

# Mathews, Dinsdale & Clark LLP

## Sector Focus: Legal

When Mathews, Dinsdale & Clark LLP, one of Canada's leading workplace law firms, moved to a new building in downtown Toronto, the firm worked with Raymond Chiappetta Associates to create a welcoming space that highlights the office's architectural features. Mathews, Dinsdale & Clark LLP turned to Knoll and Knoll dealer Drechsel Business Interiors to outfit the space with furnishings that would establish clear sight lines between workstations and offer equal exposure to natural light. A mix of Dividends Horizon® and Antenna® Workspaces storage elements are paired with Upstart® Table Desks in the open office, to meet the

functional and aesthetic needs of today's workplace. Generation by Knoll® chairs, the standard of comfort and unrestrained movement, provide freedom and mobility in the workplace. Sapper™ Monitor Arms help plan space efficiently to maximize productivity (cover). The firm's conference room features Life® chairs, which are designed around intuitive ergonomics to naturally respond to users' movements (left). In the firm's private offices, the strong horizontal lines and visual lightness of Reff Profiles™ are complemented by the thin silhouette of the Life® chair. Moment™ Side Chairs provide guest seating (right).
