquer finish.

### Ordering Information

**Construction**

**Maintenance:**

See pages 29-30.

**Note:**

To allow space for chairs, the base extends 1” beyond the table top. Top and base ship in separate packages.

**Engaged Stone:**

Highly face veneer with cathedral grain pattern in various clear or opaque finishes. Black or white finish. Top and base are 1” thick.

**Engaged Edge:**

Edge has a solid hardwood boundary casing and a solid hardwood boundary. A solid hardwood boundary is also available on select tables and bases. Edge thickness is 1/2” thick. Edges are 1/2” solid wood to match face veneer.

Construction

MATERIALS: Galaxite white-grey/white is composed of a highly resilient polyurethane enamel coating that is polyester bonded. Black and white bases are coated in a tough, aluminum-reinforced Rilsan® finish. Stainless steel hardware will be exposed black edged white laminate. Black, white, and grey laminates are coated in a tough, polyester-resistant coating to help eliminate use-associated stains. All tables have protective sealsers and are finished with a clear satin finish. All tables are finished with a clear satin finish. All tables are finished with a clear satin finish.

Base:
- Heavy molded cast aluminum, stripped polished. Black and white bases are coated in a tough, aluminum-reinforced Rilsan® finish. Stainless steel hardware will be exposed black edged white laminate. Black, white, and grey laminates are coated in a tough, polyester-resistant coating to help eliminate use-associated stains. All tables have protective sealsers and are finished with a clear satin finish. All tables are finished with a clear satin finish.

Laminite tops are 3/8" thick. Coated marble tops are 3/4" thick. Granite tops are 3/4" thick.

Engaged Stone:
- Polished, bright white surface is nonporous and more compact than most granite. Composed of 93% fused quartz. Does not yellow or stain and is scratch resistant.

#### Notes

- Saarinen tables are part of a collection. Please refer to Saarinen side chairs, lounge seating and executive chairs on page 279.
- All tops are 1 3/8" thick natural cleft granite.
- Saarinen Round End and Coffee Tables are certified Clean Air GOLD.

#### Construction

**Base:**

- Heavy-gauge cast aluminum, strip-polished.
- Black and white bases are cast in a tough, aluminum-resistant BlackMaster finish. Premises have a consistent look and are highly resistant to scratching. Knoll recommends using felt pads underneath objects placed on the surface and routinely cleaning the glass surface. Please polish the surface using a soft cloth. Chrome tops are not suitable for outdoor use.

**Engineered Stone:**

- Not suitable for outdoor use.

**Veneer:**

- Top and base slabs and trim are constructed of veneered medium density fiberboard with an interlaced grain pattern in various colors or natural veneers. All tops are 1 3/8" thick.

**Chrome Type:**

- Chrome-plated steel with a routed edge. Please note that chrome-plated finish is not resistant to scratching. Knoll recommends using felt pads underneath objects placed on the surface and routinely cleaning the glass surface. Please polish the surface using a soft cloth. Chrome tops are not suitable for outdoor use.

**Engineered Stone:**

- Veneer tops are constructed of veneered medium density fiberboard with an interlaced grain pattern in various colors or natural veneers. All tops are 1 3/8" thick.

#### Ordering Information

**Order Code**

- Example: P320-K-W
- P320 Petal side table
  - K = Teak top
  - W = White

**Base finishes:**
- Blue (suffix BLU)
- Chestnut (suffix N)
- Dark Bronze (suffix 1)
- Green (suffix 07)
- Light Bronze (suffix 13)
- Lime Green (suffix LGR)
- Orange (suffix ORG)
- Plum (suffix PLM)
- Sky Blue (suffix 3)
- Warm Wood (suffix 12)
- Weatherable Silver (suffix S)
- White (suffix W)
- Yellow (suffix YEL)

**Wood top finishes:**
- Teak (suffix T)

**High Density Polyurethane top finishes:**
- White HPDE (suffix W)

**Maintenance:**
See pages 29-30.

**Construction**

- Base: Top spiders and base are powder coated stainless steel.

**Note:**
Teak tops will patina over time if left outdoors and will turn a silvery grey color.

**Glides:**
Molded nylon glides are included on P321 and P322 models only.

**Construction**

- **Frame:**
  - Aluminum castings and extrusions soldered together. Finished in highly durable weather resistant polyester powder coat paint. V-shaped stainless steel connector attach tops on centers.
  - Chamfered glass top available in clear or etched.

- **Porcelain Top:**
  - All thick steel plate with porcelain coated layer comprised of glass particles, baked to mat into a 0.08 smooth surface. Heavy copper substrap comprising metal or particle wood board provides additional support.

**Maintenance:**

- See pages 29-30.

- **Note:**
  - Teak top will patina over time if left outdoors and will turn a silvery grey color.
  - Glass:
    - Clear, acid etched.

- **Glides:**
  - KD style.
  - Glass top, available in white or black finishes.

**Materials:**

- **Fiberglass:**
  - Clear butyrate plastic.

- **Teak:**
  - Natural teak.

- **Glass:**
  - 3/8” beveled glass top available in clear or etched.

**Base finishes:**

- Blue (suffix BLU)
- Cinnamon (suffix N)
- Green (suffix G)
- Light Bronze (suffix L)
- Lime Green (suffix LG)
- Orange (suffix OR)
- Pale Blue (suffix PB)
- Sky Blue (suffix S)
- Warm Wood (suffix W)
- Weatherable Silver (suffix W)

- Yellow (suffix Y)

**Porcelain top finishes:**

- White (suffix W)
- Brown (suffix B)
- Marine Blue (suffix M)
- Light Bronze (suffix L)
- Dark Bronze (suffix D)
- Warm Brown (suffix W)
- Warm Wood (suffix W)
- Clear glass (suffix C)
- Etched glass (suffix E)

### Pattern Selection

1. *Pattern number*
2. *Top material*
3. *Base finish*

**Specify:**
- **Pattern number:** 6
- **Top material:** W (White)
- **Base finish:** F (Fiberglass)

**Example:**

1966-20B-F-W-6

### Additional Information

- **Frame:** Aluminum castings and polyester powder coat paint. Y-shaped extrusions welded together. Finished in highly durable, weather resistant polyester powder coat paint. Y-shaped stainless steel connectors attach tops on corners.
- **Teak:** Finished in natural teak. Teak tops will patina over time if left outdoors and will turn a silvery grey color.
- **Fiberglass Top:** 3/4 thick fiberglass available in white or acid etched.
- **Porcelain Top:** 3/4 thick steel plate with a porcelain enameled coated glass particle, baked on into a 0.027 smooth surface. Heavy comb-out prevention of metal or particle void board provides additional support.
- **Glass Top:** 3/4 thick glass top available in clear or acid etched.

**Construction**

- Frame: Aluminum castings and polyester powder coat paint. Y-shaped stainless steel connectors attach tops on corners.
- Teak: Natural teak.
- Fiberglass Top: 3/4 thick fiberglass available in white or acid etched.
- Note: Teak tops will patina over time if left outdoors and will turn a silvery grey color.
- Glides: Glass footplated plastic.

**Order Code**

**Example:** 1966-20B-F-W-6

### Order Code Example

**1966-55-P-( )-( )-( )-( )**

- **1966** - Serving Cart
- **55** - Pattern number
- **P** - Porcelain top
- **( )** - Top material
- **( )** - Top finish selection
- **( )** - Base finish selection

### Ordering Information

#### Porcelain Top Finishes
- White (suffix W)
- Brown (suffix B)
- Marine Blue (suffix M)
- Warm Wood (suffix 12)
- Light Bronze (suffix 13)
- Dark Bronze (suffix 14)
- Warm Bronze (suffix 16)

#### Fiberglass Top Finishes
- White (suffix W)

#### Wood Top Finishes
- Teak (suffix K)

### Construction

**Frame**
- Frame is aluminum castings and extrusions welded together. Finished in highly weather resistant polyester powder coat paint. Y-shaped stainless steel connections attach tops to corners. Wheels are cast aluminum with rubber tires and a differential axle.

**Porcelain Top**
- 

**Fiberglass Top**
- 

**Wood Top**
- 

**Note:**
- Teak tops will patina over time if left outdoors and will turn a silvery grey color.

### Maintenance
- See pages 29-30.

**Notes:**
The SM tables are part of a collection. Please refer to SM side chair on page 310 and SM1 and SM2 lounge collection on pages 312 and 314.

**Ordering Information**

Specify:
1. Patterns number
2. Base option
3. Top option

Shipping:
Top and base of SM tables will ship in separate packages.

Glass top finishes:
- Clear glass (suffix S2)
- Painted White Starphire (suffix S2)

Base finishes:
- Natural black (suffix SN)
- White (suffix 2)
- Stainless Steel (suffix S)

**Construction**

Frame:
- Constructed of stainless steel, frame has continuous appearance. White bases are coated in a tough, abrasion-resistant Rilsan® finish.
- Polished bases are stainless steel, hand buffed to a mirror finish. Top rests on four transparent silicon spacers.

Top:
- Three top options:
  - 3/4" thick clear glass with a 1/8" wide bevel, top and edges have a slight green tint;
  - 3/4" thick Starphire™ glass with a bevel edge, underside of glass is painted white;
  - 3/4" thick natural cleft slate with beveled edge.

Glides:
- Glides are included with the table base.

**Maintenance:**
- See pages 28-29.

For weight information, please contact your Knoll Studio representative.

**Note:**
- The SM Table Collection is certified Clean Air GOLD.
- The SM Tables are part of the collection. Please refer to SM side chair on page 310 and SM1 and SM2 lounge collection on pages 312 and 314.

**Award(s):** Best of NeoCon Silver Award 2012

**Ordering Information**

**Order Code**  
**Example:** DS02-118-WHT-YEL  
**DS02**  
**118** Bright White laminate top  
**WHT** White leg finish  
**YEL** Yellow rail finish

**Ordering Information**

- **Top Finishes:**  
  - Laminates: Bright White (suffix O118)  
  - Glass: Clear Glass (suffix G2)  
  - Natural Marble:  
    - Carrara, honed (suffix GCO)  
  - Engineered Stone:  
    - Vetra Bianco (suffix VB)

- **Construction:**  
  - Frame: Frames are constructed from extruded aluminum rails, which are connected using die-cast aluminum ‘X’ and ‘Y’ shaped castings. Structural steel legs join the table’s extruded aluminum rails through a blind assembly, seamlessly tying the leg to the cope detailed rail. Stainless steel hardware and fasteners are used throughout the table’s construction.
  
  - All painted parts are finished in ultra-durable outdoor polyester powder coat finish. Steel legs are pre-treated with a zinc-rich epoxy primer that provides a robust base of protection from the elements.
  
  - Top finishes are elevated off the table’s base using cast aluminum or nylon spacers (laminates, marble, or engineered stone). All tops are secured to the base using threaded metal inserts and fasteners. For glass tops, the plateglass balanced aluminum-spacer acts as a glass bolt and is attached to the glass using an ultra-strong adhesive.

- **Frame:**  
  - White laminate faces with black phenolic core. Core is constructed of FSC certified craft paper and phenolic resin.
  - Glass: 1/2" thick clear tempered glass.
  - Natural Marble: Honed natural Carrara marble.  
  - Engineered Stone: Polished bright white surface is non-porous and more compact than most granites. Comprised of 93% fused quartz. It does not yellow or stain and is scratch resistant. Suitable for outdoors.
  - Glides: Non-marking indoor/outdoor grey nylon glide protects the table and the floor. An adjustable-height indoor glide kit is also included.

- **Maintenance:**  
  - See pages 29-30.

Construction

Top: Three top options: 1" thick laminate top with molded urethane beveled edge; 3/4" thick clear tempered glass with polished pencil edge; and 3/4" thick cleft slate with beveled edge.

Base: 7100 diameter cold rolled steel with fixed polyurethane, outdoor powder coat and chrome-plated hardware.

Glass: Plastic

Outdoor finish: With proper preventative maintenance and limited exposure to the elements, the PaperClip kab table is appropriate for outdoor environments. Specify outdoor powder coat black (suffix BL) base finish and clear glass (suffix G2) or slate (suffix SN) tops.

Shipping: All tables shipped knocked-down. Base and top assembly required.

Exterior edge detail: Polished chrome base finish.

### Ordering Information

**Order Code**

- **LED** 2 IN 19-01-BLK
- **LED** 2 AD 19-BLK
- **LED** 2 AD 37-BLK
- **LED** 2 AD 67-BLK
- **LED** 2 IN 37
- **LED** 2 IN 67
- **LED** 2 IN 79

**Specify:**

1. **Pattern number**
2. **Type of Light**
3. **Length**
4. **Connector where required**
5. **Finish**

**Type of Light:**

- Individual: Ships with power source
- Adder: Ships without power source for interconnection purposes

**Additional Information:**

- Light ships with magnet and fixed screw-in mounts.
- Occupancy sensor (LED PIR) can be added to any light and must be ordered separately.
- Occupancy sensor requires an additional 4.5” of clearance in addition to the length of the light.
- 50,000 hours lifespan.

**Construction:**

- Highwire: LEDs, extruded aluminum housing, plastic reflector end caps.
- Occupancy sensor: extruded aluminum body, plastic face, end caps and lens.

**Design Awards:**

- Best of NeoCon 2013 Silver Award
- Highwire is TAA compliant.

**Light Source Information:**

- 19": 9 watts, 35 LEDs
- 37": 16 watts, 70 LEDs
- 67": 30 watts, 126 LEDs
- 79": 32 watts, 140 LEDs

**50,000 hours lifespan.**
Copeland™ Light
by Stephan Copeland

**Standard Arm**
- Standard Arm.
- 10 watt LED bulb.
- Mounting option must be ordered separately.
- 20.75" x 21.75" (at 90° angle).
- Reaches height of 29.75" when extended up and depth of 35.75" when extended out.

**Compact Arm**
- Compact Arm.
- 6 watt LED bulb.
- Mounting option must be ordered separately.
- 16.25" x 17.75" (at 90° angle).
- Reaches height of 23.5" when extended up and depth of 28.75" when extended out.

**Order Code**
- Example: COPE-01-SV, COPE-01-BASE-SV
- COPE-01-SV: Copeland light standard arm in silver
- COPE-01-BASE-SV: Copeland standard base in silver

**Ordering Information**
- Pattern number for arm
- Finish for arm
- Mounting option pattern number
- Mounting option finish

**Light Bulb Information**
- Standard size ships with 10 watt LED bulb and Compact ships with 6 watt LED bulb.
- Standard is 10W/120v/3000K and Compact is 6W/120v/3000K.
- An incandescent light bulb can also be used; 75 watt is the maximum for the standard light and 60 watt is the maximum for the compact light.

**Construction**
The Copeland Light has a steel arm, aluminum axles, zinc coated cast iron base and metal-painted ABS shade.

**Design Awards**
- Best of NeoCon 2005, Silver Award

- **ACT**: Antenna Spaces
- **PW**: Power Collection
- **PC**: Power Cube
- **24-24-13-1E**: Electrical outlets on one side

### General Notes

Each electrical module has either 4 outlets or 3 outlets and 2 USB ports, depending on specification.

Power Cube is 13” high with 4 levelers. Hard wired comes with 72” whip. Cord set comes with 22” cord with a 3-prong plug for 120V outlets. Base includes one slot per corner for choice of cord exit.

Power Cube: Powder coated steel, steel and nylon levelers

**Construction**

- **Power Disc**
  - Max Load: 120V, 15A, 50/60 Hz
  - Voltage Protection Rating: L-N 600V, L-G 600V, N-G 600V
  - UL Listed Relocatable Power Tap/Surge Protection Device
  - 10’ 3-prong cord recesses in base for flat surfaces or can be threaded through standard grommet.
  - On/off switch with LED indicator
  - Unit weighs 4.3 lbs.
  - Made in China for Knoll.

**Note:** Each Power Cube comes with a whiteboard finish and ships with 4 dry erase markers (blue, green, red and black) and a microfiber cloth eraser.

To prevent dry erase markers from drying out, store them with the cap down in the optional cup.

**Ordering Information**

Specify:

1. Pattern number

USA-made standard monitor arm is available in a silver finish for a $90 upcharge to the standard finish by specifying a 613 finish. The standard arm with a 613 finish is BAA- (Buy American Act) and TAA- compliant (Trade Agreement Act).

**Mounting and Application Information**

See page 496 for comprehensive mounting, application and construction information.
Mounting and Application Information:

A larger size (e.g., 24” widescreen) does not necessarily equate to a higher weight monitor. It is key to understand the application to know if a certain size monitor will fit within a space and/or if there are multiple monitors. Also, it is important to note weight limitations vary by application.

Weight Limits: Weight limitations for individual mounting options are outlined below. Taken together (both the mounting option weight limit and the individual arm limit) you can determine the best mounting option for your client given the number of monitors they desire to mount and the weight of those monitors. Weight limits are outlined by mounting option on page 362.

Size Limits: Monitor Size

There is no specific maximum size for a single arm solution (outside the limitations of the space in which you are trying to put it). When mounting two monitors, the maximum outer horizontal width per monitor is 33.5” for a cockpit solution or 33.9” for a flat positioning flush next to each other.

Some larger (over 22” wide) widescreen monitors now come with the larger VESA standard (200 mm x 200 mm or 200 mm x 200 mm) which can be accomplished by ordering the VESA Plate Adaptors in the picture list. Knoll and its dealers will not take the responsibility for mounting the monitor to the arm. The end user’s IT department must confirm VESA mounting compliant and mount the monitor to the arm using customer’s own screws. The most common screws are M5 x 5 mm and M5 x 10 mm.

Please follow installation instructions closely (available in this kit box shipped as well as on Knoll Exchange).

Apple Computer Note: Apple iMacs are not VESA compliant. To mount an Apple’s iMac or LED Cinema Display to a Sapper arm requires a customer to purchase a Cinema Display VESA Mount Adapter Kit from Apple. The adapter kit comes standard with a 100 mm x 100 mm hole pattern and can be purchased online at apple.com

Clamp Mounting:

Two-Piece Table Clamp Mounting:
The standard two-piece table clamp is easy to install and retrofit and works on most worksurfaces and desks that are a minimum of 1.75” thick solid core. The maximum worksurface thickness is 2.75”. There are four settings to accommodate a range of worksurface thicknesses. For the fourth setting to accommodate the thickest worksurfaces you must invert the lower mounting plate to allow the mount to clamp the maximum 2.75”. It is important to mock up the table clamp, particularly on competitive product to ensure a proper fit. The clamp is not compatible with Morrison Network.

Deep Table Clamp Mounting:

This clamp is one-piece and works on most surfaces. The deep table clamp mount is intended to clear most knife-edge (45 degree angle) desks or worksurfaces.

Heavy Duty Table Clamp Mounting:

This clamp is intended for heavier weight applications. Please note that individual arm weight limitations still apply.

Direct Wall Mounting:

For single monitor mounting, you can use either the direct wall mast mount or direct wall mount. Please note that the Sapper 50 Direct Wall Mount is specific to the compact arm. You cannot use the standard mount with the compact arm or a standard arm with the compact arm.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight. See above for weight limits if mounting slat wall to an architectural wall.

MP Mounting (for ScreenScape®):

The standard two-piece table clamp is easy to install and retrofit and works on most worksurfaces and desks that are a minimum of 1.75” thick solid core. The maximum worksurface thickness is 2.75”. There are four settings to accommodate a range of worksurface thicknesses. For the fourth setting to accommodate the thickest worksurfaces you must invert the lower mounting plate to allow the mount to clamp the maximum 2.75”. It is important to mock up the table clamp, particularly on competitive product to ensure a proper fit. The clamp is not compatible with Morrison Network.

Deep Table Clamp Mounting:

This clamp is one-piece and works on most surfaces. The deep table clamp mount is intended to clear most knife-edge (45 degree angle) desks or worksurfaces.

Heavy Duty Table Clamp Mounting:

This clamp is intended for heavier weight applications. Please note that individual arm weight limitations still apply.

Direct Wall Mast Mounting:

For single monitor mounting, you can use either the direct wall mast mount or direct wall mount. Please note that the Sapper 50 Direct Wall Mount is specific to the compact arm. You cannot use the standard mount with the compact arm or a standard arm with the compact arm.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight.

Sapper Monitor Arm Collection

Mounting, Construction and Application Information

Mounting, Construction and Application Information:

Direct Wall Mast Mounting:

For single monitor mounting, you can use either the direct wall mast mount or direct wall mount. Please note that the Sapper 50 Direct Wall Mount is specific to the compact arm. You cannot use the standard mount with the compact arm or a standard arm with the compact arm.

For use on architectural walls only as outlined further on this page. Knoll cannot be held responsible for the structural integrity of a wall so please work with clients to ensure their wall is structurally sound to hold the arm configuration and the monitor weight.

Cable Management:

Monitor Arm:

External cable management allows for easy installation and removal of monitors. There are gates under the arm that will contain wires from the monitor to plastic cable management clips that go on the mast to keep wires tidy to the electrical socket.

Gates

Clips

Fast Release:

Monitor Arm:

Allows for swift installation and removal of flat panel monitors by merely popping the quick release pin up to remove monitor with movement joint back plate attached.

Release

Thief Deterrence:

All movement joints come with a set screw within the fast release pin, to prevent fast release if so desired. Also there is a set screw at the top of the mast to deter removal of the entire arm and monitor from the mast.

Deactivating:

Fast Release with Set Screw

Set Screw to Prevent Arm Removal

Compatibility:

The Sapper Monitor Arm Collection is not compatible with the Wishbone Flat Panel Monitor Support System (i.e., Wishbone, Zorro or Rotation arm, posts, tool bars, brackets, mounting, etc.). They have been designed independently and as such parts from one system cannot be used with the other.

Monitors cannot be mounted on KnollExtra® or Orchestra® lead bars.

Installation Instructions:

Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

Construction:

Arm: die cast aluminum with a cold rolled steel top plate

Mast: anodized aluminum extension

Adjustment knobs: nylon undomed with a TPU overmold

Movement joint (includes fast release monitor plate): plastic bushings, zinc and plastic molded plastic tilt friction components and glass filled nylon VESA plate

Movement joint side: aluminum, powder coated silver

VESA plate adaptor: steel

Table clamp: steel

Slat wall and wall mounts (both mast mount and direct, both standard and compact sizes): die cast aluminum with steel back plates

Double arm bracket: die cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings

Cable management: transparent polycarbonate clips on the mast and beam; plastic gates under standard arms

Home Office

Knoll Space Canada

491

499
Cable Management:
External cable management allows for easy installation and removal of monitors. There are gates under the arm that will contain wires from the monitor to plastic cable management clips that go on the mast to keep wires tidy to the electrical socket.

Adjustment:
The Sapper monitor arm collection offers intuitive adjustment. To adjust the height, you simply manually lift the arm and twist the adjustment knob like a screw up or down the mast to a comfortable setting. The easiest way to lift the monitor is to fold it in before making the adjustment. To adjust the depth, you can move the arm in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing and adjust the swivel back and forth 180 degrees and tilt up and down 165 degrees. The arm folds in and out from 2 7/8" fully compressed to approximately 17" when fully extended.

Height Adjustment

Rotation, Swivel, Tilt and Depth Adjustment

Fast Release:
Monitor arms allow for swift installation and removal of flat panel monitors by merely popping the quick release pin up to remove monitor with movement joint/back plate attached.

Fast Release

Thief Deterrence:
All movement joints come with a set screw within the fast release pin, to prevent fast release if so desired. Also there is a set screw at the top of the mast to deter removal of the entire arm and monitor from the mast.

Deactivate Fast Release with Set Screw

Set Screw to Prevent Arm Removal

Compatibility:
The Sapper Monitor Arm Collection is not compatible with the Wishbone Flat Panel Monitor Support System (i.e., Wishbone, Zorro or Rotation arms, posts, tool bars, brackets, mounting, etc.). They have been designed independently and as such parts from one system cannot be used with the other.

Monitors cannot be mounted on KnollExtra® Orchestra® load bars.

Installation Instructions:
Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

Construction:
Arm: die cast aluminum with a cold rolled steel top plate
Mast: anodized aluminum extrusion
Adjustment knob: nylon undermold with a TPU overmold
Movement joint (includes fast release monitor plate): plastic bushings, zinc and plastic molded plastic tilt friction components and glass filled nylon VESA plate
Movement joint slide: aluminum, powder coated silver
VESPA plate adaptors: steel
Table clamp: steel
Slat wall and wall mounts (both mast mount and direct, both standard and compact sizes): die cast aluminum with steel back plates
Double arm bracket: die cast aluminum, steel top plate, extruded aluminum posts, plastic upper and lower bushings
Cable management: transparent polycarbonate clips on the mast and beams, plastic gates under standard arms
## Mounting Option Weight Limits

111 Jet Black Finish

**Mounting and Application Information**

See page 514 for comprehensive mounting, application and construction information.

**Ordering Information**

Specify:

1. Pattern number
2. Finish

Kits do not require any additional mounting specifications.

**Standard Monitor Arm Finish Options:**

Jet Black (111)
Medium Grey (115)
Bright White (118)

**Silver Monitor Arm Finish Option:**

Silent (613)

**Mounting Finish Option Note:**

All mounting options come in a black finish, with the exception of the Antenna Center Beam Side Mount which will come in the same finish color that was specified for the arm.

Sapper XYZ 30 uses Sapper XYZ Crossbar mounts and cable management clips.

Due to extensive adjustability of Sapper XYZ monitor arms, a mock-up is recommended to ensure it is suited for the specific workstation, particularly if placed in front of a wall or panel.
Sapper XYZ® Monitor Arm Series

Mounting, Construction and Application Information

Size Limits:

Monitor Arms
There is no specific maximum size for a Sapper XYZ monitor arm (outside the limitations of the space in which you are trying to put it).

Flat panel monitor manufacturers refer to their products by diagonal screen measurements. So a 19” widescreen monitor has a 19” screen measured diagonally, but is not necessarily 19” in horizontal width (refer to manufacturer’s specifications for specific overall height and width).

Monitor Mounting:
All Sapper XYZ monitor arms are compatible with the international Video Electronics Standard Association (VESA) industry interface-standard (75 mm x 75 mm and 100 mm x 100 mm hole patterns or 2.95” x 2.95” and 3.94” x 3.94”) adopted by most panel manufacturers. VESA compliancy is a requirement to mount any monitor to a monitor arm. If your customer has a noncompliant monitor back with only 75 mm x 75 mm holes, additional spacing may be needed to ensure proper fit. Contact Customer Service for more details including part and pricing information.

Knoll movement joints do not ship with screws and are designed to accept an M4 or M5 screw. M5 x 75mm and M3 x 10mm are the most common screen lengths but length is dependent on the specific monitor or television and screw should be tested prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws.

A VESA plate adaptor may be necessary for larger monitors and televisions and can be ordered separately in the sizes of 200 mm x 200 mm (M4 screws), 200 mm x 200 mm (M6 screws), 300 mm x 300 mm (M8 screws) and 400 mm x 400 mm x 600 mm (M8 screws). Adaptors ship with separate installation instructions and may require spacers. Knoll VESA plate adaptors ship with screws to attach the adaptor to the Knoll VESA plate but do not ship with screws to attach the adaptor to the monitor or television (see screw sizes listed above). English size equivalents may be needed instead; screw length is dependent on the specific monitor or television and screws should be tested prior to installation to ensure correct length. Knoll is not responsible for use of incorrect screws.

Knoll and its dealers will not take the responsibility for mounting the monitor to the monitor arm. The end user’s IT department must confirm VESA-mounting compliance and mount the monitor to the arm using customer’s own screws. Please follow installation instructions closely (available in each kit box shipped as well as on Knoll Exchange).

Apple Computer Note:
Apple iMacs are not VESA compliant. To mount an iMac or LED Cinema Display to a Sapper arm, requires a customer to purchase a Cinema Display VESA Mount Adapter Kit from Apple. The adapter kit comes standard with a 100 mm x 100 mm hole pattern and can be purchased online at apple.com.

Weight Adjustment:
The Sapper XYZ monitor arm is preset for a 10 lb monitor. Other monitor weights up to 20 lbs can be accommodated by adjusting the weight adjustment nut to the proper weight using the Allen key wrench on the back of the movement joint.

Note that the 20 lb setting is not ideal for the 10 lb setting. Knoll recommends increasing the weight by 10 lbs to increase the weight to 20 lbs. When proper weight is set, the arm should stay exactly where you place it.

Fast Release:
Allows for quick installation and removal of flat panel monitors by merely lifting the quick release pin up to remove monitor with movement joint/plate attached. Be sure to lift the arm to the highest position before removing monitor, or the arm will quickly move upwards.

Theft Deterrence:
All movement joints come with a set screw within the fast release pin, to prevent fast release if desired.

Compatibility:
The Sapper XYZ monitor arm is not compatible with the Sapper Monitor Arm Collection. It has been designed independently and as such, parts from one system cannot be used with the other, with the exception of the movement joint. Finish colors are consistent across the Sapper XYZ and Sapper Monitor Arm Collection portfolios. Comprehensive installation instructions will be shipped with product and are also available on Knoll Exchange for easy reference.

Construction:
Arm: the cast aluminum with steel channel and plastic molded around movement joint (includes fast release monitor plate); plastic bushings, zinc and plastic molded plastic tilt friction components and glass filled nylon VESA plate

VESA plate adaptors: steel

Table clamp: promount mount, fixed table mount: steel

Cable management: transparent polyethylene clip on the post, soft plastic in channel under arm

Antenna Table: Center Beam Side Mounting: die-cast aluminum

Cable Management:
External cable management allows for easy installation and removal of monitors. There is a cable management block in the channel under the arm that will contain wires from the monitor to plastic cable management clip that go on the post to keep wires tidy to the electrical socket.

Arm Adjustment:
The Sapper XYZ monitor arm collection offers intuitive one touch adjustment. To adjust the height, you simply lift the monitor to the desired position. To adjust the depth, you simply pull or push the monitor in or out. You can also rotate the monitor 360 degrees for landscape or portrait viewing, adjust the swivel back and forth 180 degrees and tilt up and down 153 degrees. The arm folds in and out from 2° fully compressed to approximately 21° when fully extended.

Clamp Mounting:
Two-Piece Table Clamp Mounting:
The standard two-piece table clamp is easy to install or retrofit and works on most worksurfaces or desks that are a minimum of 1 1/2” thick solid core. The maximum worksurface thickness is 2 1/2”. There are four settings to accommodate a range of worksurface thicknesses. It is important to mark up the table clamp, particularly on competitive products, to ensure a proper fit. The clamp is not compatible with Morrison Network.

Deep Table Clamp Mounting:
This clamp is one piece and works on most surfaces. The deep table clamp mount is intended to clear most knife-edge (45 degree angle) desks or worksurfaces.

How to Specify a Life Chair

### Step 1
**Basic Pattern Number**

<table>
<thead>
<tr>
<th>Arm</th>
<th>Base</th>
<th>Cylinder</th>
<th>Lumbar</th>
<th>Caster</th>
</tr>
</thead>
<tbody>
<tr>
<td>Life Chair</td>
<td>Height Adjustable Arms</td>
<td>Fixed Performance arms</td>
<td>Leather Arm Caps</td>
<td>Black Plastic Base</td>
</tr>
<tr>
<td>55</td>
<td>H</td>
<td>P</td>
<td>M</td>
<td>C</td>
</tr>
<tr>
<td>3</td>
<td>6</td>
<td>4</td>
<td>4</td>
<td>2</td>
</tr>
</tbody>
</table>

The basic pattern numbers are configured for you in the price list.

**EXAMPLES:**

55PJ-3-6-A5L-K1029-13-GH-BSF17-ST-K451/4-BT-K451/4
(Life with plastic base and upholstered seat and back toppers)

55H-3-4-A5K-CH-BSF22-KST19-NB
(Life with aluminum base and knitted seat topper, no back topper)
Life / Height Adjustable Arms / Polished Aluminum Base / No Lumbar / Clear Hard Caster / Life Back Suspension Fabric-Grain / Life Knitted Seat Topper / No Back Topper

### Step 2
**Select Back Suspension Fabric Color**

**Select Seat Topper and Upholstery Choice**

<table>
<thead>
<tr>
<th>Seat Topper Type</th>
<th>Upholstery Choice</th>
</tr>
</thead>
<tbody>
<tr>
<td>No Seat Topper</td>
<td>BSF(15-41)</td>
</tr>
<tr>
<td>Life Knitted Seat Topper</td>
<td>KST(15-40) (base grade)</td>
</tr>
<tr>
<td>Life Back Suspension Fabric</td>
<td>No Back Topper</td>
</tr>
</tbody>
</table>

### Step 3
**Select Back Topper and Upholstery Choice**

<table>
<thead>
<tr>
<th>Upholstery Code</th>
<th>Options Include</th>
</tr>
</thead>
<tbody>
<tr>
<td>UKST(15-40)</td>
<td>All approved KnollTextiles fabrics, Spinneybeck leathers, COM or COL</td>
</tr>
<tr>
<td>ST-(KnollTextiles or Spinneybeck Upholstery Code)</td>
<td>(optional fabric or leather seat topper)</td>
</tr>
<tr>
<td>UST-(Upholstery Code)</td>
<td>(optional fabric or leather Ultra Seat Topper)</td>
</tr>
</tbody>
</table>

### Step 4
**Select Back Topper and Upholstery Choice**

<table>
<thead>
<tr>
<th>Upholstery Code</th>
<th>Options Include</th>
</tr>
</thead>
<tbody>
<tr>
<td>COM or COL</td>
<td>No base grade available</td>
</tr>
</tbody>
</table>

* Please refer to the matrices at the beginning of the price list for approved fabrics and leathers.
Back Suspension Fabric with Upholstered Seat Topper
You may choose to add a seat topper. In addition to a wide range of approved KnollTextiles fabrics and Spinneybeck leathers, an exclusive Life Knitted Seat Topper (KST) is available in a palette to match the Life BSF. Life KST is base grade and included in the basic model pricing.

Black and Grey Piasic Base: Glass-filled nylon.
Polished and painted matte aluminum base.
Casters: Nylon 6 hard caster.
Nylon 6 soft caster with urethane overmolding.
Optional Headrest: Soft integrally colored self-skinning urethane pad and integrally molded thermoplastic glass-filled nylon support.

Visual Impression and scale:
Doesn’t dominate the look of the work environment, it complements it. Translucent back, sculpted mechanism and thin profile integrate Life into the landscape. Generous scale and features accommodate all size users.

Synchronized recline with auto-balanced tension:
Utilizes user’s body weight for resistance and recline- Allows for constant sitline - no need to recline. Promotes movement and balance. Preference control accommodates a wider range of users.

Dynamic seat pan with forward flex:
Unique cut-out pattern with ribbed urethane structure provides dynamic movement and structural stability. Grille and accommodates individual (all backs) without pressure points. Automatic flex responds to user’s every move. Flex front automatically supports and enables a balanced posture. Flex front includes waterfall edge (gradual radius at the front edge that does not cause pressure under the knee). Ribs prevent “hammocking” or sagging and allow for easier movement.

Back flex: The back frame is also a flexible plane like the seat that moves with you as you recline in the chair.
Life Back Suspension Fabric (BSF):
Exclusive elastomeric knit has built in lumbar support and is available in 14 color options. Has a soft feel that is not hard to skin or clothing.

Arms:
Soft arm pads alleviate pressure points. Types available: fixed, height adjustable, high performance (includes height adjustment and arm pad positioning). Retractable or changeable.
High performance arms:
One-hand operation. Armrests are set toward the rear of the seat for a better fit. Soft arm pads float in an orbital motion with locked stops. A great deal of adjustment in a surprisingly slim package.

Included Colors:
Saturated colors.

BIFMA level® certified: BIFMA has established level® as a common framework against which to evaluate the environmental and social responsibility of a variety of products. level® is part of BIFMA’s ongoing development of voluntary product and industry standards that support safe, healthy and sustainable workplaces. To achieve level® certification, Knoll partners with Sustainable Certification Systems (SCS), known for its integrity and scientific rigor.

Warranty:
Life is warranted for 24-hour, 7 days a week, multi-shift use: 12 years parts and labor to repair, 5 years seating upholstery, textiles and leathers, and finisher. See Knoll Selling Policy for further details, conditions and exclusions.

Warranty:
Life is warranted for 24-hour, 7 days a week, multi-shift use: 12 years parts and labor to repair, 5 years seating upholstery, textiles and leathers, and finisher. See Knoll Selling Policy for further details, conditions and exclusions.
Formway Design Studio: Life® Dimensions, Features and Operating Instructions

**Life® Operating Instructions**

**Standard Features:**

Synchronized recline with auto-balanced tension
No need to adjust tension. Automatic recline tension counter-balances your body weight, resulting in perfect balance as you recline.

Tension preference selector
To perfect the tension adjust the preference lever located at the back left of the chair while in the upright position.

Seat height adjustment
To raise or lower the height, lift the lever on the right side of the chair and adjust to the proper height.

Sliding seat depth adjustment
Using the same lever as the seat height, push down to slide the seat within the 4-1/10 seat depth range. Release the lever to lock the seat into position.

Upright tilt lock
To lock the seat in an upright position, push down the lever located on the left side of seat. Lift lever to unlock.

**Arm Options:**

Fixed arms: Non-adjustable.

Height Adjustable Arms:
Lift the lever on the outside of the armpad to adjust arm height.

High Performance Arms:
Lift the lever on the outside of the armpad to adjust arm height. The armpads adjust in an orbital motion and lock into a fixed position by pressing the button on the inside of the pad. The armpads can be positioned to the front or back and in width.

**Lumbar Options:**

Height Adjustable Lumbar
The lumbar support is held on to the chair with magnets for easy installation and a maximum range of adjustability. To install the lumbar, separate the halves of the magnetic lumbar and place it in the desired position on your chair. Secure it by putting both halves back together around the back suspension fabric on the chair. Adjust the lumbar by sliding the lumbar pad up and down the back of the chair.

Note: Product contains magnets. Consult the lumbar hangtag for more information.

Optional Headrest:
Lift or lower the headrest itself to adjust the height. There are 12 levels of adjustment from the lowest to the highest point.

**Optional Headrest:**
Lift or lower the headrest itself to adjust the height. There are 12 levels of adjustment from the lowest to the highest point.

**Standard Features:**

- Synchronized recline with auto-balanced tension
- No need to adjust tension. Automatic recline tension counter-balances your body weight, resulting in perfect balance as you recline.

**Back:**

- Backrest Height: 25°
- Lumbar Support (Adjustable): Exceeds 5.5" - 9.8" (optional lumbar)
- Angle Between Seat and Back: 90° - 119°
- Tilt Range of Back: 24°

**Arms:**

- Armrest Height (Fixed): 9.5" (fixed arm)
- Armrest Height (Adjustable): 6.0" - 10.0" (height adjustable)
- Weight: 36.5 lbs. (plastic base, high performance arms, seat topper)
- **Height Adjustable Lumbar**
  - The lumbar support is held on to the chair with magnets for easy installation and a maximum range of adjustability.
  - To install the lumbar, separate the halves of the magnetic lumbar and place it in the desired position on your chair. Secure it by putting both halves back together around the back suspension fabric on the chair.
  - Adjust the lumbar by sliding the lumbar pad up and down the back of the chair.
  - Note: Product contains magnets. Consult the lumbar hangtag for more information.

**Life Chair Measurements:**

- A. Overall Height: 36.5" - 43.75" (back topper adds 0.5")
- B. Overall Width: 26.5"
- C. Overall Depth: 24.5"
- D. Arm Height from Floor: 25" - 30.5" (fixed arm)
- E. Base Diameter: 26"
- Weight: 36.5 lbs. (plastic base, high performance arms, seat topper)
- **Height Adjustable Lumbar**
  - The lumbar support is held on to the chair with magnets for easy installation and a maximum range of adjustability.
  - To install the lumbar, separate the halves of the magnetic lumbar and place it in the desired position on your chair. Secure it by putting both halves back together around the back suspension fabric on the chair.
  - Adjust the lumbar by sliding the lumbar pad up and down the back of the chair.
  - Note: Product contains magnets. Consult the lumbar hangtag for more information.

**Life - Additional Information**

- Synchronized recline ratio seat to back in 1:4.0
- High performance arms adjust 2.25" in armwidth (1.25" per side) and 3" armpad fore/aft movement
- Optional lumbar measures 15.5" x 5.0"
- Optional headrest measures 13.5" x 6.0" - 9.0"

**Compliance:**

- ANSI/BIFMA X5.1 - 2002 (U.S. structural standard)
- BIFMA HES 100-2007 (U.S. ergonomic standard)
- BIFMA G1 - 2002 (U.S. ergonomic guidelines)
- California TB 117 (U.S. flammability standard for foam)
- California TB 117 with approved FR textile (U.S. flammability standard for full chair)
- CAN/CGSB 44.22-32006, EN 59190 (European structural standard)
- EN 1335-1 - 2000 (European ergonomic standard)
- AS/NZS 4418 - 1992 Level 6 (Australia, New Zealand structural and dimensional standard)
- The Life chair has been tested and is approved for use by individuals weighing up to 300 pounds.

Example:
11-1-HP-2-S-X-HC-ASM
**Generation by Knoll® Features and Operating Instructions**

### No Adjustment Necessary

- **Flex Back**: Sit back and the Flex Back supports you and responds to your multidimensional movements.

- **Flex Top**: Simply rest your arms comfortably over the top of the Flex Back.

- **Dynamic Suspension control**: The synchronized recline counterbalances your body weight for a smooth and effortless ride. Four independent flexors act as suspension devices that respond to your multidirectional movements—forward, backward and side-to-side.

### Intuitive Adjustments (Standard)

- **Seat height**: Lift the right front lever. Sit down to lower the seat or remove your weight to raise it. Release the lever to lock.

- **Seat depth**: While seated, lift the left lever and slide the seat to the desired position. Release the lever to lock.

- **Tilt preference selector**: Select the degree of recline movement for your preference and your task. Sit fully upright. Rotate the back right lever until it clicks into one of three positions—all the way back for the most movement, in the middle for less, or all the way forward for greater upright support.

### Performance Options

- **Arm options**: Cantilevered arm supports provide seated clearance for your legs and feature Continuous Lumbar, so your back is supported when side sitting.

- **Height adjustable arm**: To adjust the height, lift the lever on the arm and lift the arm to disengage. Slide the arm to the desired position and release the lever to lock.

- **Height adjustable lumbar**: Grasp both sides of the lumbar support and slide it to the desired position.

**Generation by Knoll Chair Measurements**

- **A. Overall Height**: 39.25" - 44.5" (elbows reduce height by 0.25")
- **B. Overall Width**: 21" (armless) 28.5" (with arms)
- **C. Overall Depth**: 28.5" excluding base
- **D. Arm Height from Floor**: 26.625" - 30" (fixed arms) 22.75" - 25.75" (height adjustable and high performance arms)
- **E. Base Diameter**: 26.25"
- **Weight**: 37 lbs. (plastic base, high performance arms) 39 lbs. (aluminum base, high performance arms)

**Generation by Knoll Performance Information**

- Synchronized recline ratio: seat back is 1:1.5:1
- Arm pads measure 9.6" long x 4.3" wide
- High performance arm pads adjust 2" in width (1" per arm), 1.5" in depth and pivot 45°
- Flex Top folds up to 90° rearward

**Compliance**:

- ANSI/BIFMA X5.1-2011 (U.S. structural standard)
- BIFMA 5.1-2013 (U.S. ergonomic guidelines)
- ANSI/HFES 100-2007 (U.S. ergonomic standard)
- California TBR 117 (U.S. flammability standard for foam)
- California TBR 133 with approved FR textile and back finish with fire-retardant additive (U.S. flammability standard for full chair)
- EN 1335-1:2000 (European ergonomic standard)
- AS/NZS 6648:1997 (Australia, New Zealand structural and dimensional standard)

The Generation by Knoll chair is built to last and is approved for use by individuals weighing up to 300 pounds.
**CONSTRUCTION INFORMATION**

**Flex Back**
- Integrally colored, high performance elastomer and glass reinforced polyester structure
- Fixed, height adjustable and high performance arms

**Flex Seat**
- High-resiliency molded urethane foam with textile cover and integrally colored, glass reinforced, impact modified nylon structure

**Controls**
- **A. Dynamic Suspension control**
  - A solid state construction of integrally colored, high performance elastomer, glass reinforced polyester and cast zinc
- **B. Tilt preference selector**
  - Integrally colored nylon and acetal; integrally colored, glass reinforced acetal
- **C. Seat depth adjustment mechanism**
  - Steel plate with integrally colored polypropylene parts

**Pneumatic cylinder**
- Steel

**Base**
- Burnished cast aluminum or integrally colored, glass reinforced nylon; five star design

**Hard casters and glides**
- Integrally colored nylon

**Soft casters**
- Integrally colored nylon over molded thermoplastic polyurethane

**Height adjustable lumbar**
- Integrally colored; glass reinforced polycarbonate

---

**CLEANING INSTRUCTIONS**

**Hard surfaces and Flex Back Net**
- **General cleaning**
  - Frequent vacuuming or light brushing to remove dust and grime is recommended. Spot clean with a mild upholstery shampoo or the foam from a mild detergent. When using a cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With any method, pretest a small area before proceeding. When an overall soiled conditioned has been reached, see a professional furniture cleaning service or call Knoll Field Service at 800-445-3043 with questions.

**Healthcare cleaning**
- Generation’s hard surfaces and Flex Back Net successfully passed third-party testing for the following five cleaning agents commonly used in healthcare facilities:
  - [Clorox Germicidal Liquid Bleach](https://www.clorox.com) diluted 1:5 ratio to tap water (pH 3.7)
  - [Clorox Cleanup](https://www.clorox.com) undiluted 100% solution (pH 9.7)
  - [Wex-Cide 128 Concentrate](https://www.wexfordlabs.com) Phenolic Germicide by Wexford Labs diluted 1 ounce to 1 gallon tap water (pH 3.7)
  - [Formula 880 Quaternary](https://www.grandtechnologies.com) Germicide by Grand Technologies diluted 1/2 ounce to 1 gallon tap water (pH 8.1)
  - [Hydroxi Pro Concentrate 128](https://www.coreproducts.com) by Core Products diluted 1:8 ratio to tap water (pH 7.2)

In addition to the testing detailed above, Knoll has conducted internal testing of [Virox 5 RTU](https://www.virox.com) cleaning solution on Generation structural parts with no adverse effects.

**Generation Fabric**
- Cleaning code W-S: water or solvent based cleaning agent; can be cleaned with less environmental impact cleaning fluids, including GS-37 certified products. See KnollTextiles Price List for further details on cleaning codes.

---

**ENVIRONMENTAL**

**SMaRT®-Sustainable Platinum certified**
- SMaRT®-Consensus Sustainable Product Standard is a comprehensive, transparent sustainable product standard that measures a product’s environmental, economic and social benefits over its lifecycle and throughout its global supply chain, from raw materials extraction through use, reclamation or reuse. Generation can contribute to achieving a LEED® Innovation in Design credit for its SMaRT® certification.

**BIFMA level® certified**
- BIFMA has established level® as a common framework against which to evaluate the environmental and social responsibility of a variety of products. level® is part of BIFMA’s ongoing development of voluntary product and industry standards that support safe, healthy and sustainable workplaces. To achieve level® certification, Knoll partners with Scientific Certification Systems (SCS), known for its integrity and scientific rigor.

---

**Warranty:**
- Generation by Knoll is warranted for 12 years, 24-hour, 7 days a week, multi shift use including the Flex Back Net, structural and operational parts, controls, casters, and pneumatic cylinders; 12 years parts and labor to repair; 3 years upholstery, finishes and labor to repair. See Knoll Selling Policy for further details, conditions and exclusions.

**ORDERING INFORMATION**

**Replacement seat**

**Generation Fabric - Base Grade**

- Generation Fabric prefix RT for thin seat foam or RU for ultra seat foam, RB for inner back textile, and ROB for outer back Generation Fabric color
- Select one of the following:
  - Code: Description
    - 01 Storm
    - 03 Pebble
    - 04 Desert
    - 05 Lemongrass
    - 06 Espresso
    - 07 Firecracker
    - 08 Bluemarine
    - 09 Onyx
    - 10 Olive

**Textile Options**

- KnollTextiles fabrics and Spinneybeck leathers
- Please refer to the textile matrices at the beginning of the price list for approved fabrics and leathers
- Note: ReGeneration outer back can only be upholstered with Generation Fabric.

**Order Code**

- Example: 44-2-HP-2-T-X-HC-DC-USF-RU09-RB09-ROB09
- 44: ReGeneration by Knoll
- HP: High performance arms
- 2: Fully upholstered back
- T: Plastic base
- X: No optional lumbar
- HC: Hard finish for soft floors
- DK: Dark finish
- USF: Ultra seat foam
- RU09: Seat textile in Generation Fabric, Storm
- RB09: Inner back textile in Generation Fabric, Storm
- ROB09: Outer back in Generation Fabric, Storm

**Ordering Information**

- Specify:
  - 1. Pattern number
  - 2. Finish color
  - 3. Seat foam
  - 4. Seat textile
  - 5. Inner back textile
  - 6. Outer back Generation Fabric color

**Options**

- Polished Aluminum Base
  - Replace 2 in pattern with 4
  - Code: Upchg: Description
    - 4: $40 polished aluminum base

- Split upholstery
  - ReGeneration seats and inner backs can be upholstered in any two approved fabrics or leathers
  - The list price of the chair equals the list price of the higher of the two upholstery grades

**Customer’s Own Material/Leather**

- See Customer’s Own Material Seating Process Overview at the beginning of the price list

**Textile Options**

- KnollTextiles fabrics and Spinneybeck leathers
- Please refer to the textile matrices at the beginning of the price list for approved fabrics and leathers
- Note: ReGeneration outer back can only be upholstered with Generation Fabric

**Cal 133**

- See textile matrices at the beginning of the price list for pre-approved Cal 133 textiles
- To specify, insert C before textile selections and 133 after the seat and inner back textile codes

**COM/COL Textile Requirements**

- COM seat (TSF and USF) = .7 yards
- COM inner back = 1.2 yards
- COL seat (TSF and USF) = 11 square feet
- COL inner back = 14 square feet

**Office Seating**

ReGeneration by Knoll® Features and Operating Instructions

No Adjustment Necessary

**Flex Back Net**

Sit back and the Flex Back Net cradles your back, providing integral lumbar support. Optional fully upholstered back provides the additional comfort of foam and fabric over the Flex Back Net.

**Flex Seat**

Sit in any position—forward, sideways or perched—and the Flex Seat supports you with 270° of seat edge flex.

**Slim profile back**

The contoured frame provides continuous support, following the curves of your shoulders, back and lumbar.

**Dynamic Suspension control**

The synchronized recline counterbalances your body weight for a smooth and effortless ride. Four independent flexors act as suspension devices that respond to your multidirectional movements—forward, backward and side-to-side.

Intuitive Adjustments (Standard)

**Seat height**

Lift the right lever. Sit down to lower the seat or remove your weight to raise it. Release the lever to lock.

**Recline resistance**

Sit fully upright. Push the right lever backward for the full range of recline, or pull it forward for upright support.

**Seat depth**

To adjust the seat depth while sitting on the chair, lift the left lever and slide the seat to the desired location. Release the lever to lock.

Performance Options

**Arm options**

Set-back arm supports provide clearance for your legs and feature Continuous Lumbar, so your back is supported when side sitting.

**Height adjustable arm**

To adjust the height, push the button on the arm. Slide the arm to the desired position and release the button to lock.

**Adjustable lumbar**

(Flex Back Net model only)

Grasp the lever at the center of the outer back and slide it to the desired position.

To adjust the height, push the button on the arm. Slide the arm to the desired position and release the button to lock.

**Adjustable lumbar**

(Flex Back Net model only)

Grasp the lever at the center of the outer back and slide it to the desired position.

ReGeneration by Knoll® Performance Information

**Stretched recline seat back:** 17°, 19°

High task seating measures 20° in diameter

**High performance arm pads:** 3.25" long x 3.88" wide

Height adjustable arm pad measures 6.25" long x 3.4" wide

**High performance arm pads:** 4" in width x 2" per arm, 1.25" in depth and pivot 30.5° (20° forward, 10.5° outward)

Compliance:

ANSI/BIFMA X5.1-2011 (U.S. structural standard)

ANSI/BIFMA 100.2007 (U.S. ergonomic standard)

BIFMA G1: 2013 (U.S. ergonomic guidelines)

EN 1335-1: 2000 (European ergonomic standard) for Flex Back armless work chair

AS/NS4495: 1997 Level A (Australia, New Zealand structural and dimensional standard) for Flex Back armless work chair

California TIR 67 (U.S. flammability standard for foam)

California TB 117 (U.S. flammability standard for chair)

EN 1030: 2003 (Germany ergonomic standard) for Flex Back armless work chair

EN 1335-1: 2000 (Europe ergonomic standard) for Flex Back armless work chair

AS/NS4495: 1997 Level A (Australia, New Zealand structural and dimensional standard) for Flex Back armless work chair

BIFMA G1: 2013 (U.S. ergonomic guidelines)

The ReGeneration by Knoll work chair has been tested and is approved for use by individuals weighing up to 300 pounds.
CONSTRUCTION INFORMATION

Slim profile back support
Integrally colored, rapidly-recoverable high performance elastomer with post-consumer recycled polyester structure; optional biodegradable foam upholstery with glass reinforced nylon and ABS substrates and woven textile cover

Adjustable arm supports
Integrally colored, glass reinforced, post consumer recycled content polyester structure

Arm pads
Integrally colored, self-skinning polyester

Flex Seat
High-tensile molded biodegradable foam with woven textile cover and integrally colored, glass reinforced, impact modified nylon seat structure

Controls
A: Dynamic Suspension control
A solid state construction of integrally colored, high performance elastomer, glass reinforced and cast aluminum
B: Adjustment levers. Integrally colored, glass reinforced nylon
C: Seat depth adjustment plate. Integrally colored, glass reinforced, nylon

Pneumatic cylinder
Steel

Base
Integrally colored, glass reinforced nylon with cast zinc insert or polished, cast aluminum; five star design

Hard casters
Integrally colored nylon and steel

Soft casters
Integrally colored nylon over molded with polyurethane, and steel

Glides
Integrally colored nylon

Optional adjustable lumbar
Fronted clear polyester blend

Feetring
Steel fasteners, aluminum die cast spacers and rubber fit ring

Generation Fabric
100% polyester; 100,000 double rubs. Wyzenbeek method; Oeko-Tex certified for human safety.

CLEANING INSTRUCTIONS

Hard surfaces and Flex Back Net

General cleaning
Frequent vacuuming or light brushing to remove dust and grime is recommended. Spot clean with a mild upholstery shampoo or the foam from a mild detergent. When using a cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With any method, pretest a small area before proceeding. When an overall soiled conditioned has been reached, use a professional furniture cleaning service or call Knoll Field Service at 800-445-5045 with questions.

Healthcare cleaning
ReGeneration’s hard surfaces and Flex Back Net successfully passed third-party testing for the following five cleaning agents commonly used in healthcare facilities:

- Clorox Germicidal Liquid Bleach diluted 1:5 ratio to tap water (pH 3.7)
- Clorox Clean-up undiluted 100% solution (pH 9.7)
- Wexide 120 Concentrate Phoric Germicide by Wexford Labs diluted 1 ounce to 1 gallon tap water (pH 3.7)
- Formula 880 Quaternary Germicide by Grand Technologies Labs diluted 1 ounce to 1 gallon tap water (pH 8.1)
- Hydrox Dis Concentrate 120 by Core Products diluted 1:5 ratio to tap water (pH 7.2)

In addition to the testing detailed above, Knoll has conducted internal testing of Versa 5 RTU cleaning solution on ReGeneration structural parts with no adverse effects.

Generation Fabric
Fabrics with cleaning codes W or W-A are designed to be cleaned with low environmental impact cleaning fluids, including GS-32 certified products. See KnollTextiles Price List for further details on cleaning codes.

ENVIRONMENTAL

SMaRT® Sustainable Platinum certified
SMaRT® Consensus Sustainable Product Standard is a comprehensive, transparent sustainable product standard that measures a product’s environmental, economic and social benefits over its life cycle and throughout its global supply chain, from raw materials extraction through use, reclamation or re-use. ReGeneration can contribute to achieving a LEED® Innovation in Design credit for its SMaRT® certification.

BIFMA level© certified
BIFMA has established level© as a common framework against which to evaluate the environmental and social responsibility of a variety of products. level© is part of BIFMA’s ongoing development of voluntary product and industry standards that support safe, healthy and sustainable workplaces. To achieve level© certification, Knoll partners with Scientific Certification Systems (SCS), known for its integrity and scientific rigor.

Oeko-Tex certified
Generation Fabric is certified by the international third party Oeko-Tex for human safety

WARRANTY

ReGeneration by Knoll is warranted for 24-hour, 7 days a week, multi-shift use: 12 years parts and labor to repair: 3 years seat upholstery, textiles and leathers, and finishes. See Knoll Selling Policy for further details, conditions and exclusions.

### Model Options

**Finish Options**

- **Frame finishes:**
  - Select one of the following
  - Code: Description:
    - 2: Black
    - 3: Metallic Grey
    - 4: Silver
    - C: Chrome (2H-models only)
  - Code: Description:
    - BR: Black
    - YR: Yellow
    - WH: White
    - GY: Grey
    - DG: Dark Grey
    - ON: Onyx (black)
    - DT: Dark Teal
  - Code: Description:
    - BR: Bright Blue
  - Code: Description:
    - BR: Bright Red

- **Shell colors:**
  - Select one of the following
  - Code: Description:
    - 01: Storm (dark grey)
    - 03: Pebble (medium grey)
    - 04: Desert (beige)
    - 05: Lemongrass (green)
    - 06: Expresso (brown)
    - 07: Firecracker (red)
    - 08: Iridescent (blue)
    - 09: Onyx (black)
    - 10: Olive (dark green)

**Generation Fabric - Base Grade**

- Use prefix GENF following by the two digit color code. Select one of the following:
  - Code: Description:
    - R : Soft casters for soft floors
    - HC: Hard casters for hard floors

**Fabric Options**

- **Cal 133:** MultiGeneration is Cal 133 compliant standard when non-upholstered. For upholstered seat chairs, an upcharge is required. See textile matrix at the beginning of the price list for pre-approved Cal 133 fabrics.

**Order Code Example:**

Example: 2-M-A-S-X-RC 2 ON GENF09

- 2: MultiGeneration line base
- M: MultiGeneration arm base
- A: Arm finish
- S: Seat Upholstery fabric (if applicable)
- X: Finish options
- RC: Return Casters finish
- 2: Onyx Shell color
- GENF: Generation Fabric, Onyx

**Ordering Information**

Specify:

1. Pattern number
2. Frame finish
3. Shell color
4. Seat upholstery fabric (if applicable)

**Options**

- For flip up tablet arm, replace C in pattern with L for left-handed tablet or R for right-handed tablet. Tablet arm surface is grey with black edgeband. Tablet arm support rod will match frame finish selected.

**Book Basket (2S-models only):** Replace X in pattern with B.

**Caster Options:**

- Replace GL in pattern with one of the following:
  - Code: Description:
    - HC: Hard casters for hard floors
    - SC: Soft casters for soft floors

**Note:** Chairs with book basket do not stack. Assembly required. Visit Knoll.com for installation instructions. Seller is not responsible for assembly costs.

**Code:**

- 2SDOLLY: Dolly for up to 10 stacking chairs
- 2SGA: Ganging clip to connect armless stacking chairs

- Pattern: 2-5-S-A-N-2-HC

**Light task armless**
- Description: armless high back chair with hard casters
- Pattern: 2-5-T-C-N-2-HC

**Light task arm**
- Description: high back chair with fixed arms and hard casters
- Pattern: 2-5-T-A-N-2-HC

**Upholstered seat**
- Description: upholstered seat option (replace \( N \) in pattern with \( S \))
- Pattern: 2SEAT

**Order Code**
- Example: 2-5-S-A-S-2-HC 2 ON GENF09 2 MultiGeneration by Knoll
- **Ordering Information**
- Specify:
  1. Pattern number
  2. Frame finish (specify only with fixed arms)
  3. Shell color
  4. Seat upholstery fabric (if applicable)

**Finish Options**
- **Base options:**
  - Code: Upchg: Description:
    - 2 n/c black plastic base
    - 3 n/c grey plastic base
    - 4 $44 polished aluminum base
- **Cylinder Height Options:**
  - Code: Upchg: Description:
    - L: low cylinder
- **Frame finishes:**
  - Select one of the following:
    - GL: glider
    - SC: soft casters for hard floors
    - LC: low cylinder frame
    - HC: hard casters for soft floors
- **Cylinder Height Options:**
  - Code: Upchg: Description:
    - L: low cylinder
- **Shell colors:**
  - Select one of the following:
    - RD: dark red
    - YW: yellow
    - WH: white
    - LG: light grey
    - ON: Onyx
    - BR: bright blue
    - DT: dark teal

**Generation Fabric - Base Grade**
- Seat pad fabric colors:
  - Use prefix GENF following by the two digit color code. Select one of the following:
  - Code: Upchg: Description:
    - 01 Storm (dark grey)
    - 03 Pebble (medium grey)
    - 06 Eggshell (soft)
    - 08 Almond (soft)
    - 09 Onyx (black)

**Fabric Options**
- KnollTextiles fabrics:
  - Please refer to the textile matrices at the beginning of the price list for approved fabrics.
- Customer’s Own Material:
  - See Customer’s Own Material Seating Process Overview at the beginning of the price list
- **COM Requirements:**
  - To specify, insert \( C \) before seat fabric selection and 133 after it.
- **Fabric Options**
  - Code: Upchg: Description:
    - C( )133 $33 Cal 133 compliant fabric
  - # Cal 133 pre-approved

- **Boots basket:** 25 7/8", height, 11.5" width, 11.8" depth, 9.2" from floor

- Tablet arm: 31" length, 6.45" thickness, 0.5" thick

- **Weight:** 12 lbs. armless, 13 lbs. fixed arm, 17.5 lbs. armless, 21.5 lbs. fixed arm
- Seat upholstery adds 1.5 lbs.
- Seat upholstery adds 1.5 lbs.
- Seat upholstery adds 1.5 lbs.
- Seat upholstery adds 2 lbs.

All measurements taken with BIFMA Chair Measuring Device using the Universal Measurement Procedure which has a measurement uncertainty of ± 5%

### Stacking Instructions

Stacking chairs with or without fixed arms and with or without armrests—stack up to 6 units high on the floor.

Stacked 6 high on the floor measures 41.4" high non-upholstered or 42.6" high upholstered.

To stack chairs, place the rear leg of the top chair in front of the seat leg of the bottom chair and set the top chair down on the bottom chair.

To transport a stack of chairs, use the MultiGeneration by Knoll dolly.

Stacking chairs stack up to 10 units high on the dolly.

The dolly, stacked with 10 non-upholstered stacking chairs measures 63.5" high and with 10 upholstered stacking chairs, measures 65" high.

### Non-upholstered stacking chairs

Non-upholstered stacking chairs feature bumpers to protect the seat finish of the chair below and prevent chairs from slipping. Do not stack non-upholstered chairs on upholstered chairs, as the bumpers could damage the upholstered leg of the chair below.

### Upholstered stacking chairs

Upholstered stacking chairs feature a stacking strip on the underside of the seat to protect the upholstered chair below. Do not stack upholstered chairs on non-upholstered chairs, or the stacking strip could damage the seat finish of the chair below.

Hybrid chairs and stacking chairs with book basket and/or tablet arm

Hybrid chairs and stacking chairs with book basket and/or tablet arm do not stack.

### MultiGeneration Stack Chair Ganging Instructions

The MultiGeneration ganging clip attaches the back legs of the armless stacking chairs. Position the chairs side-by-side and snap the ganging device onto the chair legs just above the top of the glides. Arm and armless chairs can be ganged if alternated, but armed chairs cannot be ganged side-by-side.

Compliance: ANSI / BIFMA X 5.1-2011 (U.S. structural standard)
EN 1335-3: 2007 (European structural standard)
GP36:1 (Canadian structural standard)
California TB 117 (U.S. flammability standard for foam)
California TB 133 standard for non-upholstered models, with approved FR textile for upholstered models (U.S. flammability standard for full chair)
MultiGeneration by Knoll has been tested and is approved for use by individuals weighing up to 300 lbs.

**CLEANING INSTRUCTIONS**

**General cleaning:** Clean using a soft rag, either dry or wet. When needed, use mild pH-balanced soap diluted in water. Do not use abrasive sponges, acidic products or solvents containing ammonia.

**Healthcare cleaning:** The following products can be used safely on the MultiGeneration by Knoll shell only (not on the frame):
- Clorox Germicidal Liquid Bleach diluted 1:5 ratio to tap water (pH 3.7)
- Clorox Clean-Up undiluted 100% solution (pH 9.7)
- Wax-Glo 120 Concentrate Phenolic Germicide by Wexford Labs diluted 1 ounce to 1 gallon tap water (pH 3.7)
- Formula 409 Concentrate Phenolic Germicide by Grand Technologies diluted 8 ounce to 1 gallon tap water (pH 2.5)
- Hydrolo Pro Concentrate 120 by Core Products diluted 1:8 ratio to tap water (pH 7.2)
- Versa 5 RTU cleaning solution

**Upholstery cleaning:** Base grade Generation Fabric is cleaning code W-S—Water or solvent based cleaning agents and can be cleaned with low environmental impact cleaning fluids, including GS-37 certified products.

For further instruction, please see KnollTextiles Cleaning Information found in the Resources section of knolltextiles.com.

**ENVIRONMENTAL**

**SMaRT® Sustainable Gold certified**

SMaRT® Consensus Sustainable Product Standard is a comprehensive, transparent sustainable product standard that measures a product’s environmental, economic and social benefits over its life cycle and throughout its global supply chain, from raw material extraction through use, reclamation or re-use. MultiGeneration can contribute to achieving a LEED® Innovation in Design credit for its SMaRT® certification.

**BIFMA level® certified**

BIFMA has established level® as a common framework against which to evaluate the environmental and social responsibility of a variety of products. level® is part of BIFMA’s ongoing development of voluntary product and industry standards that support safe, healthy and sustainable workplaces.

To achieve level® certification, Knoll partners with Scientific Certification Systems (SCS), known for its integrity and scientific rigor.

**WARRANTY**

MultiGeneration is warranted for 24-hour, 7 days a week, multi-shift use: 12 years parts and labor to repair; 3 years seating upholstery, textiles and leathers, and finishes.

See Knoll Selling Policy for further details, conditions and exclusions.

  - COM fabric seat = .8 yards
  - COL leather seat = 14 square feet

- **Cal 133:**
  - See textile matrices at the beginning of the price list for pre-approved Cal 133 textiles.
  - F = Cal 133 pre-approved

### Textile Grades

**Delite K2026 - Base Grade**

Please refer to the textile matrices at the beginning of the price list for approved fabrics and leathers.
Ollo light task chair with 4-star base

**Designer(s):** Glen Oliver Loew, 2019

**Model:** P-NA-6-S-GL

**Armless, 4-star base**
- Armless plastic back, aluminum 4-star base, standard cylinder, glides
- Fixed arm plastic back, aluminum 4-star base, standard cylinder, glides

**Replacement seat**
- OLLOSEAT

**Order Code**

**Example:** 7-P-FA-6-S-GL-B-B-B-P-K2026B/13

1. Pattern number
2. Lower back finish
3. Base finish
4. Upper back finish
5. Control finish
6. Seat textile

**Options**

**Polished control:** Replace P in pattern with A.

**Lower back finish**
- Select one of the following colors:
  - A: $49 Polished control

**Upper back finish**
- Select one of the following colors:
  - B: $39 Medium Grey
  - LG: $39 Light Grey
  - SB: $39 Sky Blue
  - RD: $39 Dark Red

**Base grade Delite K2026 - Base Grade**
- KnollTextiles Delite K2026 is the base grade textile for the Ollo chair. Choose K2026B for the seat, followed by a two-digit color code.
- Select one of the following:
  - Code: Description:
    - 01: Orange
    - 02: Red
    - 03: Catalina
    - 04: Turquoise
    - 05: Parrot
    - 06: Green
    - 07: Smoke
    - 08: Gray
    - 10: Slate
    - 11: Tobacco
    - 12: Charcoal
    - 13: Onyx
    - 14: Purple

**Textile Options**
- KnollTextiles fabrics and Spinneybeck leathers:
  - Please refer to the textile matrices at the beginning of the price list for approved fabrics and leathers.
  - Customer’s Own Material/Leather:
    - See Customer’s Own Material Seating Process Overview at the beginning of the price list.

**COM/COL Textile Requirements**
- COM fabric seat = .8 yards
- COL leather seat = 14 square feet

**Delite K2026 - Base Grade**
- Cal 133:
  - See textile matrices at the beginning of the price list for pre-approved Cal 133 textiles.
  - To specify, insert C before seat textile selections and 133 after the seat and back selection.

**Deluxe K2026 - Base Grade**
- Customer’s Own Materials/Leather:
  - See Customer’s Own Material Seating Process Overview at the beginning of the price list.

**Fabric Seat**
- Fabric seat = 14 square feet

**Material:**
- See textile matrices at the beginning of the price list for pre-approved mattress and upholstery.

**Shipping**
- Assembly:
  - For a fully assembled version, add the suffix -ASM to the end of the base pattern number. Upcharge is $29.
## Ollo Ergonomic Dimensions* | Light Task | High Task
--- | --- | ---
**Seat**  
Seat Height 16.1 - 21.2” (5-star plastic base with casters) 22.5-31.9” (5-star plastic base with casters)  
Seat Width 19.7” 19.7”  
Seat Depth 18” 18”  
Seat Pan Angle (Fixed) 3.7° 3.7°
**Back**  
Backrest Height 16.5” 16.5”  
Backrest Width 15.5” 15.5”  
Angle between Seat and Back 9° 9°  
Tilt Range of Back 14° 14°
**Arms**  
Armrest Height from Seat 8.5” 8.5”  
Inside Distance between Armrests 19.0” 19.0”

*All measurements taken with BIFMA Chair Measuring Device using the Universal Measurement Procedures which has a measurement uncertainty of ±5%

### Ollo Light Task Measurements

#### Light Task | High Task
--- | ---
**A. Overall Height** 31.75 – 37.5” (5-star plastic base with glides is 0.3” lower) 35.0 – 47.0”
**B. Overall Width** 23.0” (armless) 25.9” (armless)  
**C. Overall Depth** 23” 24.6”
**D. Arm Height from Floor** 24” - 29” 30.5” - 30.75”
**E. Base Diameter** 24” 26.9”
**Weight** 285 lb (armless) 300 lb (Armless)  
244 lb (arm) 313 lb (Arm)

### Performance Information

Armpads measure 8.75 x 3”

Compliance:  
ANSI / BIFMA X5.1 - 2011 (US, structural standard)  
California T.B. 117 (U.S. flammability standard for loan)  
California T.B. 133 standard for non-upholstered models, with approved FR textile for upholstered models (U.S. flammability standard for full chair)  
Ollo has been tested and is approved for use by individuals weighing up to 300 lbs.
CONSTRUCTION INFORMATION

Lower back:
glass reinforced nylon

Upper back:
nylon

Arm pads:
glass reinforced nylon and self-skinning polyurethane

Seat structure:
glass reinforced nylon, acetal slides, and steel hardware

Foam carrier:
polypropylene

Seat upholstery:
High resiliency molded foam with textile cover

Control:
cast aluminum, glass reinforced nylon adjustment lever, steel hardware and nylon bushing

Cylinder:
steel

Base:
integrally colored, glass reinforced nylon or cast aluminum

Fasteners and hardware:
steel

Hard casters:
integrally colored nylon and steel

Soft casters:
integrally colored nylon over molded with polyurethane and steel

Glides:
integrally colored nylon and steel

Delite textile:
100% Polyester

CLEANING INSTRUCTIONS

General cleaning:
Clean using a soft rag, either dry or wet. When needed, use mild pH-balanced soap-diluted in water. Do not use abrasive sponges, acidic products or solvents containing ammonia.

Remix Fabric
Fabric with cleaning codes W or W-S are designed to be cleaned with low environmental impact cleaning fluids, including GS-37 certified products. See KnollTextiles Price List for further details on cleaning codes.

ENVIRONMENTAL

BIFMA level: 3 certified
BIFMA has established level as a common framework against which to evaluate the environmental and social responsibility of a variety of products. level is part of BIFMA’s ongoing development of voluntary product and industry standards that support safe, healthy and sustainable workplaces. To achieve level certification, Knoll partners with Scientific Certification Systems (SCS), known for its integrity and scientific rigor.

WARRANTY

Ollo is warranted for 24-hour, 7 days a week, multi-shift use: 12 years parts and labor to repair; 3 years seating upholstery, textiles and leathers, and finishes. See Knoll Selling Policy for further details, conditions and exclusions.

### Ordering Information

**Specify:**
1. Pattern number
2. Mesh back color
3. Seat fabric

**Options**

- **Soft Casters:**
  - Code: SC $14 soft casters for hard floor

- **Polished Aluminum Base:**
  - Replace 2 in pattern with 4.
  - Code: $72 polished aluminum base

- **Cylinder Height Options:**
  - Replace S in pattern with one of the following.
  - Code: Description
    - L low cylinder
    - H high cylinder

**Finish Options**

- **Base:**
  - Black, Polished Aluminum

- **Seat Textile Options:**
  - Select one of the following:
    - Code: Description
      - BL Black
      - GY Grey

**Note:**
- Lumbar support (K-T-LUMBAR) only ships separately and must be installed in the field.
- Fixed arm only available with black mesh back and Delite Onyx or Faux Black Leather seat.

---

K: K.™
L: L.™
HA: Height Adjustable Arm
P: Plastic Base
S: Standard Cylinder
N: No Optional Lumbar
L: Low Cylinder
H: High Cylinder
BL: Black Mesh Back
USF: Ultra Seat Foam
K2026/13: Delite, Onyx seat

Note: Faux Leather seat only available with black mesh back and Delite Onyx or Faux Black Leather seat.
### Intuitive Adjustments (Standard)

- **Seat height**
  - To lower seat, lift the right lever while seated in the chair. To raise seat, remove your weight from seat while lifting right lever. Release to lock.

- **Five-point tilt lock**
  - Turn left knob backward to lock upright or forward to allow for recline. To set recline lock position, lean back and turn knob backward at any point or at full recline. This will lock chair in place at the next closest position. To release, turn knob forward, recline slightly and sit back upright.

- **Arm options**
  - Height adjustable arm
    - To adjust the height, push the button underneath the arm pad. Slide the arm to the desired position and release the lever to lock.

### Performance Options

- **Seat depth**
  - Lift the left lever and slide to the desired position. Release to lock.

### k.™ task Operating Instructions

Selling Policy

Terms & Conditions of Sales

This Selling Policy supersedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Ordering Information

All orders must be in writing. The product pattern number(s) contained on Seller's order acknowledgment shall be the final expression of the order.

Order Confirmation

A purchase order is not binding on Seller until Purchaser has received Seller's order confirmation or acknowledgment.

Pricing Policies

List prices are subject to change without notice.

List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other taxes are included in Seller's list prices.

Terms of Payment

Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is generally issued upon shipment.

In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

KnollStudio orders less than $2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due at time of order placement. For KnollStudio orders greater than $2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment.

If, in the judgment of Seller, Purchaser's financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance.

Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney's fees and costs.

Changes and Cancellation

Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including "COM" (hereinafter defined) materials and orders pursuant to expedited delivery programs, may not be canceled.

Freight Prepaid

Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packing is required for any reason, please consult your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.

Delivery/Freight Charges

Shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination.

Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.

Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser's request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.

Claims

All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to Purchaser upon delivery of the Product into storage.

Seller's Security Interest

Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

Returns

The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service.

All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.

Held Orders/Storage

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.
Selling Policy

Customer’s Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller’s line of Products (“COM”) must submit samples of the requested material to Seller prior to entry of a purchase order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.

Warranty

Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below.

Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair).

Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

This warranty does not apply to:

• Damage caused by a carrier other than the Seller.
• Normal wear or tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).
• COM or other third party materials applied to Products.
• Products not installed by or under the auspices of a Knoll Dealer.
• Dramatic temperature variations or exposure to unusual conditions.
• Changes in surface finishes, including colorfastness due to aging or exposure to light.
• Except as specifically noted above, textiles and upholstery supplied by KnollTextiles and Spinneybeck FilzFelt (consult current price lists for applicable warranties).

Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.

THE EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

The remedies provided above are the Purchaser’s sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of war or terrorism, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delays, allocate available Product or cancel any purchase order.

Compliance with Law

PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARD LAWS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:

• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
• Any settlements of a suit or proceeding made without Seller’s written consent.

Other Liability

SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.

Purchaser’s remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.
General Ordering Information

The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are MSRP.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item’s “designated area” can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
P.O. Box 157
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll’s environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such “green” initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on “About Knoll” and then “Environmental Focus.”
