

# T-Light Overview

T-light mounts on the Antenna Workspaces beam to provide bright, even illumination across the worksurface.

Illuminate your ideas

## Features

- + Creates visual horizon and space definition in the open plan
- + Slim profile with minimal material use
- + Clustered array of small single LED chips arranged to minimize shadows
- + High performance lens evenly diffuses light and eliminates glare
- + Tactile switch with 3-step dimmer so user always knows which level light is set on (30%, 60%, 100%)

## Details

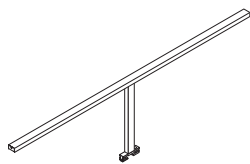

- + Constructed of 2 Highwire under-cabinet lights under a T-shaped structure
- + Available in 13" or 21" height
- + Available in 13 Antenna Workspaces finishes
- + Lights inside structure are always black
- + 5 year, 24/7 warranty; 1 year warranty on power supply
- + TAA compliant
- + UL certified
- + Available for international applications

## Technical Information

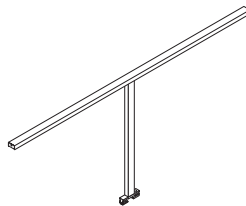

- + Each Highwire is 19" long with small single LED chips in a clustered array to provide even illumination
- + Each light has the following specification:
  - Draw: 9 watts
  - Output: 816 Lumens
  - Efficacy: 83 Lumens/Watt
  - Color temperature: 3000K, CRI: 82
  - Lifespan: 50,000 hours or 20 years of regular use

## Sustainability

- + Highly efficient, low energy consumption
- + Low material use
- + Mercury free
- + Greenguard certified
- + Pending level® certification
- + Eligible for LEED credits
