Knoll and Sustainable Design

Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company's declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and Chicago Climate Exchange (CCX®).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

1. Global Climate Change

- Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world's most pressing challenges, including environmental change.
- Knoll is a member of the Chicago Climate Exchange, which promotes greenhouse gas reduction through the trading of credits earned for reducing emissions.
- Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

2. Life Cycle Assessment (LCA) Tool

- Life Cycle Assessment is a science-based measurement of a product's environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.
- Knoll has partnered with The Green Standard.org to develop an affordable, universal ISO-compliant computer-based LCA tool that can be used by the entire contract furniture industry and is partnering on the development of an Environmental Product Declaration System (EPDs) for Knoll products. EPDs are verified documents containing LCA results and additional environmental performance information about a product.

3. Setting Industry Standards

- Knoll partners with MTS (The Institue for Market Transformation to Sustainability) to develop the SMaRT© Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT©, is an accredited American National Standards Institute (ANSI) standard developer.
- Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.
- Knoll also participates in an ongoing BIFMA (Business and Institutional Furniture Manufacturers Association) initiative to establish level ™ sustainability standards for the contract furniture industry.
- Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll and sustainable design, visit knoll.com/environment.

GREENGUARD Indoor Air Quality Certified®

All Knoll Office Seating is GREENGUARD Indoor Air Quality® certified and GREENGUARD for Children & Schools℠ certified.

All KnollExtra® products are GREENGUARD Indoor Air Quality® certified.

Visit GREENGUARD.org for more information and to find printable certificates for Knoll Office Seating that can be used for verification and LEED® submission.

GREENGUARD provides the only guide to certified low-emitting interior products and building materials. Its goal is to help building owners and managers, architects, interior designers and product specifiers build and furnish healthier offices, hospitals, schools and homes by providing a register of tested and certified low-emitting products and materials.

GREENGUARD certification is recognized by the U.S. Green Building Council's LEED® Program. Air Quality Science, an independent indoor air quality laboratory, tests products submitted for certification using stringent environmental chamber testing protocols and current indoor air quality standard. Certification is administered by the GREENGUARD Environmental Institute (GEI), an industry-independent, non-profit organization.

GREENGUARD for Children & Schools℠ certification complies with the State of California's Department of Health Services Standard Practice (CA Section 01350) for testing chemical emissions from building products used in schools, offices and other sensitive environments. Certified products can contribute to achieving credits in the CHPS Best Practices Manual for K-12 schools, the LEED® Green Building Rating System, Green Guide for Healthcare™, NAHB Green Building Guidelines, Green Globes, Regreen and numerous other local authorities' green building codes.

Knoll Office Seating and KnollExtra® products can contribute to achieving LEED® credits. GREENGUARD-tested and certified office furniture is required for Credit 4.5 in the LEED-CI Indoor Environmental Quality section.

GREENGUARD Certification Program

- Internationally recognized for evaluating product emissions and certifying building materials, furnishings, finishes and cleaning products and processes that meet stringent indoor air quality criteria defined by GEI.
- Products undergo rigorous, third-party testing to determine their impact on indoor air pollution with requirements for ongoing testing and verification.
- Certification confirms a manufacturer's environmental responsibility, and signifies their environmental achievements through independent, third-party testing and verification.
- GREENGUARD Certified products are recommended by leading sustainable building programs, including:
  - U.S Green Building Council's (USGBC) LEED Rating System,
  - National Association of Home Builders (NAHB) Green Building Guidelines,
  - Green Guide for Health Care (GGHC),
  - Collaborative for High Performance Schools (CHPS) Best Practices Manual,
  - New York City Department of Design and Construction Sustainable Design Specifications, among others.

Placing Your Knoll Office Seating Order

Use the Following Addresses

If you would like to send a standard lead time order to our order entry department, please use the following address:

For North American orders:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attn: Order Entry

Fax: 215 679-1788
Tel: 800 343-KNOLL (5665)

All accepted orders will be confirmed in writing on the Knoll standard order confirmation form.

For More Information

For complete Knoll Selling Policy and warranty information, please refer to page 149 of this price list.

For additional information on Knoll Office Seating, contact your Knoll representative, a Knoll dealer, or telephone Customer Services at 800 343-KNOLL (5665).

Shipping Method

All Generation by Knoll chairs, RPM task chairs, Essentials Work Chairs (EWC Pro, EWC Tech and EWC Sport task and conference versions), and Chadwick task chairs in this price list will ship boxed in two pieces.

If you would like a fully assembled, blanket wrapped Generation by Knoll chair, RPM task chair, Essentials Work Chair (EWC Pro, EWC Tech and EWC Sport task and conference versions), or Chadwick task chair, please consult the Office Seating Standard Specials price list for pattern numbers and associated upcharges.

Office Seating Control Index

Control	Illustration	Description	Application
Weight-Compensated Control with Synchronized Recline		360° swivel; uses body weight in seat as counterbalance for recline resistance, the chair is perfectly adjusted by sitting in it — no adjustment necessary; promotes movement and balance; preference control accommodates a wider range of users.	Life task chairs Generation by Knoll work chairs
Synchronized Spring Tilt Control		360° swivel; back and seat recline in one synchronized movement to support the user's back throughout the recline. As back reclines, the seat drops down slightly, relieving pressure points.	RPM task chairs (basic and advanced controls) Chadwick task chairs (tilt stop and basic controls) Essentials Work Chairs task and conference versions
Advanced Knee-Tilt Control		360° swivel; seat and back tilt at the same ratio at a pivot point under the front edge of the seat.	Sapper task chairs
Swivel Tilt Control		360° swivel; seat and back tilt at the same ratio at a pivot point under the middle of the seat.	Essential Work Chairs task and conference versions

Fabric Application
The application of KnollTextiles fabrics on Knoll Office Seating provides the broadest and most exciting selection of standard fabrics in the contract furniture industry.

Developed in collaboration with leading designers, KnollTextiles upholstery harmonizes pattern, color and texture in the Modernist tradition. Choose from a wide selection of fabrics that are appropriate for corporate, hospitality, and healthcare use, ranging from natural fibers such as wool and cotton, to high performance options like Crypton® fabrics. Visit KnollTextiles.com to search the online database.

Fabrics are grouped into categories referred to as "grades." The selection of approved fabrics varies by chair.

Always check with KnollTextiles for textile changes or new applications on seating.

Visit KnollTextiles.com and click on "Textile Matrices" to find the link to the most up-to-date Seating Approval Matrix.

Performance Upholstery Fabrics
KnollTextiles offers a wide selection of high durability and high performance fabric options. For excellent stain resistance, choose from upholstery products with a Nano-Tex™ finish. For a complete moisture barrier, so that nothing penetrates the fabric into the cushion, you can select from among Crypton® stain, moisture, odor and bacteria resistant fabrics. In addition, there are bleach-cleanable upholstery products, such as vinyl and solution-dyed nylon. Visit KnollTextiles.com and click on "Upholstery" or "Technical Documents" for details.

Nano-Tex™ and Teflon®: Both Nano-Tex and Teflon provide additional performance—spill and stain protection—and come stocked on a number of fabrics. These finishes can also be applied to dozens of KnollTextiles fabrics for an upcharge and additional lead time. For a moisture barrier, we also offer Crypton, Gore and Nano-Tex with DuraBlock.

Crypton®: KnollTextiles stocks over a dozen patterns with Crypton. It has a moisture barrier plus stain, odor and bacteria resistance, to protect the fabric and the cushion.

Gore™ Seating Protection or Nano-Tex with DuraBlock: Gore and Nano-Tex with DuraBlock provide a durable moisture barrier with a soil and stain resistant topical treatment. Even under high pressure, no liquid can travel through the treatment into the cushion. These finish options are not stocked on products, but can be added to many existing KnollTextiles upholstery fabrics for an additional upcharge and lead time.

Environmental Options
KnollTextiles offers dozens of upholstery patterns with recycled content or natural fiber. Included in the line is a selection of 100% recycled upholstery fabrics that have no added backing or finish. Visit KnollTextiles.com and click on "Environmental Fabrics" for details.

California Technical Bulletin 133 (Cal 133)

Cal 133 is a flammability test procedure for seating furniture for use in public occupancies. Testing must be performed on the designated chair and textile together. Component data alone cannot be used to certify compliance with the regulation. Under Cal 133, one cannot assume that seating or textiles that have passed individually will pass together.

Cal 133 (cont.)
Many Knoll Office Seating products can be specified to comply with Cal 133. Applicable upcharge and specification rules are listed on the respective price list page. Chadwick is Cal 133 approved standard. Please refer to the textile matrix for pre-approved Cal 133 upholstery options for the following chairs:

Sapper
Life
Generation by Knoll
(dark finish only)
RPM
Essentials Work Chairs
Bulldog side
(no upholstered outer back)
Moment
Spark Series (with seat pad only)

If any other KnollTextiles fabric or COM is desired, Knoll will test the compliance of the specified fabric on the specified chair. The cost of the test will be the price of the chair in the specified fabric plus $520. The additional fee is to cover the cost of the test. Please see the respective price list page for yardage requirements. The process time for test results is 4-8 weeks. Contact your Knoll customer service representative at 800 343-KNOLL (5665) for further test processing instructions.

Customer's Own Material Seating Process Overview

Knoll is pleased to cooperate with Customer's Own Material (COM) or Customer's Own Leather (COL) selections after they have been approved by Knoll.

Please refer to the table below for COM process overview. See price list pages for specifice chair information. For additional information see Customer's Own Material section in the Selling Policy.

	Pre-Approval				Application Testing		
Seating	Color Specific Testing?	Send to CSR/PM:	Process Time	Application Test Required?	Requires:	Yardage Required for Test	Process Time
Sapper	No	COM Seating Form & Memo Sample	2-3 days	No*	25 chair minimum order OR PO for $300	2	2-3 weeks
Life	No	COM Seating Form & Memo Sample	2-3 days	No*			
Generation by Knoll	No	COM Seating Form & Memo Sample	2-3 days	No*			
RPM	No	COM Seating Form & Memo Sample	2-3 days	Yes	25 chair minimum order OR PO for $300	1.5	2-3 weeks
RPM Side Chair	Yes	COM Seating Form & Memo Sample	2-3 days	Yes	25 chair minimum order OR PO for $300	5	2-3 weeks
Essentials Work Chairs	No	COM Seating Form & Memo Sample	2-3 days	No*		1	2-3 weeks
Bulldog Side Chair	No	COM Seating Form & Memo Sample	2-3 days	No*	25 chair minimum order OR PO for $100	1	2-3 weeks
Moment	No	COM Seating Form & Memo Sample	2-3 days	No*			
Spark Series	No	COM Seating Form & Memo Sample	2-3 days	No*			

***Guideline only — subject to the discretion of the production floor. Sapper requires testing for vinyl. Bulldog requires testing when fabric contains Crypton® or Teflon®.**

Cal 133 COM Process Overview

If COM is desired, the fire barrier must be attached when fabric arrives at Knoll. Intek F187 fire barrier is recommended. Knoll will test the compliance of the specified fabric on the specified chair. The cost of the test will include the price of the chair and COM fabric plus $520. The fee is to cover the cost of the test. Please see respective price list page for yardage requirement. The process time for test results is 4-8 weeks. Contact your Knoll Customer Service Representative at 800-343-KNOLL (5665) for further test processing instructions.

Spinneybeck Leather Application

For the ultimate in comfort, durability, and prestige, many Knoll Office Seating products can be upholstered in Spinneybeck leathers.

Spinneybeck leathers are made from the top 2% of the world's finest hides, inspected numerous times during production.

After tanning, all Spinneybeck leathers are drum-dyed, a time-consuming procedure which ensures color penetration throughout the hide. Then each hide is finished in the manner which will best bring out its individual character.

Spinneybeck leathers are all full-grain aniline drum-dyed products imported from Italy.

The following Spinneybeck leathers are approved for application on Knoll Office Seating products. Leathers are grouped into five price categories referred to as "grades." The selection of approved leathers varies by product. Please refer to the pricing page for each product line for more information.

Square footage requirements for Customer's Own Leather (COL) are listed on each chair's pricing page. Please refer to COM Seating Process Overview for further information regarding COL.

For further information, call Spinneybeck at 1 800 482-7777.

Grades	Characteristics
T	
Vicenza	Finished cowhide, corrected grain that is slightly raised; 20 colorways.
U	
Verona	Finished cowhide, corrected grain and raised texture; 11 colorways.
Volo	Finished cowhide, corrected grain, slightly raised grain texture; 56 colorways.
V	
Acqua	Water-repellent finished cowhide, corrected grain, slightly raised grain texture; 66 colorways.
Andes	Slightly pronounced grain, finished cowhide and enhanced grain; 59 colorways.
España	Smooth, tight grain cowhide; breathable, protective finish, enhanced grain; 75 colorways.
Hand Tipped	Two-toned leather, lightly finished cowhide, pronounced pebble grain texture; 34 colorways.
Maremma	Full grain textured suede with impregnated soil-resistant treatment; 17 colorways.
Velluto Pelle	Slightly pronounced grain, finished cowhide and enhanced grain; 67 colorways.
W	
Alaska	Pearlized-iridescent protective finish cowhide, full grain with smooth texture; 22 colorways.
Amazon	Mid-weight, full grain cowhide; colors of the Amazonian jungle, raised grain texture; 22 colorways.
Antique	Smooth tight grain cowhide, lightly antiqued to produce an elegant patina, enhanced grain; 7 colorways.
Arizona	Full grain, lightly finished kip; ironed for tight, smooth texture, glove-like hand; 42 colorways.
Derby	Combination-tanned cowhide; full grain, lightly finished and raised grain texture; 26 colorways.
Forte	High performance, full grain leather with slightly pronounced grain texture. 81 colorways.
Lucente	Smooth, very tight grain cowhide; subtle sheen; light casein finish; 17 colorways.
Sabrina	Smooth, tight and full grain cowhide with a breathable protective finish; 114 colorways.
X	
Ducale	Embossed shrunken grain cowhide with protective finish, full grain; 13 colorways.
Ducale Velour	Full grain-sueded cowhide, embossed shrunken grain, scotch-guarded; 36 colorways.
Y	
Capri	Chrome-free, light protective finish, full grain cowhide; 10 colorways.
Cervo	Full aniline, cowhide, pronounced grain texture, extremely soft and supple hand, 13 colorways.
Copenhagen	Full aniline, 100% vegetable tanned leather, full grain; 14 colorways.
Cordovan	Aniline-dyed cowhide, light waxy finish, supple hand, full grain; 18 colorways.
Distressed	Aniline-dyed, paraffin wax final ironing process with a smooth finish, and full grain; 4 colorways.
Marissa	Grain-sueded cowhide, smooth suede grain with soil resistant treatment; 19 colorways.
Portofino	Full grain, lightly finished cowhide with a pronounced raised texture; 21 colorways.
Prima	Full aniline, special oils provide a very elegant and supple hand; 8 colorways.
Riva	Slightly pronounced grain texture, water-repellent, full grain; 16 colorways.
Saddle	Full aniline, smooth very tight grain surface takes on a rich patina over time; 23 colorways.
Salon	Full aniline cowhide, ironing process provides a lustrous sheen of traditional leathers; 8 colorways.

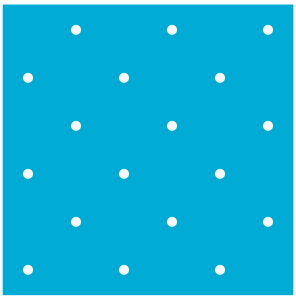
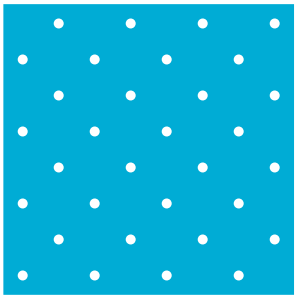
Spinneybeck Perforated Leather

Any of our leather grades may be perforated with any of the patterns shown below to create a crisp, contemporary look.

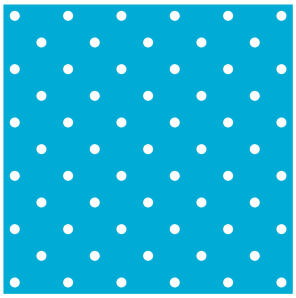
Perforated Leather is a specialty product, available only on a custom order basis. Please use pattern numbers below.
Perforated Leather is available in half hides only. Not recommended on outside back applications (e.g. Bulldog)



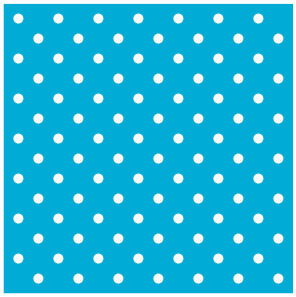
Pattern #265
.052 in. diameter
diagonal pattern
8 holes per square inch



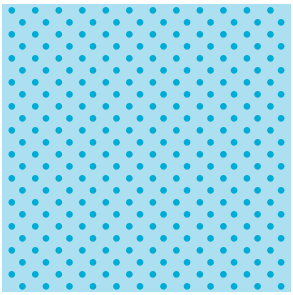
Pattern #330
.052 in. diameter
diagonal pattern
12 holes per square inch



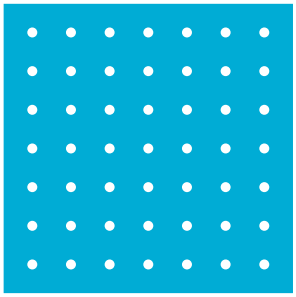
Pattern #457
.052 in. diameter
diagonal pattern
21 holes per square inch



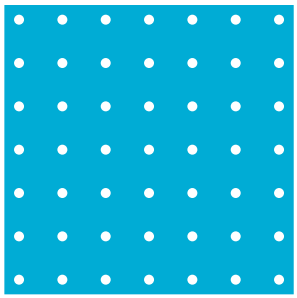
Pattern #914
Mini Perf
.052 in. diameter
straight line pattern
70 holes per square inch



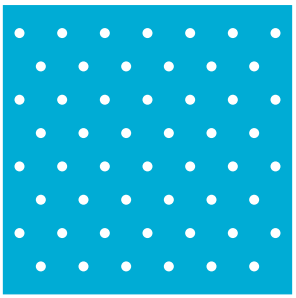
Pattern #528
Emossed Micro Perf
.050 in. diameter
staggered pattern
75 holes per square inch



Pattern #1875
.052 in. diameter
diagonal pattern
25 holes per square inch

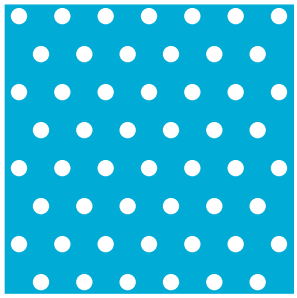


Pattern #0250S
.052 in. diameter
straight line pattern
16 holes per square inch

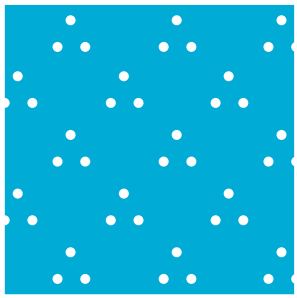


Pattern #560
.052 in. diameter
staggered pattern
22 holes per square inch

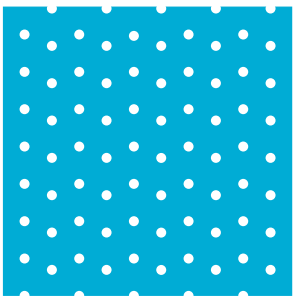
Pattern #280 *
.052 in. diameter
staggered pattern
7 holes per square inch



Pattern #560-85
.085 in. diameter
staggered pattern
20 holes per square inch



Pattern Tri-Star
Multiple Diamond
.052 in. diameter
staggered pattern
18 holes per square inch



Pattern #1250
.052 in. diameter
staggered pattern
35 holes per square inch

* Not available on Bulldog Side Chair or RPM

Sapper™
executive chair

Designer(s):
Richard Sapper, 1979

Award(s):
IBD Product Design Award, 1985

arm	description	pattern no.
Cantilevered	Advanced knee-tilt control, no lumbar, pneumatic seat height adjustment	**45A3-A5G-H**
Armless	Pneumatic seat height adjustment	**45C3-A5G-H**

Order Code

Example:	**45A3-A5G-H-VO947**
45A3	Sapper executive armchair
A5G	Advanced knee-tilt control with pneumatic seat height adjustment
H	2″ dual, hooded hard-wheel casters
VO947	Volo/Coffee Bean
Example for Cal 133:	
45A3-A5G-H-C-VO947	

Ordering Information

Specify:

1. Pattern number
2. Upholstery selection with color

List prices shown include fabric or leather upholstery. Contact your Knoll representative for colors.

COM/COL ordering information:
For Customer's Own Material/Leather, see approval requirements, important processing instructions and full ordering information in the Fabric Application and Selling Policy sections of the Price List.

When specifying suede and shrunken cowhide, add 10% to the leather square footage requirement. When specifying calf-skin, add 15% to the leather square footage requirement.

Options

Code:	*Upchg:*	*Description:*
L	$247	Height-adjustable lumbar (5″ range) (substitute L for G)
C	$145	CAL 133 upholstery (add C to end)
R	$50	Soft caster for hardwood floors (substitute R for H)

Construction

Finish color:
Black

Internal construction:
Steel perimeter frame. Elastic webbed straps suspended between seat frame. Steel internal back support structure.

Upholstery:
High resilient, variable density molded urethane foam. Polyester batting with quilted, horizontally stitched cover. Standard upholstered back.

Standard cantilevered arms:
Integrally colored, textured, self-skinning polyurethane over steel insert.

Sapper™ Dimensions and Operating Instructions

Seat*

	Executive (Pneumatic)	Manager (Pneumatic)
Seat Height	17" - 20.5"	17" - 20.5"
Seat Depth	18"	18"
Seat Width	22.5"	20.5 "
Seat Pan Angle	6.5°	6.5°
Seat Back/Seat Pan Angle	95°	95°

Back*

Seat Back Width	22.5"	22.5"
Lumbar Support Height	8"	8"
Lumbar Support Width	16.5"	16.5"
Lumbar Support Center	7.5"	7.5"

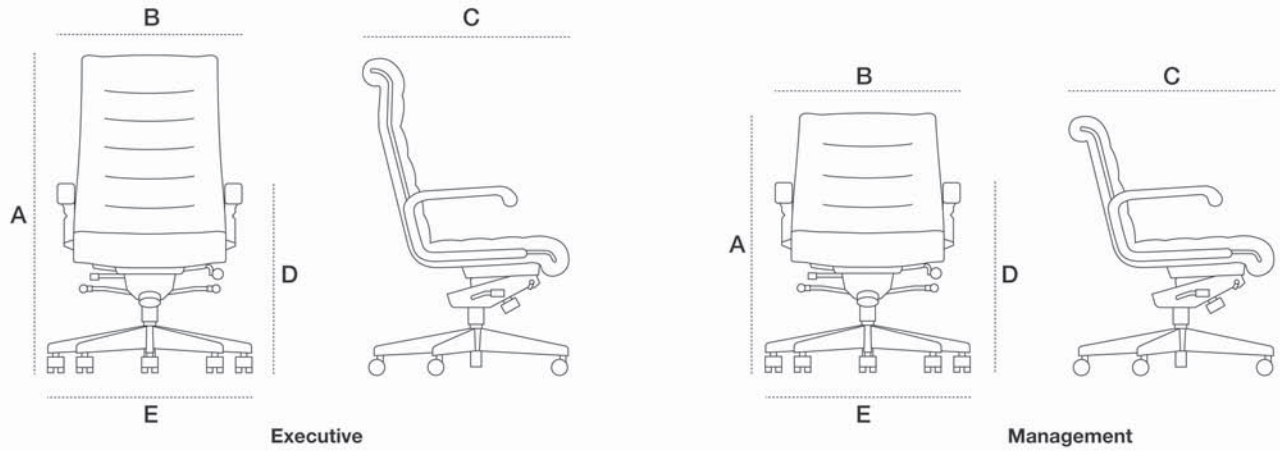
Arms*

Width Between Armrests	22.5" minimum	20.5"

* All measurements taken with BIFMA Chair Measuring Device using the Universal Measurement Procedure which has a measurement uncertainty of ± 5%

Sapper Chair Measurements

	Executive (Pneumatic)	Manager (Pneumatic)
A. Overall Height	40.75" - 43.875"	33 75" - 37.25"
B. Overall Width	26.75"	24.75"
C. Overall Depth	28.75"	28"
D. Arm Height from Floor	23.5" - 27"	23.5" - 27"
E. Base dimensions	28" diameter	28" diameter
Weight with arms	55.5 lbs.	51 lbs.

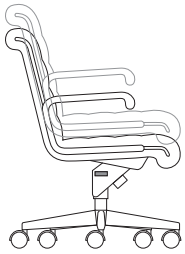


Sapper - Additional Information

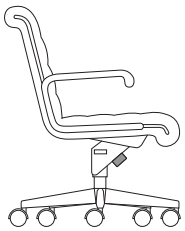
Compliancy: ANSI/BIFMA X5.1 : 1993 (U.S. structural standard), California T.B. 117 (U.S. flammability standard for urethane foam), California T.B. 133 with approved FR textile (U.S. flammability standard for full chair),

The Sapper chair line has been tested and is approved for use by individuals weighing up to 300 pounds.

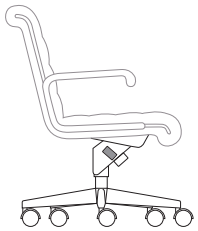
Sapper™ Operating Instructions



Pneumatic Seat Height Adjustment
To adjust the height, lift the handle on the right side of the seat.

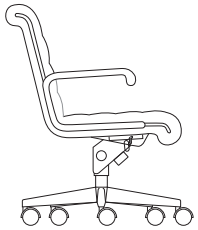


Tension Adjustment
Lean back and recline. If tension needs adjusting, reach under the front-center of the seat and increase tension by turning the knob to the left, or decrease tension by turning the knob to the right.



Tilt Lock
To lock the chair upright, push down on the handle under the left side of the chair. Pull up to release.

Forward Tilt
Reach under the right side of the chair toward the front and twist the lever to the front while slightly reclining to activate forward tilt.
To deactivate forward tilt, recline slightly and twist the lever to the rear.



Adjustable Lumbar Support
(optional)
To raise the lumbar support, slide the curved lever on the left side of the chair toward the rear of the chair. To lower the lumbar, slide the lever toward the front edge of the chair.

Life®
plastic base, knitted seat topper, no back topper

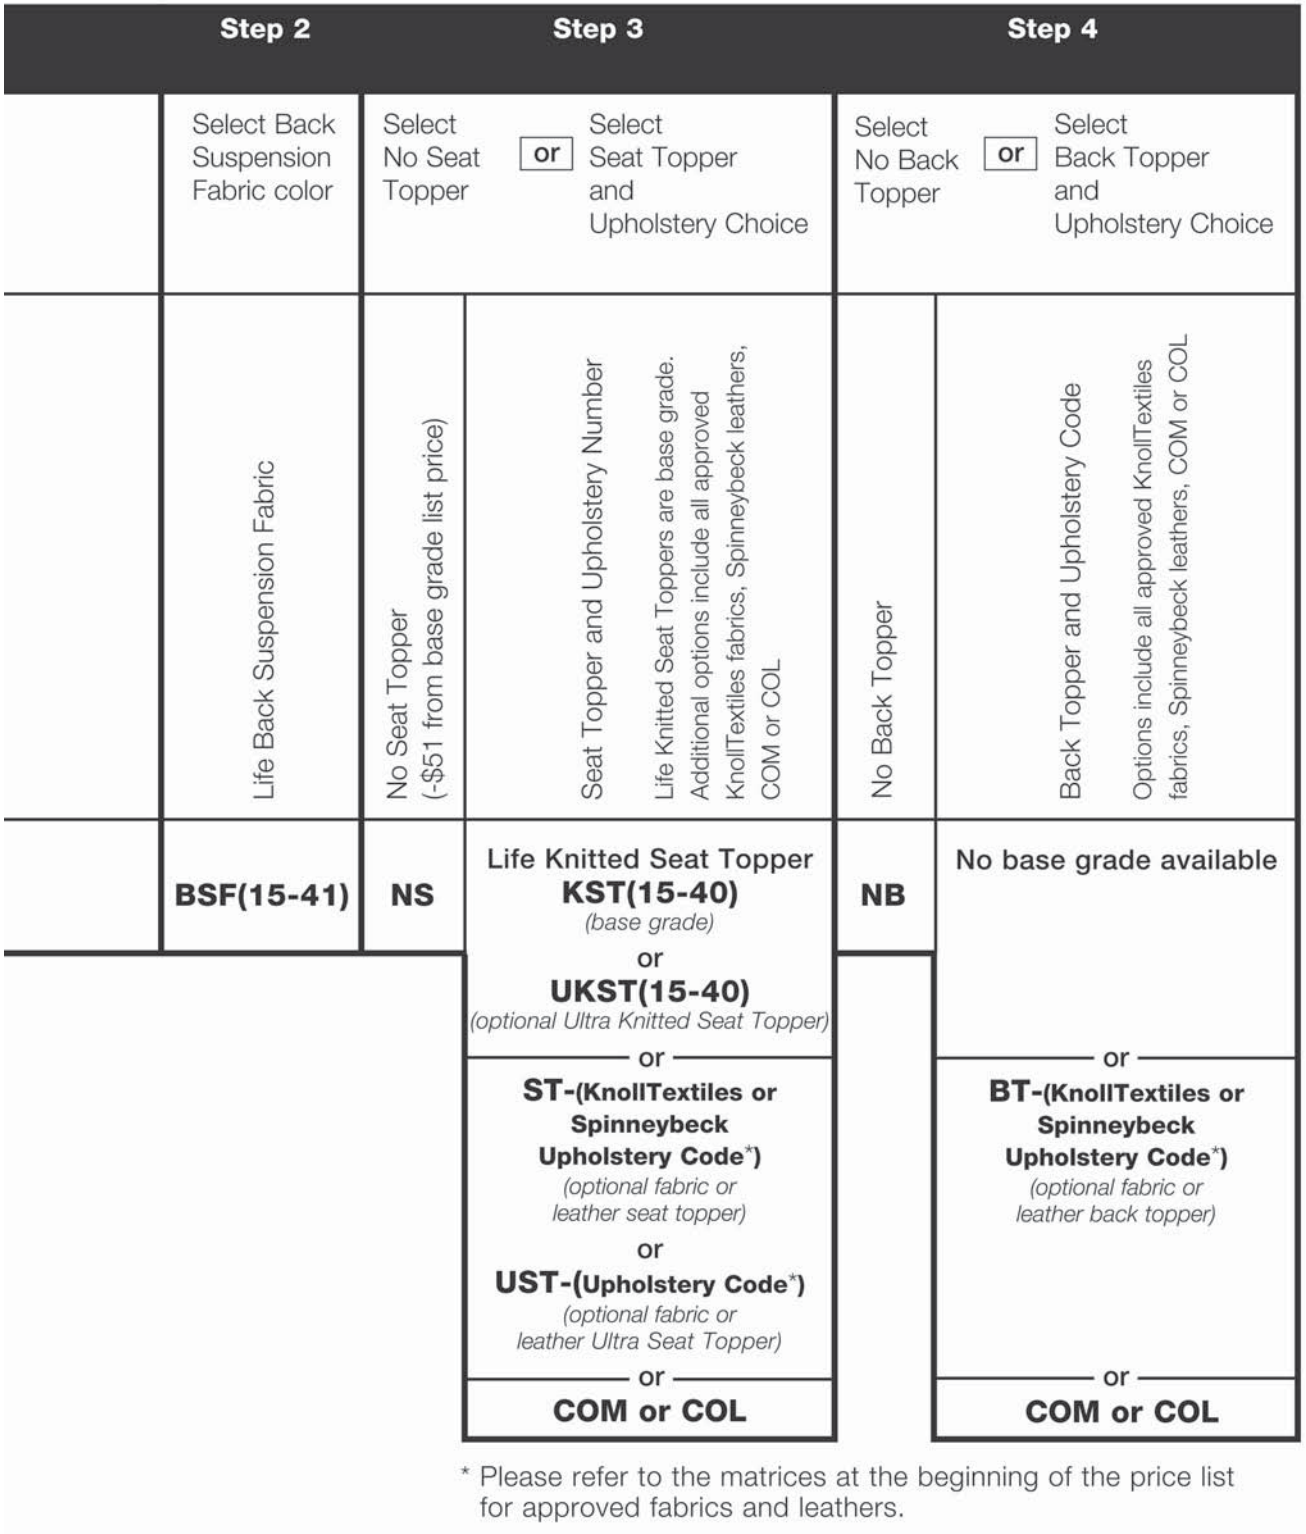
55H-3-4-A5K-CH-BSF22-KST19-NB
(*Life with aluminum base and knitted seat topper, no back topper*)
Life / Height Adjustable Arms / Polished Aluminum Base / No Lumbar /
Clear Hard Caster / Life Back Suspension Fabric-Grain /
Life Knitted Seat Topper / No Back Topper



* Please refer to the matrices at the beginning of the price list for approved fabrics and leathers.

Life® Upholstery Options and Construction Information

Back Suspension Fabric with No Seat Topper
Life Back Suspension Fabric (BSF) is required for every chair and comes in 14 updated colors including warm and cool neutrals and vibrant, saturated colors.

Back Suspension Fabric with Upholstered Seat Topper
You may choose to add a seat topper. In addition to a wide range of approved KnollTextiles fabrics and Spinneybeck leathers, an exclusive Life Knitted Seat Topper (KST) is available in a palette to match the Life BSF. Life KST is base grade and included in the basic model pricing.

Back Suspension Fabric with Upholstered Seat and Back Toppers
Change the look of Life by adding an upholstered back topper. A wide range of approved KnollTextiles fabrics and Spinneybeck leathers are available as back toppers. Life KST is not available as a back topper. There is no base grade back topper.

To view fabrics online, refer to the Knoll Surface Finish Library on knoll.com (go to the top menu bar and click on ''Resources'' and click on ''Surface Finish Library'').

Construction

COM/COL Approval Procedure
Prior to order placement a sample* of the actual COM/COL must be submitted to Knoll East Greenville, with completed Knoll COM/COL Approval Request Form. Even after such preliminary approval, Knoll reserves the right to reject COM, including, if necessary, the item intended for use with COM, if Knoll considers the customer-supplied material inadequate for any reason. When specifying suede and shrunken cowhide, add 10% to the square footage requirement. When specifying calfskin, add 15% to the square footage requirement.
COM is graded at Life KST base grade and COL is grade U.

*Sample Requirement: 8″ x 8″ minimum memo sample if solid; if COM has a repeat, the sample must be large enough to show the repeat.

Call Customer Service at 800-343-5665 to obtain a copy of the COM/COL Approval Request Form.

Cleaning Note:
Life BSF is cleaning code W, meaning water-based cleaning agents or foam may be used.

Life KST is cleaning code W-S, meaning water-based cleaning agents and foam or mild water-free solvents may be used.

See KnollTextiles Price List for further details on cleaning codes.

Back:
Glass filled nylon frame. Polyester multi-filament yarn with co-polymer polyester elastomeric knit back suspension fabric.

Upholstery toppers:
MDI polyurethane foam material
¾″ foam - back thickness
1¾″ foam - seat thickness
2¼″ foam - ultra seat thickness

Flexing Seatpad:
Glass filled nylon seat structure.

Fixed Plastic Arms:
Grey plastic armpost with soft integrally colored thermoplastic urethane pad and glass filled nylon foam insert.

Fixed Aluminum Arms:
Aluminum armpost with soft integrally colored thermoplastic urethane pad and glass filled nylon foam insert.

Height Adjustable and High Performance Arms:
Aluminum armpost with soft integrally colored thermoplastic urethane pad and glass filled nylon foam insert.

Black and Grey Plastic Base:
Glass filled nylon.

Polished and painted matte aluminum base:
Aluminum

Optional Lumbar:
Slow recovery urethane foam with KnollTextiles Vibe fabric cover. Attaches with neodymium magnets in TPU back frame.

Casters:
Nylon 6 hard caster.
Nylon 6 soft caster with urethane overmolding.

Visual impression and scale:
Doesn't dominate the look of the work environment, it complements it. Translucent back, sculpted mechanism and thin profile integrate Life into the landscape. Generous scale and features accommodate all size users.

Synchronized recline with auto-balanced tension:
Utilizes user's body weight for resistance and recline. Allows for constant sightline — no need to refocus. Promotes movement and balance. Preference control accommodates a wider range of users.

Dynamic seat pan with forward flex:
Unique cut-out pattern with ribbed understructure provides dynamic movement and structural stability. Cradles and accommodates ischials (sit bones) without pressure points. Automatic flex responds to user's every move. Flex front automatically supports perching and enables a balanced posture.
Flex front includes waterfall edge (gradual radius at the front edge that does not cause pressure under the knee). Ribs prevent "hammocking" or sagging and allow for easier movement.

Back flex:
The back frame is also a flexible plane like the seat that moves with you as you recline in the chair.

Life Back Suspension Fabric (BSF):
Exclusive elastomeric knit has built in lumbar support and is available in 14 color options. Has a soft feel that is not harsh to skin or clothing.

Arms:
Soft armpads alleviate pressure points. Types available: fixed, height adjustable, high performance (includes height adjustment and armpad positioning). Retrofittable or changeable.

High performance arms:
One-hand operation. Armposts are set toward the rear of the seat for a better fit. Soft armpads float in an orbital motion with locked stops. A great deal of adjustment in a surprisingly slim package.

Optional lumbar attachment:
Made of slow recovery foam, it magnetically attaches anywhere on the Life Back Suspension Fabric (BSF), and is covered in Vibe by KnollTextiles.

Low profile base and casters:
Feet can rest on the base comfortably. Low profile enables easier foot movement. Caster ribs absorb energy, flex and spread the static load for easier rolling.

Controls:
Adjustable from the seated position. Easy, obvious and labeled. Automated where possible.

Environmental:
SMaRT© Sustainable Gold certified.
Life was the first product in the industry to be SMaRT© certified. SMaRT© Consensus Sustainable Product Standard is a comprehensive, transparent, sustainable product standard that measures a product's environmental, economic and social benefits over its life and throughout its global supply chain, from raw materials through reclamation or re-use. Life can contribute to achieving a LEED® Innovation in Design Credit.

GREENGUARD® certified.
Life is GREENGUARD Indoor Air Quality® and GREENGUARD for Chilren & Schools℠ certified and can contribute to achieving LEED® credits.

Durability:
10 year, 24-hour, 7 days a week, multi-shift warranty, including Life Back Suspension Fabric. See details in the Selling Policy at the end of the Price List.

Life Awards:
Good Design Award, Chicago Athenaeum, 2003, USA

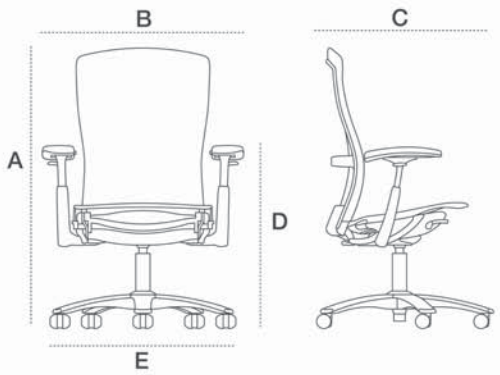
B. Overall Width	26.5"
C. Overall Depth	24.5"
D. Arm Height from Floor	25" - 30" (fixed arm) 22" - 31.5" (height adjustable) 22" - 31.5" (high performance)
E. Base Diameter	26"
Weight	36.5 lbs. (plastic base, high performance arms, seat topper) 38 lbs. (aluminum base, high performance arms, seat topper)

**Standard cylinder



Life - Additional Information

Synchronized recline ratio seat : back is 1° : 4.8°

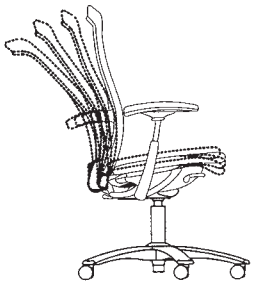
High performance arms adjust 2.5" in armpad width (1.25" per side) and 3" armpad fore/aft movement

Optional lumbar measures 11.5" x 5.5"

Compliancy: ANSI/BIFMA X5.1 : 2002 except front stability - ANSI/BIFMA X5.1 : 1993 (U.S. structural standards), BIFMA G1 : 2002 (U.S. ergonomic guidelines), California T.B. 117 (U.S. flammability standard for foam), California T.B. 133 with approved FR textile (U.S. flammability standard for full chair), CAN/CGSB 44.232-2008, BS 5459.2 : 2000 (European structural standard), EN 1335-1 : 2000 (European ergonomic standard), AS/NZS 4438 : 1997 Level 6 (Australia, New Zealand ergonomic standard)

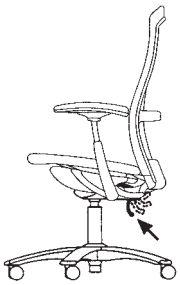
The Life chair has been tested and is approved for use by individuals weighing up to 300 pounds.

Life® Operating Instructions

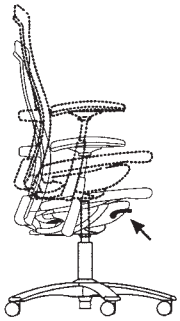


Standard Features:

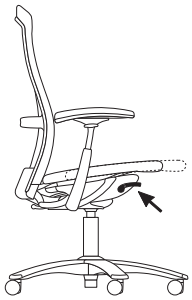
Synchronized recline with auto-balanced tension
No need to adjust tension. Automatic recline tension counter-balances your body weight, resulting in perfect balance as you recline.



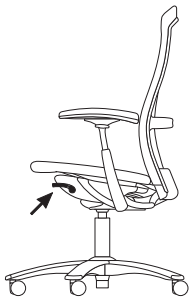
Tension preference selector
To perfect the tension adjust the preference lever located at the back left of the chair while in the upright position.



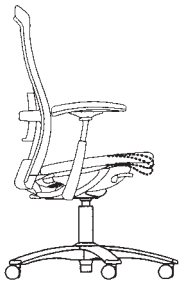
Seat height adjustment
To raise or lower the height, lift the lever on the right side of the chair and adjust to the proper height.



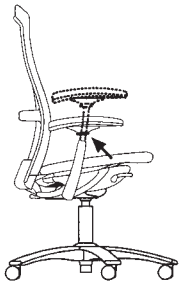
Sliding seat depth adjustment
Using the same lever as the seat height, push down to slide the seat within the 4″ seat depth range. Release the lever to lock the seat into position.



Upright tilt lock
To lock the seat in an upright position, push down the lever located on the left side of seat. Lift lever to unlock.



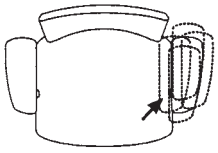
Forward seat flex
No knobs or levers needed. Lean forward or perch toward the edge of the seat and Life's seat pan automatically adjusts to support your position.



Arm Options:

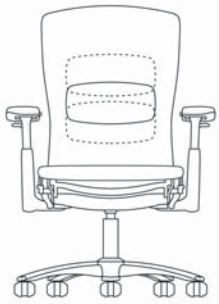
Fixed arms:
Non-adjustable.

Height Adjustable Arms:
Lift the lever on the outside of the armpad to adjust arm height.



High Performance Arms:
Lift the lever on the outside of the armpad to adjust arm height.

The armpads adjust in an orbital motion and lock into a fixed position by pressing the button on the inside of the pad. The armpads can be positioned to the front or back and in width.



Lumbar Options:

Height Adjustable Lumbar
The lumbar support is held on to the chair with magnets for easy installation and a maximum range of adjustability.

To install the lumbar, separate the halves of the magnetic lumbar and place it in the desired position on your chair. Secure it by putting both halves back together around the back supension fabric on the chair.

Adjust the lumbar by sliding the lumbar pad up and down the back of the chair.

Note: Product contains magnets. Consult the lumbar hangtag for more information.

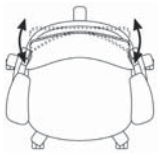
The Generation by Knoll work chair has been tested and is approved for use by individuals weighing up to 300 pounds

Generation by Knoll® Features and Operating Instructions

No Adjustment Necessary



Flex Back

Sit back and the Flex Back supports you and responds to your multidimensional movements.

Flex Top

Simply rest your arms comfortably over the top of the Flex Back.

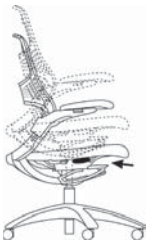
Flex Seat

Sit in any postion–forward or sideways–and the Flex Seat supports you with 270° of seat edge flex.

Dynamic Suspension control

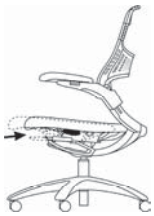
The synchronized recline counterbalances your body weight for a smooth and effortless ride. Four independent flexors act as suspension devices that respond to your multidirectional movements–forward, backward and side-to-side.

Intuitive Adjustments (Standard)



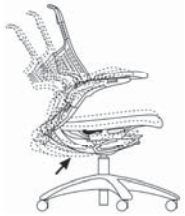
Seat height

Lift the right front lever. Sit down to lower the seat or remove your weight to raise it. Release the lever to lock.



Seat depth

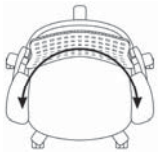
While seated, lift the left lever and slide the seat to the desired position. Release the lever to lock.



Tilt preference selector

Select the degree of recline movement for your preference and your task. Sit fully upright. Rotate the back right lever until it clicks into one of three positions–all the way back for the most movement, in the middle for less, or all the way forward for greater upright support.

Performance Options

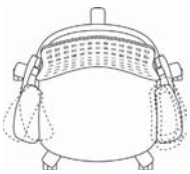


Arm options

Cantilevered arm supports provide seated clearance for your legs and feature Continuous Lumbar, so your back is supported when side sitting.

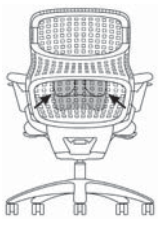
Height adjustable arm

To adjust the height, lift the lever on the arm and lift the arm to disengage. Slide the arm to the desired position and release the lever to lock.



High performance arm

To adjust the height, lift the lever on the arm and lift the arm to disengage. Slide the arm to the desired position and release the lever to lock. Free float arm pads move easily in width and depth, and pivot.



Height adjustable lumbar

Grasp both sides of the lumbar support and slide it to the desired position.

CONSTRUCTION INFORMATION

Flex Back
Integrally colored, high performance elastomer and glass reinforced polyester structure

Fixed, height adjustable and high performance arms
Burnished cast aluminum and integrally colored, glass reinforced nylon supports with integrally colored, self skinning polyurethane arm pads

Flex Seat
High-resiliency molded urethane foam with textile cover and integrally colored, glass reinforced, impact modified nylon structure

Controls
A. Dynamic Suspension control
A solid state construction of integrally colored, high performance elastomer, glass reinforced polyester and cast zinc
B. Tilt preference selector
Integrally colored nylon and acetal; integrally colored, glass reinforced acetal
C. Seat depth adjustment mechanism
Steel plate with integrally colored polypropylene parts

Pneumatic cylinder
Steel

Base
Burnished cast aluminum or integrally colored, glass reinforced nylon; five star design

Hard casters and glides
Integrally colored nylon

Soft casters
Integrally colored nylon over molded with thermoplastic polyurethane

Height adjustable lumbar
Integrally colored, glass reinforced polycarbonate

CLEANING INSTRUCTIONS

Hard surfaces and Flex Back Net General cleaning
Frequent vacuuming or light brushing to remove dust and grime is recommended. Spot clean with a mild upholstery shampoo or the foam from a mild detergent. When using a cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With any method, pretest a small area before proceeding. When an overall soiled conditioned has been reached, use a professional furniture cleaning service or call Knoll Field Service at 800-445-5045 with questions.

Healthcare cleaning
Generation's hard surfaces and Flex Back Net successfully passed third-party testing for the following five cleaning agents commonly used in healthcare facilities:

- Clorox Germicidal Liquid Bleach diluted 1:5 ratio to tap water (pH 3.7)
- Clorox Cleanup undiluted 100% solution (pH 9.7)
- Wex-Cide 128 Concentrate Phenolic Germicide by Wexford Labs diluted 1 ounce to 1 gallon tap water (pH 3.7)
- Formula 880 Quaternary Germicide by Grand Technologies diluted ½ ounce to 1 gallon tap water (pH 8.1)
- Hydroxi Pro Concentrate 128 by Core Products diluted 1:8 ratio to tap water (pH 7.2)

In addition to the testing detailed above, Knoll has conducted internal testing of Virox 5 RTU cleaning solution on Generation structural parts with no adverse affects.

Generation Fabric
Cleaning code W-S: water or solvent based cleaning agent; can be cleaned with low environmental impact cleaning fluids, including GS-37 certified products. See KnollTextiles Price List for further details on cleaning codes.

ENVIRONMENTAL

SMaRT© Sustainable Platinum certified
SMaRT© Consensus Sustainable Product Standard is a comprehensive, transparent sustainable product standard that measures a product's environmental, economic and social benefits over its life cycle and throughout its global supply chain, from raw materials extraction through use, reclamation or re-use. Generation can contribute to achieving a LEED® Innovation in Design credit for its SMaRT© certification.

GREENGUARD certified
Generation is GREENGUARD Indoor Air Quality Certified® and GREENGUARD Children & Schools℠ certified and can contribute to achieving LEED® credits.

WARRANTY

Generation by Knoll is warranted for 10 years, 24-hour, 7 days a week, multi-shift use, including the Flex Back Net, structural and operational parts, controls, casters, pneumatic cylinders and labor to repair; 3 years upholstery and finishes. See Knoll Selling Policy for further details.

Chadwick™
Construction Information
Features and Benefits

Standard Features	Benefits
Active Suspension™ Technology includes: 1. Responsive synchronized control and tilt tension	The synchronized control and tilt tension allow the user's torso to open up, promoting healthy circulation and creating a ride that is characterized by a cradled feeling that keeps the user's back in contact with the chair.
2. Resilient, breathable seat and back suspension fabric	Chadwick Fabric provides inherent, energizing support all day long, conforming to the user's shape and minimizing pressure points. The open weave provides aeration.
Forward Tilt: Mechanism automatically includes forward tilt movement	Chadwick offers automatic support for forward seated positions without requiring any additional adjustments.
Variable Seat Depth: Seat depth automatically expands while reclining in the chair	Fits a multitude of users confortably, no additional adjustments required.
Generous Lumbar Curvature	Chadwick's ample lumbar curvature and conforming back suspension fabric eliminate the need for an additional lumbar mechanism or attachment.
Flexing Arm Pads on Fixed and Adjustable Arms	Suspended design and shape allows the arm pads to flex for additional softness to alleviate pressure points on the wrists.
2 Simple Adjustments: Tension and Seat Height	With so much responsive movement built in, Chadwick only needs two adjustments. They are obvious and simple to operate.

Optional Features	Benefits
Tilt Stop Control	Limits the recline in the upright position to 5 degrees.
Adjustable Arms or Tall Adjustable Arms: both include width adjustment	One finger, ratchet adjustment quickly and easily adjusts. Width adjustment can be accomplished with 5⁄32″ Allen wrench.
Optional Lumbar	Magnetic for easy installation, the lumbar provides a maximum range of adjustability.

To view fabrics online, refer to the Knoll Surface Library at knoll.com (go to the menu bar and click on ''Resources'' and click on ''Surface Finish Library'').

Care:
Frequent vacuuming or light brushing to remove dust and grime is recommended. Spot clean, with a mild upholstery shampoo or the foam from a mild detergent. When using a cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With any method, pretest a small area before proceeding. Use a prefessional furniture cleaning service when an overall soiled conditioned has been reached, or call Knoll Field Service at 800-445-5045 with questions.

Cleaning code
W or **W-S,** meaning water-based cleaning agents and foam or mild, water-free solvents may be used. See KnollTextiles price List for further details on cleaning codes.

Healthcare Cleaning Agents:
Chadwick successfully passed third-party testing for the following five cleaning agents commonly used in healthcare facilities:
- Clorox Germicidal Liquid Bleach diluted 1:5 ratio to tap water (pH 3.7)
- Clorox Cleanup undiluted 100% solution (pH 9.7)
- Wexcide 128 Concentrate Phenolic Germicide by Wexford Labs diluted 1 ounce to 1 gallon tap water (pH 3.7)
- Formula 880 Quarternary Germicide by Grand Technologies diluted ½ ounce to 1 gallon tap water (pH 8.1)
- Hydroxi Pro concentrate 128 by Core Products diluted 1:8 ratio to tap water (pH 7.2)

Environmental:
SMaRT© Sustainable Gold certified.
SMaRT© Consensus Sustainable Product Standard is a comprehensive, transparent, sustainable product standard that measures a product's environmental, economic and social benefits over its life and throughout its global supply chain, from raw materials through reclamation or re-use. Chadwick can contribute to achieving a LEED® Innovation in Design Credit.

Cal 133 approved.

GREENGUARD® certified.
Chadwick is GREENGUARD Indoor Air Quality® and GREENGUARD for Chilren & Schools℠ certified and can contribute to achieving LEED® credits.

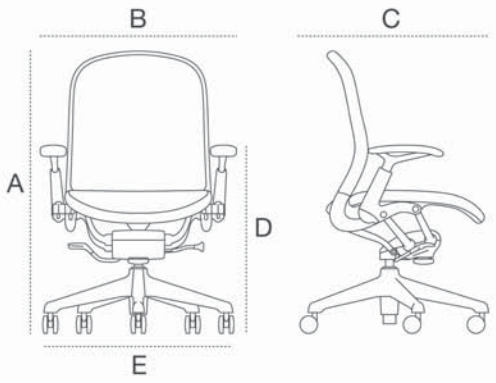
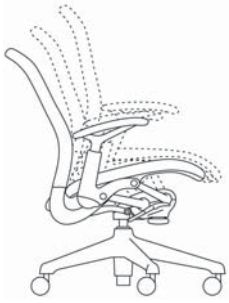
**Standard cylinder

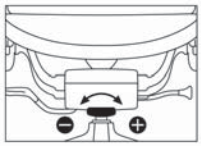


Chadwick - Additional Information

Synchronized recline ratio seat : back is 1° : 1.2°
Adjustable and tall adjustable arms adjust 2" in armpad width (1" per side) with 5/32" Allen wrench
Optional lumbar measures 11.25" x 4.4"
Chadwick High Task footring measures 19.875" in diameter
Chadwick High Task footring adjusts 5" in height by a single lever mechanism with 11 locking positions in 1/2" increments
Compliancy: ANSI/BIFMA X5.1 : 2002 (U.S. structural standard), BIFMA G1 : 2002 (U.S. ergonomic guidelines), California T.B. 117 (U.S. flammability standard for foam), California T.B. 133 (U.S. flammability standard for full chair)
The Chadwick chair line has been tested and is approved for use by individuals weighing up to 300 pounds.

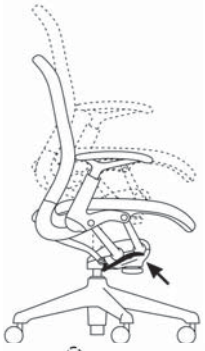
Chadwick™ Operating Instructions



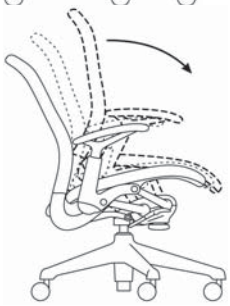


Front View

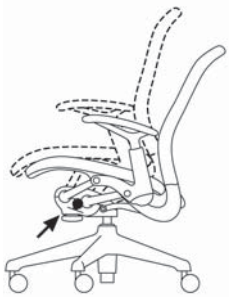
Synchronized Recline with Tilt Tension
Chadwick has a synchronized recline that allows the torso to open up while reclining. To customize the tension of the recline, adjust the tension knob. To decrease the tension, turn the tension knob clockwise (while seated in the chair), and turn it counterclockwise to increase the tension. The underside of the knob also indicates the instructions with arrows.



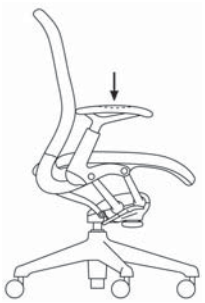
Seat Height Adjustment
To raise the seat height, remove your weight from the chair while lifting the lever on the right side of the chair. To lower the seat height, lift the lever while sitting in the chair.



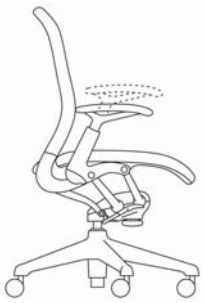
Forward Tilt
Chadwick has a built-in forward tilt that automatically follows and supports the user in the forward posture for typing. No adjustment is required.



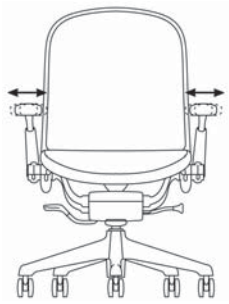
Tilt Stop (Option)
The tilt stop is an upright tilt limiter. When specified, it is the lever on the left side of the chair. If your chair does not have a lever on the left side of the chair, it does not have this feature. The in-and-out lever design operates with an audible click, whereby "out" is engaged, "in" is not engaged.



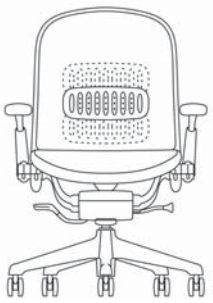
Spring Loaded Arms
Both fixed and adjustable armpads have a spring suspension, which provides the user with armpad softness and flexibility.



Adjustable Arm Height (Option)
The arm height is adjusted by lifting the armpads upward. No lever is required. Simply move the arms up in five, 1/2″ increments for a total of 2 1/2″. To lower the arms, lift them to the highest point and at the highest point pull up firmly; and they will return to the lowest point. The arm height adjustment is easy to maneuver with one hand.



Adjustable Arm Width (Option)
The armpads have a width adjustment of 1/2″ inward or 1/2″ outward for 1″ in total adjustability on each side. A 5/32″ Allen wrench is required to adjust the armpad width.



Adjustable Lumbar (Option)
Chadwick has an adjustable lumbar support, if needed. It is secured to the chair with magnets for easy installation and a maximum range of adjustability.

Separate both halves of the lumbar support and place them in the desired position on your chair. Secure the support by putting both halves together around the back suspension fabric of the chair.

Adjust the lumbar by sliding the lumbar pad up and down the back of the chair.

Note: Contains magnets. Consult the Knoll lumbar support hangtag for more information.

RPM Knits

RPM Knits Speedway and Radial are priced at Grade A for the RPM side chair.

Construction

Outer shell:
Integrally colored, textured polypropylene.

Internal support:
Cold rolled, mild carbon 14-gauge steel J-Bar.

Upholstery:
Integrally colored, textured ABS plastic upholstery liner with molded urethane foam; fabric is permanently bonded to the CFC-free foam.

Frame:
Cold rolled mild carbon 12-gauge steel tube with textured epoxy powder coat paint finish.

Arm caps:
Integrally colored, textured ABS plastic.

Glides:
Black, integrally colored, textured, glass-reinforced nylon.

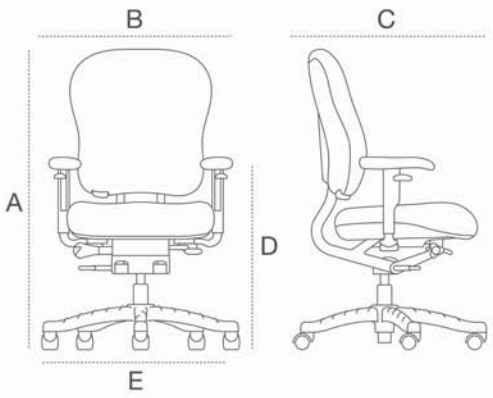
Weight	44 lbs.	51 lbs.	28 lbs.

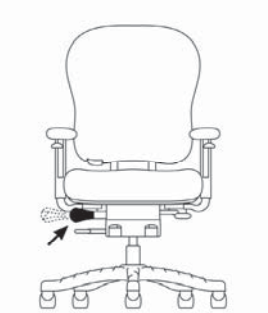
** With arms



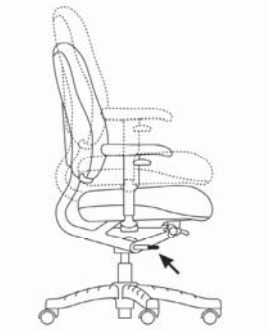
RPM - Additional Information

High performance arm pads pivot 30° (±15°, 3 fixed positions)
RPM High Task footring measures 20" in diameter and adjusts 9" - 18" in height
RPM Side chair seat is 17.75" from the floor; arms are 7.75" from seat; the inside distance between the arms is 19.9"
Compliancy: ANSI/BIFMA X5.1 : 1993 (U.S. structural standard), BIFMA G1 : 2002 (U.S. ergonomic guidelines), California T.B. 117 (U.S. flammability standard for foam), California T.B. 133 with approved FR textile (U.S. flammability standard for full chair)
The RPM chair line has been tested and is approved for use by individuals weighing up to 300 pounds.

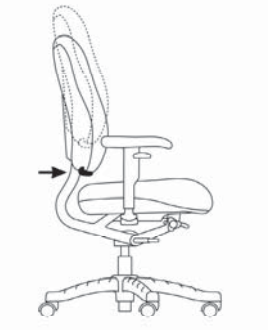
RPM® Operating Instructions



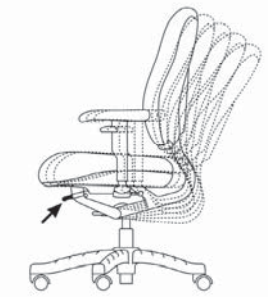
Tilt Tension
On the right side of the seat, there is a retractable knob which facilitates the adjustment when the knob is extended. Turn the knob forward to tighten and backward to loosen. When finished, tuck the knob under the seat.



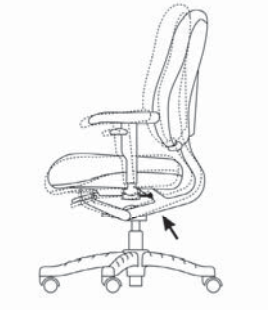
Seat Height
While seated, lift the lever on the right side of the chair to lower seat height. Remove your weight from the chair and lift the handle to raise the chair to the highest position.



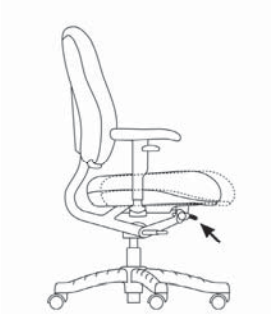
Back Height
Press the lever on the bottom of the right side of the back cushion to reposition the back height within a four inch range. It is necessary to press the lever to make the back move.



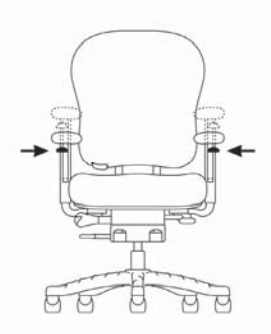
Multiple Stop Tilt Lock and Upright Tilt Lock
To lock the chair upright or in a reclined position, lift the lever on the front left side of the chair. Push down on the lever and recline to unlock the chair.



Forward Tilt
The forward tilt button is located on the rear, left-hand side of the control—to activate, push the lever in, lift your weight off the seat, and pull up on the rear of the seat to tilt it forward.

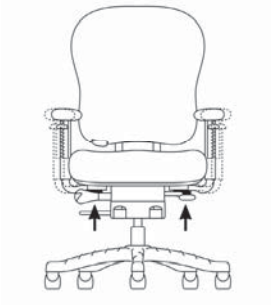


Seat Depth
The sliding seat activation is located underneath the seat on the front, left-hand side of the control. The adjustment mechanism is a button that has a space for two fingers. To activate, push up on the button and move the seat forward or backward. There are 4 positions within a 2″ range.
(on Advanced Models only)



High Performance Arms
High Performance arms are controlled by the lever next to the armpad and from the knob beneath the arm support.

Arm Height and Armpad Pivot
Press the lever next to the armpad to adjust the arm height and to set the arm pivot in one of three fixed positions.



Arm Width
Loosen the knob under the arm support to adjust the arm support placement on the chair. There is a 2″ total width adjustment for all arms (fixed and height-adjustable)

RPM® Control Index and Construction Information

Control Index

Advanced Control	Features	Explanations
	Synchronized tilt (1:1.9)	Back reclines 1.9 times faster than seat
	Tilt lock (5 positions)	Chair back can be locked in upright and reclined positions
	Forward tilt (3°)	Chair locks in a forward tilting position for intensive keyboarding application
	4″ back height adjustment	Allows for correct positioning of lumbar support
	2″ seat depth adjustments	Seat adjusts in depth to provide proper support under the legs of both taller and shorter users
	Retractable tension knob	Tension knob is easy to reach and tucks out of the way when not in use
	Instructions	Easy to reach instruction card attached to chair makes adjusting the chair easy for everyone
	Dual J-Bar	Provides addtional support for the back
	360° swivel

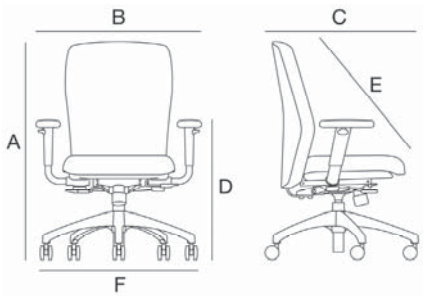
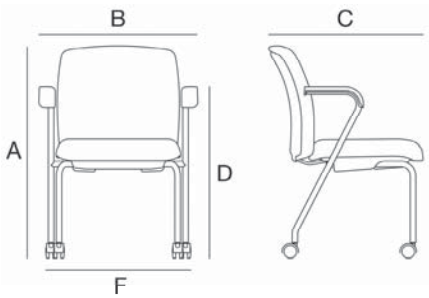
EWC Pro Task



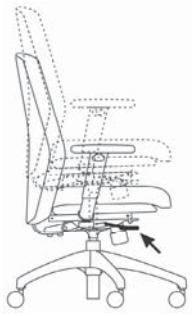
EWC Pro Side



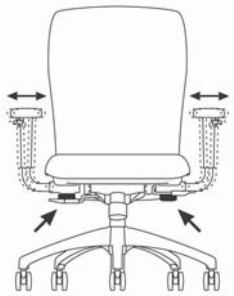
Compliancy: ANSI/BIFMA X5.1 : 2002 (U.S. structural standard), BIFMA G1 : 2002 (U.S. ergonomic guidelines), California T.B. 117 (U.S. flammability standard for foam), California T.B. 133 with approved FR textile (U.S. flammability standard for full chair), CAN/CGSB 44.232-2002 (except conference chairs)

The EWC Pro chair line has been tested and is approved for use by individuals weighing up to 300 pounds.

EWC Pro High-back and Mid-back Task Chair Operating Instructions

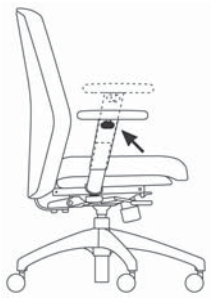


Seat Height
To raise the seat height, remove your weight from the chair while lifting the lever under the right side of the seat. To lower the seat height, life the lever while sitting in the chair.



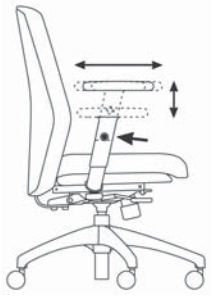
Adjustable Arm Width (All arm options)
To adjust the arm width, loosen the knob under the arm support by turning clockwise. Slide the arm support toward or away from the seat to adjust the arm width. Tighten the knob under the arm to secure.

Tilt Lock
To recline, pull out the lever under the right side of the seat. To lock the chair upright, push the lever in.



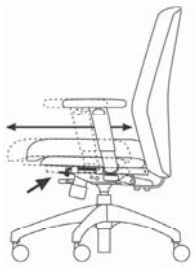
Height Adjustable Arm (Optional)
To adjust the arm pad height, lift the lever on the outside of the arm support and move the arm up or down. Release the lever to lock.

Tilt Tension
To adjust the tilt tension, turn the knob under the front of the seat. Turn counterclockwise to tighten, and clockwise to loosen.



High Performance Arm (Optional)
To adjust the arm pad height, push the button on the outside of the arm support and move the arm up or down. Release the button to lock. To adjust arm pad depth, grasp arm pad and push forward or pull backward. The arm pad adjusts 2.5″ in depth.

Back Height (Task chairs only)
To raise the back height, firmly hold both sides of the back and lift. The back height adjusts 9 notches upward. To lower the back height, first raise the back to the highest position; the top notch releases the back to the lowest position.



Sliding Seat Depth Adjustment (Optional)
To adjust the seat depth, lift the lever under the left side of the seat and slide the seat to the desired location. Release the lever to lock in one of the 6 positions

EWC Pro Side Chair

This is a stacking side chair.
Chairs should not be stacked more than 3 units high. To stack chairs, place the rear legs of the top chair in front of the rear legs of the bottom chair. The bottom of the top chair's seat should rest on the lower chair's seat.

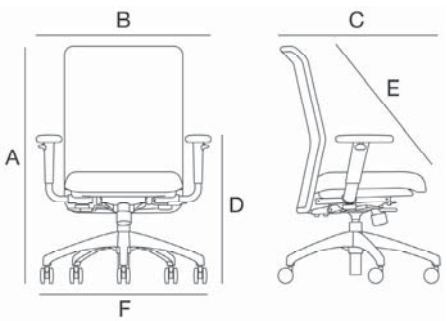
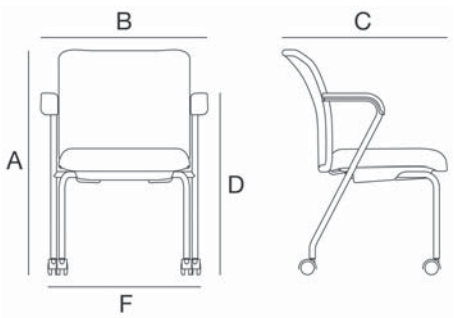
EWC Tech Task



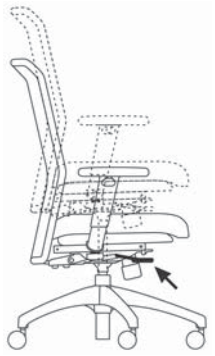
EWC Tech Side



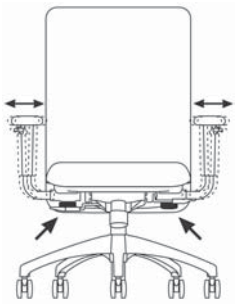
Compliancy: ANSI/BIFMA X5.1 : 2002 (U.S. structural standard), BIFMA G1 : 2002 (U.S. ergonomic guidelines), California T.B. 117 (U.S. flammability standard for foam), California T.B. 133 with approved FR textile (U.S. flammability standard for full chair), CAN/CGSB 44.232-2002 (except conference chairs)

The EWC Tech chair line has been tested and is approved for use by individuals weighing up to 300 pounds.

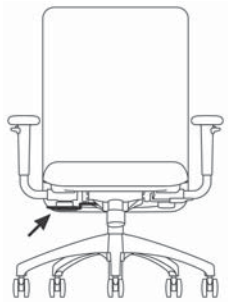
EWC Tech Task Chair Operating Instructions



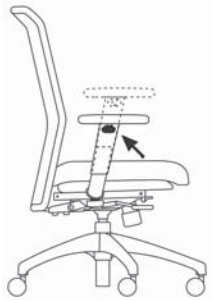
Seat Height
To raise the seat height, remove your weight from the chair while lifting the lever under the right side of the seat. To lower the seat height, life the lever while sitting in the chair.



Adjustable Arm Width (All arm options)
To adjust the arm width, loosen the knob under the arm support by turning clockwise. Slide the arm support toward or away from the seat to adjust the arm width. Tighten the knob under the arm to secure.

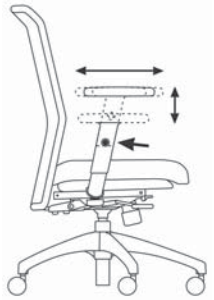


Tilt Lock
To recline, pull out the lever under the right side of the seat. To lock the chair upright, push the lever in.

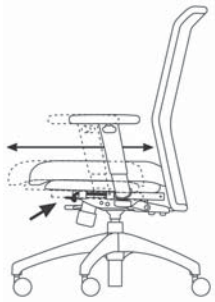


Height Adjustable Arm (Optional)
To adjust the arm pad height, lift the lever on the outside of the arm support and move the arm up or down. Release the lever to lock.

Tilt Tension
To adjust the tilt tension, turn the knob under the front of the seat. Turn counterclockwise to tighten, and clockwise to loosen.



High Performance Arm (Optional)
To adjust the arm pad height, push the button on the outside of the arm support and move the arm up or down. Release the button to lock. To adjust arm pad depth, grasp arm pad and push forward or pull backward. The arm pad adjusts 2.5″ in depth.



Sliding Seat Depth Adjustment (Optional)
To adjust the seat depth, lift the lever under the left side of the seat and slide the seat to the desired location. Release the lever to lock in one of the 6 positions.

EWC Tech Side Chair

This is a stacking side chair.
Chairs should not be stacked more than 3 units high. To stack chairs, place the rear legs of the top chair in front of the rear legs of the bottom chair. The bottom of the top chair's seat should rest on the lower chair's seat.

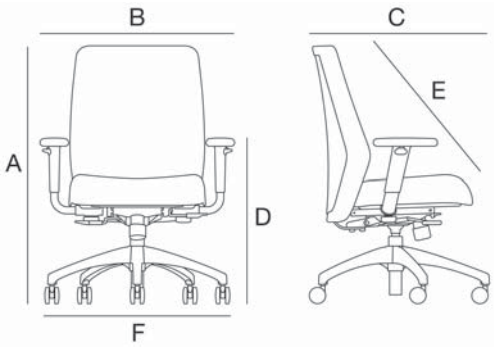
***standard cylinder; sliding seat option adds 0.5″ to overall height and arm height from floor

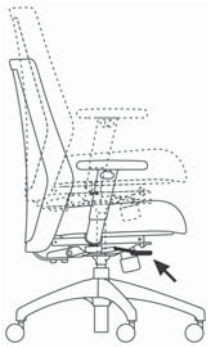
EWC Sport Task



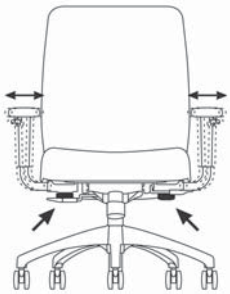
Compliancy: ANSI/BIFMA X5.1 : 2002 (U.S. structural standard), BIFMA G1 : 2002 (U.S. ergonomic guidelines), California T.B. 117 (U.S. flammability standard for foam), California T.B. 133 with approved FR textile (U.S. flammability standard for full chair)

The EWC Sport chair line has been tested and is approved for use by individuals weighing up to 300 pounds.

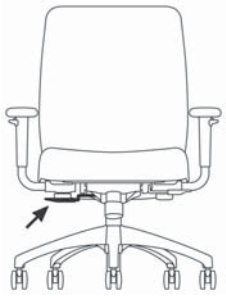
EWC Sport Task Chair Operating Instructions



Seat Height
To raise the seat height, remove your weight from the chair while lifting the lever under the right side of the seat. To lower the seat height, life the lever while sitting in the chair.



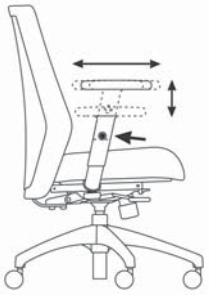
Adjustable Arm Width (All arm options)
To adjust the arm width, loosen the knob under the arm support by turning clockwise. Slide the arm support toward or away from the seat to adjust the arm width. Tighten the knob under the arm to secure.



Tilt Lock
To recline, pull out the lever under the right side of the seat. To lock the chair upright, push the lever in.

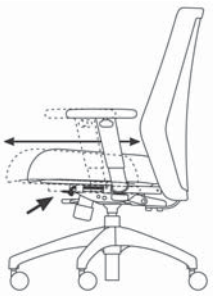
Height Adjustable Arm (Optional)
To adjust the arm pad height, lift the lever on the outside of the arm support and move the arm up or down. Release the lever to lock.

Tilt Tension
To adjust the tilt tension, turn the knob under the front of the seat. Turn counterclockwise to tighten, and clockwise to loosen.



High Performance Arm (Optional)
To adjust the arm pad height, push the button on the outside of the arm support and move the arm up or down. Release the button to lock. To adjust arm pad depth, grasp arm pad and push forward or pull backward. The arm pad adjusts 2.5″ in depth.

Back Height (Task chairs only)
To raise the back height, firmly hold both sides of the back and lift. The back height adjusts 9 notches upward. To lower the back height, first raise the back to the highest position; the top notch releases the back to the lowest position.



Sliding Seat Depth Adjustment (Optional)
To adjust the seat depth, lift the lever under the left side of the seat and slide the seat to the desired location. Release the lever to lock in one of the 6 positions.

* All measurements taken with BIFMA Chair Measuring Device using the Universal Measurement Procedure which has a measurement uncertainty of ± 5%

Compliancy:

ANSI / BIFMA X5.1 : 2002 (structural)

Cal 117 (fire retardancy)

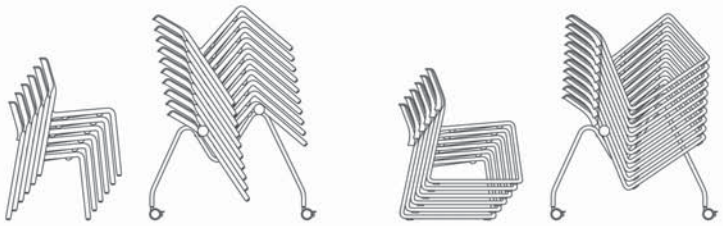
Cal 133 with approved FR upholstery (fire retardancy)

The Spark Series has been tested and is approved for use by individuals weighing up to 300 lbs.

Stacking Instructions

Spark side and lounge chairs stack up to 6 units high on the floor and 10 units high on the Spark dolly, which can accommodate the side chair or the lounge chair.

To stack chairs, place the legs/base of the top chair in front of the legs/on top of the base of the bottom chair. The top chair's stacking spacers should rest on the sides of the lower chair's seat.



Other Information

The dolly stacked with 10 side chairs measures 54" high and with 10 lounge chairs measures 53" high

Spark Side Chair Ganging Instructions

The Spark ganging device adjoins the Spark side chairs' back legs. Position the ganging device so the raised surface in the middle of the device faces toward the front of the chair. The angle of the device should mirror the angle of the chair's back legs. Slide one back leg into one side of the device until the leg's integral glide rests on the floor. Repeat with the adjoining chair's back leg in the other side of the device.

CONSTRUCTION INFORMATION

Side and Lounge: Integrally colored, textured, glass reinforced polyproylene; approved for indoor and outdoor use.

Seat pad: Molded highly-resilient polyurethane foam with textile cover and steel fasteners; for indoor use.

Dolly: Tubular metal frame with textured powder coat finish, four handles made of black thermoplastic elastomer (TPE) that act as bumpers to cushion the chairs, and four locking casters

Ganging device: Semi-translucent TPE

CLEANING INSTRUCTIONS

Clean using a soft rag, either dry or wet. When needed, use mild pH-balanced soap diluted in water. Do not use abrasive sponges, acidic products or solvents containing ammonia.

To remove scuff marks, lightly rub scuff mark with a dry, non-scratch scour pad, like Scotch-Brite.

Healthcare cleaning:

The following products can be used safely on Spark:

- Clorox Germicidal Liquid Bleach diluted 1:5 ratio to tap water (pH 3.7)
- Clorox Cleanup undiluted 100% solution (pH 9.7)
- Wexcide 128 Concentrate Phenolic Germicide by Wexford Labs diluted 1 ounce to 1 gallon tap water (pH 3.7)
- Formula 880 Quaternary Germicide by Grand Technologies diluted ½ ounce to 1 gallon tap water (pH 8.1)
- Hydroxi Pro Concentrate 128 by Core Products diluted 1:8 ration to tap water (pH 7.2)
- Virox 5 RTU cleaning solution

Upholstery cleaning:
Please follow cleaning code for the specified textile. Base grade Presto fabric is cleaning code S: Solvent based cleaning agent.

ENVIRONMENTAL

GREENGUARD certified

Spark is GREENGUARD Indoor Air Quality Certified® and GREENGUARD Children & Schools℠ certified and can contribute to achieving LEED® credits.

Recycled Content

The Recycled Black color of both the non-upholstered side chair and the non-upholstered lounge chair contains 40% post-industrial recycled content. Recycled content percentages for the Recycled Black chairs with seat pads will vary depending on the fabric used. Using the base grade Presto fabric, the recycled content for the side chair with seat pad is 35% and for the lounge with seat pad is 37%. All other colors do not contain recycled content.

WARRANTY

5 years, 24-hour, 7 days a week, multi-shift use; 3 years upholstery; 1 year finishes and labor to repair. See Knoll Selling Policy for further details.

Selling Policy

This Selling Policy supercedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.

Terms & Conditions of Sales

Sales by Knoll, Inc. or Knoll North America Corp. ("Seller") of Knoll Product Lines (hereinafter "Products") within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser's assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supercede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.

Ordering Information

All orders must be in writing. The product pattern number(s) contained on Seller's order acknowledgement shall be the final expression of the order.

Order Confirmation

A purchase order is not binding on Seller until Purchaser has received Seller's order confirmation or acknowledgment.

Pricing Policies

List prices are subject to change without notice.

List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller's list prices.

Taxes

All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.

Terms of Payment

Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

KnollStudio orders less than $2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than $2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment.

If, in the judgment of Seller, Purchaser's financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance.

Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney's fees and costs.

Changes and Cancellation

Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including "COM" (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.

Freight Prepaid

Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from conditions over which the Seller has no control. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. All shipments shall be tailgate deliveries. Freight for all KnollTextiles orders is prepaid and added to the invoice.

Delivery/Freight Charges

Shipments outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin.

For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination.

Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.

Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser's request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.

Partial shipments may be made and invoiced by Seller.

Claims

All shipments for all Knoll Products within the contiguous United States and Canada are F.O.B. Origin. Risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to make a claim against carrier or notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. Seller will agree to repair or replace Product damaged in shipment if Purchaser has notified Seller of freight damage within ten (10) working days after receipt and assigns its rights against the carrier.

Seller's Security Interest

Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

Returns

The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.

Held Orders/Storage

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.

Customer's Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller's line of Products ("COM") must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.

Warranty

Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below.

Warranty period set forth below is for 24-hour, 7 days a week, multi shift use.

Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.

Product and Period of Warranty

Lifetime: AutoStrada, Calibre, Crinion Open Table, Currents, Dividends Horizon, Equity, Morrison, Reff laminate, *Series 2 Storage, Template* and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, Lighting, *Series 2* Veneer Front Storage, special or custom products, see below)

2 Years: All other *KnollExtra* product

1 Year: Light ballasts, bulbs and power supply, seating upholstered armpads and soft armpads, *Spark Series* seating finishes and labor to repair, wood casegoods upholstered surfaces.

This warranty does not apply to:

- Damage caused by a carrier other than the Seller.
- Normal wear and tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).
- COM or other third party materials applied to Products.
- Products not installed by or under the auspices of a Knoll Dealer.
- Dramatic temperature variations or exposure to unusual conditions.
- Except as specifically noted above, textiles and upholstery supplied by *KnollTextiles* (consult current *KnollTextiles* price list for applicable warranty).

Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.

THE EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

The remedies provided above are the Purchaser's sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

Compliance with Law

PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.

Patents

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:

- Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
- Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
- Any settlements of a suit or proceeding made without Seller's written consent.

Limitations of Liability

SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.

Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.

General Ordering Information

The Products
This guide encompasses all standard products for this product group.

Sizes
Dimensions listed in this guide are indicated as:
H = height
W = width
D = depth
Dia. = diameter
Rad. = radius

Pricing
All prices shown are list.

How to Order
Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item's "designated area" can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:
Knoll, Inc.
1235 Water Street
P.O. Box 157
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll's environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such "green" initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on "About Knoll" and then "Environmental Focus."
