Knoll and Sustainable Design

Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company's declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer's Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Global Climate Change

- Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world's most pressing challenges, including environmental change.
- Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

Life Cycle Assessment (LCA) Tool

- Life Cycle Assessment is a science-based measurement of a product's environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.
- Knoll has partnered with The Green Standard.org to develop an affordable, universal ISO-compliant computer-based LCA tool that can be used by the entire contract furniture industry and is partnering on the development of an Environmental Product Declaration System (EPDs) for Knoll products. EPDs are verified documents containing LCA results and additional environmental performance information about a product.

Setting Industry Standards

- Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT® Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT®, is an accredited American National Standards Institute (ANSI) standard developer.
- Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
- Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.
- Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
- Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll and sustainable design, visit knoll.com/environment.

Calibre files are available in pre-configured and built-to-spec models that incorporate a flexible 1.5" planning module to optimize the best use of space within a case. Most applications can be satisfied with pre-configured files, which are available in the most common configurations. For special applications Calibre can be ordered built-to-spec, which allows thousands of drawer and door configurations.

Lateral Files, Pre-configured

Calibre pre-configured files are available in 10 heights and 3 widths. All feature the use of a 1.5" vertical planning module. The 1.5" planning module makes better use of space by more efficiently storing and maintaining files, binders, office supplies and other articles as compared to a traditional 3" planning module. There are 9 drawer/door modules heights available to support front-to-back or side-to-side filing of letter, legal, A4, JIS, standard binders and EDP paper sizes.

Lateral Files, Built-to Spec

Calibre, built-to-spec files allow a wide variety of drawer and shelf

options. Through the combination of the 10 case heights and the 9 drawer modules, thousands of custom case configurations are possible to meet any special application.

Hybrids Pre-configured

Hybrid storage units combine hinged doors to store binders and supplies with 12" file drawers to support filing. Hybrids are available in heights of 55.5", 63" and 64.5" in widths of 30" and 36".

Cabinets Pre-configured

A variety of pre-configured storage cabinets with adjustable shelves are available with or without doors in 6 heights and 2 widths. In addition, 3 heights (55.5", 63" and 64.5") and 2 models (Standard and Vertically divided) of wardrobes are offered: a full width wardrobe with two doors, top shelf and coat rod and a vertically divided wardrobe with adjustable shelves on one side and a coat rod on the other. Think of using a Calibre cabinet without doors when you want to have the appearance of a bookcase when aligning a cabinet next to lateral files. Cabinets have the same base detail (1 1/2" tall) of lateral files, as well as the same

overall depth of 18". A Calibre bookcase on the other hand is only 15" deep and has a 2 1/16" high base.

Doors are available in standard Calibre style or with fronts that complement the aesthetic of the Morrison system. Locks are optional for models with doors.

Note: Morrison front cabinets are 18 7/8" deep compared to Calibre, which are 18" deep.

Add-on Modules

Calibre lateral files maybe augmented with add-on modules that help make maximum use of vertical space. Add-on modules are available in 4 nominal heights and 3 widths and can be mounted to any standard Calibre lateral file. Add-on units come with two hinged doors. 27" and 30" modules include one adjustable shelf. Modules are available with or without locks.

Note: The actual overall exterior height of Calibre Add-on modules is 14 7/8", 16 3/8", 28 3/8" and 31 3/8"

Add-on modules are for use with Calibre files only. Calibre files, and Add-on modules are 18" deep. Morrison or S2 front lateral files are

18 7/8" deep and have overlay fronts instead of inset fronts as is the case with Calibre files. Therefore, neither Morrison nor S2 front lateral files will accept an Add-on module. Add-on modules will attach to Calibre files manufactured prior to 2003. There is a limit of one Add-on module per case.

How would you or why would you use an Add-on module?

1. Add-on modules allow for the creation of 6 high or taller case configurations. Match a 55.5" high case (with 5-10.5" drawers) with a 13.5" nominal height Add-on module and you have a low profile 6 high case that provides high-density filing for hanging file folders with an easily accessed space for binder storage.
2. Add-on modules can provide additional storage capacity for binders and supplies by making better use of vertical space. Both 27" and 30" Add-on modules will accommodate two rows of standard size binders.
3. Add-on modules provide more design flexibility by extending the range of case heights.

Module Application and size

Drawer Modules

	Application	Ext H.	Int H.
15" Rollout drawer with hanging rails	EDP, oversized binders, A4 and standard binders	14 7/8"	14 3/8"
13.5" Rollout drawer with hanging rails	Binders, top tab files or tape seals	13 3/8"	13 1/8"
12" Rollout drawer with hanging rails	Top tab hanging and non-hanging files or end tab files	11 7/8"	11 3/8"
10.5" Rollout drawer with hanging rails	Top tab hanging and non-hanging file folders	10 3/8"	10 1/8"
9" Rollout drawer	Oversized specialty items and supplies	8 3/8"	8 3/8"
7.5" Rollout drawer	5 1/4" diskettes, audio tapes and CD-ROM jewel cases	7 3/8"	7 1/8"
6" Rollout drawer	Index cards, microfilm, 3 1/2" diskettes and video tapes	5 7/8"	5 3/8"
3" Rollout drawer	Pens, pencils, business cards and other smaller office supplies	2 7/8"	2 3/8"
1.5" Reference/posting shelf	Touch down platform for sorting or stacking files or documents	1 3/8"	N/A

Drawer Modules*

	Application	Ext H.	Int H.
15" Receding door fixed shelf	EDP, oversized binders, A4 or standard binders	14 7/8"	13 1/4"
13.5" Receding door fixed shelf	Standard binders or suspended top tab files or tape seals	13 3/8"	11 3/4"
12" Receding door fixed shelf	Top tab hanging and non-hanging files or end tab files	11 7/8"	10"
15" Receding door pullout shelf	EDP, oversized binders, A4 or standard binders	14 7/8"	13 1/4"
13.5" Receding door pullout shelf	Standard binders or suspended top tab files or tape seals	13 3/8"	11 3/4"
12" Receding door pullout shelf	Top tab hanging and non-hanging files or end tab files	11 7/8"	10"

*Interior height is reduced by 15" at hinge location

To prevent lateral file/tower from tipping over and causing injury:

- Read and follow installation instructions shipped with each lateral file/tower before use. Consult your Knoll dealer for further details.
- Lateral files/towers must be leveled using adjustable glides in the base.
- Lateral files should be ganged (connected) to adjacent lateral files or anchored to a floor or wall. If not ganged or anchored the lateral file must be counter-weighted using counter weight kits recommended in the installation instructions.
- Each lateral file and some towers are equipped with a safety interlock system which prevents opening more than one drawer at a time. Do not attempted to override the interlock system by opening two drawers simultaneously, since the lateral file/tower may tip. (Does not apply to all towers.)
- Load tower drawers first and place the heaviest items in the lowest drawer. Reverse the process when unloading. Distribute weight evenly within each drawer.

It is recommended that all 27"h, 34.5"h and 39"h files be ganged together, to a wall/floor or utilized a counter weight kit to prevent topping when fully loaded.

Failure to follow these instructions could result in personal injury or property damage.

Filing Planning

Calibre pre-configured files include 1.5", 3", 6", 7.5", 10.5", 12", 13.5" and 15" drawer and door modules. The 12", 13.5" and 15" drawers are designed to handle all standard paper sizes including:

- Letter (8½" X 11")
- Legal (8½" X 14")
- A4 Foolscap (9½" X 14⅓")
- JIS (9⅓" X 12¼")
- EDP (8½" X 15")

The 10.5" drawer module is designed to handle:

- Letter (8½" X 11")
- Legal (8½" X 14")

Note: Only 12", 13.5" and 15" modules are available as receding doors with either fixed or pull-out shelves.

Filing Volume and Weights

The paper size or media to be stored will determine the best width of file to specify. In applications requiring high-density letter-sized documents filed front-to-back, the most efficient file widths are 30" and 42". Files that are 36" wide work efficiently to store legal-sized documents in front to back configurations and do not efficiently handle letter-sized documents.

Finding the Optimum Storage Configuration:

- 30" width (Front-to-Back) = Letter 31.5 Filing Inches
- 30" width (Side-to-Side) = Legal 26¾ Filing Inches
- 36" width (Front-to-Back) = Letter 31.5 Filing Inches
- 36" widths (Side-to-Side) = Legal 32¾ Filing Inches
- 42" widths (Front-to-Back) = Letter 47 Filing Inches
- 42" widths (Side-to-Side) = Legal 38¾ Filing Inches

Example: If 12' of open wall space were available for 51" high files with 4-12" drawers, two options would be possible:

- Option A:** Four 36" wide files
- Option B:** Two 42" and two 30" wide files

If the usage was for letter-sized documents filed front-to-back, option A would provide 504 total filing inches, while option B would allow 628 total filing inches in the same square footage.

Calibre Lateral File Approximate Case Weights (Empty Units)

27" High File with 2-12" drawers:

- 30" w (98 lbs.)
- 36" w (110 lbs.)
- 42" w (123 lbs.)

39" High File with 3-12" drawers:

- 30" w (133 lbs.)
- 36" w (150 lbs.)
- 42" w (167 lbs.)

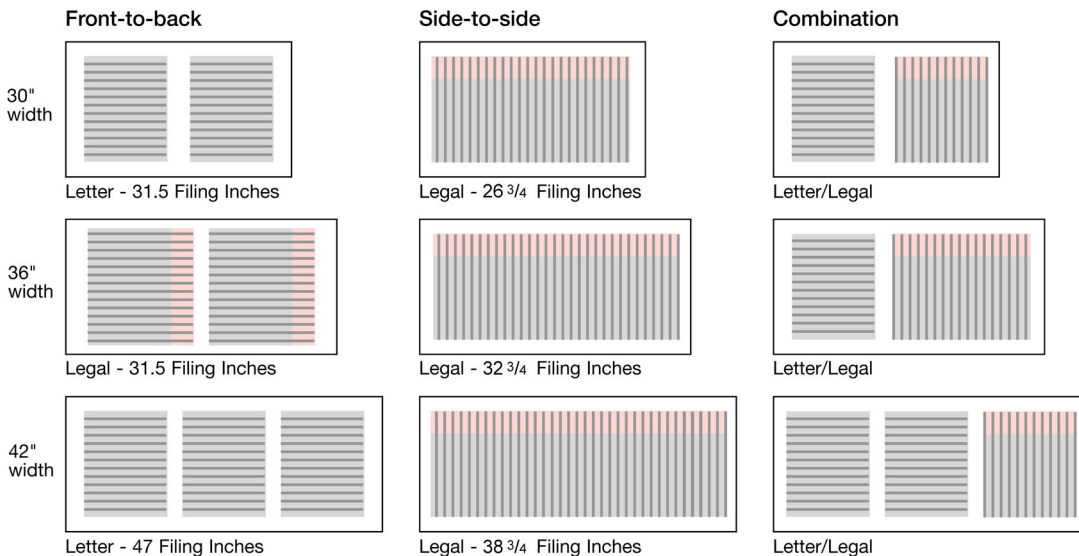

51" High File with 4-12" drawers:

- 30" w (169 lbs.)
- 36" w (190 lbs.)
- 42" w (211 lbs.)

63" High File with 5-12" drawers:

- 30" w (208 lbs.)
- 36" w (233 lbs.)
- 42" w (258 lbs.)

All drawers support up to .017 pounds per cubic inch of volume assuming the interior height is no more than 12" high.

Knoll Panel Height Matrix Alignment to Knoll Calibre Lateral Files

Reff Panel		34	42			49							64		
File Height	26.843		38.843	44.843			50.843	53.843	55.343		58.343		62.843	64.343	
Dividends Panel			42				50			57			64		
File Height	26.843		38.843	44.843			50.843	53.843	55.343		58.343		62.843	64.343	
Currents Panel			39			48							3	64	
File Height	26.843		38.843	44.843			50.843	53.843	55.343		58.343		62.843	64.343	
Morrison Panel		30	39	42		48				56			64		74
File Height	26.843		38.843	44.843			50.843	53.843	55.343		58.343		62.843	64.343	65.875

Note: Knoll Systems are listed with the Calibre file heights that best match their overall panel heights. Both the files and panels are listed with glides fully retracted. Calibre files provide $\frac{3}{4}$ " vertical glide adjustment. Plan for the optimization of filing and storage rather than the visual alignment of the drawers between storage solutions. Calibre files are built on a 1.5" planning module with a 12" high drawer head that is actually 11.900" tall. Pedestals have 12" high drawer heads that are 11.733" tall. Therefore, pedestals drawers will not align with file drawers when combined within a workstation. If a lateral file look next to a pedestal is desired, then specify a doublewide pedestal in place of the lateral file, below the worksurface. Doublewide pedestals share the same 11.733" tall drawer height of the pedestal.

Lateral File Planning Overview

Understanding Pattern Numbers for Calibre Lateral Files

The first eight characters of the alpha/numeric pattern numbers for Calibre, Morrison or S2 files, refers to the type of front, the height and width of the case and whether it is non-lock or locking.

Example First 8 Characters: C2F5536CDDDDD

C = Calibre front

2 = Generation code

F = File

55 = Nominal height of the case

36 = Width

C = Locking

The remaining characters address the height of the component from the top to the bottom of the file.

Example Last Characters: C2F5536CDDDDD

D = 10.5" Drawer

D = 10.5" Drawer

D = 10.5" Drawer

D = 10.5" Drawer

D = 10.5" Drawer

A character is required at the end of pattern number to designate the finish code. In some instances there may be a need for additional characters or character substitutions to add options to the product. An example of this is the specification of reference/posting shelves. Pre-configured files come standard with a tie bar/lateral spanner that is denoted with a product pattern code of "K" within the parent pattern number. If a reference/posting shelf is required, you must replace the "K" code with a "J" code within the parent product pattern number and add a list price up-charge.

General Product Description

- A.** Files shall be of contemporary styling, with a steel top, side panels, back panel, full bottom, rollout drawers and shelves mounted on ball bearing suspensions, receding doors, fixed shelves, interlocking drawers and individual locking drawers. Available with or without locks. Individual locking drawers are also available with or without security separators.
- B.** Lateral File sizes that must be available:
Depth: 18" (Must accommodate letter or legal width files)
Widths: 30", 36" and 42"
Nominal Drawer Head Heights: 3", 6", 7.5", 9", 10.5", 12", 13.5" and 15"
Nominal reference shelf: 1.5"
Overall height of cases with glides fully retracted: 27", 34.5", 39", 45", 51", 54", 55.5", 58.5", 63" and 64.5"
- C.** Hybrids sizes that must be available:
Depth: 18"
Width: 30" and 36"
Drawer hand heights: 3", 6", 7.5", 9", 10.5", 12", 13.5" and 15"
Overall height of cases with glides fully retracted 55.5", 63" and 64.5"
- D.** Cabinets sizes that must be available
Depth 18"
Widths: 30" and 36"
Overall height of cases with glides fully retracted 27", 34.5", 39", 51", 55.5", 63" and 64.5"
- E.** Add-on Modules
Depth 18"
Widths: 30", 36", 42"
Overall height of cases: 14⁷/₈", 16³/₈", 28³/₈", 31³/₈"

Case

- A.** The wrapper, comprising the side panels and back panel, shall be 22-gauge steel with formed 20 gauge steel vertical channels to support the mounting of drawer slides and shelves. Vertical channels shall be welded to the base assembly. In addition the vertical channels shall be glued and welded to the wrapper.
- B.** Back panel shall be constructed from 22-gauge steel with a formed vertical channel of 20 gauge steel. The vertical channel

shall be welded to the base pan and back, along with the use of an adhesive. In addition to increasing the overall structural integrity of the case, the vertical channel reinforcement shall also support the installation of divider septum's.

- C.** Top pan shall be of 20-gauge steel with a formed channel spanning the width of the case. Top shall support the case lock housing. Top shall be mechanically attached to allow for removal and replacement in the field. The top pan shall be supported by side-to-side cross-rails that are welded to the side vertical channels.
- D.** Steel Bottom pan shall be 20-gauge steel with formed channels spanning the depth and width of the case. Side-to-side and front to back channels are installed and welded to the pan for increased rigidity. The base shall be welded to the vertical channels and bottom flanges of the wrapper assembly. Base shall support four-recessed, extendable glides.
- E.** All drawer bodies and drawer heads shall be constructed from 20-gauge steel. Optional wood composite drawer heads shall be available in painted and powder-coated finishes.

Drawers

- A.** 10.5" and taller drawers shall be able to accommodate standard and legal Pendaflex file folders.
- B.** Drawer bodies shall be 20-gauge steel construction. Load capacity for 3"-15" drawers shall be at least .017 pounds per cubic inch of usable space.
- C.** Drawers shall be supported with full extension, ball-bearing slides with a minimum 150 pound capacity (15" x 42" drawers)
- D.** Overlay drawer fronts shall be available with Morrison and Series 2 drawer fronts.
- E.** Drawer bodies shall be formed from steel with a welded construction.
- F.** Drawer fronts shall have a full width integral drawer pull.
- G.** Drawer fronts shall be available in Calibre, Series 2 and Morrison styles.

Receding Doors

- A.** 13.5" and 15" receding doors shall be available with either fixed or pullout shelves. Fixed shelves shall support standard 8¹/₂" X 11" binders. 15" fixed shelves shall support EDP filing.
- B.** Receding doors shall use a hinge along with a ball-bearing glide suspension. Hinges shall provide clearance for standard size binders when used with a 13.5" or 15" receding door fixed shelf configuration.
- C.** Door front shall have a full width integral drawer pull.

Suspensions (Drawer Slides)

Suspension must be tested and listed to be acceptable. Suspension shall support heavy duty and high-usage application.

- A.** Drawers and pullout shelves shall operate on full extension metal ball-bearing suspensions. Each slide shall have 44, 1/4" ball bearings.
- B.** Ball-bearing suspensions shall be used for reference/ posting shelves, receding doors and file drawers.
- C.** All drawers and shelves must be removable without removing or dismantling the suspension or interlock mechanism.
- D.** Suspension shall provide an interlock system for drawers and pullout shelves (excluding reference shelves).

Locks

- A.** Available in locking or non-locking units.
- B.** Locks shall have a removable lock core.
- C.** Locks may be keyed alike.
- D.** Locks will be master keyed.
- E.** Individual locking drawers shall be supported.

Paint Finish

Finish coat to be baked enamel or electrostatic applied epoxy powder coat with a range of colors with gloss level not to exceed .50. Color selection shall include custom match non-metallic and non-white paints with no up-charge over list.

Labels

Each file is to have a "Caution Label" attached to the top compartment and visible to the user when the

compartments are accessed. Label shall contain safety precautions including leveling, loading and weight distribution.

Accessories

Each file drawer with the exception of the 3", 6", 7.5" and 9" drawers shall come with file bars that support legal and letter filing. Optional label holders shall be available. D-ring dividers shall be available as an accessory for built to spec pullout and fixed shelves and ordered separately. All preconfigured files with receding doors and fixed shelves shall be shipped with D-ring dividers and file bars.

Trim

Pulls shall be full width and integral to the drawer head.

Levelers

Levelers shall be zinc-planted steel treaded rods with nylon pads for 3/4" overall adjustment (base of file is 1 1/2" tall).

Lateral File Sample Bid Technical Specifications

Calibre Lateral File with Series 2 Steel Fronts

Calibre

General Product Description

- A.** Files shall be of contemporary styling, with a steel top, side panels, back panel, full bottom, rollout drawers and shelves mounted on ball bearing suspensions, interlocking drawers. Available with or without locks.
- B.** Lateral File sizes that must be available:
Depth: 18" (must accommodate letter or legal width files)
Widths: 30", 36" and 42"
Drawer Head Heights: 12"
- C.** Overall height of cases with glides fully retracted: 27", 39" and 51"

Case

Inner frame: 20-gauge steel
Wrapper: 22-gauge steel
Case top: 20-gauge steel
Case base: 20-gauge steel

Levelers

Levelers shall be zinc-plated steel threaded rods with nylon pads for $\frac{3}{4}$ " overall adjustment (Base of file is 1 $\frac{1}{2}$ " tall)

Drawer

Drawer body: 20-gauge steel
Drawer front: 20-gauge steel with integral, full width pull

Shelf

$\frac{3}{4}$ " adjustable shelf: 20-gauge steel
Cabinet height adjustment: increments of 2.5"

Lock Assembly

- A.** Lock and interlocking system components are integral to the steel, triple extension ball bearing drawer slides
- B.** Master keys available
- C.** Field-removable lock cores
- D.** Lock cores housings are cast metal with a black anodized finish

Drawer Suspensions

Drawer suspensions shall be triple extension, telescoping suspension fitted with steel ball bearings and retainers. Slides contain an integral, cable actuated interlocking systems

Paint Finish

Paint finish shall be electrostatic applied powder-coat epoxy
Application thickness: 1.5-2.0 mm
Gloss range: non-metallic: 30-40
Gloss range: metallic: 40-50
Paint grades: P1, P2 and P3

Dimensions

Depth: 18 $\frac{7}{8}$ " for lateral files.
Available widths: 30", 36" and 42" for lateral files
Available heights: 27", 39", 51" lateral files

Actual Case Heights:

27"	26 $\frac{27}{32}$ "
39"	38 $\frac{27}{32}$ "
51"	50 $\frac{27}{32}$ "

Paint Finish	Electrostatic applied powder-coat epoxy Application thickness: 1.5-2.0 mm Gloss range: non-metallic: 30-40 Gloss range: metallic: 40-50 Paint grades: P1, P2 and P3 Custom color match for non-metallic, non-custom paints provided at a P1 list price. All white and silver paints will be processed as a P3 paint grade.		

Create Custom Solutions

To create a built-to-spec file, you must first select from one of 10 standard case heights in 3 widths. Case heights are available in 27", 34.5", 39", 45", 51", 54", 55.5", 58.5", 63" and 64.5" (nominal). Case widths are available in 30", 36" and 42". After you have selected the appropriate case for your application, then you may begin to configure the interior modules that best support the filing and storage requirements as defined by the user. There are 9 standard drawer heights in various configurations to support any number of filing and storage needs. They are 1.5", 3", 6", 7.5", 10.5", 12", 13.5" and 15" high.

Drawer modules are designed to match up with the interior dimensions of the cases. The total number of modules used within a case must not exceed the total interior capacity. Listed here are the actual interior heights of the standard Calibre file cases:

Outside Case	Interior Case
27"	24"
34.5"	31.5"
39"	36"
45"	42"
51"	48"
54"	51"
55.5"	52.5"
58.5"	55.5"
63"	60"
64.5"	61.5"

When compiling a product pattern number and pricing for a built-to-spec case, specify the individual components within the chosen case from the top down. The total height of drawer modules within a case will be 3" less than the total overall height of the case. This is a result of a 1 1/2" deduction for the top and an additional 1 1/2" deduction for the base for a total 3". When creating your pattern number start with the case pattern number first: C2F5530C (55.5" high x 30" wide case with a lock), then add your drawers from the top down. Each drawer will have a letter designating its size, for example a 10.5" high drawer is represented by the character "D". Within a 55.5" high case you may place up to five "D" modules to fill the interior space of 52.5", which is the space available with the 3" deduction for the base and top of the case. The math is simple; just follow the planning rules listed in the document to avoid any mistakes. Also, consult the notes at the bottom of each page for additional specification information.

Please note the following planning considerations when designing a "Built-to-Spec" configuration:

1. Posting shelves nor tie-bars are permitted directly below cupboard doors.
2. Tie-bars and posting shelves are not permitted within the top location or the bottom location of a lateral file.
3. Calibre files are painted with a monochromatic color scheme. If case and drawer fronts are required to be a different color on the same case, this is considered a special and requires a custom product request form from Custom Product Development.
4. Recessing doors with fixed and pullout shelves are not permitted directly below posting shelves or on any lateral file with hybrid unit doors.
5. Cases are limited to either one tie-bar or one posting shelf per case.
6. Individual locking drawers are not available as a "Built-to-Spec" option.
7. Only 63" and 64.5" "Built-to-Spec" Hybrids are permitted.
8. S2 front Calibre lateral files are not available as a "Built-to-Spec".
9. No more than four 6" or 3" drawers may be placed within a case as standard product. More than four 6" or 3" drawers may be specified only as special product. Pricing for these special files may be more than a "built-to-spec" standard file with the same configuration.

Additional Calibre File Planning Considerations:

1. S2 lateral files will not accept standard Calibre worksurface file tops, as the files are 18 7/8" deep. You must use topics specific to S2 front lateral files.
2. Calibre Add-on modules are not designed for use with S2 front lateral files.
3. When using 45" through 64.5" high files, counterweights are recommended for files not ganged together or anchored to walls.
4. Posting shelves are best utilized in case configurations that use recessing doors to support end tab filing.
5. Lateral files may not be placed or stacked on top of one another.
6. Lateral files must be loaded from the bottom up with the heaviest items in the lower drawers.
7. Calibre lateral files utilize a 12" high drawer head that is actually 11.900" tall. Pedestals have 12" high drawer heads that are 11.733" tall. Therefore, pedestals drawers will not align with file drawers when combined within a workstation. If a lateral file look next to a pedestal is desired, then specify a doublewide pedestal in place of the lateral file, below the worksurface. Doublewide pedestals share the same 11.733" tall drawer height of the pedestal as well as the same base profile.

The Product

This section of the Calibre Collection Price List will give you all the information you will need to specify Calibre Files and Storage products.

To meet different aesthetic requirements, Calibre Files and Storage can be specified with the standard Calibre front, or with an optional front designed to match Series 2 products.

The Numbers

The options available in specifying Calibre products are clear, and the ordering process simplified, through the numbering system.

This alphanumeric system is modular, like the files themselves. Each digit stands for a single product variable.

The first three digits specify the case front, generation and product type. The last digits specify the height, width, lock option and module configuration – beginning at the top of the cabinet and descending to the bottom.

Preconfigured

Preconfigured units are available and are intended to simplify your ordering process. Preconfigured units are the most common configurations that are ordered and include files and cabinets.

Built-to-Spec

Calibre can be specified in thousands of configurations using our “built-to-spec” option to meet any storage need.

We have included a worksheet that is designed to help you build an ordering number and determine the price of your file. You will need this information, and a finish code from the Calibre colors card to place an order.

All units need to be specified from the top down.

Built-to-Spec units that include 3”, 6”, 9” or 15” components or include R,S,T, or U door options are subject to extended lead times.

The Worksheet

Page 63 is a worksheet designed to help you build an ordering number and determine the price of your file. You will need this information, and a finish code to place an order.

Color

All inside and outside case surfaces are painted in the same specified paint color.

Interior components and accessories are painted in black. Mechanical parts are zinc plated or painted in a color integral to manufacturing.

Please refer to the Calibre Colors card for Standard Front and Case finishes, or the Morrison card for front finishes. Color codes are not included in the product order number, and must be specified separately to complete your Calibre order. **In addition to the color card, always evaluate an actual paint sample prior to specification.**

Locks

Most Calibre product may be ordered with or without locks. Product ordered without locks include a black Knoll-logo insert in the same position. Insert may be removed to retrofit a lock later.

Statement of line

Calibre fronts are available on case heights of 27”, 39”, 45”, 51”, 54”, 55.5”, 58.5”, 63” and 64.5” with inset fronts in heights of 1.5”, 3”, 6”, 7.5”, 9”, 10.5”, 12”, 13.5” and 15”.

Series 2 fronts are available on 27”, 39” and 51” cases with 12” overlay fronts.

The Product

The Calibre pedestal is a storage solution that incorporates the award winning softly radiused pull of the Calibre file with the state-of-the-art technology of a seamless wrapper. The Calibre pedestal is at home in any office environment.

The Calibre pedestal consists of a strong single piece shell that houses several different configurations. Suspended, floorstanding and mobile pedestals are available in any of the Calibre finish colors.

Calibre pedestals are not compatible with Morrison desk supports.

The Numbers

The specifying process for the Calibre pedestal is clear and simplified through the number system.

The alphanumeric pattern number is 7 digits long with each digit standing for a product variable.

The first digit stands for pedestal case height:

3 = Standard case height

The second digit stands for the style of pedestal:

A = Suspended
B = Floorstanding
C = Mobile

The third and fourth digits stand for depth:

18 = 18" deep
24 = 24" deep
30 = 30" deep

The fifth digit stands for the lock choice:

C = Knoll lock
E = No lock

The sixth and seventh digits stand for the drawer configuration:

01 = box/file
(6/12)
02 = personal/personal/file
(3/3/12)
03 = box/box/box
(6/6/6)
04 = personal/EDP
(3/15)
05 = box/box/file
(6/6/12)
06 = personal/personal/box/file
(3/3/6/12)
07 = file/file
(12/12)
08 = personal/box/EDP
(3/6/15)
09 = personal/box/file
(3/6/15)

Example: **3B18CO5**

Calibre, floorstanding, 18" deep, Knoll lock, box/box/file (6/6/12).

Locks

Follow KnollKey Lock Program listed on page 188.

Base Fascia

The base fascia should be specified when Calibre Pedestals are used near Calibre Files. See page 107 for more information.

Construction and Shipping Information

Worksurfaces

All Calibre worksurfaces are 1 1/4" thick, three-ply solid construction, and are predrilled at all pedestal, end unit and bracket locations.

Front and rear have a 3/8" double post-formed edge; ends are self-edge. Calibre desk worksurfaces are nominally dimensioned and therefore not compatible with Calibre file sizes. See page 79 for Calibre file worksurfaces tops.

End Units for desk planning

Calibre End Units have a unique "L" design, allowing for interchangeable planning between pedestals and end units. The visitor side of the End Unit is the same width as a pedestal. This design allows for the same width of filler panel to be used with both single and double pedestal desks.

End Units are of steel construction.

End Units are non-handed.

Filler Panels

Filler panels install between end units, pedestals, or both.

When installed, a 3/8" wire management slot is created between the top of filler panel and the bottom of the worksurface. This slot allows for wires to be moved to multiple locations without need for more than one grommet.

Grommets

All 18", 24" & 30" deep worksurfaces specified with grommet feature one center grommet on the back side of the worksurface. Together with the filler panel, plugs can be placed through the grommet, and wires moved to the desired location.

36" deep worksurfaces specified with grommet feature two 3" round grommets, positioned inside of filler panel and pedestal locations.

Locks

KnollKey lock program instructions are listed on 188.

Overdesk Units

Calibre Overdesk Units include two stanchions, and one overhead unit. Tackable privacy screens are ordered separately. Locks are available. Calibre Overdesks attach directly to the top of any worksurface.

Vertical slots allow mounting of Orchestra Load Bars to stanchions. A vertical wire manager for task light cords is integral to the design.

Overdesks are painted steel.

Brackets

All returns and bridge units include necessary brackets to attach to desk or credenza units.

Lighting

Task lights can be mounted to Calibre overdesks equal to or greater than their own width.

Task lights are available in black only and include bulbs.

Shipment

All preconfigured units are shipped in a small number of easily assembled sub-components; worksurfaces, pedestals, end units and filler panels are shipped in individual protective corrugated cartons.

Returns, bridges, and overdesk units require in-field attachment.

Note:

The information in this price list represents the latest available information at the time of publication. Knoll reserves the right to make changes and improvements to Calibre products without notice.

Paint Samples

4" x 6" (CALSAMP) or 8" x 8" (CALSAMPLG) metal samples may be ordered in any core paint finish to aid in color selection. Samples are available as a single plate or as a pack of 10 (same color only).

Pattern #	List
CALSAMP	23.
CALSAMP10	177.
CALSAMPLG	32.

Custom File Colors Policy

Paint

Custom paint colors may be applied to Knoll Filing products on a select basis.

For colors outside the standard core palettes for Calibre as identified on this page, Knoll will custom match to your specification according to the following requirements.

The request for a custom paint color must be accompanied by a purchase order and by a master color-match sample of paint applied to metal, having dimensions of at least 3" x 5".

Knoll will evaluate the sample to determine application feasibility. Upon approval for application, Knoll will forward two factory samples with an assigned Knoll color name and code for customer approval. One of the approved samples must be signed and returned to Knoll before an order may be placed.

Upon receiving customer approval, Knoll will enter the order.

Custom non-metallic paint finishes are supported for Calibre lateral files, hybrids, wardrobes and cabinets with no additional upcharge to the P1 list price. This excludes custom metallic and custom white paints, which will be processed as a P3 list price. All other Calibre product i.e., (pedestals, bookcases, overdesks and deskings) and Series 2 lateral file front cases will incur a P2 list price for non-metallic finishes or a P3 list price for metallic or white finishes.

Extended lead times may apply. Please consult your Customer Service Representative for current lead-time information.

Supporting literature for Calibre colors:

For further assistance with ordering or specifying Calibre products, consult your Knoll sales representative.

Color

All inside and outside pedestal case surfaces are painted in the same specified paint color.

Interior components and accessories are painted in Black. Mechanical parts are zinc plated or painted in a color integral to manufacturing.

Please refer to the Calibre finish card for case and front finishes. Color codes are not included in the product order number and must be specified separately to complete your Calibre pedestal order.

Custom Colors Policy

Paint

Custom paint colors may be applied to Calibre Pedestals on a select basis.

For colors outside the standard palette for Calibre, Knoll will custom match to your specification according to the following requirements.

The request for a custom paint color must be accompanied by a purchase order for the product to be ordered and by a master color-match sample of paint applied to metal, having dimensions of at least 3" x 5".

Knoll will evaluate the sample to determine application feasibility. Upon approval for application, Knoll will forward a two factory samples with an assigned Knoll color name and code for customer approval. One of the approved samples must be signed and returned to Knoll before an order may be placed.

Upon receiving customer approval, Knoll will enter the order.

Calibre pedestals incur a P2 list price for custom non-metallic finishes or a P3 list price for customer metallic or white paint finishes.

Order Code	Specification Information	Application Notes
13.5" Add-on Unit		
Example: C2S1330E-115		
C Calibre	P1= painted finishes	Units may be specified with locks only as a "Built to Spec" option. To add a lock substitute the suffix "E" with a "C" and add \$36 to the list.
2 Generation	P2= painted finishes	Units cannot be stacked in multiples.
S Add-on unit	P3= painted finishes	Units come with double cupboard doors and one shelf for 27" and 30" units. Add-on units are 18" deep.
13 13" High	Customer's own non-metallic paint finishes available at P1 pricing. This excludes metallic paints and white paints. (see color policy page 15).	
30 30" Wide		
E Knoll Lock		
115 Medium Grey (P1 paint pricing)	Add-on module shelves are black. To match shelves to case color, add "P" suffix to the pattern number and \$51 to list price.	Add-on units cannot be used in conjunction with Morrison or Calibre Lateral Files with S2 Fronts.

Actual heights of add-on's, 28³/₈" and 31³/₈".

Order Code	Specification Information	Application Notes
Example: C3B2723NS-118	Bookcase top options:	Units 54" and wider utilize a mid panel that divides the unit into the following non-handed configurations:
C Calibre	N No top	54"= 24"/30"
4 Generation 4	S Steel top	60"= 30"/30"
B Bookcase	L Laminate top	66"= 30"/36"
27 27 1/4 High Case	V Veneer top	72"= 36"/36"
23 23 1/2" Wide Case	P1, P2 and P3 pricing listed is for units with steel tops and steel shelves as applicable. All deducts or up charges for top and shelf options are based on these prices.	78"= 36"/42"
N No top	Steel tops and shelves match the case paint finish.	84"= 42"/42"
118 Bright white paint	Bookcases specified without a top are designed to be used with laminate or veneer tops, and are not compatible with steel tops.	3-, 4-, 5- and 6-high units with steel tops include a top trim panel to provide a smooth appearance to the underside of the top. It is not included with 2-high units.
		Note: 6-high units must be ganged back-to-back with the included hardware or against a wall with user supplied hardware.
		All units are shipped knocked down.
		The base, which also functions as the bottom shelf, is only available in steel.
		Standard shelf openings are 12.6" h with the exception of the topless 2-high unit which accommodates two 11.9" openings and 64" high bookcase with contains (3) 12.6" openings and (1) 18.9" opening.
		Shelves are adjustable on 1.05" increments the entire height of the case and include an approximately 3/4" gap in the back of the shelf for future enhancements. Optional shelf filler strip available on page 61.
		Laminate tops are 1.05" thick with 2mm edge banding on all four edges.

Order Code	Specification Information	Application Notes
Example: C3B2723NS-118	Bookcase top options:	Units 54" and wider utilize a mid panel that divides the unit into the following non-handed configurations:
C Calibre	N No top	54"= 24"/30"
4 Generation 4	S Steel top	60"= 30"/30"
B Bookcase	L Laminate top	66"= 30"/36"
27 27 1/4 High Case	V Veneer top	72"= 36"/36"
23 23 1/2" Wide Case	P1, P2 and P3 pricing listed is for units with steel tops and steel shelves as applicable. All deducts or up charges for top and shelf options are based on these prices.	78"= 36"/42"
N No top	Steel tops and shelves match the case paint finish.	84"= 42"/42"
118 Bright white paint	Bookcases specified without a top are designed to be used with laminate or veneer tops, and are not compatible with steel tops.	3-, 4-, 5- and 6-high units with steel tops include a top trim panel to provide a smooth appearance to the underside of the top. It is not included with 2-high units.
		Note: 6-high units must be ganged back-to-back with the included hardware or against a wall with user supplied hardware.
		All units are shipped knocked down.
		The base, which also functions as the bottom shelf, is only available in steel.
		Standard shelf openings are 12.6" h with the exception of the topless 2-high unit which accommodates two 11.9" openings and 64" high bookcase with contains (3) 12.6" openings and (1) 18.9" opening.
		Shelves are adjustable on 1.05" increments the entire height of the case and include an approximately 3/4" gap in the back of the shelf for future enhancements. Optional shelf filler strip available on page 61.
		Laminate tops are 1.05" thick with 2mm edge banding on all four edges.

Glide Adjustment Wrench			C4BWRENCH						10.	

Order Code	Specification Information	Application Notes
Example: C3BSH42S5-118	Package of 5 shelves must be ordered in a single color per package.	Units 54" and wider utilize a mid panel that divides the unit into the following non-handed configurations:
C Calibre	Bookcase shelves are only available in steel.	54"= 24"/30"
4 Generation 4		60"= 30"/30"
B Bookcase	Bookcase top options:	66"= 30"/36"
SH Shelf		72"= 36"/36"
42 42" wide	L Laminate top V Veneer top	78"= 36"/42"
S Steel		84"= 42"/42"
5 Package of 5		<i>Glide Adjustment Wrench</i> This tool is a long, thin wrench designed to aid in the adjustment of the rear glides when they are not easily accessible.
118 Bright white paint		<i>30"d Bookcase Top</i> These laminate or veneer tops may be utilized with bookcases ordered with the "no top" option. NOTE: These tops will only work with either a "no top" bookcase or those originally ordered with a laminate or veneer top of the same size. Tops are for single bookcases only and are not sized to fit on two bookcases pushed together side by side (ex. 60"w top will not cover two 30"w cases). <i>Ganging Kit</i> Provides necessary attachment bolts/brackets to attach two units together (side to side or back to back) as well as attach a single unit back against a wall. Shelves are adjustable on 1.05" increments the entire height of the case. Laminate tops are 1.05" thick with 2mm edge banding on all four edges.

Built-to-Spec Worksheet

Planning Built-to-Spec Files

Calibre built-to-spec files allow thousands of drawer, shelf and door configurations using a variety of 1.5", 3", 6", 7.5", 10.5", 12", 13.5" and 15" high components.

When compiling a product number for built-to-spec files, specify individual components from the top of the case to the bottom. A letter designation has been assigned to each component.

The total height of components must equal the interior height of the file case, which is 3" less than the total case height provided. Example: A 51" high case must contain components that equal 48" exactly.

Please note the following planning considerations when designing a "Built-to-Spec" configuration:

1. Posting shelves and tie-bars are not permitted directly below cupboard doors.
2. Tie-bars and posting shelves are not permitted within the top location or the bottom location of a lateral file.
3. Calibre files are painted with a monochromatic color scheme. If case and drawer fronts are required to be a different color on the same case, this is considered a special and requires a custom product request form from Custom Product Development.
4. Receding doors with fixed and pullout shelves are not permitted directly below posting shelves or on any lateral file with hybrid unit doors.
5. Cases are limited to either one tie-bar or one posting shelf per case.
6. Individual locking drawers are not available as a "Built-to-Spec" option.
7. Only 63" and 64.5" "Built-to-Spec" Hybrids are permitted.
8. S2 front Calibre lateral files are not available as a "Built-to-Spec".
9. No more than four 6" or 3" drawers may be placed within a case as standard product. More than four 6" or 3" drawers may be specified only as special product. Pricing for these special files may be more than a "built-to-spec" standard file with the same configuration.

To specify Calibre built-to-spec files complete these easy steps:

Step 1 Determine case height, width, base height and lock style

Lock/no Lock
39" High Case
Standard Base Height
36"W
C2F3936C

Step 2 Assign appropriate Pattern No.

Step 3 Determine interior case components from the top down

12" Drawer Pattern No. C
Two 6" Drawers Pattern No. H
12" Drawer Pattern No. C

Step 4 Add interior component pattern numbers to case pattern number (from top component down) C2F3936C **CHHC**

Step 5 Determine finish code and paint grade 115 PI

Step 6 Assign prices to the case and interior components

C2F3936C	425.
C	158.
H	168.
H	168.
C	158.

Step 7 Add together to determine price Total 1077.

Step 8 Complete Pattern Number with Finish Code C2F3936CCHHC-115

1. For ease of use, make a photocopy of this worksheet.
2. Make a small sketch of the file product you have in mind in the sketch area provided.
3. Find the appropriate case description from the following pages. (Your selection will be based on height, width, base, and lock option.)
On your worksheet, record the case description, the four-digit code number, and the price.
4. Next, write in the components you'll use to fill your case. The component listing follows the case listing. Start at the top of your case and list each component, its code number, and price. (Be sure your total component height does not exceed the height of the file.)
5. Now transfer and total your figures to fill in the bottom row.
 - Build your pattern number from the column of code numbers, keeping code numbers in consecutive order.
 - Add the prices of the case and components for your total price.
 - To help in your planning and ordering, enter the finish code (from the Calibre Finish card) and the total number of units you'll need.
6. Follow steps 3-6 for each custom file you wish to order.

Special Planning Notes for "Built to Spec" Files

1). Posting shelves and tie-bars are not permitted directly below cupboard doors.2). Tie-bars and posting shelves are not permitted within the upmost top location or the bottom location of a lateral file case.3). Calibre files are painted with a monochromatic color scheme. If seeking case and drawer fronts to be a different color on the same case, this is considered a special.4). Receding doors with fixed and pullout shelves are not permitted directly below posting shelves or on any lateral file with hybrid unit doors.5). Cases are limited to either one tie-bar or one posting shelf per case.6). Individual locking drawers are not available as a "Built to Spec" option.7). Only 63" and 64.5" "Built to Spec" Hybrids are permitted.
8). S2 front Calibre lateral files are not available as a "Built-to-Spec".
9). No more than four 6" or 3" drawers may be placed within a case as standard product. More than four 6" or 3" drawers may be specified only as special product. Pricing for these special files may be more than a "built-to-spec" standard file with the same configurations.

Specification Information

P1= painted finishes
P2= painted finishes
P3= painted finishes
Custom non-metallic paint finishes available at P1 pricing. This excludes metallic paints and white paints. (see color policy page 15).

Application Notes

All 10.5", 12", 13.5" and 15" drawers accommodate side-to-side filing and front-to-back filing.
File bars can be used in 10.5", 12", 13.5" and 15" drawers having side-to-side rails.
No more than four 3" or 6" drawers can be specified in any one-file case as standard product.
Posting shelves are most effective when positioned from desk-to-counter height or 27" to 39" from the floor.
Posting shelves and tie bars cannot be placed within the top 1.5" of a file. Tie bars cannot be placed directly below a posting shelf.
Interior modules must equal the overall case height less 3".

Posting shelves are not available below desk height.
Largest drawers are best positioned near the base of the file.
Dividers and other accessories must be ordered separately unless noted in description.
Label holders are not included with files. Please see Accessories page 79.

Application Notes

Label Holders

Label holders are designed for standard Calibre fronts, and are not compatible with Morrison fronts. Paper labels are included.

Hanging Rails

Hanging rails for front-to-back and side-to-side filing are provided standard. Order two hanging rails and front-to-back hanging rails as needed to convert a component.

Note: Fixed shelves include an attachment back and three shelf dividers.

Ganging Hardware Kit

Multiple freestanding files or cabinets should be ganged for security. Hardware and instructions are supplied with each file or cabinet.

Media Bar (T-Bar)

Will accommodate most retail brand tape reels and/or Wrightline™ type EDP printout hanging devices. For use only in 15" fixed shelf components. Media Bars are painted in Black.

Counterweight Kit

Single freestanding files (two and three-high) should be weighted with a counterweight. Specify according to case width.

Lateral file top intended for use with Calibre front files only.

Adjustable Dividers

Adjustable dividers are sized for use in 10.5", 12", 13.5" and 15" components and cannot be used in 3", 6", 7.5" or 9" components.

Drawer Dividers

Drawer dividers are sized for use in any drawer 6" or greater.

Order dividers with attachment back when converting a component. Divider assemblies are painted in Black. Hanging rails are painted in Black.

Adjustable Shelves

Adjustable shelves are painted in Black standard. If Calibre standard P1, P2 or P3 paints are required add a "P" suffix to the pattern number and select the appropriate paint grade. Example 5ZAC2ASP

description	h	d	w	pattern no.	list price	P1	P2	P3

Order Code

Example:	3DW4CC-613
3	Standard height
DW	Double-wide
4	30" wide
C	Calibre front
C	Knoll lock
613	Silver paint finish

Specification Information

To order, specify:

1. Pattern number
2. Paint finish

See page 17 for paint finishes.

Add a "Y" to the end of a pattern number to specify a front color that is different from the case color. P3 pricing automatically applies for all colors when utilizing this option.

Application Notes

The double-wide pedestal incorporates two 12" drawers in a 30" or 36" width and is intended for below workstation applications only.

The double-wide pedestal cannot be used as a freestanding standalone item. It is designed to attach to a systems worksurface and therefore does not have a finished top or interlock mechanism to prevent both drawers from being opened simultaneously.

Includes hanging file bars for letter, legal, front-to-back and side-to-side filing.

Double-wide pedestal is nominally 19"D and will not fit under 18"D worksurfaces.

The actual depth of doublewide pedestals is 18³/₄"

See page 5 for 30"w and 36"w filing capacities.

Specification Information

To order specify:

1. Pattern number
2. Pedestal lock options
3. Pedestal configurations
4. Paint finish options

Pedestal lock options:
C Knoll lock

Pedestal configuration options:
01 = 6/12
05 = 6/6/12
06 = 3/3/6/12
07 = 12/12
08 = 3/6/15
09 = 3/6/12

See page 17 for paint finishes.

Add a "Y" to the end of a pattern number to specify a front color that is different from the case color. P3 pricing automatically applies for all colors when utilizing this option.

Add an "F" to the end of the pattern number to receive full extension slides on all box drawers. Upcharge is \$25 list per pedestal.

Application Notes

Mobile pedestals to be used beneath 24", 30" or 36" deep worksurfaces, credenzas, and return tops.

Mobile pedestals include locking casters.

26³/₈" Mobile pedestals will not fit under machine height worksurfaces.

File drawers include file hanging bars.

Additional pedestal accessories must be ordered separately.

Pedestals are available in painted steel and are offered with standard Calibre fronts only.

Actual dimensions are:
14⁷/₈" W x 22³/₄" D

Options:
Pedestal accessories, see page 107.

24"d pedestal file drawer provides 21.25" of letter filing or 12.5" of legal filing.

Calibre Front Pedestals with Individual Locking Drawers

Order Code

Example: 3C24W05-613
3 Standard height
C Mobile pedestal
24 23 1/2" deep
W Individual locks
05 Box/box/file
613 Silver paint finish

Specification Information

To order, specify:

1. Pattern number
2. Pedestal configurations
3. Paint finish options

P pedestal configuration options:

01 =6/12
 05 =6/6/12
 07 =12/12

See page 17 for paint finishes.

All locks on individually locking components must be specified as key-alike using KnollKey lock program as listed on page 188.

Add an "F" to the end of the pattern number to receive full extension slides on all box drawers. Upcharge is \$25 list per pedestal.

Application Notes

Mobile pedestals to be used beneath 24", 30", and 36" deep worksurfaces, credenzas, and return tops.

Actual dimensions are: 14⁷/₈"W x 29¹/₄"D(±1/16")

Mobile pedestals include locking casters.

26⁵/₈" mobile pedestals will not fit under machine height worksurfaces.

File drawers include file hanging bars.

Additional pedestal accessories must be ordered separately.

Pedestals are available in painted steel and are offered with standard Calibre fronts only.

All towers are standard with (1) full depth adjustable shelf, except the 64" h side access display and bookcase towers which have (2) full depth adjustable shelves.

Specification Information

For non-locking towers, deduct as follows from the list price for each unit: Deduct \$30 for (1) lock unit, \$60 for a (2) lock unit, and \$75 for a (3) lock unit. Substitute the "L" suffix with an "N" within the pattern number to designate a non-locking unit, example (CT3SLH6424BBFN)

"M" drawer consisting of a box drawer body with a file drawer head are available by substituting any two "B" or any one "F" character within the pattern number, example (CT3SLH6424MBFN). Multiple "M" drawers may be specified providing they equal the total modules available.

A 6" drawer, behind a cupboard door is available by adding the numeral 1 to the end of the pattern number, example (CT3SLH6424BBFFL1). **Note:** 6" drawers behind doors are not available within the wardrobe portion of towers. Drawers behind doors have painted black fronts.

Application Notes

Hanging rails and other accessories are not included and must be ordered separately. Hanging rails are included with 24" and 30" wide lateral drawers only. (See *Tower Accessories for pricing and order entry information*)

Half depth adjustable shelves and coat hooks may be ordered separately allowing the cupboard area of 15", 24" and 30" wide towers to support binders as well as shorter coats. (See *Tower Accessories for pricing and order entry information*)

15" w Side Access and Display towers include (1) lock.

Single door towers, double door towers, 24" w and 30" w Side Access and Display towers include (2) locks. (Except full-height doors which include (1) lock)

Front Access (only) towers with wardrobe include (3) locks. (Except full-height doors with wardrobe which include (2) locks)

Full height door towers are designed to compliment the aesthetic of Dividends Horizon storage components.

Full height door towers (50" h and 57" h) include one fixed shelf and one adjustable shelf. 64" h full height door tower includes one fixed shelf and two adjustable shelves.

Critical Dimensions

Dimensions under **w**, **d** and **h** are actual to the nearest 1/16"

24" Wide 50", 57" and 64" Tower Internal Dimensions

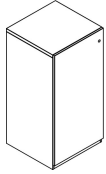

- Box and M drawer height: 4 5/16"
- Box and M drawer width: 12 1/16"
- Box and M drawer depth: 18 3/8"
- File drawer height: 9 1/4"
- File drawer width: 12 1/16"
- File drawer depth: 18 3/8"
- Wide drawer height: 9 3/16"
- Wide drawer width: 20 3/4"
- Wide drawer depth: 22 7/8"

Note: All towers are configured from the top down with standard combinations of box and file drawers.

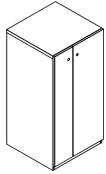

Note: Drawer behind door list pricing is as follows: 1=\$255

Add a "Y" to the end of a pattern number to specify a front color that is different from the case color. P3 pricing automatically applies for all colors when utilizing this option.

Pedestal Drawer Divider Kit (For use in Calibre tower or Calibre pedestal box and file drawers as well as Calibre lateral file drawers 6" or larger. Not intended for 3" drawers.)

DT3PDD \$416.

File Drawer Divider Kit (For use with all Calibre/S2/Morrison front lateral file drawers with the exception of 3" high drawers)

DT3FDD 518.

Specification Information

DT3PDD Pedestal Drawer Dividers and **DT3RT** Pedestal Drawer Reference Tablets are supported with a black painted finish standard.

Application Notes

The DT3PDD Pedestal Drawer Divider Kit is comprised of a series of magnetic fences that attach to the bottom of steel pedestal (Calibre and S2) pedestal drawer bodies to support space division. May also be used within S2 and Calibre Tower File and Box drawers. Each kit contains (4) 3" wide, (3) 6" wide, (2) 9" wide and (2) 12" wide dividers. Dividers are constructed from steel. DT3PDD dividers are not designed to work with 3" high lateral file or pedestal drawers.

The DT3FDD File Drawer Divider Kit is comprised of a series of magnetic fences that attach to the bottom of (Calibre/S2/Morrison Font) lateral file drawer bodies to support space division. Each kit contains (4) 3" wide, (3) 6" wide, (2) 9" wide, (2) 12" and (2) 15" dividers. Dividers are constructed from steel. DT3FDD dividers are not designed to work with 3" high lateral file or pedestal drawers.

The DT3SDD File Drawer Divider Kit is comprised of a series of magnetic fences that attach to the bottom of (Calibre/S2/Morrison Font) lateral file drawer bodies to support space division. Each kit contains (4) 3" wide, (3) 6" wide, (2) 9" wide, (2) 12" and (2) 15" dividers. Dividers are constructed from steel. DT3SDD dividers are designed to work with 3" high lateral file or pedestal drawers.

Note: Worksurface Splice Plate Kits are intended for use with Side Access Bookcase and Display Towers only.

Note: 15" wide half depth shelves are suitable for use with 15" wide single door towers or within the wardrobe portion of a 30" wide wardrobe tower.

Note: 24" wide half depth shelves are suitable for use with 24" wide single door towers or 24" wide double door towers. 30" wide half depth shelves are suitable for use in with 30" wide double door towers only.

Dividers are constructed from steel. **DT3PDD** dividers are not designed to work with 3" high lateral file or pedestal drawers.

The **DT3FDD** File Drawer Divider Kit is comprised of a series of magnetic fences that attach to the bottom of (Calibre/S2/Morrison Font) lateral file drawer bodies to support space division. Each kit contains (4) 3" wide, (3) 6" wide, (2) 9" wide, (2) 12" and (2) 15" dividers. Dividers are constructed from steel. **DT3FDD** dividers are not designed to work with 3" high lateral file or pedestal drawers.

The **DT3SDD** File Drawer Divider Kit is comprised of a series of magnetic fences that attach to the bottom of (Calibre/S2/Morrison Font) lateral file drawer bodies to support space division. Each kit contains (4) 3" wide, (3) 6" wide, (2) 9" wide, (2) 12" and (2) 15" dividers. Dividers are constructed from steel. **DT3SDD** dividers are designed to work with 3" high lateral file or pedestal drawers.

Note: Worksurface Splice Plate Kits are intended for use with Side Access Bookcase and Display Towers only.

Note: 15" wide half depth shelves are suitable for use with 15" wide single door towers or within the wardrobe portion of a 30" wide wardrobe tower.

Note: 24" wide half depth shelves are suitable for use with 24" wide single door towers or 24" wide double door towers. 30" wide half depth shelves are suitable for use in with 30" wide double door towers only.

description	type	w	d	h	pattern no.	list	P1	P2	P3
Floor Cover for 15" Wide Wardrobe					DT3FM15	\$78.			

Specification Information

DT3PDD Pedestal Drawer Dividers and **DT3RT** Pedestal Drawer Reference Tablets are supported with a black painted finish standard.

Application Notes

The **DT3PDD** Pedestal Drawer Divider Kit is comprised of a series of magnetic fences that attach to the bottom of steel pedestal (Calibre and S2) pedestal drawer bodies to support space division. May also be used within S2 and Calibre Tower File and Box drawers. Each kit contains (4) 3" wide, (3) 6" wide, (2) 9" wide and (2) 12" wide dividers. Dividers are constructed from steel. **DT3PDD** dividers are not designed to work with 3" high lateral file or pedestal drawers.

The **DT3FDD** File Drawer Divider Kit is comprised of a series of magnetic fences that attach to the bottom of (Calibre/S2/Morrison Font) lateral file drawer bodies to support space division. Each kit contains (4) 3" wide, (3) 6" wide, (2) 9" wide, (2) 12" and (2) 15" dividers. Dividers are constructed from steel. **DT3FDD** dividers are not designed to work with 3" high lateral file or pedestal drawers.

The **DT3SDD** File Drawer Divider Kit is comprised of a series of magnetic fences that attach to the bottom of (Calibre/S2/Morrison Font) lateral file drawer bodies to support space division. Each kit contains (4) 3" wide, (3) 6" wide, (2) 9" wide, (2) 12" and (2) 15" dividers. Dividers are constructed from steel. **DT3SDD** dividers are designed to work with 3" high lateral file or pedestal drawers.

Note: Worksurface Splice Plate Kits are intended for use with Side Access Bookcase and Display Towers only.

Note: 15" wide half depth shelves are suitable for use with 15" wide single door towers or within the wardrobe portion of a 30" wide wardrobe tower.

Note: 24" wide half depth shelves are suitable for use with 24" wide single door towers or 24" wide double door towers. 30" wide half depth shelves are suitable for use in with 30" wide double door towers only.

Example:	CS1-6624(5)L-111 F
C	Calibre
S1	Single pedestal desk
66	66" wide
24	24" deep
5	Box/box/file
L	Lock
111	Paint - black
F	Laminate - pumice

Specification Information

To order, specify:

1. Pattern number
2. Pedestal options
3. Lock option
4. Paint finish
5. Laminate finish

The standard pedestal configuration for single pedestal desks is "5" box/box/file pedestal. For other configurations, substitute the appropriate pedestal codes and upcharges where necessary.

Pedestal upcharges:

Order Code	Config.	Upcharge
6	3/3/6/12	\$44.
7	12/12	-\$21.
8	3/6/15	\$44.

See page 19 for Calibre desk finishes.

Application Notes

Single pedestal desks are standard with one box/box/file pedestal matching the worksurface depth. For other drawer combinations, see Specification Information.

File drawers include hanging bars for side to side filing.

Desks will support Overdesk Units. See page 169.

See KnollKey lock program on page 188 for keying information.

Grommet:

Center rear grommet is standard on all preconfigured units. Finish is black, and includes cover.

Construction:

Worksurfaces are 1/4" thick, 3-ply solid construction and are predrilled at all pedestal, end unit, and bracket locations.

Pedestals, end units, and filler panels are painted steel.

3. Laminate finish

See page 19 for Calibre desk finishes.

Application Notes

Bridge units include flat brackets for attachment to desks or corner units.

Grommet:
 Center rear grommet is standard on all preconfigured units. Finish is black, and includes cover.

Construction:
 Worksurfaces are 1¼" thick, 3-ply solid construction and are predrilled at all pedestal, end unit, and bracket locations.

Filler panels are painted steel.

Order Code

Example:	CV1-3624-117 F
C	Calibre
V1	VDT corner unit
36	36" width
24	24" depth
117	Soft grey paint
F	Pumice laminate

Specification Information

VDT corner unit:
To order, specify:

1. Pattern number
2. Paint finish
3. Laminate finish

Rounded end workspace:
To order, specify:

1. Pattern number
2. Laminate finish

T-shaped end unit and desk integration bracket:
To order, specify:

1. Pattern number
2. Paint color

See page 19 for Calibre desk finishes.

Application Notes

VDT corner units:
 Freestanding VDT corner units must have returns attached to both sides.

Rounded end worksurfaces:
 Calibre rounded end worksurfaces can be supported by a support column and T-shape end units or made into a desk with Calibre pedestals, end units and filler panels. Specify support components separately.

Rounded end tops with woodgrain laminate have a black 10mm T-mold edge.

Support column:
 Used to support end of rounded end workspace. Available in black only.

Desk integration bracket:
 Can be used in place of a Calibre end unit when end of desk is modular with Morrison panel. Maintains filler panel modularity while supporting desk end and allowing access to duplex receptacles in panel raceway.

Calibre Desk overdesk unit with pass through

Order Code

Example:	CSC3-A30
CSC3	Calibre screen
30	30" wide
T302	Smoke

Specification Information

To order privacy screens, specify:

1. Pattern number
2. Fabric selection

Fabric finish options for screen:
See fabric selection on page 19.

See page 19 for Calibre desk finishes.

Application Notes

Privacy Screens:
Privacy screens can be used with overdesk units only.

Order screen width to match overall width of desk, or combination of worksurfaces.

Screens are tackable on both sides, and include a black PVC trim at the top to prevent fabric wear and soiling.

Screens include an integral wire manager that conceals cables wrapping around the rear of worksurfaces.

Order Code

Example:	CDE1-30 613
C	Calibre
DE1	End unit
30	30" deep
613	Silver paint finish

Specification Information

To order, specify:

1. Pattern number
2. Lock options
3. Paint finish

See page 19 for Calibre desk finishes.

Application Notes

End units are available in 18", 24" and 30" depths. For maximum planning flexibility, end units have an "L" design, allowing for interchangeable planning with Calibre pedestals. While only 1.5" thick at the user side, the rear of end units have the same 15" nominal dimension of pedestals.

Construction:
End units are painted steel.

Intermediate end unit:
Allows free knee access when used in end-to-end worksurface spans. Replaces two standard end units and is modular with desk filler panels.

Calibre Desk filler panels

Order Code

Example:	CF1-R42-612
C	Calibre
F1	Filler panel
R	Return
42	42" wide
612	Medium metallic grey

Specification Information

To order, specify:

1. Pattern number
2. Paint finish

See page 19 for Calibre desk finishes.

Application Notes

There are four versions of filler panels: desks, returns, bridges and U-credenzas. Calibre's design allows a single size of filler panel to be used for single pedestal, double pedestal, and double end panel desks of a given width.

When assembled, filler panels create a 1/2" slot below the worksurface for wire management. Together with the central worksurface grommet, this allows for easy wire management without dedicating worksurfaces with right, left or center grommets.

T5 Standard Task Light Example: CL3T5E19S CL3 Task Light T5 T5 lamp E Electronic ballast 19 Width S Standard LED Task Light Example: CL3L193M CL3 Task Light L LED 19 Width 3 # of LED's M Metal Overhead Attachment	T5 Task Lights: 120v and includes T5 cool white (4100K) fluorescent lamp, electronic ballast, 9' grounded cordset, prismatic lens, rocker switch, one cord exit management clip and mounting hardware. Housings are black. LED Task Lights: Includes LED's, power supply with 12' cord and mounting hardware. Housings are clear anodized aluminum with grey color end-caps.	T5 Task Lights: Specify suffix -CH and add \$46 list for City of Chicago installations. Example: DL3T5E25S-CH Cordset is center exit. On smaller units cord exit is off-center, but still not handed. T5 advanced task lights are fitted with ballasts and lamps compliant with LEED requirements, meeting the LEED EB standard for mercury content. LED Task Lights: Power cord is able to attach to either end of fixture. Notes: All task lights mount into the recess in the underside of overhead cabinets and shelves at least 6" wider than task light width. All task lights are TCLP compliant and meet requirements of California Title 20 and Title 24.

Wall Mounting Suggestions

The following information is provided only as a guide, and represents minimum recommendations only. Knoll does not accept responsibility for the attachment of any Knoll product to a Customer's site wall. Wall specification/construction is the responsibility of the Customer and its structural engineer/architect. Failure to properly attach Knoll products to adequate wall structures can lead to property damage and/or personal injury.

You should consult your own structural engineers and/or architects and must not rely on the information provided herein.

It is the responsibility of the Customer and its structural engineers/architects to verify that the permanent structural walls (studs, blocks, solid masonry, etc.) on which the Knoll products are intended to be mounted are designed appropriately to support the product weight, PLUS 3 lbs. per linear inch for each useable shelf length

NOTE: A cabinet's top is considered a "useable shelf" and MUST be included in the calculation of the total load for an overhead cabinet.

It is the responsibility of the Customer and its structural engineer/architects to specify the fasteners and method for attaching the Knoll supplied wall mounting cleat, bracket, frame, etc. to the supporting wall and to confirm that the installers have adhered to these specifications. For all local building standards and codes, and additional requirements (including, but not limited to, seismic conditions) the Customer should always consult local code agencies.

	EXISTING CONSTRUCTION					
	NEW CONSTRUCTION	Cinder Block or Poured Concrete Masonry Wall	Wood Stud Wall, the studs being FULL HEIGHT to the roof/floor above	Wood Stud Wall, the studs being only Ceiling Height	Steel Stud Wall, the studs being FULL HEIGHT to the roof/floor above	Steel Stud Wall, the studs being only Ceiling Height
Stud Specification	Wood studs, grade #2 or better, 3 1/2" minimum width, OR Metal studs, minimum 25 gage thickness, 3 5/8" minimum width	The wall must be a minimum of 6" thick, and must be full height to the roof/ floor structure above	Wood studs must be Grade #2, or better, 3 1/2" minimum width	Wood studs must be Grade #2, or better, 3 1/2" minimum width	Metal studs must be minimum 25 gage thickness, 3 5/8" minimum width	Metal studs must be minimum 25 gage thickness, 3 5/8" minimum width

Selling Policy

	<p>This Selling Policy supercedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.</p>
Terms & Conditions of Sales	<p>Sales by Knoll, Inc. or Knoll North America Corp. ("Seller") of Knoll Product Lines (hereinafter "Products") within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser's assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supercede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.</p>
Ordering Information	<p>All orders must be in writing. The product pattern number(s) contained on Seller's order acknowledgement shall be the final expression of the order.</p>
Order Confirmation	<p>A purchase order is not binding on Seller until Purchaser has received Seller's order confirmation or acknowledgment.</p>
Pricing Policies	<p>List prices are subject to change without notice.</p> <p>List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller's list prices.</p>
Taxes	<p>All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.</p>
Terms of Payment	<p>Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than \$100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.</p> <p>KnollStudio orders less than \$2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than \$2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment.</p> <p>If, in the judgment of Seller, Purchaser's financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance.</p> <p>Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney's fees and costs.</p>
Changes and Cancellation	<p>Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including "COM" (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.</p>
Freight Prepaid	<p>Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.</p>
Delivery/Freight Charges	<p>Shipments outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin.</p> <p>For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination.</p> <p>Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.</p> <p>Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser's request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reassignment and redelivery.</p> <p>Partial shipments may be made and invoiced by Seller.</p>
Claims	<p>All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for any other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability to Purchaser for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.</p>
Seller's Security Interest	<p>Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.</p>
Returns	<p>The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.</p>
Held Orders/Storage	<p>If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.</p>

Selling Policy

Customer's Own Material	<p>A Purchaser who requests a fabric or other surface material not standard to Seller's line of Products ("COM") must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.</p>

KnollStudio, outdoor product finishes, k. lounge upholstery and k. lounge fabric.</i></p> <p>This warranty does not apply to:</p> <ul style="list-style-type: none">• Damage caused by a carrier other than the Seller.• Normal wear and tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).• COM or other third party materials applied to Products.• Products not installed by or under the auspices of a Knoll Dealer.• Dramatic temperature variations or exposure to unusual conditions.• Changes in surface finishes, including colorfastness due to aging or exposure to light.• Clear paint finish applied to Antenna Workspaces steel or aluminum part.• Except as specifically noted above, textiles and upholstery supplied by <i>KnollTextiles</i> (consult current <i>KnollTextiles</i> price list for applicable warranty). <p>Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces. THE EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.</p> <p>The remedies provided above are the Purchaser's sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.</p>
Delay/Force Majeure	<p>Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.</p>
Compliance with Law	<p>PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.</p>
Patents	<p>Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.</p> <p>The foregoing indemnity does not apply to the following:</p> <ul style="list-style-type: none">• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.• Any settlements of a suit or proceeding made without Seller's written consent.
Limitations of Liability	<p>SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.</p> <p>Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.</p>

KnollKey Lock Program

KnollKey Lock Program General Information

Following is the KnollKey lock policy, applicable to all products.

Knoll furniture can be ordered keyed-alike or random keyed. Key-alike and random keying instructions cannot be mixed on any single order. Only one of the two instructions can be used on an individual order. When an order is submitted with mixed (key-alike and random) instructions, Knoll will release the order as key-alike only and lock cores will have to be specified separately.

Key-alike

For the convenience of the user, furniture may be keyed alike at no charge. Write "Key-alike" in the description of your purchase order for any pedestal, overhead, file or other item you wish to have keyed alike.

Using the key-alike instructions, order cores and keys as line items on your purchase order. Do NOT submit a key-alike form. The Knoll East Greenville Lock Center will select key numbers from the standard range of K 001 - K 250. Key numbers will not be repeated unless over 250 sets are ordered. Lock cores keyed-alike will ship separately from the product, ready for field installation.

There is no charge for key-alike orders if placed with the furniture order.

IF THE KEY-ALIKE ORDER IS NOT PLACED AT LEAST TWO WEEKS PRIOR TO THE FURNITURE SHIP DATE, A \$50 HANDLING CHARGE AND AIR FREIGHT CHARGES WILL APPLY.

If product is ordered and shipped random-keyed, additional lock cores for key-alike are billable.

Random-Keying

To specify product keyed-random, write "key-random" in the product description. Random-keyed product is shipped with the lock core factory installed. A shrouded key is included. Random means no effort has been made to match key numbers, or to make them different.

Keys

A Knoll shrouded key is shipped with every lock core. 250 Key numbers are available. For numbers above 250, contact Custom Product Development. Additional keys and key blanks are available. See service parts for more information.

Master Keying

Knoll locks can be controlled by means of a master key. There is no additional per-lock charge for master keying. A letter of approval from the client must accompany orders for master keys.

Installing Lock Cores

Lock cores can be installed or removed in the field by using a change key. Cores must be in the unlocked position to be removed. See service parts for change key pattern number and pricing.

Lock Distribution

All orders for key-alike lock cores/keys are packaged and shipped from the East Greenville Lock Center, regardless of where the pedestals, overhead, or other units are produced. Random keyed product will have cores factory-installed.

How to Specify Key-Alike

Following is an example of how to specify key-alike for a cluster of 10 workstations.

Step 1 - Using the project floorplan, count the number of locks in each workstation.

Step 2 - Count the number of workstations with the same quantity of locks. Group together the workstations with a like number of locks.

5 workstations with 2 locks per station
3 workstations with 4 locks per station
2 workstations with 5 locks per station

Step 3 - For the first group (5 sets of 2 locks), enter the number of workstations in the quantity column.

Qty	Pattern #	Description	Unit List	Ext. List
5				

Step 4 - Then enter the pattern number "KSPEC_ _" and add a suffix for the number of locks for that group (i.e., for 2 locks per station, add the suffix "2"). Up to 30 lock cores are available in a set (i.e., KSPEC 30).

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C

Step 5 - Repeat for other groups.

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C
3	KSPEC 4	Set of 4 cores/keys	N / C	N / C
2	KSPEC 5	Set of 5 cores/keys	N / C	N / C

Your Key instructions are complete.

Knoll will select key numbers for each set from 250 available numbers. Additional key numbers are available through Custom Product Development. **For additions to existing installations, specify desired key numbers in the description.**

Service Parts

Pattern #	Description	List Price
KKEY_ _ _	Shrouded Key Specify key number desired	\$10
KBLANK	Shrouded Key Blank	\$10
KSPECB_ _ _	Retrofit Universal Core/Key Specify key number desired	\$22
KCHANGE	Change Key	\$10
HLKRKMASTER*	Master Key	\$10

*Note: A letter of approval on company letterhead from the client must accompany all orders for master keys.

General Ordering Information

The Products

This guide encompasses all standard products for this product group.

Sizes

Dimensions listed in this guide are indicated as:

H = height

W = width

D = depth

Dia. = diameter

Rad. = radius

Pricing

All prices shown are list.

How to Order

Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item's "designated area" can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:

Knoll, Inc.

1235 Water Street

P.O. Box 157

East Greenville, PA 18041

Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll's environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such "green" initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on "About Knoll" and then "Environmental Focus."
