

# Allianz Life Insurance Company of North America

## Sector Focus: Finance

Allianz Life Insurance Company of North America is a growing company with a value-driven culture. Deeply committed to excellence and to its workforce, the company promotes a healthy work-life balance to daily business. For its headquarters in Minneapolis, the company worked closely with Architectural Alliance to help continue its legacy of sustaining an inner connectedness within the organization. Using a combination of Morrison and Currents® office systems by Knoll, Architectural Alliance was able to create an efficient workplace that incorporates requirements for flexibility and access to technology.

At this workplace, daylight views and a low panel horizon on the open floor help to achieve a sense of connectedness and openness throughout the space. Workstations, below right, feature a Currents spine wall, which delivers power and data along a center channel, and worksurfaces with Morrison panels and Calibre® storage. Several workstations, left, feature Currents freestanding desks. Environmentally friendly Life® chairs provide ergonomic support. Calibre storage towers, cover, provide space to hang clothes and store personal items. Finally, Orchestra® accessories by KnollExtra, above right, organize paperwork and supplies.
