General Ordering Information		149

Currents creates dynamic, advanced performance work environments from coordinated, independent elements – service walls, plannable desks, mobile storage – and existing Knoll office products.

Currents workspaces may be spine-supported or freestanding, or planned in combination with conventional panel systems.

Currents service walls

Currents service walls form the structural core and primary path of services distribution for a cluster of workstations. Currents service walls may also create borders for team workspaces, conference areas, or corridors. Service walls are 5" thick, and available in three heights: 43" (nominal 39"), for seated visual access; 52" (nominal 48") for seated privacy, the most versatile height for open plan areas requiring some overhead storage; and 68" (nominal 64"), for standing privacy in executive or conference areas.

Service walls are composed of frames and covers. Frames include studs on 12" centers, base raceway with levelling glides, crown and base. All studs have brackets to support covers at 5", 21", 30", 39", 48" and 64" above the floor. Crown and raceway covers, structural base covers from 5" to 21" above the floor, and covers above 21" must be specified separately.

Structural base covers enable perpendicular panels, worksurface supports, or outriggers to be attached at any point. Structural base covers may be painted steel, perforated, or upholstered.

Wall covers above 21" snap into wall frame brackets at 12" intervals, and are removable without tools. Covers may be painted, upholstered, acoustical/tackable upholstered, cable tray, slatwall, or marker surface.

Currents walls plan in any combination of 48", 60" or 72" widths corresponding to the total length of wall required. Add stabilizer end cabinet, outriggers, T-end and L-end panels, or 90° post connections at each end of service wall spine. Straight connectors are included with each frame kit to join frames of the same height in a straight line. High-low straight connectors are available separately. Service wall spines require outriggers or perpendicular systems panels every 8'.

Power components are specified separately. Knoll universal 2+2 or 3+3 power components may be installed in the base of the wall or at worksurface height. Base power rails accept two duplex outlets on each side of a panel at raceway height. Desk-height outlet modules accept two duplex outlets on each face above or below the worksurface. One or two modules (four duplex outlets each side) may be located in any 12" wide stud bay. Locate outlet modules and related 12"W outlet covers before specifying widths of adjacent panel covers.

The interior of the wall between 21" and the crown offers unobstructed, 1" deep, lay-in cabling on each surface. Vertical wire management and excess cord capability is unobstructed 2 1/2" x 10" between studs.

All service walls have a 4"H crown for mounting shelves and overhead storage cabinets, canopy lighting and awnings at any point on one or both sides. Translucent, perforated or upholstered add-up panels fit into a center channel anywhere along the crown for 12", 21" or 28" of additional enclosure.

Stackable add-up panels are also available in translucent, perforated, upholstered, marker or glazed surface. First up panels are 12", 21" or 28" high; next up stacking panels are 16" high.

First up panels can be mounted on any 3" increment along service wall crown, or correspond in width to linkable screens.

Wall mounted components

Worksurface supports, perpendicular wall-connected linkable screens, and systems panels may be connected to the Currents wall at any point. Wall-connected screens, linkable screens and systems panels attach to the service wall at any point. Mobile screens are also available, in translucent fiberglass, perforated or upholstered surface.

Currents linkable screens, in translucent, perforated, glazed or upholstered surface, define workstations and extend the service wall horizon. Linkable screens connect in straight, L, T and X configurations and accept stackable add-up panels. First up panels are 16", 25" or 32"H. Next up panels are 16"H.

Currents worksurfaces are designed for computer use as the primary work activity. Deep corners are shaped for large monitors, and include wide keyboard/mouse areas. Straight worksurfaces feature softly curved or flat fronts. Extended corners incorporate an adjacent work area and a computer corner into a single, uninterrupted surface. Universal worksurfaces include a steel stiffener for high load capacity and cord management.

Service walls cantilever worksurfaces up to 24"D, or provide end support for any size worksurface. Support columns, independent C-legs, and floorstanding pedestals are also available for worksurface support. Cantilevers are adjustable in 1" increments for 24"-34"H worksurface. End support brackets and C-legs are fixed height for 28"H worksurface, or adjust for 24"-34" worksurface height.

Service wall crowns can upmount portable open shelves, task and ambient lighting, add-up panels, and awnings for light control.

Service wall crowns can upmount or downmount Reuter overhead storage and open shelves at any point. Brackets are also available to downmount Morrison Options or Equity overhead cabinets from 64" service wall crown.

Currents desks and credenzas

Currents desks and credenzas are freestanding furniture elements optimized for the high-mobility, computer-based office. Currents corner desks and credenzas can work together to form efficient, two-element workstations.

They are available in basic versions for use with Currents service walls and screens, or equipped with service beams to support privacy screens, modular power distribution, and expanded data cabling. Desk and credenza beams can be linked in powered clusters. Beam-mounted privacy screens may be shared back-to-back; both sides are tackable. Upholstered screen heights reach 39" or 48" horizons. 9"H translucent windows can be added to either height. Perforated metal screens to 30"H conceal desktop cables on open desks.

All desks include horizontal and vertical cable managers. Optional service beam may be powered with Knoll 2+2 or 3+3 modular power components, and carries up to 50 lay-in Category 5 cables. Data cabling can be protected by optional data tray covers. Standard knockouts are provided at each end of the data tray for Knoll PDC Module data connector plates.

All Currents desks are height-adjustable. Pin-set version has range of 24" to 30"H in 1" increments. Handcrank version lets the user adjust continuously from 24" to 34"H. Desks have C-legs for knee clearance, and have interchangeable rear casters or glides for easy mobility.

Desks are available in corner, extended corner, and curved-front straight shapes. Worksurface corners are eased to make alignment of mobile units less critical.

Desks, credenzas, and wall-mounted worksurfaces accept clamp-on workshelves. Workshelves provide convenient binder/book access adjacent to computer displays.

Credenzas are integrated units which provide the equivalent of one or two pedestals, enclosed shelf storage, and a worksurface top that extends the usable desk top area. A cable storage area is provided at the rear of the credenza cabinet, accessed by sliding the worksurface forward. Optional linkable service beam accepts privacy screens and extends the wireway capabilities. Credenzas accept clamp-on workshelves or stanchion-mounted Reuter overhead storage units.

Stanchions can be equipped with outlet modules that link to adjacent desks.

Currents Worktables

Currents mobile worktables extend the worksurface area and provide flexible guest/conference spaces. Rounded corners enable informal placement near other workspaces. All worktables are available with casters or levelling glides.

Adjustable height worktables adjust from 24" to 30" high in 1" increments.

Currents Storage

Currents freestanding storage components are designed for mobility and space efficiency.

Pedestals are available mobile or fixed, with 2 files or combination 4" personal, 7" data, and 11" file drawer fronts, fitting below standard 28" worksurface height. Data/file mobile pedestals are low enough to roll under desks set lower than 28". Mobile pedestals include top, casters and handle. Fixed pedestals include 2" levelling glides.

Vertical storage units are compact towers, 24" or 30" wide, 64" high, on casters or glides. Cabinets have all shelves or full width files at the bottom and adjustable shelves above, or full width coat bar.

Reuter vertical storage has a rotating door, shelves and pull-out file frames, and a wardrobe area. Reuter storage is 21" wide so open door fits within 24" planning footprint.

Reuter vertical storage is available 48"H, with painted or worksurface top, or 64"H with painted top only.

Approved for wall covers, mobile screens and privacy screens.

Specification Information

Painted finishes for legs and feet:

3	Silver
B	White
2	Metallic flint
U	Light metallic grey
J	Medium metallic grey
V	Dark metallic grey
W	Light metallic tan
H	Metallic beige

Fence frames include four barrel connectors, crown and bottom rail covers in trim grey. Frames must be enclosed with two rows of 9"H Currents wall covers on each face.

Specify Currents power components separately. Outlet modules mount at any point along the top row only.

Application Notes

Currents Fence provides independent services distribution to a cluster of tables, desks or workstations.

Installed Fence frames are 40"H and include vertical studs with cover mounting clips and cable manager inserts every 12".

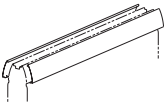

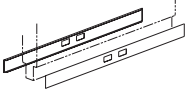

A continuous top channel accepts Currents crown top caps and supports panes, add up panels or stackable add up panels 12" high. 21"H stackable add up panels may be used on Fence runs supported by perpendicular panels or linkable screens.

Fence legs with glides mount 12" from each frame side edge under the first full vertical stud. Stabilizer feet mount on both faces of Fence legs.

For freestanding Fence runs, specify a leg with feet 12" from each run end plus a leg with feet for each intermediate frame connection. Intermediate legs may be positioned on either side of the frame connection.

Legs with feet 12" from each end of connected Fence frames can be replaced by stabilizer end cabinets or T-ends with panels or linkable screens. Intermediate support may also be provided by legs without feet in combination with perpendicular panels or linkable screens with Fence panel starters.

Fence frames can end support worksurfaces but cannot cantilever worksurfaces or upmounted storage.

Example: APC 0948 CJ APC Service wall cover 09 Height 48 Width C Surface type J Finish	Specify smooth or textured painted finish for cable tray and slatwall covers: Smooth finishes: 2 Metallic flint U Light metallic grey J Medium metallic grey V Dark metallic grey H Metallic beige E Soft grey Y2 Medium grey (Slate) W Light metallic tan 3 Silver B White R Taupe Textured finishes: TB White T2 Flint TU Light metallic grey TJ Medium metallic grey TV Dark metallic grey TH Metallic beige TW Light metallic tan T3 Silver TR Taupe	Cable tray and slatwall covers provide integral performance surface on one or both sides of a wall frame. Cable tray and slatwall may be planned in combination with other painted or upholstered covers to enclose frames between 21"H and 48"H. Cable tray mounts from 21" - 30" only on any panel frame. Adjacent trays form continuous, easily accessible cable management at worksurface or table height. Shorter segments provide local cable management below outlet modules. Covers may span across a straight wall frame connection. Bottom half of cable tray cover permits cables to be managed on surface of studs with one cable holder (55 CAT5 cables) or two clips (28 cables). Cable tray exit cover permits power jumpers and data/ communication cables to pass from wall to Currents desk service beam. Cable tray exit cover, 12"W only, has two openings with sliding covers. Slatwall supports KnollExtra task lights, monitor arms, paper trays, file holders and other accessories.

Specification Information

9"H covers plan at any 9"H level in 39", 48", or 64" walls.

For active face of 39"H frame, specify two 9"H covers each side.

For active face of 48"H frame, specify three 9"H covers each side.

For active face of 64"H frame, specify three 9"H covers and one 16"H cover each side.

Surface type:

G Glazed translucent

Specify painted finish for covers top and bottom frame (textured paint only):

2	Metallic flint
U	Light metallic grey
J	Medium metallic grey
V	Dark metallic grey
H	Metallic beige
E	Soft grey
Y2	Medium grey (Slate)
W	Light metallic tan
3	Silver
B	White
R	Taupe

Glazed translucent covers are frosted acrylic with top and bottom frame extrusions.

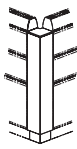

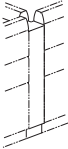

Service wall covers enclose frames between 21"H and the top crown. Covers may be specified in any combination of widths corresponding to the total wall length. Covers may span across a straight wall frame connection.

For active surfaces with access to cables and power/data/communications outlets, specify 9" and 16"H segmented covers as described in Specification Information. Normally, 9" cover from 21" to 30" above floor is cable tray or painted steel, and higher covers are painted, marker, upholstered, tackable, glazed or slatwall surfaces.

Hardwire fence infeed (NYC)		2 + 2			AR1 EPHF	333.
		3 + 3			AR1 TPHF	354.

Order Code

Example	AR1 VCM
AR1	Raceway
VCM	Type

Specification Information

Wire manager covers are integral color trim grey.

Application Notes

Wire manager covers snap into the sides of the fence legs to guide cables from the floor to the underside of the frame.

Carpet grips and/or non-skid pads snap onto bottom of stabilizer feet to prevent legs from sliding.

Hardwire fence infeed is approved for City of New York installation. Infeed includes wire manager cover, junction box and connector to desk height outlet module.

Wall frame accessories

fence panes and end brackets

Currents

Order Code

Example:	AU 1212 T 4
AU	Add up
12	Height
12	Width
T	Finish
4	Quantity

Specification Information

Panes are molded translucent finish and are ordered in sets of 4.

End bracket kit includes a left and a right handed bracket.

Paint finish for end bracket:

3	Silver
B	White
2	Metallic flint
U	Light metallic grey
J	Medium metallic grey
V	Dark metallic grey
W	Light metallic tan
H	Metallic beige

Application Notes

Panes add privacy above Fence and any height Currents service wall.

Bottom edge inserts in center of crown at any point.

Fence end brackets attach to the Currents fence to support one end of rectilinear or one back edge of a corner worksurface when the other ends are properly supported by legs, storage or panel brackets Refer to the specific worksurface Application Notes for support requirements.

Fence end brackets support the underside of the worksurface in 1" increments from 26" to 28" (27" to 29" top height).

Order Code

Example:	AX1EET64T
AX1	Accessory
EET	Equity end trim
64	Panel height
T	"T" both sides

Specification Information

Specify paint finish for Equity end and panel starters, trim kits and crown end cap:

E	Soft grey
Y2	Medium grey (Slate)
R	Taupe

Note:

For more specific application information, please refer to pages 48-49 of the 1999 Equity Planning Guide.

Additional finishes are available for crown end cap.

Application Notes

Equity panel starters attach perpendicular panels to Currents wall structural base covers. Equity panel starter includes clamp bracket and adapter. Both end and panel starters include top clip for added stiffness. No connector post is required for either starter.

Equity end starter supports perpendicular panel run on the centerline of the end of the wall. Perpendicular panels should be at the same height or higher than the service wall.

The Equity end trim kit encloses and flushes out the end of the Currents service wall with attached, end started Equity panels.

Specify trim kit suffix "T" for panels on both sides, "L" or "R" for attached panels only on left or right side of end of the Currents wall (as seen from outside of "T" end). Also specify crown end cap for all end conditions.

Gap fillers fill the gap when attaching a lower height Equity panel at the end of a 64"H Currents service wall.

Specification Information

See Reff System for full selection of painted finishes, fabrics and wood veneers for T-end cover sets.

Specify:

1. Top trim profile
2. Panel finishes
3. Top trim finish
4. Base finish

Top trim profile:

- A Flat
- B Square
- C Bullnose

Base height:

- 4 4" base height

6" base height is currently not available.

Application Notes

Specify covers in monolithic or tiled sets to complete T-end frames for Reff..

Monolithic cover sets include a raceway cover and a single snap-in panel above.

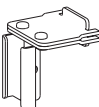

Tiled sets include raceway cover and segmented tiles corresponding to adjacent Reff tiled panels.

Reff tiled module horizontal reveals are at nominal 19", 34", 49" and 64" above the floor and do not align with service wall cover reveals.

Specification Information

Paint finishes for Universal end and panel starter:

B	White
3	Silver
2	Metallic flint
U	Light metallic grey
J	Medium metallic grey
V	Dark metallic grey
H	Metallic beige
W	Light metallic tan
E	Soft grey
Y2	Medium grey (Slate)
R	Taupe

Application Notes

Universal adapters and starters integrate other panel systems with the service wall. Vertical surface accepts architectural wall starter of most other systems.

T-end adapters include connector to corresponding height T-end for Currents screen (specified separately).

Panel starter includes clamp bracket to structural base cover on service wall.

Top clip gives added stability to attached panels of the same height or higher than the service wall.

Desk height outlet module	21-48"H	5"	-	6"	AR1 EOM			\$116.
								
Central switch	21-48"H				AR1-ELS-B			324.
Duplex outlet	Circuit A				AR1 DA	28.		
	Circuit B				AR1 DB	28.		
	Circuit X				AR1 DX	28.	33.	
	Circuit Y				AR1 DY	28.	33.	

Order Code	Specification Information	Application Notes
Example: AR1 EOM	Raceway components distribute four 20-amp circuits at desk height or service wall base: two convenience circuits and two protected circuits, with separate grounds and heavy duty #10 neutrals.	Service wall power may be distributed point-to-point between outlet modules at desk height or in the base raceway.
AR1 Raceway		
E 2+2		
OM Outlet module		
		Central switch includes white rocker switch, connector to adjacent outlet module, and three simplex outlets on circuit B (2+2 or 3+3).
		Outlet housings and power rails accept two duplex outlets on each face and four connector/jumper cables.
		Outlet modules and power rails accept two duplex outlets on each face. Specify outlets with black face for convenience circuits. Specify orange face or black with orange triangle for protected circuits with separate ground and neutral in building power supply.
		Modular desk-height outlet module mounts between frame studs at any height from 21" - 48", above or below adjacent worksurfaces. Each 12"W frame bay can accept two outlet housings (up to four duplex outlets on each side.)
		Central switch controls three outlets inside wall frame for task or ambient lights. Switch occupies right-hand outlet opening in outlets cover on one side of wall.
		Switches cannot be positioned back-to-back in combination with an outlet module.

	3 1/2"	5"	72"	APX CIP6 ()		387.
	3 1/2"	5"	96"	APX CIP8 ()		441.

Order Code	Specification Information	Application Notes
Example: AR1 PCC 100	Cable clips and cable managers are black plastic.	Specify cable clips, approximately 50 per wall frame to support and manage cables on the face of studs in the Currents wall frame. Each clip manages up to 14 Category 5 or fiber optic cables; four clips attach between 21"-30", 30"-39", 39"-48"; six between 48"-64"H. Only two clips fit behind a cable tray cover at the 21"-30" height.
AR1 Raceway	Cable holders are light grey plastic.	
PCC Cable clip	<i>Specify painted finish for hardwire outlets cover or ceiling infeed panel:</i>	Specify high capacity cable holders approximately 20 per wall frame to support and manage larger bundles of cables. Each holds up to 55 Cat 5 cables; two holders attach to studs at each 9" level; three holders at the 16" level of a 64"H wall. Only one holder fits behind a cable tray cover at the 21"-30" height (upside down).
100 Size/Quantity	B White (textured)	
	2 Metallic flint	
	U Light metallic grey	
	J Medium metallic grey	
	V Dark metallic grey	
	H Metallic beige	
	E Soft grey	Raceway cable managers are U-shape cable supports that snap into the underside of the panel frame. Plan one per foot foot to contain data cables or power jumpers in the base raceway.
	Y2 Medium grey (Slate)	
	W Light metallic tan	Ceiling infeed panel attaches to end of spine adjacent to stabilizer end cabinet or Currents, Morrison, or Reff T-end panel with 3 1/2" extension, or to power monument. Center channel, 2" x 2 1/2", accommodates one or two power infeed cables. Each side channel is 1 1/2" x 3 1/2" lay-in cable raceway, for continuous lay-in cabling from ceiling to wall surface.
	S Silver	Specify ceiling infeed separately.

Order Code	Specification Information	Application Notes
Example: AWM1 S36 <hr/> AWM1 Stiffener <hr/> S Straight <hr/> 36 Application <hr/>	Stiffeners are black painted finish.	Currents worksurfaces for Morrison require stiffeners when the span between structural supports (end supports, cantilevers, pedestals, or C-legs) exceeds 36". Stiffener also serves as horizontal cable manager. Stiffener corresponds in width to straight or corner worksurface back edge. For 90" application span, use AWM1-S84 stiffener. Stiffener mounts 18" from front edge of worksurface and will interfere with mobile or floorstanding pedestals greater than 18" deep. To accommodate a floorstanding pedestal greater than 18" deep at one end of worksurface, specify stiffener for 12" narrower worksurface. To accommodate two floorstanding pedestals or double-wide at one end of worksurface, specify stiffener for 24" narrower worksurface.

Specification Information

Painted finishes for support column, C-leg, and brackets:

U	Light metallic grey
J	Medium metallic grey
V	Dark metallic grey
H	Metallic beige
2	Metallic flint
E	Soft grey
Y2	Medium grey (Slate)
W	Light metallic tan
3	Silver
B	White

C-Leg casters/glides:

C	Rear casters/front glides
G	All glides

Casters/glides combination has no levelling. All-glides version provides 1 3/4" levelling range.

Application Notes

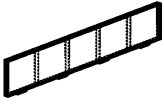

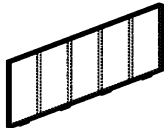

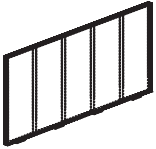

Specify two straight legs under shared worksurface. Straight legs are fixed at 27"H (28" top height) or adjustable 23"-29" (24"-30" top height).

C-legs support one end of any corresponding depth Currents worksurface. Corner legs support only the back corner of a Currents corner worksurface. Specify C-legs for side edges of Currents corner and extended corner worksurfaces.

Adjustable C-legs and corner legs are adjustable in height to support underside of worksurface at 1" increments from 23" to 28" (24" to 30" Currents top height). Fixed height C-legs support desk at 28"H. Fixed height C-legs do not accept service beams.

Example:	AU1 CL12
AU1	Add-up
CL	Connector type
12	Application

Specification Information

Add-up fillers and alignment clip are painted trim grey finish.

Pattern numbers correspond to add-up panel height.

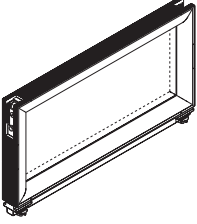

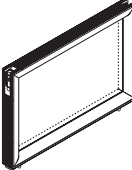

Application Notes

Straight connector clips over adjacent non-stackable add-up panels.

Add-up fillers join between add-up panels over a service wall connection or a T-end to extend enclosure from bottom of crown to top of add-up. Fillers require retrofitting add-up panels with new trim.

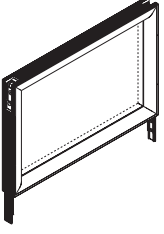

Retrofit kits are no-charge items that are specified separately.

Specification Information

Stackable add-up fillers and trim are trim grey finish.

Application Notes

Hi-low adapter kit includes an end cap and a bayonet with attachment holes to join stackable add-up panels in a straight high/low configuration. The adapter also adapts a corner, T, or X post for high/low corner configurations.

Corner fillers join stackable add-ups and fill the space above a Currents service wall L or T connection.

T-end extension fillers fill the 1 1/8" or 3 1/2" space above the extending area of a T-end connection at the end of a service wall with stackable add-up panels.

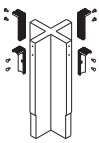

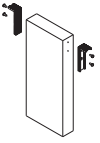

T-end stackable fillers fill the 7"-wide space above a T-end when attached linkable screens or Morrison panels have stackable add-ups.

All fillers engage into the top corners of corresponding height stackable add-up panels.

Order Code

Example: AY1 CL28	
AY1	Stackable add-up
CL	Connector type
28	Height

Specification Information

Stackable add-up fillers and trim are trim grey finish.

Application Notes

Hi-low adapter kit includes an end cap and a bayonet with attachment holes to join stackable add-up panels in a straight high/low configuration. The adapter also adapts a corner, T, or X post for high/low corner configurations.

Corner fillers join stackable add-ups and fill the space above a Currents service wall L or T connection.

T-end extension fillers fill the 1 1/8" or 3 1/2" space above the extending area of a T-end connection at the end of a service wall with stackable add-up panels.

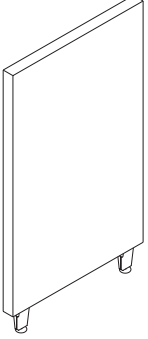

T-end stackable fillers fill the 7"-wide space above a T-end when attached linkable screens or Morrison panels have stackable add-ups.

All fillers engage into the top corners of corresponding height stackable add-up panels.

Linkable screens

Order Code

Example:	AP1 3924 GTU
AP1	Currents screen
39	Height
24	Width
G	Surface type
T	Surface finish
U	Frame finish

Specification Information

Surface types:
 G Glazed
 TC Translucent fiberglass
 H Perforated

For glazed panels specify:
 C Clear acrylic
 S Smoked acrylic
 T Translucent acrylic

Perforated surface is light grey.

Specify painted finish for glazed panel frame:
 U Light metallic grey
 J Medium metallic grey
 V Dark metallic grey
 H Metallic beige
 2 Metallic flint
 W Light metallic tan
 B White
 3 Silver

Top cap and linkable screen legs are trim grey.

Application Notes

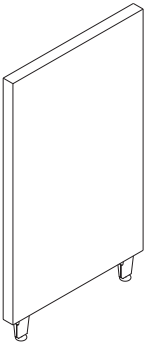

Linkable screens divide workstations perpendicular to service wall where base raceway is not required. Linkable screens connect with standard Morrison/Currents wall starters and Currents linkable screen connectors.

Screens are supported by two legs with leveling glides and include Currents top cap. Specify connectors separately (see pages 45 and 46).

Glazed linkable screens use Morrison glazed panel construction. Fiberglass and perforated screen surfaces are bonded to D-frame panel construction.

Specification Information

Painted finish for raceway cover for Currents end connector:

U	Light metallic grey
J	Medium metallic grey
V	Dark metallic grey
H	Metallic beige
2	Metallic flint
W	Light metallic tan
B	White
3	Silver

End and top trims are trim grey integral finish.

Linkable screen legs are trim grey.

Application Notes

End trim is economical vertical trim cover for linkable screen where no end connector (or cantilever track) is required. End trim includes top cap.

Raceway cover encloses end of Morrison panel raceway under Currents end trim or end connector.

Top trim corresponds in width to linkable screens or Morrison panels. No Currents top trim is available for Morrison connectors (specify linkable screen connectors).

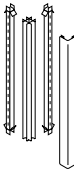

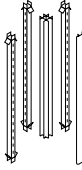

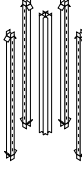

Top caps are included with Currents screen connectors.

Linkable screen feet may be ordered to convert Morrison panels with raceway to Currents linkable screens.

U	Light metallic grey
J	Medium metallic grey
V	Dark metallic grey
H	Metallic beige
2	Metallic flint
W	Light metallic tan
3	Silver
B	White

Base type:

P	Wall-connected
---	----------------

Application Notes

Translucent screens have full surfaces of luminous fiberglass enclosing a lightweight, rigid frame. Continuous edge trim is trim grey.

Wall connected screens have one support post with levelling glide.

Wall connected screens attach to service wall or Currents T-end only, and cannot be linked.

Specify screen starter to connect screen perpendicular to service wall face. Clamp bracket attaches wall-connected screen anywhere along structural base. Outside surface of screen at end of wall will be approximately 1" from end.

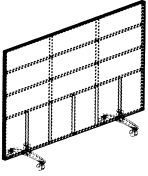

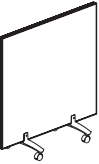

No screen starter is needed to attach service wall-connected screen to corresponding height Currents T-end at end of spine.

Screen-to-worksurface bracket stabilizes wall-connected screen by attaching to underside of worksurface at any height.

Specify left or right end of worksurface.

 P- American Cherry Techgrain®

Interior partitions are black painted steel finish.

Application Notes

Reuter storage is a universal product applicable on Morrison or other Knoll systems.

Reuter overhead cabinets without mounting hardware should be specified for Morrison Network freestanding desks, walls, cantilevering or panel mounting on Knoll Equity, Reff, or Calibre (see page).

Cabinet door rotates above cabinet on side pivots, counterbalanced by two pneumatic cylinders. Two-door cabinets have center divider and four pneumatic cylinders.

Vertical interior partitions may be positioned on 1 1/2" increments of width anywhere across shelf, 1 1/2" in from each side. Vertical partitions contain cutouts for mounting up to five horizontal partitions at 2" increments on either or both sides. Horizontals are suspended between two verticals, and may be positioned end-to-end in any combination up to 3" less than cabinet width. Available in sets of 10; 6", 9", 12", 15" widths.

Ganging bracket (page) joins adjacent overheads or shelves for additional stiffness and alignment.

Order locks for overheads with a KnollKey order form. Please note that Reuter overhead cabinets 60"W or wider require two lock cores.

Reuter overhead doors without locks include black, Knoll-logo insert, in the same position. Insert may be removed to retrofit a lock later.

Reuter ganging bracket
wall-mounting options and ADA pull
Designed by Robert Reuter

description	type	w	d	h	pattern no.	black
Ganging bracket					RO1-GB	\$12.

Order Code

Example: RS1-WMF2	
RS1	Reuter overhead
WMF	Wall mount frame
2	Width

Products indicated with ➔ are available on KnollNow.

Specification Information

Wall mount frames are painted black finish.
 ADA pull is stainless steel.

Application Notes

Wall mount frames secure Reuter overhead cabinet or shelf to wall (frame/wall mounting hardware is not included). Frame is concealed behind storage. Use two RO1-WMF2 to wall-mount 66"- and 72"-wide Reuter overheads.

Reuter open shelves 66" and 72"W are for stanchion support only.

Wall mount wire manager is two-part wire concealment kit, 22"H (medium grey only).

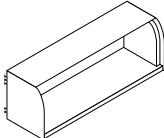

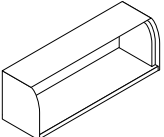

Ganging bracket joins adjacent Reuter overheads or shelves for additional stiffness and alignment when storage is planned on only one side of a panel run.

ADA pull mounts to Reuter painted front overhead door to allow seated users to close door easily. Specify one for each cabinet 24" - 48", two for cabinets 60" - 72".

ADA pull cannot be mounted on wood front Reuter doors.

Example: AA1-LO48 DN J	<i>Painted finishes for shelf downmount brackets and overhead downmount kit:</i>	Morrison downmount brackets support Morrison or Options shelves and brackets on 64"H service wall.
AA1 Currents accessory	U Light metallic grey	Downmount brackets attach overheads within the upper 16" of 64"H walls and open shelves within the upper 9" of 48" or 39"H walls.
LO Options overhead	J Medium metallic grey	Specify an extra bracket (one-half pair) for center support of overhead cabinets wider than 60" and shelves wider than 54".
48 Size	V Dark metallic grey	Upmount or downmount brackets may be inset to permit overhead to extend 1" or 3" and shelf to extend 3" beyond the end of the spine at T-ends.
DN Configuration	H Metallic beige	Extended downmount brackets enable the Reuter open shelf to be mounted from 49"-56"H on 64" service all. Specify shelf adapter brackets separately.
J Finish	2 Metallic flint	For brackets for use with Dividends and Series 2 for Dividends overheads, please consult the Dividends price list - page. 101.
	W Light metallic tan	
	B White	
	3 Silver	
		Equity downmount bracket attaches an Equity overhead to a 64"H Currents wall. Specify two brackets - one for each end of overhead unit. Upmount brackets are used with 48"H Currents wall and can be specified to align the top of the overhead at 64" or 65" of total height. A back must always be specified for the Equity overhead when mounting on the Currents wall (see Equity price list).
		Reuter upmount brackets attach overhead cabinet or shelf anywhere along panel crown, lifting 1" above nominal wall height. Extended upmount brackets lift self to 10" above nominal wall height.

Order Code

Example:	AL1 C48
AL1	Lighting
C	Canopy
48	Mounting height

Specification Information

Canopy is white perforated aluminum. Light fixtures and posts are light grey finish.

Canopy and uplights utilize electronic ballasts, and 9' cordset.

Canopy and awning uplight have a single 32 watt tri-bi-axial compact fluorescent lamp.

18" linear uplight has two 36 watt bi-axial compact fluorescent lamps.

24" linear uplight has two 50 watt bi-axial compact fluorescent lamps.

For City of Chicago applications, specify fused cordset (suffix -CH), and add \$82. list.

Application Notes

Canopy, linear, and awning uplights attach to service wall crown, on either side at any point. Lights mounted back-to-back allow space between for add-up panels.

Canopy and linear uplight include rectangular post to position top of light fixture at 73"H. Awning uplight mounts at 2" above crown for use under awning.

Canopy light is designed for interiors with high ceilings.

Integral white reflector of canopy is supported at 80"H.

Linear ambient uplights are designed for interiors with ceilings from 8' to 10' high.

All lights include vertical cord manager from crown to fixture.

Consult your Knoll representative for photometric information on Currents ambient lighting.

AS1 Pedestal

PT Pencil tray

Specification Information

Pencil tray is black molded plastic.
Drawer divider is black painted steel.

Replacement worksurface stiffeners are black painted steel.

Bumper kit is trim grey plastic.

Application Notes

Pencil tray sets in top of personal or data drawer. Moveable dividers organize pencils, pens, and paper clips in separate compartments.

Drawer divider mounts in slots in bottom of personal or data drawer. U-shaped divider supports two rows of four CDs with titles visible in data drawer.

File support spans width of file drawer to support side-to-side letter or legal width suspended files.

Bumper kit protects back corners of mobile pedestals and adjacent furniture. Bumper kit includes two corner-bead shape extrusions with self-adhesive backer.

Desks incorporate universal worksurface and adjustable C legs. Pin-set desk surface can be set at installation from 24" - 30" high, in 1" increments.

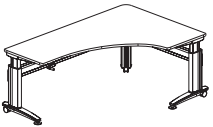

Straight desks have slightly curved front edges, to a maximum of 1" extra depth at the center. Nominal worksurface depths include 1 3/4" cable/connector space along back edge. Clearance under worksurfaces (for pedestals, BackPack or other accessories) is 18".

Desks may be specified with fixed front glides and rear casters or 1 3/4" levelling glides. Casters and glides are interchangeable in the field.

Desks accept clamp-on workshelves and service beams which support privacy screens, distribute power and data, and are linkable.

Worksurface edges are trim grey.

	V Winter grey	C Rear casters
	CM Clear Maple	G Glides
		Worksurface edges are trim grey.CM Clear Maple not available on 60"W x 60"D corner desks.

Handcrank desks incorporate synchronized, adjustable C legs and corner legs. Handcrank mechanism enables user to adjust worksurface from 24" - 34" high (continuous) with collapsible crank under front edge. Specify handcrank on left or right side of any corner desk.

Desks may be specified with fixed front glides and rear casters or 1 3/4" levelling glides. Casters and glides are interchangeable in the field. Integral cable tray under worksurface and channels in legs provide basic lay-in wire management.

Corner desks provide up to 45" diagonal depth for large monitors, keyboard and mouse. Nominal worksurface depths include 1 3/4" cable/connector clearance along back edge.

Handcrank mechanism is rated at 300 lbs. maximum weight.

Desks accept clamp-on workshelves and service beams which support privacy screens, distribute power and data, and are linkable.

Handcrank desks incorporate synchronized, adjustable C legs and corner legs. Handcrank mechanism enables user to adjust worksurface from 24" - 34" high (continuous) with collapsible crank under front edge. Hand crank may be installed on the left or right side of any straight or symmetrical corner desk.

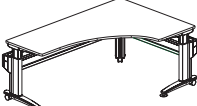

Desks may be specified with fixed front glides and rear casters or levelling glides with 1 3/4" travel. Integral cable tray under worksurface and channels in legs provide basic lay-in wire management.

Straight desks have slightly curved front edges, to a maximum of 1" extra depth at the center. Nominal worksurface depths include 1 3/4" cable/connector clearance along back edge.

Handcrank mechanism is rated at 300 lbs maximum weight.

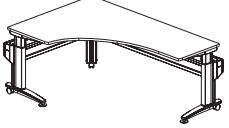

Desks accept clamp-on workshelves and service beams which support privacy screens, distribute power and data, and are linkable.

Credenzas are freestanding storage assemblies with top and overhead storage capability.

Credenzas on this page have four 18"W or 24"W lateral file drawers or enclosed shelves.

Credenza top slides forward to access 4"D cable feed/storage area inside case at rear. Grommited openings on back and at the bottom allow power and cable feeds. Cable coil kit fits in cable storage area.

Top may be specified "S" for corner cutouts to accept stanchions for Reuter overhead storage (specified separately). All credenzas support workshelf.

Credenzas also accept service beams which support privacy screens, distribute power and data, and are linkable.

Credenzas may be specified on locking casters or glides with 1 3/4" travel.

Specification Information

Painted finishes for workshelf and dividers:

U	Light metallic grey
J	Medium metallic grey
V	Dark metallic grey
H	Metallic beige
2	Metallic flint
W	Light metallic tan
B	White
3	Silver

Workshelf lights are dark grey painted finish.

For workshelf lights in City of Chicago installations add suffix (CH) and add \$46. For City of New York add (NY) with no upcharge.

Application Notes

Workshelf mounts anywhere along back of desk or credenza, independent of privacy screens. Workshelf includes uprights and clamps for Currents, Equity, or Morrison 1/4" worksurfaces.

Workshelf light provides fill light under a workshelf. Specify 18"W light for 24" or 30" shelf, 24" light for 36" shelf, 36" light for 48" shelf.

Task light has T12 warm white fluorescent lamp.

High efficiency light and light with electronic ballast utilize T8 lamp. Electronic ballast should be specified if adjacent to computer video display.

Application Notes

Power monument is floorstanding monument providing power and data/telecommunications outlets above worksurface height (36").

Power monument may be planned at the center of a group of worktables or C-leg desks in an active meeting area.

Power monument cable containers attach to each face of power monument for excess cable bundling below worksurface height (21"). Each face of power monument accepts one cable container.

Power monument provides four pairs of outlet openings on each side which may be duplex outlets, PDC modules or black fillers.

Power modules support one pair of duplex outlets each side. Specify up to four modules (eight duplexes each side).

For 2+2 power specify duplexes, **AR1 EPC1** power connectors between modules and **AR1 EPI5** infeed for floor feed, or **AR1 EPIC** for ceiling infeed (see page). For 3+3 power specify duplexes, **AR1 TPC1** connectors, **AR1 TPI5** or **AR1 TPIC**.

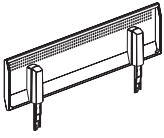

Hinged outlet flap covers two outlet openings; four flaps on each side of power monument cover all openings.

Ceiling infeed top replaces standard top for use with Currents ceiling infeed (page 27 or 29) and infeed panel (page 39).

	W Light metallic tan	B White
	B White	3 Silver
	3 Silver	Edges of privacy screens are trim grey.
		Privacy screens plug into corresponding width service beam at back edge of desks and credenzas.
		Screens to 30"H are painted finish, perforated steel, to conceal cable clutter from desktop equipment to service beam. Higher screens are tackable/acoustical upholstered surface on both sides.
		Screens include brackets to mount to desk or credenza with service beams of corresponding width. Two 36"W screens may be specified for 72"W desks.
		One 48"W screen can also be planned at either end of 72" straight or corner beam.
		Screens may be shared between desks in back-to-back configurations.

Selling Policy

	<p>This Selling Policy supercedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.</p>
Terms & Conditions of Sales	<p>Sales by Knoll, Inc. or Knoll North America Corp. ("Seller") of Knoll Product Lines (hereinafter "Products") within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser's assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supercede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.</p>
Ordering Information	<p>All orders must be in writing. The product pattern number(s) contained on Seller's order acknowledgement shall be the final expression of the order.</p>
Order Confirmation	<p>A purchase order is not binding on Seller until Purchaser has received Seller's order confirmation or acknowledgment.</p>
Pricing Policies	<p>List prices are subject to change without notice.</p> <p>List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than one hundred twenty (120) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller's list prices.</p>
Taxes	<p>All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.</p>
Terms of Payment	<p>Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than \$100,000 net, a one-third (1/3) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.</p> <p>KnollStudio orders less than \$2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than \$2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment.</p> <p>If, in the judgment of Seller, Purchaser's financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance.</p> <p>Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney's fees and costs.</p>
Changes and Cancellation	<p>Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including "COM" (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.</p>
Freight Prepaid	<p>Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States and Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from conditions over which the Seller has no control. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. All shipments shall be tailgate deliveries. Freight for all KnollTextiles orders is prepaid and added to the invoice.</p>
Delivery/Freight Charges	<p>Shipments outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin.</p> <p>For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination.</p> <p>Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.</p> <p>Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser's request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.</p> <p>Partial shipments may be made and invoiced by Seller.</p>
Claims	<p>All shipments for all Knoll Products within the contiguous United States and Canada are F.O.B. Origin. Risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to make a claim against carrier or notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. Seller will agree to repair or replace Product damaged in shipment if Purchaser has notified Seller of freight damage within ten (10) working days after receipt and assigns its rights against the carrier.</p>
Seller's Security Interest	<p>Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.</p>
Returns	<p>The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.</p>
Held Orders/Storage	<p>If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.</p>

Selling Policy

Customer's Own Material	A Purchaser who requests a fabric or other surface material not standard to Seller's line of Products ("COM") must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.
Warranty	<p>Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below.</p> <p>Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.</p> <p><i>Product and Period of Warranty</i></p> <p><i>Lifetime: Calibre, Currents, Dividends, Equity, Morrison, Reff</i> laminate and other non-wood components (except operational parts, controls, electrical, special or custom products, see below)</p> <p><i>10 Years: Reff</i> wood components, wood casegoods (<i>Crinion, Magnusson, Reference</i>), <i>Interaction</i> tables (except height adjustment mechanisms for <i>Counterforce</i>, crank-adjustable, and split-top tables and worksurfaces, see below), <i>Reuter</i> overheads, <i>Reuter</i> vertical storage, <i>Life, Sapper, RPM, Bulldog</i> and <i>Parachute</i> seating structural and operational parts, controls, casters, pneumatic cylinders (except seating upholstery, finishes and labor, see below)</p> <p><i>5 Years: Operational parts, controls, electrical</i> (except light ballasts and bulbs, see below), special or custom product, wood veneer products, <i>A3, Currents</i> handcrank, <i>Interaction Counterforce, Interaction</i> crank-adjustable, and split-top mechanisms, <i>KnollStudio, KnollExtra</i> adjustable keyboard supports, VDT carousel, monitor platform, equipment storage drawers and all universal storage drawers, <i>Open Up, Visor</i> and <i>SoHo</i> seating structural and operational parts, controls, pneumatic cylinders (except seating upholstery, finishes and labor, see below)</p> <p><i>3 Years: Upholstery, finishes and labor</i> to repair the following chairs: <i>Life, Sapper, RPM, Bulldog, Parachute, Open Up</i> and <i>SoHo</i>.</p> <p><i>2 Years: All other KnollExtra</i> product</p> <p><i>1 Year: Light ballasts and bulbs and Equity</i> fiberglass panels, seating upholstered armpads and soft armpads, <i>Visor</i> finishes and labor to repair.</p> <p>This warranty does not apply to:</p> <ul style="list-style-type: none">• Damage caused by a carrier other than the Seller.• Normal wear and tear or acts or omissions of parties other than Seller (including user modification).• COM or other third party materials applied to Products.• Products not installed by or under the auspices of a certified dealer of Seller.• Dramatic temperature variations or exposure to unusual conditions.• Except as specifically noted above, textiles and upholstery supplied by <i>KnollTextiles</i> (consult current <i>KnollTextiles</i> price list for applicable warranty). <p>Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces. THE EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.</p> <p>The remedies provided above are the Purchaser's sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.</p>
Delay/Force Majeure	Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.
Compliance with Law	PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.
Patents	<p>Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.</p> <p>The foregoing indemnity does not apply to the following:</p> <ul style="list-style-type: none">• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.• Any settlements of a suit or proceeding made without Seller's written consent.
Limitations of Liability	<p>SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.</p> <p>Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.</p>

KnollKey Lock Program

KnollKey Lock Program General Information

Following is the KnollKey lock policy, applicable to all products.

Key-alike

For the convenience of the user, furniture may be keyed alike at no charge. Write "Key-alike" in the description of your purchase order for any pedestal, overhead, file or other item you wish to have keyed alike.

Using the key-alike instructions, order cores and keys as line items on your purchase order. Do NOT submit a key-alike form. The Knoll East Greenville Lock Center will select key numbers from the standard range of K 001 - K 250. Key numbers will not be repeated unless over 250 sets are ordered. Lock cores keyed-alike will ship separately from the product, ready for field installation.

There is no charge for key-alike orders if placed with the furniture order.

IF THE KEY-ALIKE ORDER IS NOT PLACED AT LEAST TWO WEEKS PRIOR TO THE FURNITURE SHIP DATE, A \$50 HANDLING CHARGE AND AIR FREIGHT CHARGES WILL APPLY.

If product is ordered and shipped random-keyed, additional lock cores for key-alike are billable.

Random-Keying

To specify product keyed-random, write "key-random" in the product description. Random-keyed product is shipped with the lock core factory installed. A shrouded key is included. Random means no effort has been made to match key numbers, or to make them different.

Keys

A Knoll shrouded key is shipped with every lock core. 250 Key numbers are available. For numbers above 250, contact Custom Product Development. Additional keys and key blanks are available. See service parts for more information.

Master Keying

Knoll locks can be controlled by means of a master key. There is no additional per-lock charge for master keying. A letter of approval from the client must accompany orders for master keys.

Installing Lock Cores

Lock cores can be installed or removed in the field by using a change key. Cores must be in the unlocked position to be removed. See service parts for change key pattern number and pricing.

Lock Distribution

All orders for key-alike lock cores/keys are packaged and shipped from the East Greenville Lock Center, regardless of where the pedestals, overhead, or other units are produced. KnollNow and random keyed product will have cores factory-installed.

How to Specify Key-Alike

Following is an example of how to specify key-alike for a cluster of 10 workstations.

Step 1 - Using the project floorplan, count the number of locks in each workstation.

Step 2 - Count the number of workstations with the same quantity of locks. Group together the workstations with a like number of locks.

5 workstations with 2 locks per station
3 workstations with 4 locks per station
2 workstations with 5 locks per station

Step 3 - For the first group (5 sets of 2 locks), enter the number of workstations in the quantity column.

Qty	Pattern #	Description	Unit List	Ext. List
5				

Step 4 - Then enter the pattern number "KSPEC_ _" and add a suffix for the number of locks for that group (i.e., for 2 locks per station, add the suffix "2"). Up to 30 lock cores are available in a set (i.e., KSPEC 30).

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C

Step 5 - Repeat for other groups.

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C
3	KSPEC 4	Set of 4 cores/keys	N / C	N / C
2	KSPEC 5	Set of 5 cores/keys	N / C	N / C

Your Key instructions are complete.

Knoll will select key numbers for each set from 250 available numbers. Additional key numbers are available through Custom Product Development. **For additions to existing installations, specify desired key numbers in the description.**

Service Parts

Pattern #	Description	List Price
KKEY_ _ _	Shrouded Key Specify key number desired	\$5
KBLANK	Shrouded Key Blank	\$5
KSPECB_ _ _	Retrofit Universal Core/Key Specify key number desired	\$18
KCHANGE	Change Key	\$5
KMASTER*	Master Key	\$5

*Note: A letter of approval on company letterhead from the client must accompany all orders for master keys.

General Ordering Information

The Products

This guide encompasses all standard products for this product group.

Sizes

Dimensions listed in this guide are indicated as:

H = height

W = width

D = depth

Dia. = diameter

Rad. = radius

Pricing

All prices shown are list.

How to Order

Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item's "designated area" can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:

Knoll, Inc.
1235 Water Street
P.O. Box 157
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll's environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such "green" initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on "About Knoll" and then "Environmental Focus."
