

# Sparrow™ Overview

Perched beside you, Sparrow brightens your workspace. Using the latest LED technology to provide high quality illumination, Sparrow is intuitive and easy to use.

Illuminate your ideas

## Features

Single multi-chip LED technology offers a long-lasting bright pool of light with minimal energy use

Tactile switch with 3-step dimmer so user always knows which level light is set on (30%, 60%, 100%)

Head rotates 360° degrees to provide direct light to the worksurface or ambient light to the room when directed upward

Advanced LED technology allows an elegant profile with a minimal footprint

Stainless steel frame conducts electricity from base to head

Custom lens designed to evenly diffuse light without shadows or glare

Integrated handle allows users to easily position Sparrow

Distinctive fin design dissipates heat so the head stays cool enough to touch

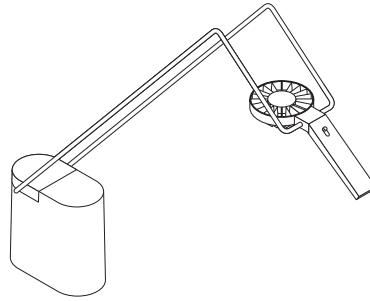

Individual adjustability with 19" of reach

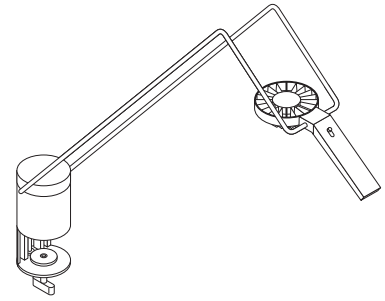

# Sparrow

## Details

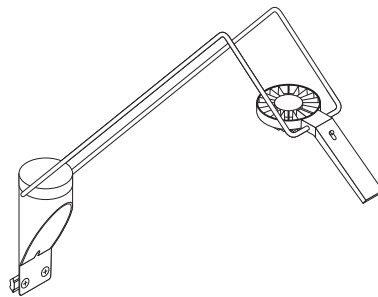

- + Available with 4 mounts: freestanding base, open table clamp, Antenna beam mount and panel table clamp (*Available Q2*)
  - Clamps and Antenna beam side mount rotate 360° at the base
- + Max height: 21.4" clamp, 22.3" Antenna beam mount, 23.2" freestanding
- + 5 years, 24/7 warranty; 1 year warranty on power supply
- + TAA compliant
- + UL certified
- + Available for international applications
- + Optional Universal Occupancy Sensor turns light off when not in use (*Available Q2*)
  - Fits in-line with the light underneath worksurface
  - Can be retrofit
  - Must be ordered separately
  - Also works with Highwire lights

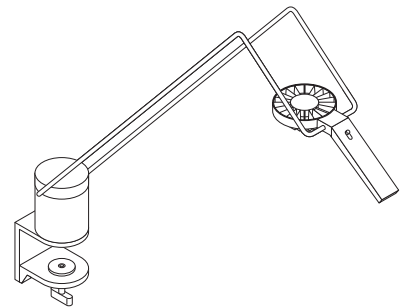

Freestanding base

Open table clamp

Antenna beam side mount

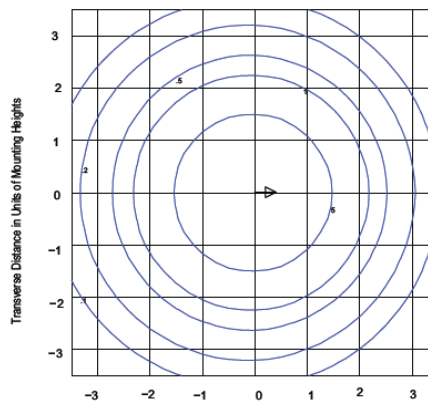

Panel table clamp

## Technical Information

- + Highly efficient single multi-chip LED provides high quality uniform illumination
- + Draw: 9W
- + Output: 483 Lumens
- + Efficacy: 55 Lumens/Watt
- + Color Temperature: 3000 K, 81 CRI
- + Lifespan: 50,000 hours or 20 years of regular use

## Photometric performance: values in footcandles (fc) based on 16" mounting height

## Sustainability

- + Highly efficient, low energy consumption
- + Low material use
- + Mercury free
- + Greenguard certified
- + Pending level® certification
- + Eligible for LEED credits
