

Certification Rating:
SUSTAINABLE PLATINUM

Certification #: 00000008
Category: Furniture
Subcategory: Seating
Certification Period: 05/2012-05/2015

ReGeneration by Knoll Chair

Certified Sustainable to the Triple Bottom Line: Good for the Environment, the Economy and for Social Equity

ReGeneration by Knoll® Chair

To achieve SMaRT® Sustainable Product Certification at any level, products must achieve 14 prerequisite points and score a minimum of 28 out of 162 points in the following areas covering all product stages across the global supply chain:

- Safe for Public Health & Environment
- Renewable Energy & Energy Reduction
- Biobased or Recycled Materials
- Facility or Company Requirements
- Reclamation, Sustainable Reuse & End of Life Management
- Innovation in Manufacturing

Under these areas, products are required to:

- Provide Feedstock Inventory Documentation
- Document the Input and Output of Stockholm Chemicals
- Maintain a Manufacturing Facility Energy Inventory
- Keep an Inventory of all Biobased and Recycled Content Materials
- Have EMS Environmental Policies and Targets
- Have Social Indicator Reporting for Manufacturers (working conditions)
- Use ISO Life Cycle Assessment process
- Have Operational Reclamation and/or Sustainable Reuse Programs
- Have Product Performance Durability (long lasting products)

To earn a Sustainable Platinum rating, the ReGeneration by Knoll chair earned 93 points:

Category	Points	Score
Safe for Public Health & Environment	30	30
Renewable Energy & Energy Reduction	30	30
Biobased or Recycled Materials	9	9
Facility or Company Requirements	15	15
Reclamation, Reuse & End of Life	4	4
Innovation in Manufacturing	5	5
Total	93	93

- 30 points:** Safe for Public Health & Environment
GREENGUARD Children & SchoolsSM certified
- 30 points:** Renewable Energy & Energy Reduction
Lubin Manufacturing Facility offsets 100% of electricity used at site with wind energy
- 9 points:** Biobased or Recycled Materials
35%+ Recycled Content
- 15 points:** Facility or Company Requirements
Completed ISO Life Cycle Assessment
- 4 points:** Reclamation, Reuse & End of Life
Extended product life
- 5 points:** Innovation in Manufacturing
Dematerialization

What buyers/specifiers will want to know about the ReGeneration by Knoll chair:

- High recycled content; uses rapidly-renewable and biobased material
- Volatile organic compound (VOC) and polyvinyl chloride (PVC) free
- Available with environmental upholstery fabric options
- Constructed using minimal materials
- Manufactured using clean technologies in a LEED® Gold, ISO 14001 certified building in East Greenville, PA, which is also an OSHA VPP Star site
