Knoll and Sustainable Design

Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company's declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer's Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Global Climate Change

- Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world's most pressing challenges, including environmental change.
- Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

Life Cycle Assessment (LCA) Tool

- Life Cycle Assessment is a science-based measurement of a product's environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.
- Knoll has partnered with The Green Standard.org to develop an affordable, universal ISO-compliant computer-based LCA tool that can be used by the entire contract furniture industry and is partnering on the development of an Environmental Product Declaration System (EPDs) for Knoll products. EPDs are verified documents containing LCA results and additional environmental performance information about a product.

Setting Industry Standards

- Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT® Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT®, is an accredited American National Standards Institute (ANSI) standard developer.
- Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
- Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.
- Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
- Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll and sustainable design, visit knoll.com/environment.

Proper use and regular cleaning of your markerboard surface is essential for preventing permanent stains and/or ghosting typically associated with dry erase markers. By following the care and use instructions below, you will minimize the possibility of permanent stains and ghosting.

**Initial Cleaning of Markerboards
Before First Use:**

- Using a clean, dry cloth and a nonabrasive cleaner, gently clean the entire board to loosen any residue
- Using a dry cloth, wipe the entire surface to remove all dirt and residue from the prior step
- Rinse the entire board with clean water
- Using a dry cloth, wipe dry the entire surface

Daily Use, Care and Maintenance:

- *Use the proper markers.* All dry erase markers will write legibly on the marker board surface, but not all will erase properly due to their composition. Do not use low odor dry erase markers or permanent (indelible) markers. Use of these markers will lead to staining or ghosting, even with regular cleaning.
- *Clean the markerboard regularly.* It is recommended that markerboards be erased daily using an eraser designated for use with dry erase markers. If the markerboard is used daily, we recommend that a complete cleaning is performed at least 2-3 times a week using EXPO® whiteboard cleaner.
- *Remove ghosting.* Using EXPO® whiteboard cleaner and a paper towel, wipe the entire surface and let dry. Mix Joy® dishwashing detergent with warm water and apply to the board using a paper towel, then wipe dry with a clean cloth. Repeat as necessary.
- *Remove permanent marker.* Using a dry erase marker, write on top of the permanent marker, erase with a dry eraser, and then clean with EXPO® whiteboard cleaner.

Note: Do not use other painted tiles as markerboards or product damage will occur and the tile warranty will be voided.

Core Paint and Laminate Finishes

Order Code	Color Name	Paint Grade	Laminate Grade for worksurface shelves and cabinet tops	Paint Finishes	Laminate Finishes	2mm Edgeband Finishes	Pull Finishes

Note: Markerboard white finish (701) is available on Template backs only.

L1 and L2 laminate finish grades only apply to cabinet tops and worksurface shelves. Perpendicular worksurfaces utilize a single price grade.

Custom Paint Color Policy – Custom paint colors may be applied to Template product on a select basis. For colors outside the standard palette for Template, Knoll will custom match to your specification according to the following requirements: The request for a custom paint color must be accompanied by a purchase order for the product to be ordered and by a master color-match sample of paint applied to metal at least 3" x 5" in size. Knoll will evaluate the sample to determine application feasibility. Upon approval for application, Knoll will forward two factory samples with an assigned Knoll color name and order code for customer approval. One of the approved Knoll samples must be signed and returned to Knoll before an order is processed and dated.

P2 pricing applies to all solid custom or non-core Knoll finishes

P3 pricing applies to all metallic or white custom finishes as well as any metallic or white non-core Knoll finishes.

The following textiles are available for use on Template fabric items. Consult with your Knoll representative for pricing:
 Knoll Hopsack (backs and inside back inserts only)

Presto
 Ricochet
 Transition

COM (Customer's Own Material)

COM can be applied to Template product on a select basis. Please consult your Knoll customer service representative for details on the COM approval process and testing requirements.

Pricing for COM fabrics is at Grade 10.

Note: Always contact your Knoll customer service representative prior to sending any COM (including pre-approved KnollTextiles) to the manufacturing facility.

Note: All fabric components greater than 60" wide may need to have the fabric railroaded (turned 90-degrees). This must be considered when utilizing a patterned textile.

Template Planning Guidelines

The following Template planning guidelines are provided to ensure stability of Template storage product.

Different scenarios are:

- 1) Straight runs without attached worksurface
- 2) Straight runs with perpendicular panel attachment
- 3) Straight runs with attached worksurface
- 4) Straight runs with a Template return

1) Straight runs without attached worksurface:

- Template product 64" high and shorter without drawers do not require additional stabilizing
- Template product 64" high and shorter with drawers must have a counterweight kit which matches the size of the base installed under the bottom drawer OR be secured to a fixed wall OR be secured back-to-back to another Template unit.
- Template product 71" high and 78" high (with or without drawers) must be secured to a fixed wall or secured back-to-back back to another Template unit.

2) Straight runs with perpendicular panel attachment:

- Template product 64" high and shorter without drawers do not require additional stabilizing
- Template product 64" high and shorter with drawers must have a minimum of 39" (15" plus 24") long run of panel(s) attached to the Template unit using a Template panel attachment kit. Panels must be on the same side as the drawers.
- Template product 71" high and 78" high (with or without drawers) must have a minimum of 24" long run of panel(s) attached on both sides of the Template unit.

3) Straight runs with perpendicular worksurface(s):

- Template products 71" high and shorter without drawers or with one drawer do not require additional stabilizing.
- Template product 71" high and shorter with multiple drawer kits must have either: additional worksurfaces attached or a counter weight kit attached to the rear of the inverted base or secured to a fixed wall or secured back-to-back.
- Template product 78" high or taller must be secured to a fixed wall or secured back-to-back.

4) Straight runs with a Template return:

- With a 24" or wider return, Template product 78" high and shorter does not require additional stabilizing, up to a 288" (24ft) long run.

Order Code	Specification Information	Application Notes
Example:	Mid panel for laminate or veneer top may only be utilized with a laminate or veneer top.	Mid panels with desk ht. knockouts include four knockouts; one just above worksurface height on both sides and one just below worksurface height on both sides. Knockout covers are available separately to cover unused locations.
	Specify L for use with laminate top or V for use with veneer top.	Antenna height (25") and worksurface height (28") mid panels only include two knockouts below top height. One on either side.

Order Code	Specification Information	Application Notes
Example:	Base is available in painted finish only.	Base with cover includes removable base top providing easy access to the base interior.
	Specify a "K" at the end of a base pattern number and add \$20 to the list price when configuring a Template run in a serpentine or back-to-back layout. A hole will be provided in the back face of the base to allow access to power jumpers.	Base with grommet cover allows power cord access when plugging items into a base duplex power block.
		Base without cover may be utilized below a drawer kit to save cost as the top is not required and electrical components will not be seen.
		23 1/2"w and 29 1/2"w bases are designed to position worksurface height cases perpendicular to standard 24"d and 30"d worksurface ends for support.
		Base kick plate is optional and designed to provide a flush appearance to base when below drawers or doors or adjacent to full height sliding doors.

Order Code	Specification Information	Application Notes
Example:	L1 finishes include:	Tops for credenza or worksurface height units are available in 1 1/4" thick laminate or veneer only.
	114 - Folkstone Grey	
	117 - Soft Grey	
	118 - Bright White	
	119 - Pumice	
	L2 finishes include all other standard Knoll core laminate finishes.	Full top widths are computed by taking the nominal full width of single or connected units and subtracting 1" for each mid panel utilized.
		Example: 72"w unit comprises of two 36"w sections (one mid panel) would utilize a 71"w top. 72"w unit comprised of three 24"w sections (two mid panels) would utilize a 70"w top. Due to the large number of unit combinations possible, only the most common sizes are available as standard product.

Order Code	Specification Information	Application Notes
Example:	L1 finishes include: 114 - Folkstone Grey 117 - Soft Grey 118 - Bright White 119 - Pumice L2 finishes include all other standard Knoll core laminate finishes. Painted steel top include top trim panel to provide a smooth appearance to the underside of the top. Tops for 42" - 78" high units are not routed to work with locking drawer kits and are not to be used on units 28" and shorter.	Tops for 42"h to 78"h units are available in 1 1/16" thickness to match standard shelf thickness. Full top widths are computed by taking the nominal full width of single or connected units and subtracting 1" for each mid panel utilized. Due to the large number of unit combinations possible, only the most common sizes are available as standard product. 72P top is a nominal 71"w top specifically designed for use with the 72"w upper shelf kits. It will not work with any other 72"w combination. 60P top is a nominal 59"w top specifically designed for use above 60"w upper shelf kits. It will not work with any other 60"w combination.
		Steel tops include finished top insert panel. Steel top sizes correspond to the following size configurations only: 47"= two 24" sections 53"= one 24" and one 30" section 59"= two 30" sections 65"= one 30" and one 36" section 70"= three 24" sections 71"= one 24" and one 48" section 72"= for 72"w pre-configured only 77"= one 30" and one 48" section 82"= one 24" and two 30" sections 83"= one 36" and one 48" section

Order Code	Specification Information	Application Notes
Example:	L1 finishes include:	Tops for 42"h to 78"h units are available in 1 1/16" thickness to match standard shelf thickness.
	114 - Folkstone Grey	
	117 - Soft Grey	
	118 - Bright White	
	119 - Pumice	End and mid position tops are designed to cover single Template section widths occurring at either the end or middle of a run.
	L2 finishes include all other standard Knoll core laminate finishes.	End position tops are actual width minus 1/2" to butt up against a mid position top or another end position top.
	Painted steel tops include top trim panel to provide a smooth appearance to the underside of the top.	Mid position tops are actual width minus 1" to butt up against adjacent end/mid position tops.
	Tops for 42" - 78" high units are not routed to work with locking drawer kits and are not to be used on units 28" and shorter.	72P top is a nominal 71"w top specifically designed for use with the 72"w upper shelf kits. It will not work with any other 72"w combination.
		60P top is a nominal 59"w top specifically designed for use above 60"w upper shelf kits. It will not work with any other 60"w combination.

Specification Information

Add a "GL" (left grommet position) or "GR" (right grommet position) plus \$40 list to any width 28"h painted back for access to a corresponding below worksurface knockout in adjacent end or mid panel.

Application Notes

Full backs cover sections from the base to the underside of a top.

22"h and 28"h full back kits are also utilized under worksurface shelves when there is either a reversal or pass-through above credenza or worksurface height.

15"w full backs are only available on units 57"h to 71"h.

Back grommets for 28"h painted backs designed to be used with worksurface mounted electrical components listed on pages 97-99.

Order Code	Specification Information	Application Notes
Example:	Specify a paint color for the metal portion of the back which is visible from the inside of the unit and a fabric for the fabric insert on the back side.	Full backs cover sections from the base to the underside of a top. 22"h and 28"h full back kits are also utilized under worksurface shelves when there is either a reversal or pass-through above credenza or worksurface height. 15"w full backs are only available on units 57"h to 71"h. Fabric backs consist of two pieces; an inset metal back that is visible from the inside of the unit and a 1/2" thick fabric insert that mounts to the back side of the metal back. 71"h and 78"h backs are segmented due to their size. Pattern number includes two back sections; one bottom position back approximately 15"h to line up with the top of a bottom file drawer and one top position back to cover the remaining height.

Order Code	Specification Information	Applicaition Notes
Example:		

Lower back covers a section from the base to a shelf height positioned to match either a 15"h or 20"h standard top position storage opening or pass-through.

Lower back includes a spacer bar that fills the step created where the back meets a standard shelf.

Lower backs are not offered in 22" or 28" heights as a full back is always utilized at those heights. The flush nature of the worksurface shelf utilized at those heights negates the need for a lower back with spacer.

	72"		15"	BB1UBK1572F	*	*	*	*

Order Code	Specification Information	Application Notes
Example:	Specify a paint color for the metal portion of the back which is visible from the inside of the unit and a fabric for the fabric insert on the back side.	Upper back covers a section from the top to the underside of a shelf or worksurface shelf. 15"h and 20"h upper backs are designed to work with corresponding storage doors. All other heights are designed to create units with reversal at worksurface or credenza height as noted.
		60"w and 72"w upper back kits are required with all 60"w and 72"w upper shelf kits. *72"w fabric backs need to be quoted as special product due to railroading of fabric.

Example:

Specification Information

Specify a paint color for the metal portion of the back which is visible from the inside of the unit and a fabric for the fabric insert on the back side.

Application Notes

Mid back covers a standard shelf down to the underside of either a worksurface or credenza height worksurface shelf.

57"h mid back only available for use with 15"h upper storage or pass-through.

78"h mid back only available for use with 20" upper storage or pass-through.

*72"w fabric backs need to be quoted as special product due to railroading of fabric.

12"h mid back is for use directly under worksurface height only.

Order Code	Specification Information	Application Notes
Example: 	Fabric inside back inserts only work with painted or fabric backs of the same type and size.	Inside back insert kits include fabric insert(s) that may be placed on the interior of a back matching the type and size of the insert specified. Inside back inserts do not work on the outside of either painted or fabric backs.
		71"h and 78"h inside back insert kit includes two inserts to match the segmented back in those heights.

Order Code	Specification Information	Application Notes
Example:	Drawer fronts are available in standard paint or V1 finishes.	Drawer kits may only be placed under worksurface height (credenza height for box/file kit).
	To specify locking drawers, replace the "N" in the pattern number with an "L" and add \$40 to the list price. Lock location is centered horizontally.	Veneer grain direction is vertical on all drawer fronts.
	Drawer kits include assembled drawer bodies with fronts, pull kit and side assembly kit.	All drawer kits include safety cable that allows only one drawer to be opened at one time.
	Lock housings are available in either black (B) or chrome (CH). If ordering key-alike, remember to order cores in a matching finish.	Drawer kits must always be positioned under a work surface shelf.

Order Code	Specification Information	Application Notes
Example:	Door fronts are available in standard paint or V1 finishes.	15"w, 18"w and 24"w door kits come as single door kits.
	Hinge door kits include door(s), pull kit and hinge kit.	Door hand for 15"w, 18"w and 24"w determined by hinge location.
	To specify locking doors, replace the "N" in the pattern number with an "L" and add \$20 to the list price.	28"h and taller hinge door kits are designed to fit in an opening from the top of a base to the underside of a top or worksurface shelf.
	Lock housings are available in either black (B) or chrome (CH). If ordering key-alike, remember to order cores in a matching finish.	15"h and 20"h hinge door kits are designed to be positioned at the top of a cabinet opening to function as an overhead unit.

Veneer grain direction is vertical on all hinge doors.

Shelves must be ordered separately.

Order Code	Specification Information	Application Notes
Example:	Hybrid fronts are available in standard paint or V1 finishes.	Hybrid kits with sliding doors may only be utilized in sections matching the height of the hybrid kit.
	Doors and drawers are available in the same finish only when specifying steel sliding doors.	Veneer grain direction is vertical on all door and drawer fronts.
	Hybrid kit includes steel shelf for placement above drawers.	
	Lock housings are available in either black (B) or chrome (CH). If ordering key-alike, remember to order cores in a matching finish.

	48"	13"	1 1/13"	BC1CSH48	240.	264.	275.

Order Code	Specification Information	Application Notes	
Example:	Coat Rod Shelf includes shelf brackets in matching paint finish.	Coat rod shelf provides a front-to-back coat rod for use with standard coat hangers (not included).	Coat rod shelves are non-handed and non-sided and may be accessed from either side of the cabinet.
	Coat rod is painted black.	24" w, 30" w and 36" w shelves include a single, centered coat rod. 42" w and 48" w shelves include two coat rods positioned in from the end or mid panel at an equal distance.	
		Each coat rod provides 12" of hanging depth.	

Worksurface Shelves

single and double sided

	72"	15"	1 1/4"	BC1WSHK272(L/V)	288.	382.	422.	478.	632.

Order Code	Specification Information	Application Notes
Example:	Worksurface shelves are available in laminate or veneer only and ship with a pair of black brackets for placement at either worksurface height or credenza height.	Worksurface shelves are 1 1/4" thick to match thickness of standard Template or matching system worksurfaces.
	L1 laminate colors include: 114-Folkstone Grey 117-Soft Grey 118-Bright White 119-Pumice	Worksurface shelf must be utilized when supporting a perpendicular worksurface utilizing a credenza spacer.
	L2 finishes include all other standard Knoll core laminate finishes.	Worksurface shelf is required for attachment of perpendicular worksurface.

Upper Shelf Kit, 15"h and 20"h, steel for 60"w and 72"w sections

Template

description	w	d	h	pattern no.	P1	P2	P3
15"h upper shelf kit	60"		15"	BC2USK1560(S/L/V)	\$339.	\$373.	\$389.
Includes one steel shelf and one center located steel structural septum	72"		15"	BC2USK1572(S/L/V)	344.	380.	398.

20"h upper shelf kit	60"		20"	BC2USK2060(S/L/V)	514.	564.	590.
Includes two steel shelf and one center located steel structural septum	72"		20"	BC2USK2072(S/L/V)	519.	570.	596.

15"h upper shelf kit, one sided, split width	60"		15"	BC2USK15601(S/L/V)	447.	492.	514.
For use as open bookcase or with one or two half width sliding door or hinged door kits. Includes one steel shelf and one 15"h center located steel structural septum	72"		15"	BC2USK15721(S/L/V)	449.	493.	515.

Order Code	Specification Information	Application Notes
Example: _____ _____ _____ _____ _____		Upper shelf kit must be mated with upper back(s) of the same height and width. Upper shelf kit is required on all 60"w or 72"w openings. Note: 15"h and 20"h sliding door and hinged door kits in 30" and 36" widths being utilized in either one sided or two sided split width applications will still come with a matching width shelf that will not be needed but may still be utilized in another opening matching that width. One Sided, Full Width - Includes a recessed structural septum and is designed to remain open or accept a full width (60"w x 72"w) sliding door kit. Will not accept hinged door kits. Full width matching height back kit must be ordered separately. One Sided, Split Width - Includes a one sided structural septum and is designed to remain open or accept a half width (30"w for 60" kit or 36"w for 72" kit) sliding door or hinge door kit on one or both sides of the septum. Full width matching height back kit must be ordered separately. Two Sided, Split Width - Includes a two sided structural septum and is designed to remain open or accept a half width (30"w for 60" kit or 62"w for 72" kit) sliding door or hinge door kit on one of both sides of the septum on opposite sides of the case opening to create a shared overhead. Two half width (30"w for 60" kit or 36"w for 72" kit) matching height back kits must be ordered separately.

Upper Shelf Kit, 15"h and 20"h, steel for 60"w and 72"w sections

Template

description	w	d	h	pattern no.	P1	P2	P3
20"h upper shelf kit, one sided, split width	60"		20"	BC2USK20601(S/L/V)	\$645.	\$710.	\$742.
For use as open bookcase or with one or two half width sliding door or hinged door kits. Includes one full width steel shelf, two half width steel shelves and one 20"h center located steel structural septum	72"		20"	BC2USK20721(S/L/V)	662.	729.	762.

15"h upper shelf kit, two sided, split width	60"		15"	BC2USK15602(S/L/V)	450.	494.	517.
For use as a shared open bookcase or with one or two half width sliding door or hinged door kits. Includes one steel shelf and one 15"h center located steel structural septum	72"		15"	BC2USK15722(S/L/V)	457.	503.	524.

Order Code	Specification Information	Application Notes
Example:		Upper shelf kit must be mated with upper back(s) of the same height and width.

Desk height knockout cover, package of 10				BE2KC10	78.

Order Code

Application Notes

Example:

Base infeed is designed to feed into an end panel with base infeed knockouts specified. There is room for two base infeeds at each end panel.

Base power transfer block provides four transition points to receive an infeed, a base power jumper or desk-height power module.

Base power duplex block provides four transition points to receive an infeed, a base power jumper or desk-height power module as well as a single base duplex on one or both sides of the block.

NOTE: When utilizing base duplexes, an electrical base with grommets must be ordered to accommodate wire access.

Base power jumper lengths are computed by adding the width of bases you are connecting to and divide by two and then add the full width of any bases that may be in between the ones being connected. If distance between connections exceeds 72", specify a base power block and an additional jumper to obtain the length desired.

Knockout cover is available in all core paint finishes.

Application Notes

Template depth worksurfaces are designed to mount perpendicular to worksurface shelves whose width matches that of the worksurface's depth.

Pedestal depth worksurfaces matches standard system worksurface depths (actual minus 1/2") and may mount to worksurface shelves whose width is a least 6" wider than the depth of the perpendicular worksurface.

Worksurface mounts to a perpendicular worksurface shelf with a flat bracket (ordered separately).

Worksurface will only mount to a perpendicular worksurface shelf.

Order Code

Application Notes

Example:

Credenza spacer supports a worksurface mounted to a credenza height worksurface shelf or to the top of a credenza height unit.

Flat bracket supports worksurface to perpendicular worksurface shelf and must match the depth of the worksurface.

Support leg supports either rectangular or trapezoid shape worksurface.

Worksurface reinforcement straps prevent bowing when no other support is utilized. Match unsupported width to width in pattern number to receive appropriate strap.

Application Information

Example:

Pencil tray works side-to-side in either a box or file drawer or front-to-back in box or file drawers utilizing drawer partitions.

Counterbalance kit must be specified for single width units up to 48"w that utilize a drawer kit and are not already ganged to a wall or another unit.

Worksurface shelf grommet, package of 10, field installed				BC1WSHKGROM10	61.			

Order Code	Application Information	
Example:	Shelf space filler (deep) fills the space at the back of a shelf when utilized with a painted back and no inside inserts.	Slotted shelf partitions are utilized with slotted shelves only to divide space for tab file storage or binder separation/support.
	Shelf space filler (narrow) fills the space at the back of a shelf when utilized with a painted back and inside insert or a fabric back with no inside insert.	Worksurface shelf grommet is field installed to provide additional wire management.
	Shelf space filler works with standard shelves or one sided worksurface shelves only.	Grommet has a 2" diameter cover with 1 1/2" interior access.

LED Task Light

Example: **BL4L17****BL4** Task Light**L** LED**17** Width

Application Information

LED Task Lights:

Includes LED's, power supply with 9-12' cord and mounting hardware. Housings are clear anodized aluminum with white color end-caps.

LED Task Lights:

Power cord is able to attach to either end of fixture.

Notes:

All task lights mount into the recess in the underside of overhead cabinets and shelves at least 6" wider than task light width.

All task lights are TCLP compliant and meet requirements of California Title 20 and Title 24.

Wall Mounting Suggestions

The following information is provided only as a guide, and represents minimum recommendations only. Knoll does not accept responsibility for the attachment of any Knoll product to a Customer's site wall. Wall specification/construction is the responsibility of the Customer and its structural engineer/architect. Failure to properly attach Knoll products to adequate wall structures can lead to property damage and/or personal injury.

You should consult your own structural engineers and/or architects and must not rely on the information provided herein.

It is the responsibility of the Customer and its structural engineers/architects to verify that the permanent structural walls (studs, blocks, solid masonry, etc.) on which the Knoll products are intended to be mounted are designed appropriately to support the product weight, PLUS 3 lbs. per linear inch for each useable shelf length

NOTE: A cabinet's top is considered a "useable shelf" and MUST be included in the calculation of the total load for an overhead cabinet.

It is the responsibility of the Customer and its structural engineer/architects to specify the fasteners and method for attaching the Knoll supplied wall mounting cleat, bracket, frame, etc. to the supporting wall and to confirm that the installers have adhered to these specifications. For all local building standards and codes, and additional requirements (including, but not limited to, seismic conditions) the Customer should always consult local code agencies.

		EXISTING CONSTRUCTION				
	NEW CONSTRUCTION	Cinder Block or Poured Concrete Masonry Wall	Wood Stud Wall, the studs being FULL HEIGHT to the roof/floor above	Wood Stud Wall, the studs being only Ceiling Height	Steel Stud Wall, the studs being FULL HEIGHT to the roof/floor above	Steel Stud Wall, the studs being only Ceiling Height
Stud Specification	Wood studs, grade #2 or better, 3 1/2" minimum width, OR Metal studs, minimum 25 gage thickness, 3 5/8" minimum width	The wall must be a minimum of 6" thick, and must be full height to the roof/ floor structure above	Wood studs must be Grade #2, or better, 3 1/2" minimum width	Wood studs must be Grade #2, or better, 3 1/2" minimum width	Metal studs must be minimum 25 gage thickness, 3 5/8" minimum width	Metal studs must be minimum 25 gage thickness, 3 5/8" minimum width

Selling Policy

This Selling Policy supercedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.	
Terms & Conditions of Sales	Sales by Knoll, Inc. or Knoll North America Corp. ("Seller") of Knoll Product Lines (hereinafter "Products") within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser's assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supercede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.
Ordering Information	All orders must be in writing. The product pattern number(s) contained on Seller's order acknowledgement shall be the final expression of the order.
Order Confirmation	A purchase order is not binding on Seller until Purchaser has received Seller's order confirmation or acknowledgment.
Pricing Policies	List prices are subject to change without notice. List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller's list prices.
Taxes	All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.
Terms of Payment	Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than \$100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice. KnollStudio orders less than \$2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than \$2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment. If, in the judgment of Seller, Purchaser's financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance. Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney's fees and costs.
Changes and Cancellation	Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including "COM" (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.
Freight Prepaid	Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.
Delivery/Freight Charges	Shipments outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin. For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination. Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing. Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser's request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery. Partial shipments may be made and invoiced by Seller.
Claims	All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for any other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability to Purchaser for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.
Seller's Security Interest	Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.
Returns	The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.
Held Orders/Storage	If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.

Selling Policy

Customer's Own Material	A Purchaser who requests a fabric or other surface material not standard to Seller's line of Products ("COM") must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.
Warranty	Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below. Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair). Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts. <i>Product and Period of Warranty</i> <i>Lifetime: Antenna Workspaces, AutoStrada, Calibre, Crinion Open Table, Currents, Dividends Horizon, Morrison, Reff Profiles laminate, Series 2 Storage, Template and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, Lighting, Series 2 Veneer Front Storage, special or custom products, see below)</i> <i>12 Years: Chadwick, Essentials Work Chairs, Generation by Knoll, Life, Moment, MultiGeneration by Knoll, ReGeneration by Knoll, Remix, and Toboggan seating (except seating upholstery, textiles, leathers and finishes, see below).</i> <i>10 Years: Anchor Storage except digital keypad lock, Antenna Workspaces, AutoStrada, Crinion Open Table, Dividends Horizon, Dividends Horizon Satellite Surfaces, Reff Profiles, Template wood components, Series 2 Veneer Front Storage, cascade edge worksurfaces, Wood Casegoods (The Graham Collection) (except wood casegoods upholstered surfaces, see below), Reuter overheads, Reuter vertical storage, KnollExtra Sapper Monitor Arm Collection, Sapper XYZ Monitor Arm, Adjustable keyboard mechanisms and platforms, Communication Boards (except fabric board textiles, see below), Smokador collection (except leathers, see below), and Orchestra Universal Systems Accessories, k. lounge structural components.</i> <i>5 Years: Operational parts, controls, electrical, Lighting (except light ballasts, bulbs and power supply, see below), special or custom product, wood veneer products, Currents handcrank, Interaction Counterforce, KnollStudio, Spark Series seating structural elements, structural elements of all KnollStudio outdoor products including all Richard Schultz designed products, KnollExtra CPU storage and all universal storage drawers and Power Collection, Tone Tables.</i> <i>3 Years: Seating upholstery, textiles, leathers and finishes. Fabric boards textiles and Smokador Collection leathers.</i> <i>2 Years: Anchor Storage digital keypad lock, all other KnollExtra product</i> <i>1 Year: Light ballasts, bulbs and power supply, seating upholstered armpads and soft armpads, wood casegoods upholstered surfaces. KnollStudio, outdoor product finishes, k. lounge upholstery and k. lounge fabric.</i> This warranty does not apply to: • Damage caused by a carrier other than the Seller. • Normal wear and tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products). • COM or other third party materials applied to Products. • Products not installed by or under the auspices of a Knoll Dealer. • Dramatic temperature variations or exposure to unusual conditions. • Changes in surface finishes, including colorfastness due to aging or exposure to light. • Except as specifically noted above, textiles and upholstery supplied by <i>KnollTextiles</i> (consult current <i>KnollTextiles</i> price list for applicable warranty). Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces. THE EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE. The remedies provided above are the Purchaser's sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.
Delay/Force Majeure	Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.
Compliance with Law	PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.
Patents	Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended. The foregoing indemnity does not apply to the following: • Products supplied according to a design other than that of Seller, and which is required by the Purchaser. • Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer. • Any settlements of a suit or proceeding made without Seller's written consent.
Limitations of Liability	SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT. Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.

KnollKey Lock Program

KnollKey Lock Program General Information

Following is the KnollKey lock policy, applicable to all products.

Knoll furniture can be ordered keyed-alike or random keyed. Key-alike and random keying instructions cannot be mixed on any single order. Only one of the two instructions can be used on an individual order. When an order is submitted with mixed (key-alike and random) instructions, Knoll will release the order as key-alike only and lock cores will have to be specified separately.

Key-alike

For the convenience of the user, furniture may be keyed alike at no charge. Write "Key-alike" in the description of your purchase order for any pedestal, overhead, file or other item you wish to have keyed alike.

Using the key-alike instructions, order cores and keys as line items on your purchase order. Do NOT submit a key-alike form. The Knoll East Greenville Lock Center will select key numbers from the standard range of K 001 - K 250. Key numbers will not be repeated unless over 250 sets are ordered. Lock cores keyed-alike will ship separately from the product, ready for field installation.

There is no charge for key-alike orders if placed with the furniture order.

IF THE KEY-ALIKE ORDER IS NOT PLACED AT LEAST TWO WEEKS PRIOR TO THE FURNITURE SHIP DATE, A \$50 HANDLING CHARGE AND AIR FREIGHT CHARGES WILL APPLY.

If product is ordered and shipped random-keyed, additional lock cores for key-alike are billable.

Random-Keying

To specify product keyed-random, write "key-random" in the product description. Random-keyed product is shipped with the lock core factory installed. A shrouded key is included. Random means no effort has been made to match key numbers, or to make them different.

Keys

A Knoll shrouded key is shipped with every lock core. 250 Key numbers are available. For numbers above 250, contact Custom Product Development. Additional keys and key blanks are available. See service parts for more information.

Master Keying

Knoll locks can be controlled by means of a master key. There is no additional per-lock charge for master keying. A letter of approval from the client must accompany orders for master keys.

Installing Lock Cores

Lock cores can be installed or removed in the field by using a change key. Cores must be in the unlocked position to be removed. See service parts for change key pattern number and pricing.

Lock Distribution

All orders for key-alike lock cores/keys are packaged and shipped from the East Greenville Lock Center, regardless of where the pedestals, overhead, or other units are produced. Random keyed product will have cores factory-installed.

How to Specify Key-Alike

Following is an example of how to specify key-alike for a cluster of 10 workstations.

Step 1 - Using the project floorplan, count the number of locks in each workstation.

Step 2 - Count the number of workstations with the same quantity of locks. Group together the workstations with a like number of locks.

5 workstations with 2 locks per station
3 workstations with 4 locks per station
2 workstations with 5 locks per station

Step 3 - For the first group (5 sets of 2 locks), enter the number of workstations in the quantity column.

Qty	Pattern #	Description	Unit List	Ext. List
5				

Step 4 - Then enter the pattern number "KSPEC_ _" and add a suffix for the number of locks for that group (i.e., for 2 locks per station, add the suffix "2"). Up to 30 lock cores are available in a set (i.e., KSPEC 30).

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C

Step 5 - Repeat for other groups.

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C
3	KSPEC 4	Set of 4 cores/keys	N / C	N / C
2	KSPEC 5	Set of 5 cores/keys	N / C	N / C

Your Key instructions are complete.

Knoll will select key numbers for each set from 250 available numbers. Additional key numbers are available through Custom Product Development. **For additions to existing installations, specify desired key numbers in the description.**

Service Parts

Pattern #	Description	List Price
KKEY_ _ _	Shrouded Key Specify key number desired	\$10
KBLANK	Shrouded Key Blank	\$10
KSPECB_ _ _	Retrofit Universal Core/Key Specify key number desired	\$22
KCHANGE	Change Key	\$10
HLKRKMASTER*	Master Key	\$10

*Note: A letter of approval on company letterhead from the client must accompany all orders for master keys.

General Ordering Information

The Products

This guide encompasses all standard products for this product group.

Sizes

Dimensions listed in this guide are indicated as:

H = height

W = width

D = depth

Dia. = diameter

Rad. = radius

Pricing

All prices shown are list.

How to Order

Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item's "designated area" can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:

Knoll, Inc.
1235 Water Street
P.O. Box 157
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll's environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such "green" initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on "About Knoll" and then "Environmental Focus."
