

Salsa Lounge Collection
Peter Stamberg and Paul Aferiat

SALSA® LOUNGE COLLECTION Bringing their colorful aesthetic to Salsa, Peter Stamberg and Paul Aferiat comment, "We wanted a design that could be very flexible." Optional shelves attach to Salsa's natural wood frame, providing convenient storage and display space. Splayed legs create a playful dance across the floor. Both leg and shelf options are available in a palette of lively colors, inspired by one of their favorite artists, Matisse.

PETER STAMBERG AND PAUL AFERIAT New York-based design partners, Peter Stamberg and Paul Aferiat combine a devotion to modernist architecture with a passion for vibrant primary colors, sensuous materials, exuberant spaces, and classic modern furniture pieces. Their widely published projects include the Long Island Children's Museum, the renovation of the Hoffman house in East Hampton and the Clifty Creek elementary school in Columbus, Indiana, both originally designed by Richard Meier.
