

Fossil Inc.

Sector Focus: Consumer Products

When Fossil Inc., a leading American designer of clothing and accessories, relocated its headquarters to a new space in Richardson, Texas, Corgan Associates and Knoll dealer Bauhaus Interiors Group, worked with the Company to design a new space that would support collaboration while promoting an authentic, brand image throughout the new office. Fossil selected a mix of Template™ workstations and Dividends Horizon® panels for its open plan office to invigorate the workplace by facilitating collaboration and teamwork. Low panels

support interaction while delineating individual workspaces. Life® chairs used throughout the new space, provide personalized and effortless ergonomic support. Chadwick™ chairs offer the perfect balance of simplicity and innovation in the Company's conference rooms (not shown). Break out meeting areas feature Saarinen Executive chairs and Saarinen Tulip tables (left). Barcelona® chairs, D'Urso sofas and Florence Knoll coffee table in huddle rooms embody the authentic, classic Fossil image (right).
